GOVERNOR TO RECEIVE

FURS OF TWO ELKS AND TWO BLACK BEAVERS

When He Visits the Hudson's Bay Northern Outposts Next Summer—What the Hudson's Bay Charter Says.

Edmonton, Alta., Oct. 4.—Furs of two elks and two black beavers will be presented to H.R.H. the Duke of Connaught next summer, when the governor-general of Canada visits the northern outposts of the Hudson's Bay trading company. This is not in the nature of a gift, but to carry out, probably for the first time, a provision of the charter of incorporation granted by King Charles to the gentlemen adventurers of London on May 2nd, 1670. This gave to Prince Rupert and his associates "the sole trade and commerce of all those seas, bays, straits, rivers, lakes, and creeks lying within the entrance of the straits called Hudson's Straits."

A. F. Fugl, of Edmonton, district manager, has tendered one of the company's swiftest steamships, fully manned and equipped, for the novel voyage to the Arctic circle by way of the Mackenzie river. It is expected that the governor-general will be accompanied by a party of distinguished men from various parts of the United Kingdom.

The clause in the charter making obligatory upon the Hudson's Bay company the presentation of furs to the heirs and successors of the merry monarch of the seventeenth century, reads as follows:

"We do, by these presents, to us, our heirs and successors, make, create and constitute the said governor and company for the time being and their successors, the true and absolute lords and proprietors of the same territory and limits and places and of all other premises, saving always the faith, allegiance and sovereignty dominion due to us, our heirs and successors, for the same to have, hold, possess and enjoy the said territory, limits and places, to us, our heirs and successors, forever to be holden to us, our heirs and successors, as to our manor at East Greenwich, in our county of Kent, in free and common socage, and not in capite, by knight's service, yielding and paying yearly to us, our heirs and successors for the same, two elks and two black beavers, whosoever and as often as we, our heirs and successors, shall happen to enter into the said countries, territories and regions, hereby granted."

According to law there is doubt whether the Duke of Connaught would be included as coming under the term heir and successor. It is argued that the expression means the reigning monarch, hence the officials of the Hudson's Bay company have decided are capable of including members of the royal family generally and will so that the words "heirs and successors" interpret them on the occasion of the governor-general's visit to the vast north land.

"CASCARETS" BEST BOWEL CLEANSER

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Coated Tongue or Constipation.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headache come from a torpid liver, and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your congested bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take Cascarets now and then to keep their stomachs, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

11,816 IN FAILURES

INCREASE OVER CORRESPONDING PERIOD ONE YEAR AGO.

4,828 Defaults Recorded in January, February, and March—Trading Class Affected Heaviest.

New York, Oct. 4.—During the nine months ending September 30th there were 11,816 commercial failures reported to R. G. Dunn & Co., with liabilities of \$153,544,869, as compared with 9,944 defaults in the corresponding period in 1911 with liabilities of \$138,865,620. The increases both in number of defaults and in amount of liabilities were distributed over the three different quarters of the year.

The largest increase in number of defaults was in the first quarter, when there were 4,828 failures, as against 3,984 in 1911, but the largest increase in amount of liabilities was in the third quarter, the total being \$45,732,137, as against \$35,179,586 in 1911.

Reading Meton.
New York, Oct. 4.—Should Reading cut a melon, as is talked of in Wall street ever so often, Baltimore and Ohio would be materially benefited, as that company owns \$10,092,500 common and \$20,230,000 of the first and second preferred issues, or a combined \$30,322,500 in stock out of a total authorized and issued capitalization of \$140,000,000—more than one-fifth of the whole. An increase of 8 per cent. on the \$79,000,000 common stock would mean over \$200,000 additional receipts for the Baltimore and Ohio. Should the dividend on the first and second preferred have an equal increase in proportion to rate, the whole would be over \$500,000. If there is anything behind the Reading rumor Baltimore & Ohio should be helped.

Involved in Law.
Los Angeles, Oct. 4.—Damages totalling \$161,250 are asked by the Guaranty Oil Co. in an action filed with the county clerk today against the Canadian Crude Oil Company, Limited, of Canada, and a number of local residents. Fraudulent possession of land claimed by the Guaranty company is charged. Those named as defendants are Thomas Allen, P. Copp, F. F. Copp, F. H. Smith, Clara Tappan, Jess Waterman, Oliver V. Clark, W. T. Funley, A. J. Herold, D. H. McAllister, Frank Curran and W. H. Fuller. Most of the Canadian company stockholders live in Canada.

Under One Control.
Toronto, Oct. 4.—F. W. Woolworth & Co., which controls most of the 5, 10 and 15 cent stores in the United States and Canada, will, for the year ending this month, report a net profit of \$80,000,000, as against \$52,000,000 in the last year.

The company makes about 10 per cent. on gross sales, so that a gross business of \$80,000,000 would mean net earnings of \$8,000,000.

This would mean between 9 and 10 per cent. on the \$80,000,000 of common stock, after deducting the 7 per cent. dividend on the \$15,000,000 preferred.

The company now has under one control considerably in excess of 600 stores in the United States, Canada and England.

Dominion Coal Output.
Montreal, Oct. 4.—Dominion Coal output for September was approximately 280,000 tons, somewhat below the August figures, but the best September the company has had in its history. At the present rate of output the figures at the end of the year will total 4,500,000 tons. At Dominion No. 2, yesterday, a man was killed by the fall of a stone.

Offering a Bonus.
Ottawa, Oct. 4.—It is stated that the Ottawa Electric company, in addition to the dividend of 7 per cent., will pay a bonus of at least 2 per cent. Last year a bonus of 1 per cent. was paid, in addition to the 7 per cent. dividend.

Some of the interests, however, are more in favor of an increase in the regular dividend rate to 8 per cent. being made and the bonus being placed at 1 per cent.

To Reorganize U.S. Motor Co.
New York, Oct. 4.—The \$28,000,000 capitalization of the reorganized United States Motor will be divided into \$10,000,000 first preferred stock, \$8,000,000 of 6 per cent. non-cumulative second preferred stock and \$10,000,000 common. There will be no bonds, debentures or fixed charges of any kind. The \$6,000,000 outstanding debentures are to be exchanged for an assortment of new stock and merchandise bills of about \$2,000,000 will be paid for with cash.

To Issue \$1,500,000 Bonds.
This announcement has just been made that the Riordan Pulp and Paper company will shortly make an issue of \$1,500,000 of 6 per cent. bonds. This well-known company is a consolidation of the Riordan Paper company and the G. H. Parley company, both of which have been engaged in the manufacture of pulp and lumber for a great many years. The new company controls more than 1,100 square miles of timber limits in Quebec, four lumber mills with a total capacity of 15,000,000 feet per year and pulp and paper plants at Hawkesbury and Merrick, the former being the largest sulphite pulp mill in Canada.

The average yearly earnings for the past three years are over \$226,000, while the estimate for 1912 is over \$200,000. According to an audit by Price, Waterhouse & Co., of London, the company's assets are more than four times the total bond issue. The bonds are redeemable in 1942 at 105.

The directors consist of several of the best known pulp, paper and lumber men in Canada.

Commercial Tips.
It is announced that Hollinger will be listed shortly on the Toronto and Montreal stock exchanges.

Stockholders of the Louisville and Nashville railroad voted to increase the capital stock from \$60,000,000 to \$72,000,000. The money will be used for improvements.

The statement of the Lake of the Woods Milling company, limited, for the year ended August 31st last, presented at the annual meeting of the shareholders, showed profits of \$457,011 for the year. As compared with the previous year this represented an increase of \$41,578, but as compared with 1909-1910, a decrease of \$18,215.
