POOR CROPS TO BLAME BRITANNIC RELEASED

FOR THE ADVANCE IN THE PRICE OF MILK.

Milkmen Raise Price to Seven Cents Quart and it May Go Higher—Difficulty in Securing Winter Feed.

"Will the price of milk be advanced still higher this winter?" is the question that the housewives are asking. Within the past week the price was raised from six cents, to seven cents per quart, by several of the dairymen, and it is stated that owing to the crop failure the price is likely to go still higher. At Ottawa the price has been raised to nine cents, and it is predicted that it will go as high as ten cents before the winter is over. All the farmers have had a bad season on account of the poor crops, and the dairy farmer certainly faces a hard winter.

In the first place, the hay crop was very light, as a great deal of it was destroyed by the rain, while the continual wet weather was responsible for a poor grain crop. A great deal of grain had to be left out, and it went to waste.

The fact that the corn crop is so poor, will, no doubt, be the hardest blow to the dairymen. A great deal of it, which should be in the silos by this time, had to be left out in the rain, and it is stated that no machinery which was ever built, would be able to cut it.

It will have to be cut by hand, and this will mean extra expense for the dairy farmer.

Farmers did their best to save the grain, but they could not fight the weather man, and the people in the city know just how disagreeable the weather was all summer. The rain was general, and farmers all over the country are complaining about a bad season.

Frank R. Pember Coming.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

BY THE CALVIN COMPANY ON WEDNESDAY

After being Ashore Belong Morrisburg for Six Weeks—Dredging Had to be Done Around Her—Movements of Vessels.

The steamer Britannic, which went ashore at Weaver's Point, just below Morrisburg, on August 24th, was released by the Calvin company, of Kingston, on Wednesday afternoon. Previous attempts to release the stranded vessel had failed, owing to the lowering of the water. The Calvin company resumed operations last week, and did some dredging around the steamer. Steel cables were fastened to trees on the opposite side of the river, and after some pulling, the tug Frontenac and Johnson succeeded in floating the Britannic. The vessel is not damaged a great deal, but will require to go into dry dock. She is a very old boat. At present she is being brought to Prescott, and later may come to Kingston for repairs. The Britannic, since her accident, was purchased by H. M. Morris, of Cleveland, Ohio. She was coming up the river, light, from Montreal, after discharging a coal cargo, when she grounded.

Movements of Vessels.

The steamer Jeska cleared for Oswego. The steamer Misissquoi was in port from Gananoque, to-day. The schooner Guido cleared for Oswego.

The schooner Ford River is at Richardson's wharf, loading feldspar. The schooner St. Louis is at the dry dock, from Charlotte, with coal for Queen's University. The steamer Sowards arrived from Oswego, with a cargo of coal for Sowards.

The barge Sherman cleared on Thursday, for Charlotte. The steamer Altha made her trip down and up the bay on Thursday. The steamer Rideau King cleared for Ottawa on Thursday morning.

The steamer Simla is due to arrive from Montreal to-night, on her way to Port Colborne, with pulpwood.

M. T. Co.'s elevator.—The steamer Beaverton, from Port William, discharged 88,000 bushels of wheat, and cleared to-day, for Belleville, to load cement, for Port William. The barge Bronson, from Montreal, three light barges, cleared for Montreal, with one coal barge and one grain barge; the tug Emerson, cleared for Montreal, with one grain barge and one coal barge; the tug Thomson, from Montreal, three light barges, cleared for Montreal, with two grain barges; the steamer Kinmount, grain-laden from Port William is due to arrive at 10 o'clock, to-night, to discharge; the tug Bartlett cleared for Port Colborne, with the barge Cayton, to load grain; the steamers Canadian and Turret are reported to be on their way from Port William, grain-laden.

To-night May Robson.

"A Night Out," in which May Robson will appear at the Grand to-night is an ingeniously concocted comedy, dealing humorously with the incongruities of heredity and incidentally pointing a moral for the benefit of mothers who withhold latch keys from their sons. It's situations are fraught with cheerfulness and merriment, and the action is the sort that never lags. The story follows the incidents attending a little escapade in which "Grandmum" and her two grandsons become the principal actors at a notorious resort to which the boys have been induced by their grandmother to take her in order that she may assure herself of the harmless nature of their recreations. While the trio are "seeing the sights" the place is raided, and the complications which ensue are side-splitting.

Will be Missionaries.

