**The Gadder Is On the Job**  
Travelers Don't Fear Strange Dishes  
Stuart's Dyspepsia Tablets Enable the Stomach to Stand Anything.

"Railroads tell you about the wonders of nature along their lines; hotels describe their modern accommodations; but they never fail to ring in their 'cuisine unexcelled.' The wise traveller knows he is taking 'spot' luck when he leaves home, hence a box of Stuart's Dyspepsia Tablets is quite as essential as many of the other traveling requisites."  
This commented a philosophical traveling man, speaking of hotel life, restaurants, grills and junction lunch counters. "The agitation in this world," he continued, "are the result of one set of men trying to compel the other set to think and act against their own inclinations. It is the same in religion, politics, and cats. I have learned from experience to eat what they serve; to forget the food experts, read the current news and jokes and leave the stomach to the best expert in the world—Stuart's Dyspepsia Tablets."  
And Stuart's Dyspepsia Tablets actually do the work assigned them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts assist the digestive fluids and exertions of the stomach, and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do.  
Stuart's Dyspepsia Tablets are for sale by all druggists, at 50c. a box, and they are the one article that the druggist does not try to sell something in the place of it that's "just as good." Their unqualified merit and success and the universal demand for them has placed them within the reach of everyone.

**Winter in Algonquin Park.**  
With Switzerland Canada is taking its rightful place as the winter playground of the nations. One of the most popular districts where unrivaled opportunities are found for healthful sport and wintering is the Algonquin National Park of Ontario. In summer it is the stamping ground of the angler, camper and tourist, and its pre-eminence as a fishing ground has been conceded, but with the first frost of autumn the camper and angler have stored their tents, their rods and their canoes and the lovers of winter sports follow in the footsteps of the summer visitors and take possession of "The Highland Inn," the well known and comfortable hotel at Algonquin Park station. The offers splendid accommodation at reasonable rates. Algonquin Park is at an altitude of 2,000 feet above sea level, is reached over the Ottawa division of the Grand Trunk railway system, is about 200 miles north of Toronto, and 175 miles west of Ottawa. The winter rates at "The Highland Inn" are \$14 to \$16 per week, and the several attractions of the park in winter are depicted in a handsome booklet entitled "Winter in Ontario's Highland Heritage," copies of which may be had free by addressing a postal card to William Gall, manager, "Highland Inn," Algonquin Park station, Ont.

### OLD FORT MAY GO

**SOME RESIDENTS WOULD LIKE TO REMOVE LANEMARK.**  
Old Fortress for 100 Years One of Chief Objects of Interest to River Tourists, and Has Called Thousands of Visitors to Prescott.

Prescott, Oct. 30.—A movement which will be deplored by all residents of this section and by all persons interested in the perpetuation of historical relics everywhere, is on foot in Prescott, to demolish the famous old Fort Wellington and convert the ground into a public park. The aged stone house, which stands on an eminence at the east of the town, has been one of the interesting old relics that thousands of tourists have gazed at from the decks of passing steamers on the St. Lawrence and it is torn down it will be the end of a famous landmark.

A prominent citizen of Prescott writes as follows: "It is now 100 years since Fort Wellington was built by the British government. The people of Prescott at the present time are clamoring for a public park. They propose to ask the government to purchase the old fort, to remove the embankments and the block house and convert the whole twelve acres into a public park. We are sorry to say that Prescott is declining to do this. This is a most opportune time to ask the government to make this concession to our old town. If there is a surplus of earth after the embankments are filled and the grounds levelled the balance could be easily disposed of to the G.T.R." It is safe to say that the old fort, which has for years been Prescott's only claim to distinction and public notice, and which has attracted yearly to the old village hundreds of American tourists who have left more or less cash in the town, will not be demolished without a strenuous protest from the people of Canada, who are proud of their military relics and traditions.

**GRAND OPERA HOUSE.**  
Little Miss Fix-It to be Here Saturday.

Alice Lloyd, the piquant English-speaking comedienne, will be at the Grand, Saturday next, matinee and night, in "Little Miss Fix-It," a tuneful and unusual comedy with music. It is one of the most attractive of the big productions and is presented forth by Verva and Laescher, whose "Spring Maid" and "Rose Maid" have given them rank among the foremost of foreign music-women. Alice Lloyd, until she was chosen for the merry leading character of this new work, was a famous figure in the highest class vaudeville entertainments, both in America and in England. Her only rival as a box-office attraction is the equally famous Harry Lauder. In addition to singing the rollicking English songs the mention of her name suggests the little British star will play the alluring title role of the happy bride who tries to arrange all the matrimonial plans of her friends with laughable results. The remarkable supporting company so generally praised in the great cities over the country last season, are again to be heard in the support of Miss Lloyd.

"The Trail of the Lonesome Pine." "The Trail of the Lonesome Pine," whose success has been unanimously inaugurated that the play enjoyed long runs in only a few of the principal cities, will be seen here at the Grand next Monday.  
The book, which is from the pen of John Fox, Jr., the author of "The Little Shepherd of Kingdom Come," was dramatized by Eugene Walter. The play has been given a worthy production that was greeted with long runs and the best business of late years in Boston, New York, Philadelphia and Chicago.

