Successful Entertainment Held. A most successful dramatic and musical entertainment was held in the Masonic Hall, Bath, on Friday Nov. 22nd, under the auspices of St. John's church. The first part of the programme, consisted of songs, duets and recitations by the following ladies and gentlemen: Mrs. Hanson, Mrs. Cuppage, Miss Warriman, Miss Forester, Miss Hurley and the Misses Hannon and Messrs. Wemp and Barley. The accompaniments were in the capable hands of Miss Thibley, Miss Ham and Miss Colin. Two neat and enjoyable patriotic items were given by the school children, who were admirably trained by Miss McCammon. The second part of the programme consisted of the farce: "Dearest Mamma," given by the following: Mrs. Cuppage, Mrs. Hanson, Miss McTeer and Miss Hilda, McTeer, and Messrs. Cuppage, Wemp and Brackenbury. The enjoyment of this farce was evident by the continual laughter of the audience, the admirable manner in which it was done, and the absence of the prompter, testified to the ability of all concerned. A delightful dance finished up one of the best entertainments that has been held in Bath for some time. Special thanks are due to the rehearsal committee, consisting of the following ladies: Mrs. Robinson, Mrs. Northmore, Mrs. Wemp, and Miss Davey, assisted by Mrs. Parks, for the excellent refreshments served during the evening. As a result of the above a substantial cheque will be handed to the church wardens.

HIGH SCHOOL BOYS SUSPENDED

By Sydenham Principal -- Pansies Found Under Snow. Sydenham, Nov. 28.—The work of placing the roof on the new St. Paul's church was delayed for a couple of days by the snow. The bazaar in aid of the mission band was held in Wesley hall, Tuesday night, but was poorly attended owing to the bad roads. However, the band cleared \$30. The pupils of the Methodist Sunday school are practising for their annual concert. The senior hockey team has been reorganized. The rink will be at the same place as last year, with D. Woodruff as manager. A number of the senior pupils were expelled by the principal of the high school for bad conduct for from one to five months. The Sydenham cheese factory was closed for the season. Mr. Cochrane will make butter for a while. Several of our young people will attend the ball at Harrowsmith town hall to-night. Mrs. Cole Lake has moved from Godfrey Station and will live in C. Davey's house, lately vacated by J. Pick, the latter having moved to Kingston. James Spratt has moved in part of J. W. Truesdale's double house on Amelia street. Mrs. Sidney Davey is somewhat better. Samuel Truscott is also improving. Dr. Frank Rutman, who was called here to attend the funeral of his father, returned to his home at Woodstock last Wednesday. Rutledge Bros. shipped two carloads of hogs this week. While passing by the residence of Jackson Dowsley, in this village, this afternoon, your correspondent saw, creeping through the snow, some snakes. He reached his hand through the fence, brushed off the snow, and checked a few which he sent to us. There were more blossoms and a number of buds, while the plants were as green as in summer.

Winter in Algonquin Park.

With Switzerland, Canada is taking its rightful place as the winter playground of the nation. One of the most popular districts where unrivaled opportunities are found for healthful sport and where an invigorating atmosphere may be enjoyed, is the Algonquin National Park of Ontario. In summer it is the stamping ground of the angler, camper and tourist, but with the first frost of autumn the camper and angler have stored their tents, their rods and their canoes, and the lovers of winter sports follow in the footsteps of the summer visitors and take possession of "The Highland Inn," the well-run and comfortable hotel at Algonquin Park Station. Algonquin Park is at an altitude of 2,000 feet above sea level, is reached by the Grand Trunk railway. It is about 200 miles north of Toronto, and 175 miles west of Ottawa. The winter rates at "The Highland Inn" are \$14 to \$16 per week, and the several attractions of the Park in winter are depicted in handsome booklet entitled "Winter in Ontario's Highland Heritage," copies of which may be had free by addressing a postal card to Manager, Highland Inn, Algonquin Park Station.

Had Narrow Escape.

W. H. Brickman, a bachelor who resides not far from the village of Red-nerville had a narrow escape from being burned alive when his dwelling caught fire on Sunday. He did not have time to dress, but had presence of mind to close the doors leading into the other apartments. He then ran out into the snowstorm to the well and began herculean efforts to save the residence from destruction. After a long and strenuous battle he succeeded in subduing the flames, but not until the interior of that section of the house was damaged beyond repair. The furniture was an entire loss, and the remaining part of the dwelling badly damaged by smoke.

Make Timber Fireproof.

Transmission line poles and cross-arms treated with creosote oil are less liable to destruction by fire than untreated timber of the same kind. This appears to be due to the fact that the free carbon deposited by the burning oil on the surface of the timber affords some protection from the action of the fire. A committee appointed by the National Electric Light Association of New York conducted a series of experiments on similar specimens of treated and untreated short-leaf pine, and proved conclusively that the latter suffered considerably more damage from the effects of fire than the specimens that had been impregnated with creosote oil.

The Quickest, Simplest Cough Cure

Easily and Cheaply Made at Home. Saves You \$2. This recipe makes 15 ounces of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50. Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, croup, sore lungs, asthma, throat trouble, etc. Mix two cups of granulated sugar with one cup of warm water and stir for two minutes. Put 2 1/2 ounces of Pinex (dry cods' worth) in a 16-ounce bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours. Pinex is one of the oldest and best-known remedial agents for the throat membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in gulsenic and all the other natural healing elements. Other preparations will not work in this formula. The prompt results from this recipe have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully. A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

A MOUNTAIN MACKINAW.

Pretty maids at Lenox and Tuxedo. These autumn days have been wearing the gayest colored Mackinaws, with trim belted lines, big patch pockets, and collars that turn up about the throat.

