

The Daily British Whig

YEAR 70-NO. 211

KINGSTON, ONTARIO, TUESDAY, SEPTEMBER 10, 1912.

LAST EDITION.

KINGSTON SHOULD HAVE INDUSTRY COMMISSIONER

Mayor Hoag Urged City Council to Appoint One.

COMMITTEE USELESS

HAS JUST BEEN A FARCE.

MAYOR SAID.

A Paid Official is Needed to Devote All His Time to Trying to Secure Industries to Locate in the Limestone City.

Claiming that the appointment of an industries committee is but a "farce," and that if the city is to go ahead in the way of securing new industries, an industrial commissioner should be appointed. Mayor Hoag, at the first meeting of the city council, for the fall term, rather stirred up matters, and his "starting the ball rolling" will, no doubt, bear good fruit.

At the start, it might be stated that Mayor Hoag has no complaint to make whatever, regarding the work of the chairman of the industries committee, Ald. Shaw, and his colleagues. He is of the opinion that they have been doing all in their power to land industries for the city, but what he believes is that the system is wrong—that there should be a paid commissioner, and one who has the authority to act in such matters.

Further, it is the opinion of his worship, that the city will not be able to secure new industries unless action along this line is taken.

There was some discussion, after the remarks of the mayor, but no action was taken, although council may deal with it later.

Mayor Hoag brought the matter before council, after the chief business of the council had been disposed of. He wanted to know what the industries committee had been able to do for the city, and stated that he regarded the committee as a "farce." If it could be shown to him what the committee had been able to accomplish he would be quite willing to retract his statement. He had, himself, received many communications from firms desiring location, and he had referred them to Ald. Shaw, the chairman of the industries committee.

The mayor asked as to just what power the committee had in dealing with the matter. He believed that the city should have an industrial commissioner, who would have the time, etc., to follow up these matters.

"So long as we play with industries we have in the past," he added, "just so long will we be without industries." "Let us appoint Ald. Shaw for the position," remarked one of the aldermen.

"That would be all right," said the mayor, "but give him some power. Remember, I am not finding fault with Ald. Shaw and the members of his committee. They are doing all they can, but remember they are handicapped." Ald. Shaw stated that his committee could give a report at every meeting of the council during the year. The committee, he pointed out, had received communications from all over the country, regarding firms looking for a location, and he and the members of his committee had been doing their utmost to try and get the firms to locate in Kingston. The committee had pointed out the advantages of Kingston and had shown men over desirable property. The work of the committee might appear as being a "farce," but the committee had certainly been doing all in its power. The chairman stated that he had made a trip to Toronto himself in an effort to get a concern to locate here.

Ald. Ross stated that in ex-Ald. Craig's time the latter had a great deal of correspondence with firms desiring to locate some place, and that he had endeavored to help Kingston. There was evidently something wrong. He referred to the case of the National Manufacturing Co., which was now located in Brockville. He ventured to say that none of the members of council had known that this firm had been looking for a location. The situation was rather a gloomy one.

