The flies that are now in your kitchen and dining room were probably feasting on some indescribable nastiness less than an hour ago, and as a single fly often carries many thousands of disease germs attached to its hairy body, it is the duty of every housekeeper to assist in exterminating this worst enemy of the human race.

## AN EXCELLENT COMEDY

PRESENTED AT THE GRAND ON MONDAY.

"The Bachelor's Baby" Pleased Large Audiences—The Company a Strong One—The Premier Production in Kingston.

Francis Wilson's great play, "The Bachelor's Baby," presented by the Colonial Theatre Company, Ltd., was the offering at the Grand, on Labor day, and it delighted two large audiences. Etienne Girardot, the original in "Charley's Aunt," the man who made this ever popular play famous, has the leading role, that of "Tom" Beach, who has a terrible dislike for children, and he is surrounded by an exceptionally strong company. The play is brimful of good, clean comedy, and at the same time, tells a very interesting story—that of a man who looks upon children as a great nuisance, but who is eventually won over as a great friend of the little folk, through love. It is a play that strikes the heart of everyone in the audience. It is the kind that appeals to every theatregoer and goes to show the truth of the old saying that "love will find a way," and it did find a way for "Tom" Beach, when he was made guardian of his brother's child. The story is capitably told in three acts.

Hugh Wynne, another English comedian, filled the part of the butler in splendid style. Another English actress, Helen E. Davidge, the grand daughter of the Davidge who was a prominent actor at the old Drury Lane theatre in London, Eng., played the role of the bachelor's aunt. She has usually had comic roles, but showed versatility by stepping into an emotional part which she filled splendidly. Baby Wilson in the part of the child was as cute and natural as could be. She has a lengthy speaking part, and excelled herself. Dorothy Turner, a Canadian girl, was charming in the role of "Winifred West." All the other parts were capably taken.

Although the Kingston engagement was the opening one of the season for the company, the play was given with a polished finish. Special mention is due the stage settings. The play is beautifully staged, in fine taste, the furniture and all the equipment being carried by the company, not one piece of it being supplied by the local house. The entire outfit is new, and with such a popular play and a strong cast, the manager, F. H. Stevenson, should be assured of great success during the season.

## DOCTORS SAID IT WAS HEART FAILURE

And Gave Me Up—But "Fruit-a-lives" Cured Me

MOORFIELD, Ont., March 25th, 1910

"I suffered from severe indigestion and dyspepsia for nearly two years. I could not take food without fearful distress. Two doctors thought my disease was heart failure and incurable, and I expected to die in a short time. My son asked me to try 'Fruit-a-lives'."

From the outset, I was better and gradually this fruit medicine completely cured me.

I took perhaps a dozen boxes—now I am cured and have gained over 30 pounds in weight."

HENRY SPEERS (Justice of Peace) "Fruit-a-lives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c—or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

Storm in Fruit Belt.

Niagara Falls, Sept. 3.—When the worst electric storm in months broke over the Niagara district Saturday several barns, outbuilding and trees were struck by lightning. The telephone, telegraph and electric wires were damaged and fruit also suffered considerably.

The latest new survey made on the proposed electric railroad from Utawara to Brockville, strikes the village of Lombardy. With the C.N.R. line passing through there and good prospects of an electric line going through, it looks as if Lombardy was soon to enjoy a boom such as it had never known.

## BUILDING IN THE CITY

RECORDS SHOW BIG INCREASE IN WORK UNDERTAKEN

For the Seven Months of This Year Estimated Expenditure is \$378,504—During the Month of August the Amount Reached \$90,985.

Kingston is making great progress in the building line, as the records go to show, and with the latest proposition on foot, to erect houses for working men, the city can certainly be regarded as making great strides in building.

During the month of August, building permits were taken out at the city hall, for work estimated at \$80,985, while the amount taken out for the same month a year ago reached \$44,000, showing an increase of almost double the amount.

For the month of July permits were taken out for building estimated at a cost of \$73,350, and a year ago, the same month, \$36,137.

It is interesting to note the amounts for the year 1911, up to the end of August, and for the same period this year. For the first seven months last year, the amount of building was estimated at \$216,661, and for this year, \$378,504.

Charles Moulton to-day took out a permit for the erection of a frame dwelling, on the south side of York street, at the corner of Chatham.

LAST CRUISE OF SEASON

By the Local Sailing Yachts Held on Saturday.

The last cruise of the season of the yacht club was held on the last day of the week-end to Amherst Island and vicinity. Commodore Hansford Hora, Lt. Col. F. Strange, and a goodly number of the yachtsmen "set sail" about three o'clock on Saturday afternoon.

Six craft were present, including the Harbormony, Kathleen, Little Nell, and Chirva. Saturday night was spent at Stella, and the fleet moved to Macdonald cove on Sunday. The yachtsmen "scouted" around this vicinity, as it will likely be the spot where next year's meet of the Lake Racing association will be held.

They had lunch at Collier's Bay on Monday, and arrived back at their club house about five o'clock in the afternoon.

COMING TO THE GRAND.

"The Flirting Princess," on Saturday, the 7th of September.

A merry band of joy and a grim gang of glooms have escaped from Tom Powers' famous cartoons and taken to the stage. This may be seen in Harry Bulger's newest edition of the musical comedy, "The Flirting Princess," which comes to the Grand on Saturday, Sept. 7th, matinee and night, under the direction of Mort H. Singer. The "Joys and Glooms" is one of the most whimsical features of this entertainment. These spirits of caricature appear in a song styled the "Joys and Glooms," and the costuming carries out artist Powers' conception skilfully.

APPOINTED TO QUEEN'S.

Dr. John Adams, of Los Angeles, Cal., Comes Here.

Dr. John Mead Adams, who for three years held the chair of physics at the Occidental College, in Los Angeles, has accepted a chair in Queen's University. Dr. and Mrs. Adams are en route to America from Europe. Dr. Adams on reaching Montreal will come at once to Kingston. Dr. Adams is a Harvard graduate and has been an important member of the Occidental faculty. He takes the place of Prof. Kalmus in the physics department of the School of Mining.

FOUND DEAD AT ATHENS.

Robert Taber, a Well-known Resident, Died on Sunday.

Athens, Sept. 2.—Our villagers were shocked, on Sunday morning, to hear that Robert Taber, a highly-esteemed resident, had been found dead in bed. A doctor was hastily summoned and gave his opinion that he had passed away several hours previously. He is survived by his widow, two sons (one of whom is now home on a visit from Manitoba), and four daughters. In religion he was a Methodist and in politics a conservative.

**BETTER DINNERS**

"Is dinner ready, Mary?"

"Yes, Madam—it is ready, and, I think, a great success."

"Your cooking is improving."

"Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of."

"That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also because of the better meals he is getting."

"Indeed he's right, Madam—and it requires so little attention."

"That's fine, Mary. Will you serve dinner in a few minutes please."