Rev. O. L. Kilborn, the Canadian Methodist missionary to Chengfu, China, who is supported by the Toronto East District Epworth league, states in a letter that his three children, who are being educated in Canada, have decided to be foreign missionaries. Dr. Kilborn is a bright brother of Dr. R. K. Kilborn, of Kingston.

SCOTCHMAN WENT TO JAIL.

Alexander Moir Given Reprimand by the Police Magistrate.

Magistrate Farrell disposed of the case of Alexander Moir in quick order, at police court, Thursday morning. His case was the only one on the calendar.

Moir is the Scotchman who applied to James Stewart, postmaster, for assistance, and acting for St. Andrew's society, Mr. Stewart took the trouble to get the man a job, working on the roadway, and also gave him a little spending money to see him over a short time, but instead of appreciating the efforts of Mr. Stewart, Moir spent the money in strong drink and was arrested by the police.

When told the circumstances, Magistrate Farrell gave Moir a severe reprimand, and imposed a fine of \$5 and costs, or one month, and as the Scotchman is without funds, he had to go to jail.

Moir certainly had plenty of nerve, as while he was under the influence of liquor on Wednesday afternoon, he again walked into the office of Postmaster Stewart. This was more than the genial postmaster could stand, however, and he had the man arrested. Any Scotchman who would do such a trick after being given assistance by St. Andrew's Society, he considered should pay the penalty.

KINGSTON NOT ALONE

In Agitation for Reduction of Members of Council.

Kingston city council voted down a motion for the reduction of the aldermen serving the people. That the question has been considered in other places too, is shown by a notice of motion, which has just been made by Ald. Kent, of Ottawa. He advocates the doing away with the board of control and aldermanic system, and substituting therefor an adequately paid commission of four, including the mayor, with the recall initiative and referendum vested in the people, the members of the commission to devote all their time to the business of the city, with the exception of the mayor, and that the question be submitted to the electors at the next January election, and if carried, that legislation be applied for to make the vote effective.

DIED ON THURSDAY.

A School Lad Who Suffered From Heart Attack.

Edward T. Timms, son of Thomas Timms, foreman of streets, died at his home on Albert street, on Thursday morning, after an attack of heart trouble. The deceased young lad, it will be remembered, was hurt last March while playing on his way to school and was laid up for some time, but recovered. About a week ago he had another attack of his heart and never rallied. He was fourteen years of age and attended Macdonald school and would have tried his entrance this year. The deceased was a bright young lad and was a favorite with all who knew him. He leaves to mourn a mother and father, two brothers, George and Frank. He was a regular attendant of Princess street Methodist Church.

R. J. REID WAS INJURED.

Fell Off a Scaffold and Strained His Back.

R. J. Reid, Princess street, received injuries by falling off a scaffold at the rear of his building, on Thursday morning, about nine o'clock. The masons and carpenters were engaged in putting up an addition and a scaffold had been erected just outside of one of the windows on the second floor. Mr. Reid was in the act of getting down when he missed his hold and fell, striking on his back, and receiving a very bad shaking. In falling, he strained his back and skinned his arms. He was able to be around again. He is walking very lame.

A GIFT OF \$300

To General Hospital by Miss Mary J. Scott, Toronto.

The Woman's Aid Society of the Kingston general hospital gratefully acknowledges the receipt of a cheque for \$300 from Miss Mary J. Scott, a donor in the city from Toronto. Years ago Miss Scott was a resident of Kingston and has always maintained her associations with many of our charitable institutions here. This handsome donation is the largest yet received. Miss Scott's generosity is much appreciated by the Board of Governors of the hospital, as well as by the ladies, who are working so devotedly and earnestly for sweet charity.

PAST FIETY? YOU NEED "CASCARETS"

What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels—A 10-cent Box Will Truly Amaze You.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscular. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect the bowels with Cascarets. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

TOOK A WEAK TURN

And Fell Off Wagon as He Entered Gate.

Wellington Topliff, of Glendale, who met death by falling off a wagon on Wednesday morning, was in the act of driving through the gate at his home, when the accident occurred. In the early part of the morning he was busy in the field loading grain, and had loaded the wagon. At the gate he fell off, evidently having taken a weak turn. In falling he struck his head on the side of the wagon, with the result that he received a bad cut. When the hired man, who was with him in the field, and had walked up behind the wagon, saw what had happened, he immediately went to his assistance, but life had departed.

The deceased leaves a widow and four children, two of whom are married. Mr. Topliff was fifty-six years of age, and had lived in this part of the country for some years, and was greatly respected by all who knew him. The funeral will take place Friday afternoon, at two o'clock, and Rev. Mr. Denby will officiate.
