The lower picture shows some of the Servian troops wounded in the field hospitals. It is said that the Servians were the best organized of all the fighting states in the present war for taking care of their wounded and their sick.

HAD WANTED GIRL.

Blames Wife for Inducing Him to Drown Child.

Cincinnati, Ohio, Nov. 15.—Disappointment because their ten-days-old baby was a boy when they wanted a girl, Mr. and Mrs. Frederick Kipp, each twenty-two years old, wrapped the child in a shawl and tossed him into the Ohio river. They were arrested and the husband

confessed, blaming his wife for wanting to dispose of the child. When arraigned in court their cases were continued to November 27th. The body was not recovered.

Named After Sir John A.

While the new Grand Trunk Pacific hotel in Edmonton has been christened after Sir John A. Macdonald, the great Canadian statesman, it is also said to be a fact that the original settler in the Albertan capital was a man named John Macdonald, who came from Garth at the close of the eighteenth century and established what is to-day a thriving city of 55,000 before the Hudson's Bay company erected its fort and trading station on the banks of the Saskatchewan river. It is said that he crossed the plains with an ox team in the summer of 1789 and located on a farm overlooking the river, within a stone's throw of what is now the principal thoroughfare. Thus the "John A. Macdonald" will have double associations and a link with the history of the city in which it is situated as well as with the history of the entire dominion.

Varsity and McGill agreed upon Dr. Hendry as referee, and Percy Nelson, of Montreal, as umpire for the final game Saturday at Ottawa. The change in officials was brought about by Referee Phil McKenzie refusing to get.

The question of McGill's playing off for the dominion championship should they win from Varsity on Saturday, remains undecided, and will have to be taken up after the game. Some time ago a resolution was passed to the effect that the dominion honor be passed up, and it has never been rescinded. When the question comes up it will have to do down a long line of "red tape" before a decision is arrived at.

FUR AND ROSES ON THIS HAT FOR A YOUNG GIRL.

Though the roses on this hat for a little maid give the daintiness desirable for "Sunday best," the touch of fur is decidedly correct for winter days. The hat is made of cold blue silk, shaped over the conical crown by rows and rows of shirring. The shirred strips are drawn into place and at the sides cushions of roses in pale pink and dark blue fill out the circular spaces. The brim is also of shirred old blue silk edged with skunk fur and a twist of blue ribbon held down under pink roses separates the brim and crown. The coat of old blue broadcloth is trimmed with skunk fur, and is worn over a frock of blue mohair trimmed with pink embroideries. The neat buttoned boots which come high over the ankles are of patent leather.

Many Claims Staked.

Reports from the far west state that great excitement reigns at Kitasno on the line of the Grand Trunk Pacific in British Columbia over rich finds of free milling gold bearing ore that have lately been discovered. That this is the real thing says the report, is established beyond doubt; assays made recently have run as high as \$700 to the ton and quantities of the ore are to be found within a short distance of the railroad. So far no great amount of work has been done and it is improbable that active operations will commence before the spring. Numbers of claims have been staked, however, and one company thinks that with the railway facilities at hand they may be able to make a trial shipment to the immediate future.
