

"YOU'LL SUFFER ALL YOUR LIFE"

That's what the Doctor told him "Fruit-a-tives Cured Him"

CHRISTIEVILLE, ONT., Jan. 25th 1911 For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life.

IN MARINE CIRCLES

GRAIN BLOCKADE AT MONTREAL STILL QUITE SERIOUS.

Barges Sent Down From Kingston are Being "Held Up" to be Discharged—Coal Schooners running Out of Kingston are Very Busy.

There is very little change in the situation, regarding the blockade of grain at Montreal, according to local reports. The barges sent down from Kingston, by the Montreal Transportation company, are being "held up" for lengthy periods, causing a great delay.

THE SPORT REVIEW

CITY BASEBALL EXECUTIVE TO DECIDE

What to Do About Mathis—No Mercantile League Game—Two Fights Arranged for Johnson.

The city league baseball game on Saturday between the C.L.C.'s and Victoria, will be the centre of a great deal of interest. Much speculation is about as to what the probable result will be if C.L.C.'s attempt to play Mathis. It has been suggested that if they do and the executive of the city league refuse to let him play it may break up the league. The authorities of the city league say that there is no danger of that. The league will go to pieces without C.L.C.'s. It was given out on Wednesday morning that the minute the C.L.C.'s withdrew from the league, there was another team ready to take their place.

LETTERS TO THE EDITOR

To Organize Social-Democratic Party in Kingston.

Kingston, July 23.—(To the Editor): At last it can be said that the socialist wave has reached Kingston. Heretofore, we Kingstonsians have had to watch this world-wide movement from afar off. But from now on we are to have the opportunity of observing its development at close range.

The meeting held on the market square last evening was addressed by Milton Wayman, who was sent here by the executive committee of the social democratic party of Canada (head office at Berlin, Ont.) for the express purpose of organizing a local branch of that party.

Mr. Wayman started at Barrie street at 7:30 and walked down Princess street, announcing the meeting through a megaphone. He was followed by many curious on-lookers who were going to see what was going to happen and when he got on the "box" had a respectable crowd which swelled to about five hundred people who listened attentively to what he had to say and judging by the frequent applause, the size of the silver collection taken up at the conclusion of the address, and the number of those expressing a willingness to become members of the party the people of this community are ready and waiting to receive the message of socialism.

Every socialist living in or near the city is invited and urged to become charter members of Local Kingston. They should send their names and addresses to the address given below and they will be duly notified of time and place of the first business meeting, when the branch will be regularly organized and officers elected. The object of this organization will be to carry on a continual campaign of education by a systematic distribution of social literature, by holding street meetings, lectures and debates on the social and economic questions of the day, and when deemed advisable to run candidates for all elective offices at the municipal, provincial and Dominion elections.—Respectfully, ORGANIZER SOCIAL DEMOCRATIC PARTY, 371 Division street, city.

PAID FRIEND'S FINE

And Later on Fought With Him in a Down Town Yard.

There is an old saying which runs like this: "When the whiskey is in the wit is out." This old saw applies to the case of two young men who figured in police circles on Tuesday. One was up for drunkenness and the other appeared on the scene as his friend, and when he was fined \$1 and costs, amounting in all to \$2.50 he went out and collected enough money to cover the fine and get his friend out of the cells. He had but eighty-five cents himself, but this he gladly put in to help pay the fine.

But the strange part of the story is that although they left the police station arm and arm, and were warm friends, before sundown they were bitter enemies and engaged in a lively fight.

The two got into an altercation near the corner of Princess and Montreal streets and went to a nearby yard to have it out. They chose a very bad place, however, as a crowd soon gathered, and when Constables Amiel, McCarry and Downer happened to pass that way they spotted the two, who made a nasty retreat. Just what caused the row is not known but it is believed that a tank was at the bottom of it.

BUSY WITH THEIR HAY.

Crop on Wolfe Island Will be a Good One.

The farmers on Wolfe Island are still very busy getting in their hay. The report is that there will be a good crop. Wolfe Island is noted all over the district for its hay crop and it would indeed be a most unfortunate thing to have anything happen to bring about a small crop.

A prominent farmer on the island, in speaking to the Whig to-day, stated that everything was in good shape and that the crop would turn out a great success. The crop of oats also looks favorable.

At Lake Ontario Park.

