

"YOU'LL SUFFER ALL YOUR LIFE"
That's what the Doctor told him
"Fruit-a-lives Cured Him"
CHERRYVILLE, ONT., Jan. 25th 1911
"For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life.
I doctored with different medical men and tried many advertised remedies, but none of them suited my case.
Nearly a year ago, I tried "Fruit-a-lives". I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured.
I give "Fruit-a-lives" the credit of doing what the doctors said was impossible.
I am now seventy-six years old, and in first class health."
GEO. W. BARKLEY.
In all the world, there is no other remedy that has cured so many cases of so-called "incurable" kidney disease, as "Fruit-a-lives".
This famous fruit medicine acts directly on the kidneys—beating and strengthening them—and ridding the system of the waste matter that poisons the blood.
50c. a box, 6 for \$2.50, trial size, 25c. At dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

THAT TOBACCO?
With the "Hooter" on it is crowing louder as he goes along Only 45c per pound. For chewing and smoking.
AT A. MACLEAN'S, Ontario Street.

Phone 76, 341-3 Princess St. Prompt Delivery.

RRR RADWAY'S READY RELIEF RHEUMATISM
Apply the Relief externally to the part or parts affected, as briskly as circumstances will permit. Benefit will also be derived from Radway's Pills, their alternative action being peculiarly suited to this disease. Where the joints are swollen, stiff or contracted, the Relief, with sweet oil, is an admirable lubricant.
Ask for RADWAY'S and take no Substitute.

Have You Tried O'Keefe's "Gold Label" ALE
The O'K. brewmaster says it is his masterpiece—a rich, old, creamy ale of matchless purity.
E. BEAUPRE, Local Distributor. Phone 313.

NERVOUSNESS RESPONSIBLE FOR MANY TROUBLES.
Do you suffer from palpitation of the heart, headache, cold hands or feet, creepy sensations, indigestion, sleeplessness, nervousness, hysteria? These symptoms show a condition of EXHAUSTED OR DEBILITATED NERVE FORCE.
The natural function of every organ is absolutely under control of the nerve centres, and thus nervousness may bring on DIABETES, KIDNEY DISEASE, INWARD DISEASES, and other troubles so often seen in run-down, nervous girls and women, simply because the organs have not a healthy nervous system to control them.
Every girl and woman should keep her NERVOUS SYSTEM STRONG AND WELL BALANCED. RESTORATIVE TABLETS will do this. They purify the blood and restore the nervous system to its normal healthy standard and put the power of resistance in the tissues. They are a composition of great value as a food for the nerves, a tonic to all organs and a regulator of diseased conditions peculiar to girls and women. The profitable experience of others should be sufficient reason why you should give them a trial. One box will convince you of their merits. Read the rules for health on circular accompanying each box.
Price 50 cts. a box, or 6 boxes for \$2.50. If you cannot procure RESTORATIVE TABLETS at your druggist's, they will be cheerfully sent you postpaid on receipt of price, by writing THE RESTORATIVE CO., LIMITED, Toronto, Canada.

NEWS OF DESERONTO

McKENNY-DUNN WEDDING ON MONDAY MORNING.
Large Shipments of Apples Being Made—Presbyterian Ladies Held a Tea—Other News of the Town.
Deseronto, Nov. 12.—A quiet wedding was solemnized at St. Vincent de Paul church by Father J. P. Hartigan at seven o'clock this morning, when Miss Agnes Helena Dunn, youngest daughter of Mr. and Mrs. Mathew Dunn, was married to John McKenny. The bride was given away by her father, and wore her travelling suit of navy blue whipcord and blue hat with willow plume and carried prayer book and beads. The bridesmaid was Miss Ella Dunn, sister of the bride, who wore a navy blue ladies' cloth suit with hat to match. James McKenny, brother of the groom, was groomsmen. After the ceremony the guests and bridal party went to the home of the bride's parents where a wedding breakfast was served. The young couple received a number of costly gifts showing the esteem in which they are held by many friends. They took the fast train from Napanee for points west, after which they will take up residence on the corner of Green and Thomas streets.
Work has commenced on the new C. N. R. station, but owing to some misunderstanding it has been delayed. Large shipments of cheese and apples are being made daily by boat and train. Work is nearly all completed on the explosive works on the reserve.
A successful tea was given at the home of Mrs. J. Froy on Thursday in aid of the Ladies' Aid of the Presbyterian church. The mill is still running, but purposes closing this week. Mrs. James Cole and daughter Madeline and son Charles are spending a few days with relatives at Point Abn. The schooner Horace Faber (Captain Frank Branhart) brought in a load of coal and has now gone into winter quarters. The dredge and driller are still working at the coal wharf, to enable all large boats to enter. A steamer came in on Sunday to Deseronto iron works with a load of iron ore.
Mr. Fitchett has started a new grocery in Edgar's drug store, and taken the upstairs for residence. Charles Vreecyca having vacated it and moved to rooms over Mr. Cole's barber shop.
The C. N. R. gas-electric car, which comes from Trenton at 8.41 a. m. and goes to Napanee, is something new and is meeting with great favor. Mrs. Sydney Groves spent a few days in Belleville last week. Robert Gault of Mantowaning spent over Sunday with his sister, Mrs. T. Arthur Rixen, and brother, Thomas Gault.
The Bell telephone office was moved this week to a room in the back of W. J. Malley's drug store, he having been appointed local manager. Robert Renne has sold out his milk business to A. J. Rendell and milk is now raised to six cents a quart. Miss Stella Vandervoort and Miss Annie Mills left this week for Calgary.
On Monday, October 21st, in Montreal, Miss Eldora DeForge, second youngest daughter of Mr. and Mrs. A. DeForge, Main street, was wedded to Charles Bernier of Montreal. Mrs. Louis Auger and Mrs. David Nealon, sisters of the bride, attended the wedding.
The many friends of A. S. Valieu are glad to know he has returned from Toronto, having undergone a severe operation, which was successful, and is feeling much improved in health.

