TWEED WRECK

Another Accident on the Bay of Quinte Line

TWO SERIOUSLY HURT

WHEN A PASSENGER CAR TURNED OVER.

A Spreading Rail Caused the Accident—Fortunately the Train Had Slowed Up—A Toronto Man Was the Most Seriously Injured.

To have another railway accident, in which two people were seriously hurt and a score and a half of others injured, twenty-four hours after the run-off near Kingston, on Wednesday morning has been the fate of the Bay of Quinte railway.

On Thursday morning, shortly after ten o'clock, the last coach of the Bay of Quinte train, No. 1, running into Tweed, with passengers on board for the fall, left the rails and was thrown to the side of the track. The coach was well filled with passengers, sixty or over, and they were thrown into a struggling mass.

One man from Toronto, whose name was not ascertained, was seriously injured, and Mrs. Bird of Marlbank, received injuries thought to be of a somewhat lesser nature. Nearly all in the coach were shaken up, and a number received minor injuries.

The accident occurred as the train was slowing up, going into Larkin, about six miles from Tweed, and the decreased speed is responsible, no doubt, for no fatalities, and the small number of those seriously injured. There were a number of box cars, a baggage and the coach. It was the Deseronto-Bannockburn train and was due in Tweed at 11.10 o'clock.

It is understood that the cause of the accident is attributed to spreading of the rails, as the last coach of the train went over them. The roadbed was torn up.

The train stopped immediately, and the passengers who had not already crawled out of the coach, were assisted. Drs. Farrell, Tuttle and Robertson, of Tweed, answered a telephone message and went on the locomotive to the scene of the accident. Dr. Burrows, of Marlburn, was also on the scene.

There was a large crowd in Tweed from the country around for the fair, and the news of the accident spread like wildfire. The excursionists on the wrecked car were taken to Tweed early in the afternoon.

AN AGITATION AROUSED

In Favor of Kingston Securing a Filtration Plant.

The article which appeared in the Wig on Wednesday, with regard to the filtration proposition, has caused a great deal of agitation among the citizens. In conversation with the Wig, on Thursday, a prominent citizen gave an emphatic opinion on the subject. "It seems," he said, "that we have a proposition at our very doors for a pretty good system. Will we get it or not? About the only thing that can force this city to prompt action will be an epidemic. The system as proposed by the firm now represented in the city has met with the unqualified approval of many of our best medical authorities, and it would be well if the city considered it carefully. The longer it is put off the more it will cost. Frank Schoener, the expert of the Roberts Filtration company, who has made Kingston such a fine proposition, states that his company has installed filters in the Western Canadian cities of Prince Albert, Edmonton, Saskatoon, McLeod and Kindersley, and also at Renfrew and Three Rivers in the east. All these places are delighted with the plants, and have now good water for drinking purposes. The Roberts filter is the highly thought of in Canada. Mr. Schoener repeats that Kingston will never again secure such a low price as he has offered to the Utilities committee."

The Kingston girl who "wormed" her way into New York city, after being rejected by the immigration officials at Cape Vincent a couple of times, and who was detained in the big city, returned via Cape Vincent, to her home in the city this week, having been deported.

The hotel situation and several other matters of civic importance, will likely occupy the attention of the Board of Trade at its meeting on Tuesday evening next. The matter warrants immediate action.

The Toronto World says that Elmer McIntosh, sent to the penitentiary for theft, is laid up with diphtheria. The penitentiary authorities deny the report, and state that there is no truth in it.

Thursday's session of the police court was the first to be held in the room since it has been in the hands of the decorators. The room is now hooping spire and span.

Flannelette nightdresses, 50c. Dutton's. Lady Cartwright, with her two sons and three daughters, went to Ottawa Thursday noon to take up residence at their winter home.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer a \$100 reward for any case that fails to cure. Send for list of testimonials.

Address: F. J. Cheney & Co., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

Red Cross Cough Syrup. "Gibson's."

DISTRICT CONVENTION

OF THE METHODIST WOMAN'S MISSIONARY SOCIETY

Held in Sydenham Street Bible Hall on Wednesday — Mrs. William Craig Was Elected Organizer—A Profitable Programme.

