

FLOWER SERVICE HELD

AT ST. JAMES CHURCH ON SUNDAY MORNING.

Flowers Offered by Children Were Afterwards Taken to Patients at General Hospital—Rev. T. W. Savary Gave Children a Timely Address.

Here, Lord, we offer Thee all that is fairest,
Bloom from the garden and flowers
from the field,
Gifts for the stricken ones, knowing
Thou carest.

More for the love than the wealth
that we yield.

Sunday was Flower Sunday at St. James' church, and the morning service took the form of a special service for the children, who came with flowers, which were afterwards taken to the general hospital, by the children, and distributed among the patients.

During the service the children, large and small, walked to the altar and placed the flowers on it. Special hymns were selected for the children and Rev. T. W. Savary preached a special sermon on "The Three National Flowers," pointing out the lessons to be learned from them. His address was interesting and instructive.

The speaker referred to the three national flowers, the Rose for England; the Thistle for Scotland, and the Shamrock for Ireland, and told the children the story of how each flower happened to be chosen by each country.

Many useful lessons were brought forth, the speaker appealing to the children to be good all the time, and to help others to be good. A great deal depended on the little things in life. Children had an idea that some things were too small to pay attention to, but when they grew older they found out different. The big things of the future depended altogether on how the little things in life were attended to. Every care possible should be given to the little things.

At St. Paul's Church.

Rev. Frank Pratt, rector of the Church of the Good Shepherd, Westmount, preached at both services in St. Paul's church on Sunday. At the morning service he spoke from Romans viii, 29: "All things work together for good to them that love God." He said some people may hold these words are not true, but they are the words of God, and they must be so. It is very difficult for people who are stricken with poverty to believe these words, but the apostle Paul, who wrote them, was stricken with persecution, and he knew what he was writing about.

Hard on the Lights.

The electrical storm on Sunday afternoon was hard on the electric light system and quite a number were deprived of their light and had to use lamps. The men were out from the light plant early Monday morning and soon had the system in good shape.

Gave Him a Present.

Some of the friends of Frank Vannah, Clergy street, called on him on Saturday night and made him a present of a beautiful gold-mounted umbrella as a token of their good wishes to the event of his approaching marriage.

THE SPORT REVIEW

**MORE ENGLISH THAN FRENCH.
Prof. Lanos Taught the New Bishop of St. John.**

Prof. J. M. Lanos, of the Royal Military College, cannot see why the Irish of the diocese of St. John, N.B., should object to the appointment of Rev. Father Edward Légaré as their new bishop. He notes that the resolution passed by the ancient Order of Hibernians states that they wish an English-speaking bishop. Father Leblanc is more English than French, Prof. Lanos says. His mother was Irish and his father Acadian. He belongs to Church Point, N.S., and it was here "in 1890" that Prof. Lanos, who had come to Canada from France gave the young man instruction in languages and literature. Father Leblanc always lived among English people and had English parishes. Prof. Lanos says he is a clear thinker, a good counsellor, and very popular. He thinks he is the best priest in the maritime provinces who could have been secured to fill the bishopric of St. John.

SUNDAY'S SEVERE STORM.

The Lightning Was Vivid, and Did Some Damage.

The electric storm on Sunday afternoon was very severe in the city. The electric light wires in front of Clark's grocery, Upper Princess street, were struck and many people were frightened by the effect of the lightning—on Sunday afternoon the people in the neighborhood of Clark's store heard a snap and upon coming out found that four of the wires had been snapped by the lightning. The wires fell and were so low as to be within reach of the children, some of whom were soundly shocked when they took hold of them. Reports from many of the neighboring places show that the storm was pretty generally felt. The rain especially being heavy throughout the country.

AT POLICE COURT.

Member of "Prohibited List" Only Offender—Monday Morning.

A member of the "prohibited list," arrested for being under the influence of liquor, was the only offender, at police court, Monday morning, and he was remanded for a week.

Asked by the magistrate, as to where he had secured his liquor, he stated that while he was on the market, on Saturday, he met a tramp who was very hungry, and that he gave him the prior to go and get him a bottle of whiskey. After that he did not know what occurred, as the whiskey "went to his head" as he stated. The magistrate said that he would remand him to jail for a week, to give him time to refresh his mind, as to who the tramp was, but the accused declared that he did not know the name.

PONIES DEFEATED TECUMSEHS BY 10 TO 2

In Junior City League Baseball Game—The Kingston Hockeyists Have Returned—Notes of Sports.

The Ponies, living up to the name which they took from the senior Kings, team of a few years ago, carried off a win in the junior city baseball league, on the cricket field on Saturday afternoon, by defeating the Tecumsehs by 10-2. The game was stopped for about ten minutes at the sixth inning owing to rain, and was the Ponies from that to the end. J. Stewart and Ryan were the chief scorers for the winners, each making three runs. Derry, who twirled for the Ponies, "fanned" six bat. This was not up to his last Saturday's record, when he struck out seventeen of the Park Nine batters.