LIVE STOCK MARKETS.
The Prices Paid at the Various Centres.
Montreal, Nov. 11.—The receipts this morning at the West End cattle market were 1,500 cattle, 1,600 sheep and lambs, 1,200 hogs and 304 calves. Receipts at the Canadian Pacific stock yards were 900 cattle, 1,200 sheep and lambs, 225 hogs and 250 calves. Trade was slow at the East End market. At the Montreal stock yards trade was very good, and the market held steady. Hogs were firmer, although receipts were fairly large. Sheep and lambs were steady and in good demand. Prices were quoted as follows: Top steers, \$5.50; do medium, \$5 to \$6; butcher cows, choice, \$4.50 to \$4.75; do medium, \$3.75 to \$4.25; do canners, \$3 to \$3.75; do bulls, \$2; milkers, choice, each \$40 to \$60; springers, \$40 to \$60; sheep, \$3.50 to \$4; lambs, \$6.25 to \$6.50; hogs, old cars, \$9.65; calves, \$3 to \$10.

Buffalo.
East Buffalo, Nov. 11.—Cattle—Receipts, 6,000 head; active and steady; prime steers, \$9 to \$9.25; butchers, \$8.35 to \$8.50; bulls, \$4.25 to \$6.25; stock heifers, \$4.25 to \$4.50; shipping, \$7.50 to \$8.75; heifers, \$4.50 to \$7.50; cows, \$3 to \$6.50; stockers and feeders, \$4.50 to \$7; fresh cows and springers, active and steady, at \$3.50 to \$7.50.
Veals—Receipts, 1,200 head; active and 50 cents lower, at \$4 to \$10.50.
Hogs—Receipts, 22,500 head; active, 10c to 25c lower; heavy, \$8.15 to \$8.15 mixed, \$8 to \$8.15; yorkers, \$7.50 to \$8.10; pigs, \$7.25 to \$7.50; roughs, \$7 to \$7.10; stags, \$5 to \$6.50; dairies, \$7.50 to \$8.
Sheep and lambs—Receipts, 25,000 head; sheep, slow and steady; lambs, active and 10c lower; lambs, \$4.50 to \$7.15; yearlings, \$5 to \$5.50; wethers, \$4.50 to \$4.75; ewes, \$2 to \$4; sheep, mixed, \$3 to \$4.25.

Chicago.
Chicago, Nov. 11.—Cattle—Receipts, 15,000 head; market, steady; heaves, \$5.60 to \$10.45; Texas steers, \$4.45 to \$5.60; western steers, \$5.50 to \$9; stockers and feeders, \$4.15 to \$7.10; cows and heifers, \$2.75 to \$7.30; calves, \$6.50 to \$10.50.
Hogs—Receipts, 35,000; market, weak light, \$7.15 to \$7.85; mixed, \$7.30 to \$7.95; heavy, \$7.20 to \$7.95; rough, \$7.20 to \$7.40; pigs, \$4.80 to \$6.65; bulk of sales, \$7.50 to \$7.85.
Sheep—Receipts, 65,000; market, weak; native, \$3.25 to \$4.70; western, \$3.50 to \$4.35; yearlings, \$4.50 to \$5.75; lambs, native, \$5.25 to \$7.25; western, \$5.60 to \$7.15.