The eighth annual convention of the Woman's Missionary Society of the Kingston Methodist district was held in Sydenham street Bible hall Wednesday afternoon and evening. The district organizer, Mrs. (Rev.) William Craig, presided at the afternoon session. Mrs. M. Taylor, of Ganouque, conducted the opening devotional exercises and gave a helpful Bible lesson. Reports from eight of the auxiliaries, four of the Mission Circles, and three of the Bands of the district were given, showing that good work was being done by all in raising funds, sewing for the orphanages, educating young life in the needs of those in foreign lands, and leading them to give time and energy to mission work.

Two returned missionaries were present and were introduced to the convention. Mrs. Lindsay, who returned in the spring, from China, spoke very heartily of the work there and felt sure that through the revolution the way was being opened up for broader work in that empire.

Miss Beatty, B.A., of Japan, was glad to look into the faces of the women at home, who made possible for her and others to do the work for Christ in other lands.

An ideal auxiliary was conducted by the Cataron auxiliary, which proved an excellent object lesson to those present, as all were alert and ready to take part, and showed how interesting a well-conducted meeting will prove.

Mrs. Macallum, of the Congregational church, was present and spoke words of encouragement and inspiration and urged all to do more in enlisting others in the great work of giving the gospel to those who are in darkness.

Miss Helen Chown gave an excellent paper on "How to Conduct a Mission Study Class" and showed the need of intelligent study, that the workers might have greater enthusiasm in the work of spreading the gospel.

Miss Valieu and Miss Brebner gave solos, which were much appreciated. Tea was served at the close of the afternoon session, and a social hour very much enjoyed.

At the evening session Rev. T. W. Neal presided. Rev. Mr. Cassidy, of Cataron, and Rev. G. I. Campbell took part in the devotional exercises.

Mrs. King read a paper on "Systematic Giving," showing that a Christian would only tithe, the work of the mission board would be easy, as the treasury would then be full, and not the deficits that so often cause so much trouble.

Miss McLean, of Edmonton, a delegate to the W.M.S. board last week, was present, and was asked to tell of the work in the west. She spoke principally of the work being done for the Ruthenian girls in her city. A large home has been built and the girls are being trained and helped to become useful, and as they acquire our language, they go out to fill good positions and become good Canadians.

Miss Beatty, of Japan, then gave an interesting address on her work and life for the past five years among the women and girls of that land, and told how, by Bible teaching, many are led to accept Christ, but the needs are so great that missionaries will be needed for some time yet.

Mrs. Small and Mrs. Evans each favored with a solo, which were much enjoyed. Mrs. William Craig was re-elected district organizer.

The doxology was sung and closed one of the best conventions ever held in the district.

STOCK MARKETS.

F. R. McCurdy Co., Clarence Chambers—H. W. Nelles, Manager. Closing Prices, Oct. 3rd.

Table with columns for Montreal and New York, listing various commodities like Tuckets, Cement, and Copper with their respective prices.

Water Contamination. Dr. McLaughlin, an expert from the surgeon-general's office at Washington, reported on Wednesday to the International Joint Commission on Waterways, at Ottawa, and stated that he thought it impossible that contamination from Canadian cities was ever washed across the lakes to make impure the water of an American city, or vice versa. There might be a slight possibility that contamination was carried across the rivers and narrow ends of lakes, such as in the cases of Kingston and Cape Vincent, but it was very improbable. Prof. Starkey thought that the contamination would be carried down the river on the sides on which it had been dumped in, but that the water would purify itself before it would at any point reach the other side.

To Open Up Brophy Property. Representatives of the Kingston Realities, which lately acquired the Brophy property, in the northern section of the city, upon which thirty mechanics houses are to be built, were to wait upon the Board of Works at its meeting on Thursday afternoon, relative to the opening and extension of some of the streets on the property, and the laying of the sewage system.

