GENERAL BOOTH'S BODY BORNE TO THE GRAVE

Greatest Funeral Since That of King Edward.

120,000 IN CORTEGE

WHICH PASSED THROUGH TWO MILLION PEOPLE.

Casket Borne in Hearse, Headed by Banner General Booth Placed on Mount Calvary—Lord Mayor Stood at the Salute.

London, Eng., Aug. 29.—Twenty thousand Salvationists massed in fifty-one brigades, with forty bands, this afternoon, accompanied by a hundred thousand sympathizers, marched, today, through packed ranks of sympathizers, estimated at two million people, to Aveney Park cemetery, to lay the body of the late Commander William Booth to rest beside his wife, buried there twenty years ago. The body was borne in a hearse, surmounted by the army flag, and accompanied by the army band, and a band of Salvationists. Directly preceding the hearse was the banner which General Booth placed on Mount Calvary with his own hands.

General Bramwell Booth and his staff, marched in the rear. All were on foot, including representatives of King George and other royalties. The lord mayor of London, in his robes of office, stood at the salute on the steps of the mansion house as the procession passed there. It was the greatest funeral since King Edward's.

Bramwell Booth, the army's new commander in chief, in an interview, said: "It is my great hope to make men realize the value of citizenship and their relation and responsibility to the community, getting away from the pauper idea."

"Thus the social work of the Salvation Army is for the future (its fundamental object). The difficulty of unemployment both in England and America is the most complicated problem of the communities. We have strenuously urged for years the establishing of detention colonies for vagrants. We see in them safety for society and also the one hope of restoration for many vagrants who now are hopeless and whose habits menace society. But God forbid we should propose more prisons."

"The prisons must be dominated by the spirit of human sympathy and religious influence. The inequalities of the law are gravely to blame for the wretched conditions in which the submerged criminal classes are found."

"How easy society finds it to look

up all sorts of undesirable, afflicted people. Society has to pay, but let us make sure the officials understand that the country is tired of the old costly methods and wants no new courses of penal medicine to add to the universal suffering; but is determined to have an entirely new treatment of every needy individual according to his requirements."

FLOODED FROM HOMES.

Seven Thousand Homeless in Norwich, Eng., Alone.

London, Aug. 29.—The cessation of rain in some parts of England after a month's downpour has not been accompanied yet by an abatement of the floods.

Norwich, in the east, is still cut off from the outer world except by telephone. Ordinarily 170 trains enter and leave the city every day, but not one has arrived or departed since Monday. The traffic on the Great Eastern is demoralized. Many parts of the line are flooded, so that the trains are obliged to creep along slowly.

Traffic for twelve miles each side of Norwich has been entirely suspended. Rescue operations are proceeding in that city, where many houses in the lower part of the town have been inundated up to the second floor. Women in some instances impede the work, refusing to leave their homes and having to be forcibly removed.

General Bramwell Booth and his staff, marched in the rear. All were on foot, including representatives of King George and other royalties. The lord mayor of London, in his robes of office, stood at the salute on the steps of the mansion house as the procession passed there. It was the greatest funeral since King Edward's.

NAVY OUT OF POLITICS.

Scanty Meeting of Regina Citizens Unable to Agree.

Regina, Sask., Aug. 29.—Only ten turned out to a meeting for which invitations had been sent out to leading citizens for the purpose of considering a memorial to the governor, having for its object the taking of the navy question out of politics.

J. F. Pole, M.L.A., stated that he considered it a sorry state of affairs that the Borden ministry of the responsibility in an awkward situation and the same attitude was taken by W. M. Martin, M.P.; J. H. H. Young considered that the idea was a good one and that the true interests of the empire would be best served by the adoption of the principle contained in the Toronto memorial.

In view, however, of the apparent inability to obtain unanimity in the matter, he moved that the meeting adjourn without taking action. The motion was carried.

SPIED ON IN PRISON

Lieut. Pecker Alleges He Caused Excitement by Calling a Man a Liar in the Jail Corridors.

New York, Aug. 29.—Police Lieutenant Pecker caused a bit of excitement in the corridors of the Tombs yesterday, while taking his exercise, by leaping vituperation on the head of James B. Hallen, a convicted lawyer, who told the district attorney yesterday that he had overheard a conversation in the prison between Becker and Policeman White, one of the two former members of the strong arm squad, who had been indicted for the alleged frame-up against "Big Jack" Zelig.

"You are a liar," shouted Becker, when he accosted the lawyer.

Hallen turned away and said nothing. Becker continued his tirade, charging that besides Hallen he had been spied upon by one of the prison dogmen.

BRANDON TO INVESTIGATE

Its Police Force and Magistrate Subjects of Enquiry.

Brandon, Man., Aug. 29.—Resulting from certain charges brought against the local police force by leading members of the Social and Moral Reform League, the city council has appointed Judge Cumberland to conduct a thorough investigation into the charges. The city and the Social and Moral Reform League will have legal representatives. The resolution appointing Judge Cumberland was passed at the special session of the city council and mentions the name of every member of the police force and Magistrate Bates as well.

It states that it has been alleged that the chief and his force have been negligent in the performance of their duties with regard to the trial and prosecution of bawdy houses, gambling houses and prostitutes in this city. It has also been alleged, the resolution says, that the police do not perform their duties owing to the influence of the chief of police over them in connection with the above matters.

CHRISTIANS FLEE

In Fear of the Turks on Montenegrin Frontier.

Constatinople, Aug. 29.—The panic among the Christians in the vicinity of the Montenegrin frontier was, yesterday, brought officially to the attention of the Ottoman government by the Serbian legation.

The Serbian legation informed the Turkish ministers that owing to the possession of arms by the Mohammedan Arnautes, many of the Christian population of Simitli, a district in the vicinity of the Sanjak of Novi-Bazar, are seeking refuge in Serbia.