Be good wherever you can. No matter where, no matter who. Whoever it is dark light a candle. Whoever needs a lift, give him your hand.

ROMANCE OF MINING.

British Columbia's Anna. Make a Fascinating Story.
Some idea of the extent of the mineral resources of British Columbia can be gathered from the well-ascertained results of mining operations carried on since the year 1852. There was mining at that time, especially the mining of gold, and the official computation of production begins with that year. The total production for all years up to and including the year 1911, amounts to the enormous sum of \$307,666,722. Of this sum, gold has contributed \$137,170,683; silver, \$32,663,995; lead, \$25,715,126; copper, \$65,215,949; the remainder being made up by the contributions of coal, building stone, and metals such as zinc.
Between 1852 and 1891 the production by years has not been tabulated, but since 1891 the total production year by year is given. Of these years, 1910 still holds the record of \$25,777,066. Last year the output was three millions less, the decrease being largely due to a falling off in the output of coal, owing to certain disturbances in the labor market.
Last year the output of the three precious metals—gold, silver and copper—had a total value of \$10,681,450, gold leading with a value of \$5,151,543, but copper was a close second, with a value of \$4,571,644.
It has been stated that as early as 1852 Chief Trader McLean, of the Hudson Bay Co., when at Kamloops, procured gold-dust from the natives of the Thompson River. Respecting the truth of this statement some doubt has been expressed, and it is printed out in the story of the same man was "singing the praises of the mines in the American territory, without saying a word of any in his own vicinity"—which is held to make it quite unlikely that he knew of gold having been found in British Columbia.
Coming down four years in the history of the Province, one reaches surer ground respecting the date of date of the discovery of gold, for it is certain that in 1856 or 1857 gold was found in the crevices of rocks on the banks of the Thompson River. Hearing of the find, Chief Trader McLean, of the Hudson Bay Co., went up the river and examined the banks. Sure enough gold was there as reported, and McLean promptly sent down to Fort Victoria for what he called "iron spoons to be used in digging out the nuggets." These were promptly sent up to him with the instructions that he give "as much encouragement as possible to the Indians willing to devote their time and energies to that purpose."
News of the discovery traveled fast, and soon reached the Pacific Coast states, which had had the gold fever ever since the days of the Californian "Forty-Miners." Soon a party of explorers and miners set out for the Fraser River to within a short distance of Fort Gale where they discovered Hill's Bay, which proved very rich.
These miners on Hill's Bay "panned out" daily from one hundred to one hundred and fifty dollars' worth of gold dust, and after a considerable quantity had been secured it was sent down to Victoria in charge of a celebrated character, "Billy" Bardou, an expressman, who had had much experience among the gold camps of California. As soon as it was known that gold dust was being shipped out of the camp more miners came pouring in, and so the gold fever spread as more gold was found.
The Rev. A. G. Morice, O.M.I., in his History of the Northern Interior of British Columbia, states that "the first lot of the precious metal to leave the limits of what is now British Columbia, found its way into San Francisco, where it was taken in February, 1858, by the company's steamer 'Otter.'"

An Energetic Author.
Though the chances of Sir Gilbert Parker, the member for Gravesend, Eng., are generally favored for an Under-Secretaryship in the next Unionist Government, it is as a novelist and not as a politician that he holds a prominent position in the public eye. When amongst the political pack he is a somewhat colorless individual, but in the realms of fiction he is king. Sir Gilbert Parker has hustled a trifle during the past twenty years. He is a Canadian by birth, and received his education at Trinity College, Toronto. In his early Canadian days he hit on a method of replenishing his pocket by lecturing, with the aid of a magic-lantern. Then came a period of journalistic work in Australia, when he acted as associate-editor of The Sydney Morning Herald. After traveling round the globe he arrived in England and persuaded the free and independent electors of Gravesend, at the 1900 election, to send him to Parliament as their member, and he has stuck ever since.

Our New Citizens.
During the six months, April 1 to Oct. 1, of the current fiscal year, 273,649 immigrants arrived in Canada. Of this number 183,990 arrived at ocean ports and 89,659 from the United States. These figures show an increase of 13 per cent, as compared with the number of arrivals for the corresponding months of last fiscal year, which were 196,814 at ocean ports and 83,317 from the U.S., a total for the six months of 241,931 persons.
During September this year, there were 31,140 arrivals, 20,690 of them having been at ocean ports, and 10,450 from the States as against 29,077 for September last year, 17,283 of whom were at ocean ports, and 11,794 from the States.

Campfire for Flies.
A piece of campfire burned over a candle is an Indian method of driving away winged pests.
Drinking Cups.
The danger of infection from drinking cups was noted 300 years ago and probably before that time.

