U. S. SENATOR SUTTON

SAYS WOODROW WILSON WILL
BE ELECTED PRESIDENT

Of the United States in Coming Con-
test—Roosevelt's Aggressiveness
May Appeal to Young Men.

Senator and Mrs. Sutton, of Philadelphia, Pa., are visiting United States Consul and Mrs. F. S. S. Johnson, King street. This is the second time the senator has visited the Limestone City, having been there two years ago. He and his wife are greatly taken with Kingston, with its agreeable summer weather, and beautiful surroundings. The visiting couple expects to spend a few weeks among the Thousand Islands.

Senator Sutton conversed with a Whig representative regarding the present political state and coming fight in his country. He is a staunch democrat and says he feels Woodrow Wilson will be elected to the presidency. The people believe the candidate to be sincere, strong, and a coming great man. The senator expects to "stamp" for him, and says that the state of Pennsylvania, which has been a republican stronghold for years, will turn over.

Regarding Roosevelt and his progressive party, the visiting politician said that the young men would likely be attracted by his aggressive spirit, but that the older men would hold to Wilson.

TRAFFIC SOMEWHAT BETTER.

Vessels Carrying More Tourists
Down the River.

The traffic down the river, which has been very slack all the summer, has commenced to pick up, and the boat companies are glad of it. The steamer Alexandria, going down to Montreal and Quebec, on Monday night, had a large passenger list, also the steamer Geronia, and the boats running out of Alexandria Bay have had far better business during the past week. The excursion trade out of Kingston has been good all season.

"The running of the steamer Thousand Islander, from Ogdensburg to Kingston, is a new venture of the R. & C. company, and the two trips made have been a great success. Last Friday over six hundred people came to Kingston on this trip, and the week before, on the initial trip, by actual count, there were eight hundred and forty people on board. There is no doubt but what the company will make these trips frequently.

The cool weather has, of course, had a great deal to do with the river business, but people who have been making arrangements to take a trip through the islands, will go during August, as next month it will be very cool weather.

RULES OF THE ROAD.
Were Disobeyed, and Serious Acci-
dents Narrowly Averted.

As a result of the rules of the road being disobeyed a very serious accident was narrowly averted at the corner of King and Brock streets, Wednesday afternoon. A rig was coming down Brock street and when reaching the corner of King failed to keep to the right of the road, but turned over to the left. A military automobile, filled with militiamen, was coming along from Princess street, and had not the driver made a sudden stop there would have been a bad smash up sure. He stopped his car within a few inches of the rig.

Just recently Magistrate Patroll drew attention to the fact that the rules of the road were being disobeyed and that serious accidents would result if they were not carried out.
