BLAZING THE TRAIL

WHAT ROWELL IS DOING FOR THE GOVERNMENT.

Five New Ontario Towns Welcome the Liberal Leader—To Ask Sir James Whitney to Visit the Country Also.

New Liskeard, Aug. 1.—N. W. Rowell, K.C., the liberal leader, will personally visit the whole of North Ontario in the immediate future. The provincial premier, according to the representations made, to the touring liberals by the citizens of the various communities visited, has much to learn of this district. There are many just grievances that demand redress, there are many progressive reforms to be inaugurated, there are many matters in which legislation is necessary, and, one impression seems more or less general that Queen's park lacks understanding, and is indifferent to problems which are presenting themselves.

When for the third time yesterday, James Field, who delivered the address of welcome at the picturesque town of Earleton, alluded to the fact that the liberal leader had forced the hand of the premier on the question of aid in development, and asked him to use similar persistent persuasion in urging in the public interest that the premier should without delay come to the north himself. Mr. Rowell met the request more than half way. "We shall do our part," said he, with applause. "We are having considerable experience in blazing the trail for the government of the seven sleepers, and we will do our best to induce Sir James Whitney and his colleagues to again emulate us and come here and meet with you and study the requirements of your great and growing country. You, too, must do your part. You must enlist your conservative electors and your boards of trade to urge upon Sir James the duty he owes to come himself and personally examine conditions. We have been fortunate in blazing the trail for him in other respects, and I will join with you in extending an urgent invitation to Sir James Whitney."

Mr. Rowell is coming in close touch with the aims and aspirations of this great country. Tuesday night he dined with the mayor of Cobalt, the president of the board of trade and the district president of the associated boards of trade, and together they conferred on matters of public interest. Last evening the reeves of the seven townships toured, with the New Liskeard mayor and president of the board of trade, were his guests at a similar function. All the representatives are enthusiastic over the earnestness and activity of the liberal leader in placing himself in immediate and personal contact with the citizenship of the hinterland and with its purposes and problems.

DEPARTMENTAL SERGEANTS.

Why They Are Securing a Mess of Their Own.

Regarding the dissatisfaction that has been expressed by the sergeants of the departmental corps stationed in the city owing to the manner in which they are receiving the messes of the sergeants of the R.C.H.A. at Tete de Pont barracks, it was stated that the departmental men are contributing to the funds of the military institution and are not being allowed a voice in the management of affairs.

It is correct to say that the above mentioned mess is exclusively for the sergeants of the artillery brigade, and the sergeants of the other corps here are only connected as honorary members. They do not pay an entry fee or contribute to its upkeep other than pay for anything they might buy at the mess. This is why they have not a voice in the management of affairs.

Application has been made to Ottawa for the establishment of a mess for these N. C. O's, and the sum of \$200 has been granted. It is also stated that an option has been secured on the second floor of a building on one of the Princess street corners. There are now forty-two warrant officers, sergeant-majors and sergeants belonging to the departmental corps in the city, and only thirty are necessary for the establishment of a mess.

The same feeling has existed in other stations where the departmental sergeants are forced to indulge on the honorary privileges of the mess of a particular unit, and it would be in the best interests of all if a garrison sergeants' mess was established in this city as in Toronto and other garrison cities.

At 13 1/2 c. L. W. Murphy secured the offering of the following factories:

Elm Grove, Cold Springs, Howe Island, Elginburg, Silver Springs, and Wolfe Island.

Toys From Germany.

Montreal, Aug. 1.—Santa Claus is assured of a plentiful supply of toys for next Christmas. The steamer Palanza, of the Canadian line, has just arrived, filled with a cargo of toys. The toys, which are packed in huge boxes, constitute practically the whole of the boat's cargo, and weigh many tons. They are all from Germany.

The American Federation of Labor building trades department is now resorted to its full strength of eligible organizations.

STRONG AND ACTIVE.

This Was Condition of the New York Market.

F. B. McCurdy & Co., Kingston, have received these despatches over their private wire:

"The opening was strong and active, with Canadian Pacific again the most prominent, but gains were very general through the list and although, from the opening prices, there were some fractional reactions, the undertone remained strong and during the second hour prices again began to advance, and are now at the top prices of the day, with good net gains throughout the list.

"The traders have all taken the bull side and have been influenced more by the reported extreme conservatism of Mr. Wilson, on tariff reduction, than by any other cause. It is said that, in his letter of acceptance, to be made public next week, he will advocate very moderate reductions in the tariff schedule, so as not to disturb business. The market has broadened considerably, although public participation still remains small and dealings are largely professional.

"The most important development this morning is a statement in the papers that the Wilson acceptance speech will recommend a gradual revision downward of the tariff, to avoid disturbing business. The Times has the best account, saying it is proposed to reduce five per cent. a year for four years. It is the spirit of conservatism thereby shown that will please Wall street interests, which papers that the Wilson acceptance speech, scheduled for to-day, another conservative document."

The Late Dr. R. S. Devlin.

The late Dr. Roland S. Devlin, who died in Montreal on Thursday morning, as the result of being shot in the Turkish Bath hotel, two weeks ago, by a maniac, was born in Kingston about thirty-two years ago, and graduated at Queen's Medical College in 1906. For some years he was purser on steamers of the Richelieu and Ontario Navigation company's line. Dr. Devlin was a nephew of Peter Devlin, William street, who was in Montreal when he died.

The remains of Dr. Devlin, who died in Montreal as a result of the shooting in the Turkish Bath hotel, will probably be brought to Kingston for burial. His brother, Peter, of this city, who was with him at the time of his death is to be here on Thursday night. Telegrams were received to this effect by both Mrs. Peter Devlin and by Undertaker Thomas Ronan. It is probable that it will be the purpose of Peter to make arrangements for the burial here where the family plot is maintained in St. Mary's cemetery.

The circumstances surrounding the death of the late Dr. Devlin are very sad and affect his relations in Kingston. Mrs. Devlin, William street, had received a letter promising a visit from the family in Montreal and her husband said that "Rollie" would be here within the next couple of days. While the letter was in her hand a telegram came announcing the tragedy which later resulted in his death. "Rollie" was a great favorite with the family and his death was a shock to all.

The Late Howard Downey.

The funeral of Howard Downey, who died as a result of injuries received by falling from a G.T.R. train on Sunday last, took place from the residence of Mrs. Golligly, 42 Patrick street, on Wednesday morning at St. Mary's cathedral, and was very largely attended. The boys' chums of the deceased acted as pallbearers and a large number of boy friends attended in a body.

Among the floral offerings placed on the casket were:—Sheafs, Edward Stanford, Mrs. McAuley, Mrs. K. Thompson, Miss N. Downey, George Downey and family, sprays, Edward Doolan, Robert Whitehead, James Downey and family, Mrs. Newell, Mrs. McCarey, Miss Alice Doolan and Miss Annie Ryder.

Spiritual offerings were received from Mr. and Mrs. William McParland, Mr. and Mrs. McDonald, Mrs. T. Burns, Mrs. George Clark, Mr. and Mrs. W. Payne, Mr. and Mrs. Cary, James Atkins, Master Edward McEwen and Edmund Downey and Mrs. Jane Golligly. Much sympathy is extended to Mrs. Golligly in her bereavement.