Do unto yourself what you would think it right to do for your best friend.
Do unto others that which will enable you ever after to rejoice that you "did just as you did."

WORLD'S HAPPIEST GIRL.

Who Declares She Would Rather Plow Than Go to the Opera.
"The happiest girl in all the world" That is the distinction claimed by Miss Jack May, a slender bit of femininity, who owns and operates a farm in the wilds of Canada. Not many years ago Miss May, who is the daughter of Admiral May, of the British navy, was a frilly, frothy society belle, to whom the theatre, balls and card parties represented all that was worth living for. When the Boer war broke out and, along with scores of other aristocratic young English women, she went to the front as nurse, her eyes were opened for the smallness of the hitherto existence she had been leading. Upon her return home she at once entered the Swanley Agricultural College at Kent, and at the conclusion of her course amazed her former fashionable friends by becoming manager of a dairy farm. After a time she became working manager of another farm in Kent, where she took active charge of all the work, grain growing, vegetable gardening, and live stock. She went direct from that farm to the Canadian west, to a ranch of 220 acres near the Canadian Pacific Railway, and now all English society is interested in watching her career. Not a man is employed on Miss May's entire farm. Her only companion and helper is a Canadian girl of 18.
"Go back to society again? Not for worlds," declares this former London favorite. "I would rather plow than go to the opera. I would rather plant corn than attend a pink tea and I much prefer currying my horses to arraying myself in an evening gown. What a butterfly society life in damp and foggy England compared to real life in bright sunshine and bracing cold!" Miss May's success had made her views on agriculture much sought after, especially among the English immigrants.
Although this little English woman has sacrificed conventional feminine garb and has given up social life completely, she has lost none of the charm that made her a leader in British society circles. Her everyday costume consists of stout leather boots and leather puttees, riding breeches of heavy blue serge, a man's shirt, and a short khaki coat. When she desires to really "dress up" for special occasions, she wears a soft cotton tie, and a neat smock of navy blue denim, which comes to her knees and is loosely belted around her waist. She is delightfully picturesque and her happy carefree laugh is a sure cure for the blues.
"I love the freedom of the life and the bigness of things here on the western prairies," she said, recently. "In England one is bound by conventions, as one's fields are girt with hedges. Here I can do as I choose. I would not go back to stay under any consideration."

The Lutheran Church.
The Lutheran Church is fifth among the Protestant bodies of Canada. There are about 500,000 baptized Lutherans in Canada; about 100,000 are communicants of the church, and 100,000 are members of the Lutheran churches, some of them worshipping with other communions. More than half of the entire half million are young people.
The gospel is preached in at least twelve different languages in the Lutheran churches in Canada, but the young people are learning the English language, and ministers are being secured who can preach in English as well as in some other tongue.
There is a theological seminary at Waterloo, Ont., which began about a year ago, and one is being organized in Saskatchewan. A Lutheran home is planned for Montreal to care for the immigrants, there being three Lutheran churches in that city—one German, one Danish, and one English. There are about 5,000 Scandinavians in Montreal, and 1,000 Finns in Toronto, according to a local paper and all are Lutheran.

Magistrate for the Rockies.
To a former journalist, in the person of Mr. W. A. Jowett, has been entrusted the maintenance of law and order and the administration of justice in the vast new territory west of the Rocky Mountains now being opened up by the Grand Trunk Pacific Railway. Mr. Jowett has been appointed stipendiary magistrate for the country at the eastern end of present construction. More than 3,000 laborers are at work along the company's grade from the summit westerly, and new settlers and prospectors are pouring in in large numbers, while the development of mining claims promises to still further increase the population in this territory. Mr. Jowett, who was for many years editor of The Nelson Miner, will establish his headquarters at Tete Jaune Cache, but his commission is a roving one, and he will hold court at various points along the line as necessity may dictate.

Mustard Must Go.
By the successful experiments of the Ontario Government, there is a probability that the deadly mustard weed which causes so much anxiety among farmers, will be a thing of the past within a few years. Prof. Todd, provincial farm director, has secured a spray to kill the mustard seed. Last spring he had a 100-acre farm near Brockville, comprising fields of oats and barley, which were literally yellow with the mustard weed, sprayed with a solution of bistone or sulphide of copper. This farm has produced very poor crops in the past, but this fall there was an excellent yield and no traces of mustard were found. The same method of killing the mustard will be tried on the same farm next spring in an effort to find out whether this solution should be used on all farms in the province.

Do unto yourself what you would think it right to do for your best friend.
Do unto others that which will enable you ever after to rejoice that you "did just as you did."