There was one of the largest crowds so far this season at Lake Ontario Park last evening. The bill presented is sufficient to repay those who take the trouble to attend. Toben, the comedy juggler, with his comicalities and stunts, well earned the applause he received.

On Thursday evening, the programme will be entirely changed, both vaudeville and pictures. To-night the same bill will be repeated.

No Mercantile Game.

Again there was a postponement in the Mercantile league Tuesday night. The Railroads and Locos were scheduled to play, but the latter, in the morning, asked that it might be laid over. Late in the afternoon the manager of the Railroads received a telephone message from the locomotive builders asking him to try and arrange the game, but it was too late. It is evident that the enthusiasm in this league is at a very low ebb, and what might be good sport is being missed for counter attractions.

To Consider Protests.

A meeting of the executive of the S.S.A.A. has been called for Saturday evening to take up the protests that have been entered. At the meeting held on Saturday evening last there were a number of members of the teams represented, but not by the right representatives. A baseball league does not always want to be crying for money but in this case it seems as though it is absolutely necessary. So far this season hardly enough money has been subscribed at the Sunday school games to pay for the balls, let alone pay for broken windows, which are smashed at some of the games.

Splendid Rifle Shooting.

The shooting done by the city marksmen at the Bartfield ranges last Saturday afternoon, was the best at those ranges, as far as can be gathered, since they were constructed. Last October, in the 14th Regiment shoot, six men made an average of 95, with a possible 105 points. At the 14th shoot, Lieut. W. Swaine and Capt. George Birch made 97 points each; Lieut. Col. A. B. Cunningham and Staff-Serg. E. W. Skinner, 95; Capt. P. G. C. Campbell, 94, and Capt. H. Swaine, 86. But on last Saturday in the Canadian Rifle League, an average of 95 was made by ten men.

Two Fights Arranged.

"Jack" Johnson has signed articles for matches with Sam Langford and Max McVey, in Australia. Hugh G. McIntosh, who promoted the Burns-Johnson fight, in which Johnson gained his title, is to handle these two bouts with the "Black Hopes." The champion is to get \$30,000 for his bout with Langford and \$20,000 for the bout with McVey—\$50,000 for both. Besides the purses Johnson is to receive his transportation.

1,000 Islands—Rochester.

Steamers Caspian and North King leave at 10.15 a daily for 1,000 Islands, N.Y., via Bay of Quinte. J. P. Hanley, agent.

Pilgrims to St. Anne.

Quite a large excursion from the city and district left on the annual pilgrimage to St. Anne's Beach, Tuesday evening. One hundred ten went via C.P.R. and eighty-five via G.T.R.

In fishing for compliments use fresh bait.

SALLOW FACES

Often Caused by Tea and Coffee Drinking.

How many persons realize that tea and coffee so disturb digestion that they produce a muddy, yellow complexion? One hundred ten went via C.P.R. and eighty-five via G.T.R.

A Washington young lady tells her experience: "All of us—father, mother, sister and brother—had used tea and coffee for many years until finally we all had stomach troubles more or less. We all were sallow and troubled with pimples, breath bad, disagreeable taste in the mouth, and all of us simply so many bundles of nerves. We didn't realize that tea and coffee caused the trouble until one day we ran out of coffee and went to borrow some from a neighbor. She gave us some Postum and told us to try that.

"Although we started to make it, we all were sure we would be sick if we missed our strong coffee, but we tried Postum and were surprised to find it delicious. "We read the statements on the pkg., got more and in a month and a half you wouldn't have known us. We without any trouble, each one's skin became clear, tongues cleaned off, and nerves in condition. We never use anything now but Postum. There is nothing like it." Name given by Canadian Postum Co., Windsor, Ont.

"There's a reason, and it is explained in the little book, 'The Road to Wellville,' in pgs. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. "Buy mineral waters," "Gibson's,"

DEED OF A CONDUCTOR

SAVED LADY FROM FALLING UNDER A CAR.

At the Corner of Brock and Ontario Streets—Lost Some Money in Doing so, But the Company Made it Good.

Had it not been for the prompt action of Conductor John Kennedy, of the steel railway company, a lady travelling on a car might have lost one of her limbs. The car was coming along Ontario street on Tuesday morning, about ten o'clock, and the conductor was standing on the side changing some money for a passenger. When the car got near the corner of Brock and Ontario streets a lady, who had been sitting in the front seat, got up and went to step off before the car stopped at the crossing. At this point the car takes a swerve, so much so that a person who might happen to be standing on the side of it would be thrown off.