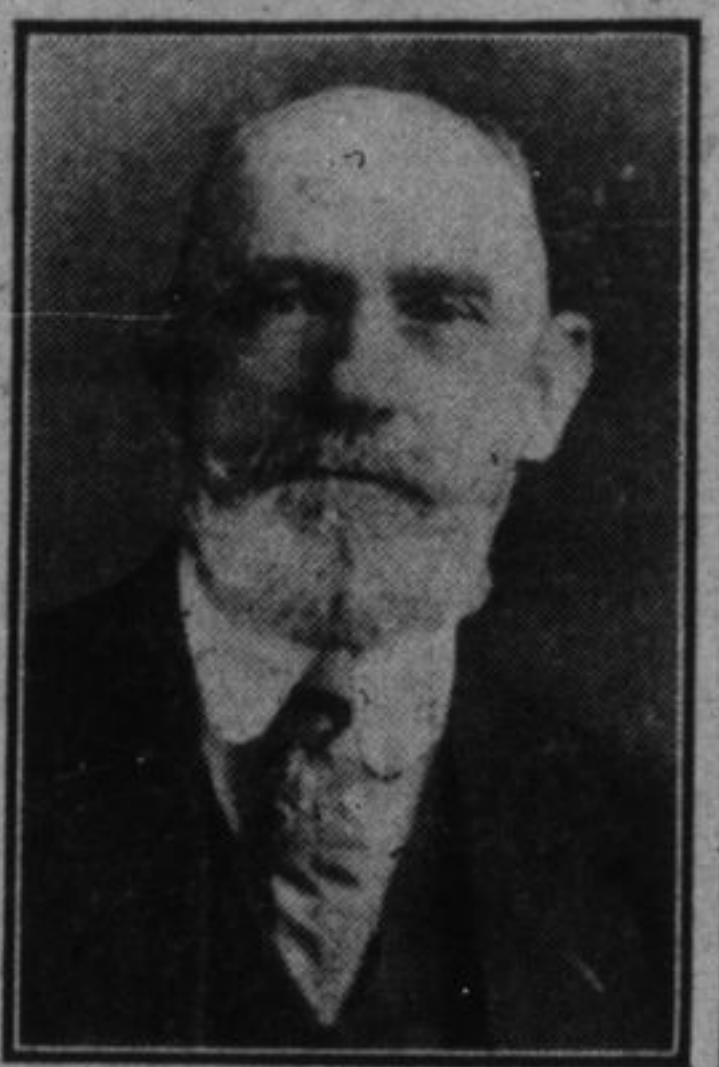

The mayor said it was up to the council to remedy the matter by the appointment of an industrial commissioner. Nearly every other city had a man for this work. The matter was given considerable discussion, but was allowed to drop, with no action being taken.

Ernie Marks' Stock Company. "Ernie" Marks and his well-known stock company, who need no introduction to the thronging public of Kingston, will appear at the Grand for three days, commencing next Thursday, September 12th. The supporting company this season is the best that can be procured. The opening bill is a play especially adapted for the ladies. Several well-known artists with high class vaudeville specialties will also appear, making a continuous performance.

Ottawa paid tribute to Premier Borden on Monday.

"Nyal's family remedies." Gibson's.

DAILY MEMORANDA. See top of a right hand corner for probabilities.

MAURICE FRANCIS EGAN, United States minister to Denmark.

PROBLEMS AWAITING THE BORDEN CABINET

An Early Session of the House of Commons is Absolutely Improbable.

Ottawa, Sept. 10.—After the tumult and demonstration incidental to the return of the premier terminates, the cabinet council without delay, will get down to the accumulation of work which awaits its attention.

One of the first duties will be a survey of the situation to determine what date is preferable for the assembly of parliament. Then a great budget of legislation for presentation to it must be prepared. Opinion seems somewhat divided as to whether the house will meet in November, or only in January. The question has not yet been considered.

Of outstanding importance is the naval question, and the policy to be determined in connection with it. The prime minister has made it clear that no decision has yet been arrived at, and that none will be until additional information from the British admiralty is forthcoming. There need be no surprise, therefore, if an adjournment is not made till parliament assemblies.

THE OUTLOOK ATTACKS

The United States Over the Panama Canal Bill.

London, Sept. 10.—The Outlook this week, attacks the United States on the Panama affair. Among the articles is one headed, "The Apostle of Arbitration," which is an attack on President Taft. This article ends: "President Taft will have to climb down from the extremely elevated position he has assumed. Happily, the American people, to their great credit, have refused to support their president in his recent doings."

In another article, the Outlook says: "By the convention of Constantinople, included in the Hay-Pauncefote treaty, the United States must make sure and just charges on all users of the canal. The Suez Canal company, having done so, may divide its profits, but the United States is not, or should not be, a commercial concern. The states, however, are claiming the right to levy tolls, to meet all charges of construction, maintenance, working, and interest on capital, on all ships but American. They make profit out of the canal as well as unfairly burden their competitors."

GUARDING THE KING FROM THE MILITANTS

The Switzerland Outrage at Balmoral Castle Has Aroused Much Feeling.

London, Sept. 10.—Intense feeling exists locally against the Switzerland outrage at Balmoral castle, where the king and queen are in residence, and should they be found in the district they are likely to suffer rough handling.

No arrests had been made up to last night, and it is believed, those responsible for the affair are now back in Aberdeen, where the plot is said to have been hatched.

The opposition is that the attack was aimed more particularly at Premier Asquith and Winston Churchill, both of whom, it was believed, were at the castle. As a matter of fact, neither were there.

A large number of police and detectives are on duty at Balmoral, but no further trouble has been caused by suffragettes.

Strangers are prohibited from entering the castle grounds without a special permit and in view of possible raids the ordinary household police force has been substantially increased, and arrangements made by which the castle precincts are effectively patrolled day and night.

