The petition is now in the hands of the city clerk and awaits the arrival of the mayor, who has been out of the city. His worship will decide whether a special meeting of the city council is to be called to consider the request of the Barrie street residents, who claim that the council should not have decided to construct the road without consulting them. They further point out that the Barrie street roadway is one of the best in the city and does not require such expensive treatment. The residents are waiting to see if Mayor Hoag will order the work stopped until the council meets again.

**PREPARED TO PAY FINE**

Rather Than to be Escorted to Train by Police.

Rather than have the disgrace of being put on a railway train by a police constable, a stranger in the city, who fell by the wayside, yesterday, and was gathered in for drunkenness, preferred to face the magistrate, and take the consequences, which amounted to a fine of \$1 and costs. He was arrested early in the afternoon, and when he sobered up he was given the opportunity of leaving the city, with the understanding that a constable would see him off at the station. However, he did not like the idea of the constable going with him, and decided to stay and "face the music." And he did.

Another drunk, who was in the line up, was also fined \$1 and costs. He has only been in the city a few weeks, but has work here.

**HAD WHISKY GALORE.**

Drunk Was Well Supplied When Found by the Police.

The police had a call shortly before ten o'clock on Thursday morning, to a man who was in a helpless state, near the corner of King and William streets. Police Constable Downey responded to the call and he found the unfortunate so much under the influence that it was almost impossible for him to give his name. He had two bottles of whiskey in his pockets and on the ground near him was a bottle, and about half of the contents had been consumed. He was unable to appear before the magistrate to-day and was remanded to the cells until to-morrow.

**Event at Pine Hill.**

The big picnic held under the auspices of the Anglican church, at Pine Hill, on Wednesday, was a great success. Ideal weather prevailed, and there was a very large attendance. In the evening, Crosby and O'Connor's orchestra, of Kingston, provided a choice programme of music on the grounds.

**BOYS FOUND GUILTY**

**OF CRUELTY TO ONTARIO PARK DONKEYS.**

Eight Lads Before Magistrate G. H. Hunter—They Were Bound Over to Keep the Peace.

On Thursday, a clique of the male portion of the rising generation at Portsmouth appeared before Justice of the Peace George Hunter, and they and their parents were bound over to keep the peace for some time, for their "antics" performed in Lake Ontario Park last Sunday afternoon.

Eight lads, from the Bay, filed into the court room, some appearing brave, while one was weeping. John Halliday, George Woods, and William Watts, all about fifteen or sixteen years of age, were charged, by the Kingston, Portsmouth and Cataract Electric Railway company, with shamefully abusing animals. McMillan, who is associated with W. F. Nickle, K.C., conducted the prosecution, while D. A. Givens appeared for the boys. H. C. Bisset and William Montroy, of the Field Detective Agency, of Montreal, who gave evidence, "wove the web" which brought the clique before the court. When the charge was read, all three pleaded "not guilty."

George Woods was the first tried, and his and the evidence of John Halliday and William Watts, who, with him, on Sunday, was taken, the same evidence being read in turn, for all three. They told Mr. McMillan and, when cross-examined, Mr. Givens, of their treatment of the donkeys in the park last Sunday, and of meeting the two detectives there. They testified to riding the donkey, tied to a rope, with the exception of William Watts; all urging it on with switches. The detectives, Messrs Bisset and Montroy, swore that the boys used large branches, and punched the donkey, making it "back." They said that the boys, as well, used the animal disgracefully with a board.

Lorry McGeein, John McGeein, and three others, for their chums, appeared on the charge of damaging property at the park. It was proved that Lorry McGeein had cut his initials on a table in the park last Sunday, or late in the week, and John McGeein, when called, acknowledged doing the same. One of their chums, Charles Wickham, appeared as a witness for the prosecution. The break of the bench by the other was dismissed. Hugh C. Nickle, superintendent of the railway, also gave evidence.

It was quite a scene before the county magistrate passed judgment. Magistrate Hunter said that the railway company did not wish to jail the boys, three of the eight suspended sentences were hanging over. This clique, no doubt, are maliciously destructive, and the only way to save them to send them all to jail for thirty days, and save them from the penitentiary in the future. The park had been damaged to the extent of \$100 lately, and the language used by this gang in the park at nights was enough to make any man revolt.