When Conductor Kennedy saw what was going to happen he dropped the money that he had in his hand and grabbed the woman as she was falling on the road, and certainly saved her from going under the wheels. The lady was getting out backwards, and was not waiting for the car to stop.

The conductor lost some 90c. in his endeavor to save the lady, but when he reported what had happened the company repaid him the money he had lost.

The conductors on the different cars are doing "acts" like these every day of the week and in some cases they do not get as much as a "thank you" for it.

AN HONEST BORROWER

Returned Kingston Pastor the Money He Received.

A young man with the usual hard luck pie, applied to one of the Methodist pastors of the city, on Sunday last, for his fare to Toronto. He told the pastor how he and a number of English chums were in Toronto, and he took a notion that he would like to see the River St. Lawrence and the Thousand Islands. He accordingly shipped on board one of the passenger and freight steamers and was installed in the kitchen to "wash up." That was all right, as far as it went, but when he was detailed to a room in company with one of his bad brothers. This was the limit, he said, and he "jumped the job" at Kingston.

Pastors are often taken in by these transients, and some of this pastor's friends, who happened to be at his house at the time the traveller called, told the minister that his money was a "goner." But the young man was as good as his word, and the price of his fare was returned by the mail Tuesday morning.

THE CITY'S SAND SUPPLY.

Contractor J. W. McKendry Explains What is Done.

The question was raised in the board of works meeting, on Friday last, as to whether the city was getting value for its money in the sand it was buying. The matter arose through the discovery that some of the loads which were supposed to contain five cubic yards measured short of the mark. When discussed by the board of works it was shown that the city was not paying for any more sand than it was getting, as the sand was being measured and being paid for accordingly. In conversation with the Whig on Tuesday, W. J. McKendry, who supplies the sand, stated that when he took the contract to supply the city, he told the city engineer that his new truck was supposed to carry five cubic yards. He said that he would bill the city for that amount, if being as near as he knew, and the city could measure it and deduct whatever was necessary. This is what has been done by the city engineer.

MAY SHOOT THE RAPIDS.

Thousand Islander May Attempt the Passage.

The new excursion steamer, Thousand Islander, left Alexandria Bay, N. Y., bound down the river towards Ogdensburg and nearby points, where it will remain six days, running excursions in that vicinity. The steamer will run down nearly to Montreal and it is possible may shoot the first and smaller rapids, a few miles below Ogdensburg. The Thousand Islander has not yet been through any of the rapids, although it has several times been contemplated to take her down.

If you would enjoy your work take an occasional day off and loaf.

A NEW STATUTE. No More Young Girl's Meat to be Sold. The revised Ontario statutes for 1912 have been sent out, and one of the new sections is worth noting by those who have been in the habit of selling very young veal. Section 102 provides that no meat of calves under four weeks old shall be sold or kept for sale, and penalty for a breach of this law is a fine of from \$10 to \$50.

EDUCATION IS NEEDED. Very Much Along Humane Lines in Kingston. The dropping dead of a horse on King street, the other day, after being made to work for which it was unable, shows again the great need of education along humane lines. This animal was two light for the work, the driver being unaware of the powers of the horse. The animal pulled the load over the incline and afterwards dropped dead.

EDUCATION IS NEEDED. There are hundreds in the city ignorant of the powers of their dumb brutes. While the society will prosecute, and to the extent of the law, all cases of wilful cruelty to animals, its chief aim is education.

PORTSMOUTH PHILOSOPHER Will Run Down the "Spook" in Macdonald Park. The Portsmouth philosopher was very warm under the collar when he read in the Whig, on Tuesday night, that a "spook" was at work in Macdonald Park frightening all the young people who go there to spoon. He declares that he will get out his big stick and camp in the park for a week, if necessary, to catch the rascal.

Appreciated the Comfort. The general passenger department of the Grand Trunk system has received the following letter from W. A. Main, 425 gentleman who is conducting a party of Scottish teachers through Eastern Canada: "The party of twenty Scottish teachers under my direction put up Friday night last at the 'Highland Inn, Algonquin Park. I am directed by the members of the party to send you appreciation of the comfort we experienced there. I am perfectly certain that our visit will act as a good advertisement to the 'Highland Inn.'"
