Cruel Old Punishment.

Old time punishment for offences at sea was most severe. The code of the time of Richard of England, drawn up for the government of his fleet on the crusades, provided "that should any person on shipboard be killed or thrown into the sea, and if he killed him on land he should, in like manner be tied with the party slain and buried with him in the earth." In Elizabeth's time a thief was to be ducked three times, towed ashore at the stern of a boat and manroved with a loaf of bread and a can of beer. Mutiny was punishable by the culprit's being hanged by his heels "until his brains were beaten out against the ship's side." The penalties imposed for sleeping on watch were progressive. For the first offence the man was to be "headed" with a bucket of water on the next occasion he was to be strung up by his wrists and to have two buckets of water poured into his sleeves; the third time he would be loaded with weights and bound to the mast, and for the fourth time he was to be hanged to the bowsprit, with a can of beer and a biscotte of bread, and a sharp knife, and so to hang and choose whether he would cutte himself down and fall into the sea or hang still and starve."—Chicago News.

Light Ammunition.

Fisley Peter Dume, creator of Mr. Doodle's, was dining with a friend at a New York restaurant, Rice birds were served. The tiny cadavers, picked and lean, were brought in upon large slices of toast.

"Poor little things," said the host. "Seems a shame to kill 'em—don't it? How do you suppose they ever murder enough Rice birds to make a dish?"

Dume turned over an infinitesimal specimen with his fork.

"I don't know," he said, "unless they use insect powder."

BASEBALL LONG AGO

THE OLD ST. LAWRENCE TEAM OF KINGSTON.

Played at Cape Vincent on July 18th, 1872—Some of the Oldtime Players Still Reside Here.

Forty years ago last Dominion day (July 1st, 1872), when baseball was in its initial season, in Kingston, the St. Lawrence team played a team in Cape Vincent. The score was 26 to 21, in favor of the boys across the border, whose nine was picked from Cape Vincent, Rome and Watertown, and included a professional battery.

On July 18th, the St. Lawrence team, only six weeks old, badly "shut out" the Dominion baseball team, of Napanee, in a game on the cricket field. The Kingston line-up was: J. A. Wright, J. Jarvis, T. Parkin (of the post office staff), R. J. Kilbel (ex-therist), W. Elliott, J. A. Power, J. McCannan, A. Falconer and Thomas Driver (of the inland revenue department).

As far back as 1872 the locomotive works (then the Canada engine and machinery works) had a ball team. Yes, and on August 26th they met and beat the St. Lawrence. There were a number of changes to the St. Lawrence nine, Dr. Jarvis, T. Dumble and C. Tossell figured on the diamond. Abraham Shaw, now customs inspector, scored seven runs on that day for the Locos, and T. Gaskin, of the same service, was another strong acquisition by the team. The other seven, most of whom are away from this part of the country, or in "a better land," W. Thurston, R. Channonhouse, J. Carey, T. Sullivan, H. Tandy, G. McCullagh and T. Graham.

Towards the end of the season, the Kingston club was quite badly beaten by the Lions, a United States team, which also defeated the Port Hope ball players. However, the Canadian muscle of the Maple Leafs, of Guelph, put the Lions out of the running. It was a great victory. Brooklyn professionals figured in all the mighty positions on Uncle Sam's outfit.

Notes on Sports.

"Joe" Lally says Cornwall won't lose another game in the N.L.U. with a half-Nelson on the championship, all right.

The new Canadian Association of Football Clubs will be affiliated with the Amateur Athletic Union, of Canada.

"Bube" Waddell, the former Philadelphia left hander, is seriously ill at Minneapolis. He has been doing good work in the American Association.

The International Baseball League is still fighting for higher classification and the Canadian League clubs will likely apply for promotion to class "A."

"Johnny" Hays says that "Jim" Corkery, of Toronto, will be among the dangerous runners in the Olympic Marathon at Stockholm, Sunday. Six or seven Canadians will start.

John Gannell, of the Rochester Bronchos, who won three baseball pennants in row, and who is now on his way to a fourth, will likely manage a major league club next season. Gannell's chief forte is the development of young players.

THE WESTERN FAIR

At London, Ont., on September 6th to 14th, 1912.

The management of this popular exhibition will spare neither trouble or expense this year to make it the best ever held. A new fire-proof art building is being erected near the entrance to the grounds, which will be in readiness for the exhibition, and will be filled with beautiful and expensive paintings for which very liberal prizes are being offered. Space should be applied for at once. The butter and cheese exhibit promises to be extra large.

In addition to the prizes offered by the association there are good specials in cash and silverware. Many new and special exhibits will be made in the machinery department. The live stock department is one of the strong features of the exhibition, as the very best always come to London. The agricultural and horticultural exhibits will, no doubt, fill the building to overflowing, of the very best, while the poultry building will probably have to be enlarged to hold the birds on exhibition. Prize lists, entry forms and all information sent on application to the secretary, A. M. Hunt, London, Ont.

Save the Children.

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless—even to the newborn babe. They are as perfectly good in the summer months as they are in the winter, and they regulate the bowels and keep the stomach sweet and pure. The Tablets are sold by medicine dealers or by mail at 25c a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Wickerwork Lifeboats.

