OWEN SOUND OLD BOYS

HELD A DINNER AT THE BRITISH-AMERICAN.

A Number of Them Attend Queen's University—The Engineering Society Also Favors "No Cabs" for Dance Nights.

The Owen Sound Old Boys of Queen's University held their second annual dinner at the British American hotel Thursday night. An excellent spread was provided, and to the students' did ample justice. The speakers of the evening were Prof. J. L. Morrison and Prof. J. F. Macdonald. In reply to the toast of King and Country, which was proposed in an able speech by D. M. Baker, Prof. Morrison set forth in an eloquent manner, what the university men owed to Canada as a new country. Prof. J. F. Macdonald replied to the toast "Queen's," proposed by J. S. Fleming and so doing he interpreted most ably what the "Queen's spirit" really meant.

The Owen Sound Collegiate Institute was then toasted by D. R. Fleming and replied to by S. A. Wilkinson. R. Tucker and J. Matheson, J. A. McInnis, president of Arts '13 proposed a toast to the faculties, which brought forth responses from E. V. A. Crawford for Medicine, R. A. Gawie Science, J. Gilchrist, Arts, D. McGill, Education and R. J. McKenzie, Divinity.

Shortly after midnight the happy gathering broke up, after a most pleasant reunion. The executive of the association for 1912 is made up thus: Honorary president, Dr. Thurlow Fraser; president, D. M. Baker; vice president, S. A. Wilkinson; secretary treasurer, J. S. Fleming; committee, E. C. A. Crawford, R. J. Tucker, D. R. Fletcher. The committee responsible for the success of the dinner was composed of F. S. A. Wilkinson, H. J. McKenzie and E. C. A. Crawford.

The Engineering Society of Queen's is in favor of its members doing without cabs for the college dances (weather permitting) as decided by the Levan Society some time ago. They have posted notices to this effect on the bulletin boards and the members of the society are requested to forego the cab convenience unless the weather is too disagreeable.

The Civils have invented the latest in election signs. In the upper window of Carruthers' hall a rotating hexagonal cylinder bears the name of the science candidates.

The science dinner will be held on December 4th. D. E. Manchester, Science '15, of Ottawa, has discontinued his course for the present.

THIS NEW WAY SYSTEM.

It Has Been Installed at Livingston's Store.

The new way system for the showing of goods, which has just been installed at Livingston's store, has been attracting much attention. It forms the finest equipment ever given to a store of this character. The suits are kept in cabinets, which will contain as many as one hundred and sixty suits, the cabinets being closed in with glass, and at the same time being fitted out with the most up-to-date necessities. By this system, the suits are kept clean and dry, absolutely free from dust, well pressed, etc.

The same system applies to the cases for overcoats, while there is a special cabinet for children's suits. In addition, there has been installed an above mirror and dressing room. This new system is in use in New York, Montreal and Toronto, and Mr. Livingston, who is ever on the lookout for something real good, at once saw the value of the system, and by the use of it he will be better able to cater to his customers.

The business of this store is increasing every day, and the secret of the success is due to the fact that the store is, at all times, giving the very best service possible. The management is to be commended for their enterprise.

Death of Aged Lady.

Mrs. F. Catharine Simonds, widow of the late Samuel Simonds, of Ameliasburg township, Prince Edward County, died Wednesday night. Deceased some months ago was the victim of a paralytic stroke from which she never recovered. Mrs. Simonds was born in Prince Edward county eighty-one years ago and had lived there all her life. She was an estimable aged lady respected by all who knew her. For many years she had been a member of the Methodist church. Three sons and one daughter survive. The sons are Philip, Joseph and Edward, and the daughter, Mrs. Mary J. Hawley. All reside in Ameliasburg township.

Looking After Lighting.

The Portsmouth Council has been notified that the government will comply with the request of the council to have better lighting around the penitentiary. Work has not been commenced as yet on the new system for the village, as the civic light plant is crowded with work, but a start will be made as soon as possible.

Fall and Winter Importations. Prevost, Brock street, has received all his fall importations for his tailoring department, consisting of suiting and overcoating in great variety of patterns to choose from. Also large stock of ready-made clothing and gent's furnishings.

Hard on Horses. The roads throughout the city are in bad shape, as a result of the recent storms, and drivers state that it is very hard on the horses. As a result, the blacksmiths are working overtime—so fact they cannot commence to handle all the work which is coming their way.

ADDED TO VICTORIA SCHOOL.

Six Rooms Are Recommended—Reasons for Proposal.

It is understood that the Management committee of the Board of Education decided to recommend the erection of a six-room building to be added to Victoria school. The committee found the present accommodation so great that to meet present conditions the additional school space would be required. They propose the addition to Victoria school, first, because there is a site available; second, because the fourteen-room school could be under the charge of one principal, and, third, that as a new heating apparatus is urgently required in Victoria school, by the addition of a small amount, furnaces could be installed that would heat the entire structure. The demand for additional accommodation comes from one westerly part of the city.

Found Him With Shoes Off.

A lad about twelve years of age, named McGuffin, living in the northern end of the city, was found at the G.T.R. junction, Thursday morning, after, apparently, being out a goodly part of the night. He was seen walking in his stocking feet, with his shoes in his hand. The street railway men took him in charge, and were going to let him off at his corner. However, a medical student was on board the car and, fearing that the lad's feet had been nipped with the frost, decided to take the boy to Dr. W. McCarthy, who found that they were not frozen.

Just received, special snaps in boots. Boys, 8 to 10, \$1; 11 to 13, \$1.15; 14 to 16, \$1.25. Dutton's Shoe Store, Ford House, Athens, has been appointed manager of the government farm at St. Anne de Bellevue. Manicure requisites, Gibson's.

Kingston's Famous Fur Store.

CHRISTMAS FURS.