The Ponies made a whirlwind start and scored three runs by J. Stewart, Kyah and Derry in the first innning. But it was not until the fifth innning that they repeated the trick, the performers being Stewart and Derry again. In the seventh innning the winners scored two runs twice, Stewart, Derry and Potter being responsible, the latter two on McKay's hit. Evans and Evans were credited with the last two scores in the eighth.

Corrigan and J. Clark made the two runs for the Tecumsehs in the second and fourth innnings. The losers are a smaller bunch of boys than the Ponies, but have the "stuff" and will be heard from next year. The teams were:

Ponies—Evans, c; Derry, p; Potter, b; Toland, 2b; Ryan, ss; C. Stewart, sh; J. Stewart, lf; McKay, cf; Kennedy, rf.

Tecumsehs—Walsh, c; Norris, p; Nicholson, lh; J. Clark, 2b; Kelly, ss; H. Clark, 3b; Daly, lf; Angrove, cf; Corrigan, rf.

No Line on Burns.

The boxing match at Saskatoon between Burns and Rickard for the Canadian championship was of very little use as a guide of relative form of the two men in a finish fight or as to what chance Burns has of coming back to the championship class. Rickard admits that at the time the contest was arranged Burns was a clear winner, but he claims he was nursing himself for the full ten rounds until he had worn "Tommy" out. He challenges Burns to a return match, one arm free rules, and a fight to a finish.

Boat Turned Somersault.

The Hamilton motor boat races were marked by a sensational and altogether remarkable incident that has few parallels in this sport. George Gardner, of Hespeler, on which were the owner and Johnson, his mechanician, while going full speed struck a buoy and turned a complete somersault throwing the two occupants into the water. She fell right side up and continued at top speed. Her rudder was so set that she travelled in a circle and ran for thirty-five minutes before she was caught.

New Hockey Net.

A Montreal man has invented a new

hockey net for use next winter. The idea is to have pockets at intervals in the back of the net and the puck is supposed to fall into one of these pockets and thus have no chance of jumping out of the net. It sounds like a useful invention but, as a general rule, the elusive rubber in a hockey match is able to cheat even the finest of goal-keepers and get out after the home team have to the eyes of the fans, clearly scored a goal.

MANY GOING WEST.

On the Harvesters' Excursions Leaving on Friday.

Railway officials stated, on Monday morning, that they expected a large number from this district to leave on the harvesters' excursions to the west, on Friday. A large number have been in the city, making arrangements for the trip.

It is reported that 6,000 men are wanted in the west to get in the harvest, and Eastern Ontario will be able to help some. Farmers in this district are in need of men, but it seems that when the call comes from the golden west, there are many young men who cannot resist the call, and have to respond.

To Manufacture Concrete.

A new corporation, the St. Lawrence River Concrete company, has been formed by business men at Thousand Island Park. The demand for fireproof buildings since the recent fire that swept over Thousand Island Park has led to that organization of the new company.

One of the most interesting events of the day will be a race for the policemen, postmen and firemen, and a great race is being looked forward to.

Constables McCrory, Arniel, Mullinger, Gilson and Armstrong, speedy men of the police force, are now in training for the event, and an effort is being made to secure the veteran "Nick" Timmerman in the race too.

R.C.H.A. Off for Petawawa.

"A" and "B" batteries, R.C.H.A., left for Petawawa on Saturday evening, about 8.30 o'clock, and arrived there Sunday morning. The guns and baggage were loaded during the day, and the horses between six and eight o'clock. The bear, belonging to a number of the men of "B" battery, was taken along. The artillery band paraded to the station, and played several numbers. Lieut.-Col. H. E. Pant, officer commanding, the brigade staff, Majors J. S. S. Eustis and D. J. V. Eaton, with their officers, and the men, entrained about 8.15 o'clock.

Hockeyists Return.

Harold Nicholson, Reginald Boyer and Boucher Brousse, the Kingston boys who went to Hamilton, have returned to the city and intend to remain.

The boys went up to Hamilton about three weeks ago with the intention of playing hockey for the team to be formed in that city. Four of the Kingston boys were billeted to figure on the line-up. When the boys left the city they were promised that they would be given good situations in that city if they would go up, but those who made these promises did not live up to them and so the boys came home.

Nicholson and Boyer arrived home Sunday morning while Brousse stayed in Toronto, but will be home to-day.

Another Lad Fined.

Disorderly conduct on the street will not be tolerated by Magistrate Farrel. Another youngster, who appeared before the court on Monday morning, charged with disorderly conduct on Montreal street, was fined \$1 and costs, the same amount taxed a batch of boys who were in the police court just recently for disorderly conduct.

At Lake Ontario Park.

The Hardts, who will give comedy

acrobatic and juggling acts at Lake Ontario Park all this week, and "Joe" Delano, in a musical act, arrived in the city to-day, and will be at Lake Ontario Park to-night. The bill for the week is a strong one. In addition to these two acts, there will be new moving pictures.

O. You Weather Man.

People who were out on the water,

in small boats, during the storm, on Sunday, had great stories to tell, to-day, about their experience. A number who went to Kingston Mills were caught in the storm. Many motor boats were put out of business by the rain, and the owners had to depend on their oars.