No doubt is felt that these precautions will be sufficient to protect the king from further annoyances.

Col. Whitehead, a veteran military man, of Montreal, died on Saturday night.

Lost tribe of white people discovered east of the Mackenzie river.

Forty thousand Chinese were killed in typhoon.

TO DEFEAT BRITAIN.

Enemy Would Only Have to Cut off Supplies of Nitrates.

New York, Sept. 10.—There would be no ammunition for British guns in time of war should Great Britain's enemy cut off her supply of nitrates from Chile, according to a declaration made by Dr. Samuel Eddy, of Christiania, Norway, before the eighth international chemical congress at Columbia University. Dr. Eddy, who is regarding in Europe as an eminent authority on atmospheric nitrogen, declared that in Norway nitrogen sufficient to generate 200,000 horse power was now being taken from the air. "It has been taken by grant," Dr. Eddy said, "that an unlimited supply of ammunition was always to be had. As a matter of fact, that is not so. With all her strength, England could not put out of commission simply by cutting off her nitrates, the essential ingredient of explosives, from Chile. Nitrate of ammonia produced from atmospheric nitrogen is very pure, and according to the experience of the British navy it has a great bearing upon the life of the heavy guns, the purity of the product being the best discharge."

AUSTRALIA'S NAVAL COLLEGE

To be Near Sydney, and Will Accommodate 150 Cadets.

Sydney, N.S.W., Sept. 10.—The new Australian naval college will be erected at Jervis Bay, a convenient inland port south of Sydney. Besides the classrooms, laboratories, etc., there will be barracks and recreation rooms, and an extensive power and refrigerating plant. The building groups will cover four acres of ground.

The scheme in full working order will see 150 of Australia's budding naval officers studying at the college. Midshipmen-cadets, on passing the required examination, are to be entered at the age of thirteen, all expenses will be paid by the government, which will even provide pocket money.

The college term is four years. They will follow six months on an instructional cruiser, then two years' service training at sea, and at the end of that time, after passing the necessary examination, the young officer will begin his career as a sub-lieutenant. His college should be finished and ready some time in 1914.

EDISON FORGOT TO SLEEP.

Worked 122 Hours Out of 144 to Perfect Disk Phonograph.

West Orange, N.J., Sept. 10.—Despite his advancing years, Thomas A. Edison was so busy last week that he found time for less than twenty-two hours' sleep in the course of the six work days. By his own accounting he worked 122 hours of the 144 to hard work.

This sport of energy was inspired by the need of finishing touches on his disk phonograph. Today he was ready to say that the invention was about perfected, and he hopes and believes that he will be able to put it on the market by October 1st or thereabouts.

QUEEN LEARNING GOLF.

"Driving is Strong, But Occasionally Weak," Says Princess Mary.

Aberdeen, Sept. 10.—Princess Mary is learning to play golf at Balmoral in emulation of her daughter, who has recently been playing daily there. Her majesty, who has often expressed amazement over the infatuation for the game of ardent golfers, took her first lesson yesterday. At its conclusion she expressed the opinion that the game was "very bracing, but tiring." Her daughter, Princess Mary, is quoted as saying of the queen's play: "Mother's driving is strong, but occasionally weak."

Robbed Pastor's House.

While Rev. T. E. Bourke was absent from his home, conducting services in Mountain St. Methodist church, Montreal, on Sunday morning, thieves entered his house and stole \$100 worth of wearing apparel.

John C. Brinnett, of Belleville, died while sitting at a meal in his home.

WOULD REDUCE

The Aldermen From Twenty-One to Fourteen.

ALSO REDUCE TERM

FROM THREE-YEAR PERIOD TO TWO-YEAR ONE.

Notice of Motion Presented to the City Council by Ald. Harrison.—The Question Will Likely be Submitted to the Vote of the Ratepayers Next January.

That the number of aldermen in the city council be reduced from twenty-one to fourteen, and that the term of office of aldermen be reduced from three years to two years.

The above is a summary of a notice of motion given at the city council on Monday night, by Ald. Harrison, and it promises to bring about a lively debate in council, which will come up in the form of a motion, and can be discussed. The fact that it was left on the order paper as a notice of motion, saved what would likely have been a lively and interesting discussion.

Ald. Harrison has also the idea of cutting down the number of committees.

