he Welland Canal Will Be Pushed

of winter will not interfere to any great extent with the carrying on canal. At the department of rail. has returned home. The Bell teleways and canals it was stated that the work of boring, surveying securing information and data, which is necessary before the letting of contracts for the actual work of construction, is progressing most tavor-

Thus far in the boring operations no great obstacles have been met with, and it is confidently expected that the department will be in the possession of such facts as will warrent the letting of contracts for at least a portion of the work by the early summer.

It is quite probable that the supelementary estimates of the session will provide the necessary money for out unavoidable delay.

HAY, FOOD FOR MUMANS?

Distinguished Chemist Would Use placed in the vault. Nourishing Elements.

Brussels, Nov. 28 .- M. Effront, the for meat, composed of refuse from hotels, has now turned his attention to the utilization of the nourishing elements which form the basis of hay and forage.

M. Efront's argument is that it is unnecessary that sheep and cattle should transform these into meat. high is only of nutritive use to man after it has been digested and split up into its simple constituents.
