IF CARSON IS EXPELLED OTHERS WILL WITHDRAW

From Membership in the Privy Council

THIS DRAMATIC STEP

TO BE TAKEN IN BEHALF OF ULSITER

By Honar Law, Walter Long and Others—Ulster Unionist Council Will on Monday Adopt a Plan For Operation Should Home Rule Be Declared.

London, Eng., Sept. 21.—It is announced on apparently unimpeachable authority that, in the opinion of the law officers of the crown, Sir Edward Carson oversteps the line, the ministry intend to advise the king to remove him from the privy council. Well informed persons assert that Honar Law, P. E. Smith, Walter Long and others, though probably not Austen Chamberlain, on the front of the Ulsterist bench, will then dramatically resign their privy councillorships.

Carson himself does not disguise his hope that the ministry will be tempted to prosecute him as Gladstone prosecuted Parnell.

"So far the leading ministerial journals talk of the pitiful paraphernalia of Carson's abortive attempt to make England's flesh creep by a solemn league and covenant which carefully avoids words absolutely committing the signatories to criminal conduct." They call it a document of "collaboration" far removed from Carson's threats of a million armed Irishmen marching from Belfast to Cork, intent on shaking the throne and shattering the empire if home rule is passed.

Ulster men reply, "Wait till Monday." The Ulsterist unionist council, consisting of 463 members elected by 400,000 Ulster electors, will then receive and adopt a draft constitution for Ulster drafted by a commission of five, setting up a provisional government somewhat after the model of the French revolution, to operate on the day the home rule bill receives royal assent. This, they add, will stop one and for all the gibes about "Ulster bluff."

BEES KILL A HORSE.

Their Stings on Nose Prevent Animal Breathing.

Philadelphia, Sept. 21.—Bees stung to death a horse belonging to Amos Fland, of near Lancaster, Penn., when the animal was so severely stung that it could not break loose.

Fland, a farmer, drove to the farm of C. M. Unble and tied the horse to a fence near a hundred hives of bees while he was helping to cross a barn. Thousands of bees attacked the animal, and when the farmer discovered the horse's head was black with bees and many had crawled into its nostrils.

Within ten minutes swelling shut off the horse's wind and it died.

DUELISTS HIT WOMAN.

Jealous Husband Fights Rival in Paris Street.

Paris, Sept. 21.—A revolver duel between a jealous husband and his rival was fought in the Place de l'Étoile in the heart of the metropolitan quarter in Paris.

M. Simonnet, who lives in Neuilly, was waiting for his wife at the corner of the Avenue de Friedland, when he saw her talking to another man. There was an altercation between the two men and the husband was challenged. Both pulled out revolvers and ten shots were exchanged, regardless of the crowds in the square.

The husband was slightly wounded, and the last shot fired hit Mme. Simonnet, who had interposed, but did not hurt her seriously.

As M. Simonnet had a smoking revolver in his hand he was taken to an Aspic and was roughly handled by the crowd before he was rescued by the police.

WISH HE WAS IN IT.

Roosevelt to See His Mother's Crib at Atlanta, Ga.

Atlanta, Ga., Sept. 21.—The crib which held the mother of Col. Roosevelt when she was a baby will be shown the progressive presidential candidate when he visits the city the last of the present month.

The quaint bed, with a high railing of slender spindles, and four knobbed posts, was found in Roswell, near here, where the colonel's mother was born. On the bottom of the crib, as outlined with a nail-point, are the words: "Made by Denny Gentry for James Bulloch, March 15th, 1835."

C. W. McChire, of Atlanta, progressive national committeeman from Georgia, recently obtained the bed. The colonel's mother's maiden name was Miss Bulloch.

VERY FOUL WATERS.

Intake Should be Twelve Miles Out.