The mistakes of Moses were made so long ago that they ought not to interfere with present century living. Sometimes we make more allowance for the crimes of the knave than we do for the mistakes of the fool. When investigation gets on the track of rumor it is quite likely to find it the product of many tongues.

LONDON FOGS NOT MODERN.

"Plague" Was Considered Nuisance in Time of Tacitus. The London particular fog, which is so prevalent in the metropolis, especially during the present month, is no mere modern nuisance. This part of the country bore a bad reputation for them in the time of Tacitus. Pepsys is strangely silent about this plague, but his contemporary diarist, John Evelyn, records two terrible fogs, during which artificial lights were of no avail to prevent highway robberies in the public streets. Evelyn published a pamphlet "Fumifugium," denouncing the "hellish and damnable clouds of soot," which made London unhealthy and even injured the vineyards of France. This pamphlet won the approval of Charles II, who commanded Evelyn to prepare a bill against the next session of Parliament, being resolved to have something done. But the proposed anti-fog legislation ended in smoke.

WILAS FORTUNE FOR DIET.

Hebrew in Italy Stipulates Family Should Shun Meat. Leghorn, Italy, Dec. 3.—A wealthy Hebrew, the name of Modigliani, has bequeathed a large estate to be used to provide a vegetarian diet for his children, with the object of customizing them to abstain from meat. In his will he also asks that his body be left unburied for eight days by the sanitary authorities refuse to comply with the request.

Wedding at Plevna.

Lanark Era. "The good old summer time" may be the best for love-making, but Italian summer rivals it as a time for marriage. This was the sentiment expressed by many last Wednesday as Wallace J. Clement left to the altar Miss Annie E., eldest daughter of Mr. and Mrs. Samuel Barton, Plevna. The marriage took place in the Methodist church at Plevna, the knot being tied by Rev. William Ferguson, Watson's corners. At two o'clock the bride, dressed in a travelling suit of blue serge, with hat to match, entered the church, leaning on her father's arm, and took her place at the altar beside the groom, while Mrs. Gilbert Osler, who presided at the organ, played the wedding march. She was attended by Miss Louise Lemke, while William Lemke supported the groom. The ceremony over, the bridal party left the church to take place at the wedding march and repaired to the home of the bride's parents, where a reception was partaken of. About sixty guests were present. The popularity of the bride was evidenced by the number of useful and pretty presents. The young couple, followed by the hearty good wishes of many friends, will reside at McEwan's Depot, where the groom has opened a store in the building formerly occupied by William Richards.

Wealth Is Distributed.

Wealth is more evenly distributed in Bulgaria than in any other European state. Poverty, according to Edward Grey, "does not exist among the Bulgarians." In the towns there are individual cases of destitution, owing to drink and mis-conduct, but these cases are few and insignificant. There is no need to make any public provision for the relief of the poor; there is no question of the conflicting interests of useful and unproductive classes; strikes and trade unions are alike unknown. Bulgaria, as at present constituted, approaches as closely as is consistent with the imperfection of all human institutions to the ideal state of our latter day social reformers, in which there are to be no poor and no rich, no privileged classes and no social distinctions.—London Chronicle.

An Interesting Letter. Jam-Buk has proved a great comfort to me, as it is now something like two months since it cured my little girl of eczema from which she suffered for a year. This is but a fragment of a very interesting letter received by the Jam-Buk Co. from Mrs. E. Cassett, of Joggin Bridge, Digby Co., N.S. The letter continues: "When the sores first broke out I called in a doctor; but his treatment did no good. I tried salves and lotions and washes of all kinds, but the sores still spread. The disease finally became so bad that the child's face and shoulder were completely covered with sores. Imagine the pain the poor child (not a year old) had to suffer! "One day a friend advised me to try Jam-Buk. I did not have much faith at that time that Jam-Buk would be able to work a cure, but as there could be no harm in trying it, I obtained a supply. At that time the disease had defied all remedies I had tried for over a year. By the time I had tried one box of Jam-Buk there was a marked improvement. I continued the Jam-Buk treatment and day by day the sores showed signs of improvement, until the eczema was confined to the child's shoulder, one sore on which had been particularly deep. By degrees this, also, was healed, and finally Jam-Buk banished every trace of the disease. "I have waited several months before mentioning this case to you, in order to see if there was any return of the eczema. There has not been any return; the cure being permanent, and there is no scar or trace of the disease from which the child suffered so long. You may publish this information if you wish, so that every mother may know the value of Jam-Buk. "Jam-Buk is just as good for cold sores, chapped hands, piles, blood-poison, ulcers, bad leg, varicose ulcers, scalp sores, frost bite, baby's chafed places, etc. Also as an embrocation for rheumatism, sciatica, etc. All Druggists and Stores, 50c box or Jam-Buk Co., Toronto, for price.

My Digestion Is Now Good

And I Feel Like a Young Man Since Using Dr. Chase's Kidney-Liver Pills.

What a horrible condition the digestive system gets into when the liver becomes sluggish and the bowels constipated. The poisonous waste matter is thrown back into the blood stream and finds its way into all parts of the body, causing pains and aches and feelings of fatigue and misery. It is wonderful how quickly Dr. Chase's Kidney-Liver Pills sweep the poisons from the digestive system and enable the organs of digestion to resume their natural functions. Prof. A. T. Smith, 1 Mt. Charles street, Montreal, and formerly of Boston, Mass., writes: "I suffered for many years from bad digestion, constipation and horrible backaches. I have been treated by many doctors without any result. One day a friend in Boston advised the use of Dr. Chase's Kidney-Liver Pills. After using two boxes I noticed great improvement, and after the fourth box I was completely cured. My digestion is good. I never feel any pain in the back. My head is clear and I feel like a young man. I think Dr. Chase's Kidney-Liver Pills are one of the best medicines on earth."
