

## Twitching of the Nerves

A Distressing Symptom of Nervous Exhaustion Cured by Dr. Chase's Nerve Food.

Mrs. John McKeilar.

What sympathy you feel for anyone whose nerves twitch and jerk, and what resolves you make to never allow your nervous system to become exhausted until paralysis of some form claims you as its victim.

The only way is to watch the warning symptoms, such as sleeplessness, headache, indigestion, tired feelings and irritability. By the prompt use of Dr. Chase's Nerve Food you can free the feeble, wasted nerves back to health and vigor, restore the vitality of the body, and prevent serious disease.

Mrs. John McKeilar, 11 Barton street east, Hamilton, Ont., writes: "I was injured some years ago, and that, along with my broken-down nervous system, I could not sleep and suffered from twitching of the nerves and disagreeable nervous sensations."

"I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact, I am entirely cured of my trouble. This Food not only strengthened the nerves, but also built up my system in every way." Under date of Aug. 29, 1912, Mrs. McKeilar writes, confirming her cure, and states that she has had inquiries from many people who have heard of the great benefits she obtained from Dr. Chase's Nerve Food.