At the same time the Serbian government admitted that it had no confirmation of the reports of massacres.

The Porte replied with assurances that order would be maintained by Turkey in the district. A denial was given to the reports that arms had been distributed to the Albanian Mohammedans; who, it was declared, had pillaged the arms depots.

The Turkish authorities are taking measures to re-establish effective authority.

The schooner was bound from Spanish River to Sarnia, Ont., with a cargo of lumber, which may be saved.

BOURASSA MAY RUN IN THREE RIVERS, QUE.

Backed by Clerical Influence and Nationalists Against Everybody and Everything.

Ottawa, Aug. 29.—It is understood that Henri Bourassa has been offered the nomination for Three Rivers by the nationalists and that he has accepted. Three Rivers riding is not as yet open, but there is a protest which comes before the supreme court very shortly. However, it is generally accepted that Jacques Bourasa will be unseated. If Mr. Bourassa runs it will create an awkward situation all round. The conservatives can not support Mr. Bourassa and yet with the nationalist leader in the field they have little chance of electing their own man. Clerical influence is very strong in Three Rivers and it is understood that the clergy are back of the invitation. Mr. Bourassa, under the circumstances, will make a dangerous candidate, particularly if there is a three-cornered fight. He will run as an anti-navy, anti-Laurier, anti-Borden and anti-everything else candidate. Previously Mr. Bourassa was offered the nomination for Richelieu, but refused, as the nationalist movement is not particularly strong in that riding.

WARSHIPS SENT TO SAMOS.

Britain and France on Watch for Cretan Filibusters.

London, Eng., Aug. 29.—Warships are to be sent to the island of Samos by both Great Britain and France to prevent the landing of filibusters from Crete. Reports have been circulated that parties of Cretans were organizing an armed expedition to Samos to attempt to seize it, depose the prince, and annex the island to Greece.

Canon, Crete, Aug. 29.—The French armored cruiser Bruix left yesterday for Samos to suppress any attempt to execute the reported design of armed Cretan filibusters to annex the island and hoist the Greek flag.

MULATTOES INCREASING.

Addition of 8.9 Per Cent. of Half-Breeds Since 1870.

Washington, Aug. 29.—A census bureau report shows decided increase in mulattoes since 1870. In continental United States there are 9,827,763 full-blooded negroes and 2,050,686 mulattoes, or 20.9 per cent. of the total negro population. That is an increase of 8.9 per cent. of mulatto blood since 1870. The report says:

"The figures taken at their face value show that about one-fifth of all the negroes in 1910 had some admixture of white blood, as against about one-eighth in 1870."

STRANDED CANADIANS AIDED BY GOVERNMENT

And Forty Injured in English Train Wreck.

London, Eng., Aug. 29.—George Reynolds, K.C., and Capt. Rawlinson Padgett, of the Grenadier Guards, were instantly killed, and forty others were injured, this morning, when the businessmen's train on the South Western railway was wrecked, in Vauxhall, one of the London boroughs. The train going fifty miles an hour, leaped a switch and ran into a standing goods train.

MONEY FOR PASSAGE HOME HAS BEEN CABLED

TO VANCOUVER CADETS

WHO ARE OUT OF FUNDS IN AUSTRALIA.

Ottawa, Aug. 29.—The dominion government has just come to the rescue of a company of Canadian cadets who are far from home. Some weeks ago arrangements were made for a visit of cadets from Vancouver to Australia, the funds being provided by private subscription. The cadets in due course said au revoir to the shores of Canada, and started across the Pacific. They were given a royal reception in the commonwealth, and a somewhat extended itinerary was arranged for them there.

The Canadians were scoring peaceful victories in unbroken succession, when the disquieting discovery was made that the funds heretofore mentioned were dwindling with unexpected and alarming rapidity. The financial situation became more acute as the tour continued, until at last the company was confronted with the possibility of having to spend the rest of its days in Australia, for lack of the means to return. In this painful extremity an appeal was made to the government at Ottawa.

The consideration given to the supplication of the Canadian expatriated in the Antipodes was careful, but sympathetic. It has been decided that a perfectly good company of youthful citizens is worth bringing back to Canada; and, following this decision, the sum of one thousand dollars is being sent by cable to Capt. Davey, who is in command of the cadets.

WHY SIR WILFRID WILL TOUR QUEBEC

The Story of Differences in Liberal Party Are Absolutely Without Foundation.

Ottawa, Aug. 29.—The report that Sir Wilfrid Laurier has decided not to go west on account of differences in the liberal party over reciprocity and the navy is absolutely without foundation.

The conference at which this was decided on was an informal affair. Those in attendance included C. A. Foster, secretary-treasurer of the Tomsking liberal association, who argued that Sir Wilfrid had given an early promise to visit Northern Ontario, and that if the trip was delayed till October the roads would be in bad condition.

It was shown that October would be a more suitable month for holding meetings in the prairie provinces as the farmers will be busy until the end of September.

In view of these representations it was decided that it would be better for Sir Wilfrid to commence his trip in Quebec and work westward.

The statement that any differences of opinion were expressed as to the navy and reciprocity is treated as a joke by those who took part in the conference.

STUP MAKING FREAK SIDES.

The Retail Dealers Adopt Resolution at Utica.

Utica, N.Y., Aug. 29.—The New York State Retail Shoe Dealers' convention, in session here, passed a resolution asking manufacturers to standardize styles of shoes and to stop making freak sides. They claim that the loss they sustain on freaks and changes in styles is one of the prime causes for the constantly increasing price of shoes. Also a resolution was passed asking the national organization to move in the effort to dissolve the monopoly held in some of the machines used in the manufacture of shoes, as they hold that this adds materially to the price.