Engagement Announced.

Mr. and Mrs. Walter C. Stratton, of Deseronto, announce the engagement of their daughter, Etel May, to Gordon Holland, Toronto. The marriage will take place the last day of Au-

IN MARINE CIRCLES.

Movements of Vessels in and Out of Port.

At Swift's wharf: Steamer Rideau King cleared for Ottawa; steamer Dundurn called on her way to Montreal; steamer Belleville called on her way west; steamer North King and steamer Toronto, down and up on Sunday. The steamer Brockville carried, an excursion from Alexandria Bay and Thousand Island park on Monday morning, and the passengers were given a tour in the city, and then left for Picton.

The steamer Althea, down from bay points.

At Shipbuilding Co.: The new steamer Bellesasse entered the drydock on Monday morning, to have her wheels put on.

The steamer Jeska cleared for Oswego, to load coal for Rideau canal ports.

The steamer City of Ottawa, passed down, on Sunday morning.

The steamer Tellalt passed up, on Sunday.

M. T. C. O.'s elevator: The steamer Hamilton arrived from Fort William, and is discharging a cargo of barley, oats and wheat, will clear for Balaclava, to load cement for Fort Williams.

Crossed by Emerson, from Oswego, with two coal barges, cleared for Montreal, with two coal barges and one grain barge; steamers Turret Court and Tagona, grain-laden, from Fort Williams, are due to arrive tomorrow, to discharge.

The People's Oil and Fuel company purchased the steamyacht Captain Dave Waggoner, of Alexandria Bay, and will take the boat to Oswego, the home office, where she will be equipped as a supply boat.

The schooner Katie Eeles, is at Richardson's wharf, loading feldspar, for Charlotte.

The stormy weather on the lake has been causing a great deal of delay to vessels.

ABERNETHY'S**A DOCTOR FOUND DEAD**

IN WELLINGTON STREET HOUSE SATURDAY AFTERNOON.

The Late Dr. Daniel Meagher, of Montreal — Went to Charles Brophy's to Spend Night Alone—Died on Saturday.

Death came very suddenly to a former well-known Kingstonian in the person of Dr. Daniel Meagher, for many years a resident of Montreal.

Meagher arrived in the city on Wednesday last on a visit to his sister, of the House of Providence. Deceased had also been staying at Longwood Park, with Charles Brophy. Friday he was in the city and stayed once at the home of Mr. Brophy, 11 Wellington street, over night. Mr. Brophy, on going to his home between 4 and five o'clock on Saturday afternoon, was startled to find Dr. Meagher lying dead near the stairway. He had been dead some hours, and Dr. A. E. Rose, coroner, who was called, stated that he had been subject to heart failure and that an autopsy would be unnecessary. The remains were taken in charge by John McAuley, undertaker.

Dr. Meagher was held in the highest esteem by his many friends and all were very sorry to hear of his sudden death. He was about sixty-eight years of age and unmarried. He graduated from Queen's Medical College in 1867. He is survived by two sisters, Reverend Sister Mary of Loretto; Margaret Amanda, and three brothers, Frederick, William, and George. Deceased was a brother of the late Meagher Bros. John and Joseph, wholesale wine merchants, of Montreal.

The funeral of the late Dr. Meagher took place, Monday morning, at St. Mary's cathedral, where mass was said by Rev. Father McDonald. The three brothers, Messrs. Frederick, William and George Meagher, and Charles Brophy, acted as pall-bearers.

No More Marathons.

cause Post-Standard.

The Marathon killed the Greek boy, who ran the first Marathon in history. It killed the Portuguese Lauro at Stockholm. It nearly killed the Hungarian runner who fell when Lazarus did.

A Frenchman cried hysterically all the last two miles of his wobbling course.

Scarcely one out but admitted trained men but admitted hallucinations akin to delirium. Strohins, when he finished could not stop running, he officials had to pull him from the track. Ryan, approaching the turn, met McArthur, the winner, coming back. He was dropping ropes of foam from his mouth: "He scared me like a mad dog," said Ryan. Athletic tradition holds that there is only one good Marathon-in-one-man. The man is never the same again.

Lazarus's collapse and the moral torture of twenty other men in the

Marathon event are what spectators

there should be no repetition of such heart-breaking and man-killing exhibitions.

Trespassers on Railroads.

During the past ten years more than 50,000 trespassers on the railroads of the United States lost their lives and more than 54,000 were maimed and permanently crippled. The number of passengers killed in the same period was 4,349 and the trainmen who lost their lives numbered less than two-thirds of those killed while walking on the track. Grade-crossing accidents are not included in these statistics of the interstate commerce commission. On an average, fourteen trespassers are killed and eleven injured every twenty-four hours. Disobedience of the injunction to keep off the track is the cause of considerably more than one-half of the slayings on the rail.

Mr. Roosevelt's Feats.

St. Lawrence Post-Standard.

The personally conducted convention of Theodore Roosevelt for president of the United States.

He cannot be elected. His avowed intention is to destroy the republican party and to make his progressive party its legacy. He hopes to develop the strength which shall enable him to take over the republican party and make it his instrument.