It will be remembered that last year Mayor Hoag, acting as an alderman, seconded by Ald. Harrison, brought forth such a motion, but it was not adopted. Mayor Hoag again referred to the matter, and, during the early part of this year, his worship brought the matter to the attention of the civic finance committee for consideration, but the members of the committee decided to allow the matter to remain open until near the end of the year.

The question is one which will have to be submitted to the people at the January elections, and afterwards ratified by the legislature. At various times, there has been an agitation on the part of many citizens, to cut down the membership of the council, and also the term of office.

To Have More Track Events.

The labor day celebration committee has decided that next year, it will have a longer track programme. The track events at the annual address, this year, Mayor Hoag again referred to the matter, and, during the early part of this year, his worship brought the matter to the attention of the civic finance committee for consideration, but the members of the committee decided to allow the matter to remain open until near the end of the year.

THE POPE ENJOINS RELIGIOUS UNITY

His Holiness Councils Roman Catholics in France to Avoid Dynastic Opposition.

Paris, Sept. 10.—Gloom has been cast over French royalist circles by the unequivocal instructions given to Roman Catholics, through the medium of Mgr. Campistron, bishop of Amiens, not to ally themselves with the parties of dynastic opposition in France.

On receiving Mgr. Campistron's audacious recently, the pope enjoined him to "unite all Catholics on the grounds of liberty only under the banner of the cross."

More precise instructions were issued to the bishop by Cardinal Merry del Val, the papal secretary of state, who counseled French Catholics to keep clear of the royalist cause. His opinion of the hopeless nature of attempting to overthrow the republic is made clear.

TRIPLETS START SCHOOL TOGETHER

The birth of triplets is not an uncommon thing, but it is very seldom that said triplets live till the age of seven years and start school together. The robust trio above were photographed on the bench at St. Elizabeth's street school, Toronto, where they started to learn their letters yesterday. The boys are: Max, Samuel and Charles, respectively, sons of a respected German-Canadian family. They were born and raised in Toronto.

MODERN BLUEBEARD KILLS

Seven Wives and Suicides—Eight Wife Escapes.

London, Sept. 10.—A score of Scotland Yard detectives are piecing together the facts coming to light regarding the life of a modern Bluebeard, whose last act was to blow out his brains, after saturating with petroleum and setting on fire the "blue room" in which lay bodies of one of his wives and three of his children, all murdered by him.

Scarcely wounded—now dying in hospital—his last surviving wife staggered, bleeding from many cuts, clad only in her night attire, into the street.

She escaped through a window, climbing down a drain pipe into an alley. It was the escape of his victim which caused "Bluebeard" to commit suicide.

The real name of the perpetrator of this chain of crimes is not yet ascertained. He posed at times as "Capt. Stirling" and called himself an American. In Eastbourne, where the murders were committed, he was known as Robert Charles Mackie. In Clapham he was Capt. Robert Hicks Murray.

TRADES CONGRESS EXECUTIVE

Venured Arthur Hawkes Borden's "British Born" Leader.

Guelph, Sept. 10.—The executive of the Trades and Labor Congress submitted its report this morning. It urged the appointment of a royal commission to report on mine conditions in Canada; that a commission be appointed to prepare a basis of legislation for old age pensions; endorsed Arthur Hawkes, immigration official of the Borden government, because he studied industrial conditions from the car window of a train on a flight from coast to coast. The idea was put forward that as capitalists of the world are all warring they should be allowed to do the fighting. Mrs. Henderson, of the Montreal juvenile council, made a plea for a women's pension act.

GAS BOMB INVENTED

For the Police to Overpower Entrenched Bandits.

Paris, Sept. 10.—The French police hereafter can fight desperate bandits without the usual risk attending their capture. Bonnot Garnier, at that time assistant to M. Lapine, asked the municipal chemists to devise means by which gas temporarily overpowering all criminals unable to maintain themselves for long against the police. For this purpose experts have submitted to the police department a bomb which is said to be highly satisfactory. The bomb, when exploded, gives off gas temporarily overpowering all those inhaling it. The idea is for the police, when the bandits are cornered, to explode the bomb and then rush in and effect the capture.

POSSIBILITY OF A STRIKE

That Would Paralyze Shipbuilding in Britain.

London, Eng., Sept. 10.—With the possibility of a strike which would paralyze ship-building, the boiler makers society and shipbuilders went into conference today. The national agreement expired yesterday, and the boiler makers want to do away with compulsory arbitration.

