## THE POWER SITUATION THE HALLS OF QUEEN'S

RUSHING INSTALLATION OF NEW MACHINERY

To Strengthen the City's Electrical Plant—General Manager Folger Explains the Present Condition of Things.

General Manager C. C. Folger is doing everything possible to rush the installation of the new electrical machinery at the city's plant, in order to meet the increased lighting needs during the month of December. He hopes to have the new boilers ready for use during the first week of that month, and relieve the strain on the present ones. That the additions are urgently required is well known to all familiar with the electrical plant, upon which there is a great strain. The general manager is hopeful that he will be able to supply every demand of the heavy winter load, the present machinery would have to carry.

As to the ability of the plant to supply power, Manager Folger remarked that no one who had applied had been refused. The plant was supplying the American smelting company with twenty-four hour power. The consumption had increased everywhere, and now the village of Portsmouth is to be supplied. Next Sunday night he expects to turn on the incandescent lighting in two of the churches there.

"What about water power?" the manager was asked.

"We certainly want it," replied Mr. Folger, "and I have hopes that next fall either the Hydro-electric commission or the Seymour company will be connected up with Kingston. We must have more power, but at the same time, our steam plant is a good part of it, must be kept up for emergency. We cannot let that go. There has been trouble all over in connection with the supply of water power. Toronto is a good example of this. Then in Buffalo they are installing additional steam plant machinery for electrical power, although that city is very close to Niagara Falls and the cheapest of water power. An auxiliary plant is regarded as an absolute necessity. I hope that we will receive better offers for water supply for Kingston in the near future. At present we can supply our peak load cheaper by steam than either commission or company offers by water power."

### HAVE GONE TO TORONTO

To Confer With the Provincial Health Department.

A special meeting of the civic Utilities Committee was held on Thursday morning to deal with the letter from the Provincial Board of Health asking for a conference with regard to the water filtration question. Ald. Rigney, chairman, with General Manager Folger, were delegated to go to Toronto to take up the matter. The medical health officer was also invited to go along, but, owing to the short notice, he could not accompany the above two named. The conference will take place on Friday morning, so Ald. Rigney and Mr. Folger left on the noon train. They will present the committee's view of the matter.

### Collins Bay Tea Meeting.

The Collins Bay Presbyterian church held a highly successful and enjoyable tea meeting in the Methodist church on Wednesday evening. The church was filled with an appreciative audience, which did ample justice to the good things provided by the ladies. A program of unusual excellence was given by Prof. and Mrs. Small, Miss Elder, Harold Angrove, George Leonard, J. D. Bankler, James Robinson and the Sydneyham Street Male quartette. Mr. Caugher, Portsmouth, acted as chairman and Rev. Mr. Dawson moved a vote of thanks to all who had helped to make the tea meeting a success.

### Wedded on Thursday.

A quiet ceremony took place at one o'clock on Thursday afternoon, at the home of Miss Waller, 133 Clergy street, where Miss Louise Leander was united in marriage to Thomas Butcher, of Napanee. The couple were unattended and only immediate friends were present. The ceremony was performed by Rev. James Cumberland, of Stella. The bride and groom will leave on the evening train for Napanee, where they will make their home.

### End of Finger Cut Off.

Herman Shaler, aged sixteen years, who is employed at the Crothers' biscuit factory, suffered the loss of the end of his index finger on Thursday morning, when he got caught in a candy machine on which he was working. He was rushed to Dr. I. G. Fogart's office, where his injury was attended.

### A Night Operation.

Howard Bauder, who resides on the Path Road, was rushed to the general hospital, on Wednesday evening, suffering from an attack of appendicitis. Mrs. Bogart and Russell performed an operation at two o'clock Thursday morning. Mr. Bauder came through the operation very well.

### What Happened in Kingston and Elsewhere in 1887.

Citizens were startled by three fires in one night, and five in three days.

The first in each case was started by an incendiary. Two young men, Andrews and Newman, arrested by the police pleaded guilty, to setting fire to the Salvation Army barracks, Third Methodist church. The men told the magistrate that drinking liquor had led them to commit the offence.

Kingston was visited by a bad wind storm and considerable damage was done. The lighthouse on the long pier, at Portsmouth, was wrecked and all over the city fences were laid low and barns and sheds were damaged. Prof. Knight stated that the wind blew steadily twenty-five miles an hour.

John Lemmon and Robert Crawford, firemen, had narrow escapes from death when roof caved in at fire at the Salvation Army barracks. They had to run from the building and firemen hauled the hose out after them.
