

Save When You Can

Save in these good times when money is abundant. Saving does not consist of making speculative investments in land or fluctuating shares. Savings means putting money in a good bank, where, though it may not earn so much as if placed elsewhere, it is absolutely safe, and is always at your command.

Start a savings account however modest. Choose for the purpose.

Henri Fabre Starving.
Victor Hugo Described Him as "The Insect's Homer."

Paris, July 25.—Henri Fabre, the poet and scientist, whom Victor Hugo described as "the insect's Homer," who has given his life to enrich the world's knowledge of the humblest of God's creatures, is dying of hunger.

A few days ago Frederic Mistral, the great Provençal poet, addressed an appeal to the Matin, calling the attention of the public to the lamentable condition of M. Fabre, "to whom France owes assistance from every point of view," and mentioning the fact that Fabre is eighty-four years old.

A correspondent of the Matin visited M. Fabre's home in Provence, where it was ascertained, in spite of the scientist's proud denials, that he was literally being starved to death.

CHECKS FOR GUNPLAY.
Montreal Police Deal With Twenty-five Shootings Last Year.

Montreal, July 25.—The Montreal city council and police officers are trying to formulate a plan by which the wholesale use of revolvers will be curtailed. During the past year twenty-five shooting affairs were brought up in the police courts. Of the twenty-five affairs, seven resulted in deaths and the balance in more or less serious injuries. In addition there were many cases of shooting among foreigners, in which no person was brought into court, the police being unable to locate the guilty parties.

Of course, you feel bad when the other fellow gets what you want, but think how good it makes him feel. The death occurred at Rockwood, on Thursday, of John McCarthy, aged seventy years.