JOYNER-CAMPBELL WEDDING. Solemnized at Bride's Home of Wednesday Evening. A pretty wedding ceremony was performed Wednesday night at nine o'clock by Rev. G. I. Campbell of Queen street Methodist church when Miss Margaret M. Joyner, daughter of Mr. and Mrs. John Campbell, Barrie street, and George E. Joyner of this city, were united in marriage. The bride wore a smart tailored suit of navy blue with a dainty blouse of blue tulle and buttons. A large hat of pink and blue was worn. After the ceremony supper was served in the dining room, which was tastefully decorated with ferns and carnations, and at which only immediate relatives were present. Many beautiful gifts were received by the bride and groom, among them being a mahogany chair from the members of Queen street Methodist church choir. The groom's gift to his bride was a silver mesh bag. Heartiest congratulations followed. Mr. and Mrs. Joyner, who will reside on Barrie street.

NEW CARPENTER SHOP. Of the Locomotive Works is Being Erected. A force of Italians is engaged in raising the two-story terrace of houses, on the south side of Ontario street, between Union and Gore streets. This is the site where the new carpenter shop of the Locomotive company is to be erected. The terrace is the property of the company and has been used for some years past for storage purposes. The houses were well constructed of stone, and were formerly used by employees of the old Locomotive company, and their families. The tearing down process has been commenced at the Union street end, the roofs having been removed from two or three of the houses, and the walls are now in the course of tearing down. The work on the new shop will commence before the whole terrace is pulled down and it is expected it will be ready for occupancy in January.

MAY HAVE SUMMER SESSION. In Connection With Queen's Faculty of Theology. The board of Queen's Theology College is considering the question of holding a summer school next year. It is felt that a two or three weeks course of lectures would be most profitable to students and ministers. The suggestion is that Prof. T. R. Glover, of Cambridge, and formerly of Queen's, and who is now one of the leading theological lecturers in the old land, be secured to give a course of lectures, as there is a possibility that he will take a trip to Canada next year.

Sale three-inch silk ribbon, 10c. yd.; silk bibs, 2 for 25c. Dutton's. Gibson's. Harry Lauder, the Scottish comedian, is ill in London. A specialist has been consulted. \$1 motor veils, 50c. Dutton's.

Years of Suffering. A Desperate Case of Catarrh in the Head. "My father had catarrh in the head for a long time. It was such a desperate case that he didn't know what to do, but one of his friends recommended Hood's Sarraparilla. He got a bottle immediately, and as soon as he commenced taking it he felt better and after the use of two other bottles he was completely cured. He was so well pleased he has ever since recommended Hood's Sarraparilla." Belle Allen Begin, Lewis P. O. Get Hood's Sarraparilla today. Sold by all druggists everywhere.

Children's Aid Society Also Wants Severe Punishment for Parents Who Neglect Their Children—Commissioner Starr, of Toronto Will be Asked to Give Address Here. The monthly meeting of the Children's Aid Society was held in the police court room Wednesday afternoon, when some important matters were dealt with. The president, Prof. Alexander Laird, presided. It was decided to put forth an endeavor to secure Commissioner Starr, of the juvenile court, Toronto, to address the annual meeting of the society, which will be held about the last week in November. The agent, J. C. McConachie, reported that he had made 136 visits in connection with forty-two children. He attended police courts five times, in which thirteen children were involved. Thirteen children were made wards of the society and five children were placed in foster homes during the month. Of those who were made wards seven came from the country, three from the old country, and the other three formerly lived in the country. One matter seriously discussed was in regard to taking strict measures to punish parents who ill-treat or willfully neglect their children. It is felt that there should be additional punishment for the parents, in addition to merely taking their children away from them, also that vigorous steps should be taken to punish men found guilty of wife desertion. It is most desirable that this law be made more stringent than it is at the present time. Men who desert their wives and children should be dealt with severely. J. C. McConachie was appointed a delegate to attend the Canadian conference of Charities and Correction which will open in Montreal on Oct. 9th. The conference this year is giving special attention to the welfare of children and a special exhibition, dealing with the matter, has been arranged for. The speakers will be representative of the Dominion of Canada, and in addition there will be several speakers from the United States.

To-Morrow We will have ready a large shipment of Fine Allover Laces

Many dainty and exclusive patterns, the greater number of these you will not see in any other store in town.