TWO MORE OFFICERS KILLED

By the Falling of an Aeroplane in England.

Oxford, Eng., Sept. 10.—Lieut. C. A. Bettington and Lieut. E. Hotchkiss, British army aviators, were killed this morning while flying past Wolvercote. The engine stopped and the machine dropped five hundred feet like a stone.

Fire Protection Force Stated

Victoria, Sept. 10.—A feature of the final session of the Canadian Forestry Association, on Saturday, was the slashing attack by Forestry Inspector Miller, of Calgary, on the federal fire protection force. He declared that the force was crippled in the mountain section by the inclusion of an epileptic music teacher, a bar tender, a barber and a man sixty-seven years old.

Memorial Window to Lord Kelvin

Boston, Sept. 10.—The members of engineering societies in this country are to erect a memorial window in Westminster Abbey to the memory of the late Lord Kelvin, who as Sir William Thomson, designed the first successful receiving apparatus for ocean cables. Representatives of five American engineering societies are on a committee to carry out the details of the plan.

Hurricane at Labrador

St. John, Nfld., Sept. 10.—Hurricanes have been sweeping the Labrador coast for a week doing immense damage according to a message wireless message to-day. One schooner was driven on the rocks and four people were drowned.

Hon. James Duff, Hon. W. H. Beatty and Hon. Dr. Pyle have left for a tour of the north, taking in Kenora, Keewatin, the Rainy River Valley, Twin Falls and other points.

Mrs. Thomas J. Morris, of Ottawa, was killed by falling from the unrailed roof of a four-story apartment house, where she was cleaning a carpet.

Governor Woodrow Wilson made two tariff speeches, in which he declared that in the main protected industries paid less wages than unprotected industries.

"Nyal's family remedies." Gibson's.

THE TOWNSHIP FAIR OPENED ON TUESDAY

J. BRUCE ISMAY, who will resign as president of White Star line.

ISMAY IS TO RESIGN

As President of the White Star and Allied Lines.

New York, Sept. 10.—Bruce Ismay, who became famous through the Titanic disaster, will resign the presidency of the White Star and allied lines at the end of the year, according to report here.

AN ENGINEER SLEPT WITH HAND ON THROTTLE

Train Tore Away at Fifty Miles an Hour—Death in Collision.

Harrisburg, Pa., Sept. 10.—Wilbert Stone, one of the most trustworthy engineers of the Pennsylvania railroad, went to sleep at the throttle early yesterday and now lies dead at Harrisburg hospital. Two other men were injured.

The train was made up of seven express cars. Leaving Philadelphia at 10.05 on Saturday night, it was due here shortly after 1.30 in the morning. It tore through the Harrisburg yards nine minutes ahead of time at the rate of fifty miles an hour, ignoring signals, and at the eastern end of the Union Station the engine jumped the track.

This derailed several express cars and these crashed into three empty wooden passenger coaches on the adjoining track and made kindling wood of them. Before Stone died he said he had gone to sleep "for a second."

SIR WILFRID'S PLANS

He Will be in Northern Ontario This Month.

Cobalt, Sept. 10.—The dates for Sir Wilfrid Laurier's visit to North Ontario have been fixed. On Wednesday, September 18th, he speaks in Cobalt, while the following afternoon he will address a meeting in Ville Marie, Que., across the lake from Haileybury. On Friday night he speaks in Cochrane, Hon. G. P. Graham and Hon. Charles Murphy will come north with the express.

Two Were Killed

Pittsburg, Pa., Sept. 10.—Engineer Scarsdale and Flagman Quick were killed, and six injured when a switching engine collided with a passenger train.

MINISTER'S WIFE DIES OF SEVERE BURNS

Mrs. Rev. F. A. Read, of Annprior, Suffers Unfortunate Accident.

Annprior, Ont., Sept. 10.—As the result of being badly burned at her home, on Saturday morning, Mrs. F. A. Read, pastor of the Grace Methodist church, died Saturday evening.

About eight o'clock Saturday morning Mrs. Read was putting some papers in the cook stove, when her clothing took fire. It was not until the fire had taken a good start that it was noticed by the maid, who immediately shouted to Mr. Read. They both ran to her aid, and after considerable difficulty extinguished the fire. It was not thought that the unfortunate woman was badly burned until three hours afterwards, when she fell into a deep sleep, from which she never awakened. The shock proved too much for her and she passed away at ten o'clock.