**Sudden Death at Pitts Hollow.**  
Pitts Hollow, Oct. 29.—On Sunday night the very sudden death occurred of Mrs. Witherell, a well known and highly respected resident of this section. The late Mr. Witherell, who was seventy-two years of age yesterday, was living with his son and on Sunday evening the latter and his wife went to one of the neighbors, leaving Mr. Witherell in his usual health. Returning about nine o'clock they found the old gentleman sitting on the lounge dead. Death was due to heart failure. The deceased is survived by one son, Isaac. His wife died twelve years ago. The funeral takes place to-day from his late residence to the Baptist church.

Mr. and Mrs. H. M. Withers spent the week-end at Elgin. Mrs. Bert Parker has been ill with stomach trouble. The Ladies Aid met on Thursday last at the home of Mrs. Lett Hilborn.

Lyndhurst, student at the A. B. S., are spending Thanksgiving holidays guests at W. G. Gifford's. Miss Eliza Percival, nurse, Waterbury, N.Y., is holidaying at her home here.

### AUSTRIA TO PRESERVE HER RIGHTS.

(Continued from page 1.)  
to prevent the realization of Austria's ambition.

**Czar's Message so Serious.**  
New York, Oct. 30.—A special cable from London says: "In the present nervous tension regarding the general European situation, extreme importance attaches to a telegram which the Czar of Russia sent to King Peter of Serbia congratulating that the Serbian armies had proved successful in Macedonia without the need of invoking assistance from the outside."

At the time this despatch is filed no information had come as to the effect which this telegram, only made public at a late hour, had created in Vienna, but it may reasonably be surmised that it will be regarded as a most unpleasant and alarming demonstration.  
One has only to remember that but for German threats Russia would have mobilized against Austria when the latter executed her Bosnia-Herzegovina coup.  
Serbia's territorial ambitions, now almost openly avowed, are the chief danger points in the relations of the great powers. Austria will not tolerate a change in the status quo. Russia, by the Czar's telegram congratulating the Serbians, practically approves and commends them.

A Vienna despatch to the London Daily Mail clearly states the Austrian position: "The overwhelming success of the Bulgarian and Serbian armies is not regarded as sufficient warrant for modifying the determination of Austria to maintain the status quo. Should it become evident, however, that the status quo can no longer be upheld, everything will depend on the attitude of Serbia toward her Austro-Hungarian neighbor."

**CANCER PREVENTION.**  
Simple and Valuable Rules to Maintain Immunity.

The following hints for the prevention of cancer are given by Dr. J. Fletcher Little, medical officer of health for Hanover-on-the-Hill:  
When warts, moles (especially dark colored), and other skin growths are exposed to constant irritation they should be immediately removed.  
Avoid excessive smoking, as it predisposes to cancer of the lips, tongue, cheeks, etc. Inhaling cigarette smoke tends to cause cancer of the vocal cords.  
Avoid irritation of the tongue and cheek by broken, jagged teeth.  
Take great care of the back teeth or grinders. Money spent on them will bring a greater return than any other investment.  
Avoid excessively hot food and drink, which induce cancer of the throat.  
Avoid taking large quantities of iced drinks and ices.  
Masticate all food thoroughly, as food imperfectly chewed causes chronic irritation of the alimentary canal.  
Avoid alcoholic drinks, as they are a predisposing cause of cancer, and diminish the average prospects of survival by thirty per cent.  
Do not delay when cancer is suspected. Early recognition and prompt removal deprive cancer of its terrors.

**KIDNAPPED IN 1882.**  
Young Montreal Woman Meets Her Mother in Boston.  
Montreal, Oct. 30.—A reunion has taken place between a mother and daughter after thirty years of separation, due to the kidnapping of the latter when she was two years old. The principals are Mrs. George Marotte, Ontario avenue, Vinaville, the daughter, and Mrs. Susie White, at one time Mrs. Susan Newton, of Brant Rock, Mass., the mother.  
The little Newton girl was kidnapped while her parents resided near Boston in 1882. She was taken by a man named William Morse, whose married sister had lost her own little girl and was broken hearted. Morse selected the Newton girl because she closely resembled the child her sister had lost.  
The woman brought her up as her own daughter, teaching her her own language, which was French. In due time the girl married George Marotte, of Montreal. The secret came out a month or two ago, when the false mother confessed to the kidnapping just before she died.  
Mrs. Marotte then decided to try and find her real mother, and advertised for her in a Boston newspaper. Mrs. White answered the advertisement and identified her daughter by a cut on her thumb.  
The reunion took place last week at Boston. As the daughter could not speak English or the mother French, their first greetings had to be interpreted by a friend familiar with both languages.  
Milton Woodley, Waterford, Ont., aged four, fell in the basin of the Baptist church fountain and was drowned.  
David J. Chayne, immigration officer, Windsor, has been suspended.