Washington, Sept. 21.—"So much damage does sewage do to waters in the vicinity of large cities that Lake Michigan is more or less polluted to a distance of seven miles from shore at times heavily so," was the assertion made before the American Health Association, by Dr. M. P. Ravanel, in charge of the Wisconsin state hygiene laboratory.

"The intake pipes that are supplying water for the towns along the lake shore," he declared, "should be carried out from twelve to fifteen miles from shore, and sewage disposal plants should be provided in cities discharging sewage into the lake or rivers emptying into it."

GIRLS BLAMED FOR NUMBER OF MASHERS

"Dress Modestly and You Will Not be Annoyed," Warns Chicago Pastor.

Chicago, Sept. 21.—No woman who dresses modestly and carries herself in a modest manner need fear being annoyed by mashers in the street," declared the Rev. Norman B. Barr, pastor of the Olivet Memorial church, before the Presbyterian ministers' association.

"The average masher will not approach a woman unless encouraged, either by her extreme dressing or her actions."

"If women could be induced to abandon present-day fashions I believe that the masher would become a thing of the past. Nowadays women are becoming active in every line of endeavor and are becoming less modest. No woman who wears a dress which exhibits every line of her figure can be called a modest woman."

According to the girl, Pinkus, riding in an automobile, overtook her as she was waiting for a car to go to the home of her brother at two o'clock in the morning. He offered to take her home. Pinkus dropped his cigarette case. As she stopped to pick it up another man in the car seized her by the shoulders and dragged her inside.

Urging Men to Cease From Militant Tactics

A STARTLING STORY THAT ARMS HAVE BEEN SMUGGLED INTO IRELAND

To Use on the Unionist Covenanters—Premier Asquith Declares That the Government Will Not Retreat From Its Home Rule Position.

Dublin, Ireland, Sept. 21.—Tomorrow, all Ireland, Catholic and Protestant, Nationalist and Unionist, will assemble in five thousand churches of all denominations, will unite in prayer for the continued peace and brother kindness throughout the Emerald Isle, but to-day warring elements are busying themselves with preparations for making next week one of the most turbulent in all Ireland's more or less bitter history.

There was the startling story here to-day that a German firm had succeeded in smuggling a large quantity of arms and ammunition into Ulster, via the north coast during the present week, presumably for use on the unionist conventory. It is significant that a large detachment of special police was sent north this morning by government orders. The Marquis of Londonderry with Sir Edward Carson, were in Derry yesterday, and are expected to return to Belfast to-day. Both these leaders spend hours among the shipyard's men and others of their more irresponsible followers, urging them to cease from militant tactics for the present, as the time for striking is not yet arrived.

In the meantime, Hon. Winston Churchill and other leaders affect to be unconcerned. To friends here to-day, Mr. Churchill telegraphed to be of good cheer. The Home Rule bill would be pushed through, despite all threatening. Local Nationalist organizations also received assurances from Premier Asquith, that the government would not retreat one inch from its position on this measure.

Little Hope Now for the Expected Humber Crop.

Toronto, Sept. 21.—A special despatch from Winnipeg, last night, says: "There has been heavy rain at all points to-day, so that the long-looked-for dry spell has been broken very quickly. This means that the threshing is delayed yet further, and little hope is extended for the bumper crop which was promised. With the return of dry weather, which is promised soon, it is expected that there will be frost, or such heat as to cause the grain to sprout and ruin the crop."

KILLED IN THE FALL.

Men Were Thrown Into Hold of the Ship.

Montreal, Sept. 21.—Joseph Godin was killed and Joseph Richer and Ovide Legault, all longshoremen, were seriously injured on board the Canada line steamer Palanque, when the gangway slipped and they fell into the hold of the ship.

THE KINGSTON POST OFFICE. The above picture shows the Post Office with the extension on Wellington street, which matches the older building perfectly. The original building was erected in the year 1857 and the extension in 1912. It is hoped that the latter will be complete by the end of the year. Kingston has a cut stone post office that would be a credit to a city three times the size.