The late Mrs. Read was one of the most prominent women in Annprior, and was an active Christian worker. She had been secretary, corresponding secretary and vice-president of the Montreal branch of the Women's Missionary Association. On account of failing health she was forced to give up active church work. Since coming to Annprior from Montreal she had greatly gained in health.

Besides a husband, one daughter, one son, three brothers and three sisters survive. Mr. and Mrs. Logan, of Winnipeg, were visiting Rev. Mr. and Mrs. Read at the time of the accident. The deceased was fifty-one years of age.

DIED.

DILLON—In Kingston, at the residence of her sister, Mrs. John Crowley, 27 Johnston street, Kingston, Ontario, on Thursday morning at nine o'clock, to St. Mary's Cathedral, where a requiem mass will be sung for the happy repose of her soul. Funeral services will be held at 10 o'clock on Saturday morning.

REIDSON—At the Rectory, Gananoque, on Saturday morning, September 7th, 1912, John Realy Reidson, husband of Emily Reidson. Funeral services on Tuesday morning, September 10th, from Christ church, at 8 o'clock, and interment at Packenham, Ontario.

ROBERT J. REID, The Leading Undertaker, Phone 577, 230 Princess Street.

With the Sun Shining on Wet Grounds.

A SPLENDID DISPLAY

OF FARM PRODUCTS BY TOWNSHIP PEOPLE.

The Afternoon Events Consisted of Horse Races and a Baseball Match—The Odessa Band Furnished Music—Large Crowd in Attendance.

In spite of the rain early on Tuesday morning, the Kingston township fair, opened at the city exhibition grounds, with every indication of a thorough success. The entries were much more generally taken advantage of, and exceeded those of last year by a goodly number. There were last year fifty-six entries, while those of this fair amounted to seventy-two. The morning was largely preparatory and was spent in arranging the displays of produce of Kingston township.

The platforms of the crystal palace had a splendid display. As one entered he was greeted with the most welcome of a splendid row of poultry which occupied a long space on the platform. Then follow the exhibits of produce, grain in the sheaf and threshed, garden stuffs galore, potatoes that would bring tears to the eyes of the "Exile from Erin" and make his mouth water; great delicious ears of sweet corn, enormous heads of cabbage and cauliflower and all the healthy array of garden habitaants.

Then there was the row of orchard yieldings, arranged in the owners with the express purpose of reaching the hearts of the judges (through their stomachs) and looking as appetizing as possible. Honey, syrup, and canned fruit in abundance vied for the head place in the housewife's skill. The cheeses and home-made stuffs made a most agreeable combination at one table and art needle work of all kinds was shown opposite in a profusion that was utter bewildering to the mere man. Some very attractive samples of rug weaving were played, showing no small amount of ingenuity in their manufacture.

The stock exhibits, although booked, will not be at their best until Wednesday which will be the big day for the fair. The races for Tuesday consisted in the named race, mile heats for a purse of \$75, and township green race, half mile heats for a \$75 purse.

Among the other attractions was the baseball match in the afternoon between Pontiac of Kingston, and Wolfe Island.

The directors of the fair are: President, J. L. F. Sproule, Westbrooke; 1st vice-president, A. Day, Collins Bay; 2nd vice-president, W. E. Topfles, Glebevale; directors, F. Trudell, Collins Bay; W. Shannon, Glebevale; A. E. Weller, Kingston Station; H. J. Simpson, Cataragui; R. J. Bushell, Kingston; M. Fowler, Glebevale; E. K. Purdy, Cataragui; F. Gates, Westbrooke; John Baker, Cataragui; secretary-treasurer, J. W. Edwards, M.P., Cataragui.

If you have a nice plant, flower, or some choice fruit or vegetables, exhibit them. In this way you will not only benefit yourself, but will help to make the exhibition a success. We offer first, second and third prizes in every class.

"It pays" to buy drug wants at Gibson's.

DIED. DILLON—In Kingston, at the residence of her sister, Mrs. John Crowley, 27 Johnston street, Kingston, Ontario, on Thursday morning at nine o'clock, to St. Mary's Cathedral, where a requiem mass will be sung for the happy repose of her soul. Funeral services will be held at 10 o'clock on Saturday morning.

REIDSON—At the Rectory, Gananoque, on Saturday morning, September 7th, 1912, John Realy Reidson, husband of Emily Reidson. Funeral services on Tuesday morning, September 10th, from Christ church, at 8 o'clock, and interment at Packenham, Ontario.