Lifeboats carried by a Dutch line, running between the Thames and Rotterdam are so constructed, that it is claimed that it is impossible to injure them by their coming into contact with the ship's side while being lowered from the davits or with obstacles in the water. The boat consists of a series of shells—the outermost is of cane basket-work, then comes one of wood, then one of canvas, then another of canvas, and finally, an inside shell of wood.

The Man On Watch.

After reading over the list of officers elected by the provincial Christian Endeavorers the other day, the Lampman wondered if the association was not rather a Toronto ministerial society, instead of an Ontario lay affair. He did not hear if the Endeavorers had offered prayers for rain. If they didn't, they should have, and if they did, their petitions were not acceded to.

The Orange drums received a great banging on Friday, and the Lampman feels satisfied that this time-honored custom gives promise of being continued by future generations at Battersea, Steila and Garden Island, although "rotent" boys have been handed down from their forebears the art of clabbing the drum, for one could not call it playing.

In the Lampman's opinion, the Thousand Island Park Association is guilty of criminal negligence in not having sufficient fire protection for the hundreds of flimsy buildings which, it allowed to be constructed upon its grounds. This association conducts a Puritan Sabbath at the park, not allowing steamers to land, and it also prohibits the sale of liquor, although booze could be got. The association, instead of protecting the place against only firewater and Sunday travelling, might have also sought to protect the people against fire, yet it seems that the only apparatus it had was a fire bell.

The Lampman must express his surprise at the humane society of the town for sanctioning the destroying of dogs by the use of the pistol. Shooting has proven to be a lingering death for a dog. The Lampman knows that in some cases, six and eight bullet holes have had to be put into a canine to end its life, and on two occasions, policemen's toes have also suffered. A Williamsville resident told the Lampman that he preferred hanging his dogs and cats, and had made a great success as a rope executioner. Just as the rope around the neck of a pussy or doggie, hang him up, come back in ten minutes and the deed is done, he explained. However, the Lampman would suggest to the humane society that it insist that these animals be hefeather chloroformed.

This week, the Lampman held converse with one who knew the famous train robber, "Bill" Miner, who had been re-captured on Canadian soil, after escaping from the New Westminster penitentiary, would have been incarcerated in Michael Kennedy's Portsmouth prison. He said that "Old Bill" was really a fine fellow. He was a strong socialist, and declared to him that he robbed trains because the wealth of the world was not properly divided. After his escape from Westminster, not a word could be got from people who knew of his getting away, for he had the reputation of being so generous to the poor wherever he went.

The Lampman also talked with another man who has seen a great deal of prison life in the way of a reformer. He remarked that after having so much to do with convicts, he found himself examining the countenances and the heads of all men, and wondering why one was in prison and another not there. In church, some-times, he would imagine that he saw all the men of the congregation in prison stripes, and with numbers on their backs, and, in fancy, he even put prison garb on the minister. He knew men in churches who had done more to gain them a place in prison than many of those who were now actually there. He had to shake himself out of these reveries, and remember that he was in a place of worship and not in a prison.

—THE TOWN WATCHMAN.

Girl Pathfinders' League.

A German league for girls has just been formed in Berlin on similar lines to that of the boy scouts. It is to be called the Girl Pathfinders' League, says a special to the Monitor. Girls of from fourteen to eighteen are eligible for membership, irrespective of religion and rank. Politics are to be carefully excluded from the course of instruction. The chief purpose of the league is to provide exercise for girls to inculcate independence of action, promote concentration of purpose, quickness of decision and presence of mind. On the committee are many well-known women, including Frau Von Hopfgarten, the chairman, Frau Broecker, of the Pastoral-Freibel house, and others. Capt. Bayer, who has already drilled the Hamburg girl scouts into a flourishing band of over 100 members, will have the supervision of the new undertaking. It has met with much sympathy there and would-be members are applying from all quarters.

Married the Whole Family.

When Lafacio Hearn married his Japanese wife all his wife's family accompanied him to his new quarters. He mentions that he had nine lives dependent upon him—wife, wife's mother, wife's father, wife's adopted mother, wife's father's father, then servants and a Buddhist student. This wouldn't do in England, but it is nothing in Japan.

A ballad of "The Old Niagara," by Arthur Guiterman, in the fiction number of Scribner's Magazine (August), reviews memories of the spirited contests between the hand fire-engines of the old days.

BATTLE OF BANNOCKBURN.

National Celebration to be Held at Stirling This Year.

Arrangements are being pushed forward for a national celebration of the battle of Bannockburn at Stirling this year. At a meeting of the general committee of the movement in Stirling on Tuesday evening a provisional programme for the proceedings was drawn up. On the evening of Friday, June 21st, it is proposed to have a concert at which prominent Scottish vocalists will appear, to be either preceded or followed by an illustrated lecture by a distinguished Scotsman. Then on Saturday there will be an organized procession of public bodies, local and national, to the Borestone on the battlefield, and thence to their apartments.

King's park, where orations will be delivered, while a great church parade will take place to the Albert hall on Sunday. Essay competitions are being organized amongst the school children in the district.

That Kind Would be Both.

"My dear, you should have been to church this morning," said old Mrs. Blunderby to her caller. "The pastor gave his bacchanalian sermon to the college grads. It was so interesting and destructive."—Boston Transcript.

Great clearing sale at Prevost's, Brock street. Big reduction in price in the order and ready-made clothing department; also in the gent's furnishings, to make room for fall and winter importations.