"The only thing I can do is to send them all to jail, but I'll grant Mr. Givens and the guardians of the three lads who ill-treated the donkey, time to get their heads together to try to agree on a middle course." Messrs. Watts, Halliday and Woods, guardians, and the boys, were bound over for \$50 each, and the boys are not to enter the park unless accompanied by their parents. All are to help bear the costs of the court.

**Nurse Among Regina Missing.**

The list of Regina's missing as a result of Sunday's cyclone includes the name of Miss M. Grier, of Crossman, Saskatchewan, who was last seen on Long street. Several years ago there was a Miss Willie Grier, who graduated from the Kingston general hospital training school for nurses, and friends here thought she might be the one reported missing. She went to Calgary, and it is not likely that she is the missing nurse.

The general hospital board of governors met on Wednesday afternoon. The members present were: F. V. G. Lockett (chairman), Lieut.-Col. Massey, Prof. D. H. Marshall, Dr. G. W. Mylks, A. F. Chown, Ardenaeson Carey, Rev. D. Laing, John McIntyre, K.C.

The financial report for the past nine months was presented, showing an increase in both receipts and expenditures, and considering the very high cost of maintenance was thought very satisfactory. There were 120 patients admitted in June, and 104 discharged.

In the committee of management's report it was mentioned that the Woman's Aid society, of Napanee, had very kindly forwarded a cheque for \$200 to be applied towards payments on the new sterilizer, and promise other gifts to follow. A hearty vote of thanks was passed to the ladies for their continued thoughtfulness and substantial contributions.

A report was also read from the visiting committee of the Woman's Aid society speaking very favorably of the condition in which they found the building and of the work which they saw going on.

R. E. Kent and B. Couper were re-appointed visiting governors for July.

**The City League Baseball Games on Saturday.**

The Park Nines and Tecumseh's will clash on Saturday at two o'clock on the cricket field. These are junior teams in the city league, and almost evenly matched, and would put up an interesting game. The senior game between C.L.C. and Victorias will be a "corner."

People should wake up with regard to the city league games. The boys are playing good ball and are helping to boost the town. In return the citizens ought to turn out and boost the games. Last Saturday's collection was \$29.34 for the best baseball game of the season. That was pretty poor; it should have been \$75.

**KINGSTONIAN GAVE AID**

In Endeavor to Save Life of Major C. J. Catto.

A Kingstonian, in the person of F. E. Mendell, of Mendell's store, Princess street, rendered aid in the attempt which was made to save the life of Major C. J. Catto, of Toronto, who met death, Sunday evening, when upset from his canoe at Rideau Ferry, six miles from Perth.

Mr. Mendell was out in a punt at the time of the accident, but as soon as he got word of it, he jumped into the water, with his clothes on, and made an endeavor to locate the body, but was at a disadvantage, owing to the fact that the exact spot as to where Major Catto had fallen in was not known.

Several people were on the shore at the time, but no one knew just the place where the mishap occurred. Had this been known, Mr. Mendell and several others, who volunteered their services, might have been able to save him.

The case was a most unfortunate one, as Major Catto was unable to swim. The doctor, who was called, stated that death had been due from the shock, and from drowning.

Deceased had just partaken of a very hearty dinner, and went out in the canoe alone for a little exercise. His wife and children were on the shore and witnessed the sad fatality.

**Another Disfigurement.**

Michael Sullivan, the well-known contractor, called the attention of the Whig, to-day, to the fact that he agreed with the writers in the press as to the disfigurement of the city by the great bill boards that are being placed about it. "Let me tell you," he added, "that the papers are overlooking another serious disfigurement. All you have to do is to go out to the local hotel site and you will find that the weeds have so grown and overtopped everything else that even the work done towards the construction of the new hotel, is completely hidden from view. The weeds should either come down or the hotel go up."

**Died in General Hospital.**

Edward J. Brightman, 21 Ellice street, died at noon on Thursday, in the general hospital, of pneumonia. He had been in the hospital only a few hours, being brought in on Wednesday.
