## KINGSTON'S INDUSTRIES,

On Saturday the Whig will have another page of Kingston's industries, and the series will include a number of well-known establishments. All these places are hives of industry. Every citizen should carefully read the articles and really know what is going on in industrial circles in this city. Kingston has far more factories than one has any idea of, and it is only when we begin to collate them and describe what is being done that we recognize their great value to the city's welfare. The citizens, Fort George and Dunyegan. The Cagenerally, are appreciating the work of the Whig in this direction. Copies of the papers containing the series should be fyled so that they can be referred to in the Berlin, Nov! 8 .- At a meeting of the Berlin Medical Society, Dr. Friedrich & future.
