

SAGE TEA WILL DARKEN THE HAIR

Restores Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using Sage for restoring the color of the hair. Our grandmothers kept their hair dark, glossy and abundant by the use of a simple "Sage Tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of Sage leaves, and applied it to their hair with wonderfully beneficial effect.

Nowadays we don't have to resort to the old-time tiresome method of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing Sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy. This preparation gives youthful color and beauty to the hair, and is one of the best remedies you can use for dandruff, dry, feverish, itching scalp and falling hair. Get a fifty-cent bottle from your druggist to-day and you will be surprised at the quick results. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agent G. W. Mahood.

THE HALLS OF QUEEN'S ARTS '13 WON THE MITCHELL RUGBY SHIELD.

The Arts Dinner on Dec. 12th will be Addressed by Dr. G. R. Parkin—Tidings From the Medical College.

The Arts '13 rugby team won the Mitchell shield emblematic of the Arts' inter-year championship, by defeating arts '15 in a hard-fought game yesterday afternoon, by the score of 5 to 4. It was a most interesting contest, in which the result was always in doubt. The sophomores led up to the last few minutes of the game, when Lewis scored a touch for '13. Many fine runs were made and the kicking of both teams was excellent. Bert McKenzie made a speedy dash for '13 and soon after Garvock, of the seniors, did a similar trick. Fisher kicked well for '13 and Lewis put up a great exhibition for '15. O'Meara, Mackenzie and Holmes starred. Fraser and Scott were forced to retire through injury and were replaced by Garvock and Emery. Prof. J. J. Macdonald handled the game impartially and was ably assisted by M. Rodden.

'15 lined up thus: Full, O'Meara; halves, McKenzie, McCuey, Scott; quarter, Cummings; scrum-half, James; lines, Leisman, wings, Cobb, Holmes, McCormack, McIntyre, McGregor, White and Melville. Last year the Mitchell shield was won by '15 arts.

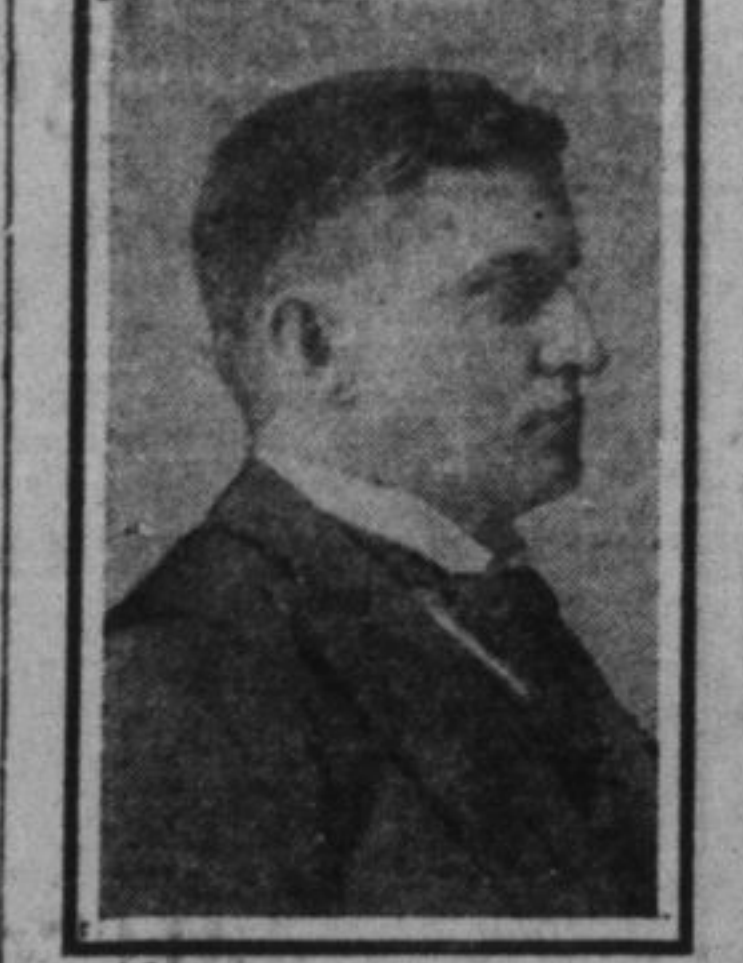

The annual arts dinner, which will be held on Thursday, Dec. 12th, in Grant Hall, promises to eclipse all past achievements of the society. The speaker of the evening will be Dr. Parkin, sometime principal of Upper Canada, Toronto, and at present trustee in charge of the Rhodes scholarship at Oxford. Dr. Parkin is a speaker and writer of wide reputation especially upon imperialistic subjects, and will receive a warm welcome from Queen's. Other speakers of note will also be present and Salisbury's orchestra will provide a musical programme. It is expected in addition that the Queen's quartette will render vocal selections. The committee in charge of the dinner consists of C. L. Boyd (convener), J. W. Ford, programme; W. B. Willacott, dinner; E. W. Pilgrim, invitation; S. H. Rutledge, reception, and D. M. Chown, decoration. Tickets can be had from E. W. Pilgrim, A. McWilliams, W. G. Carter, William Minnes and W. J. McKenzie.

It is the duty of every arts man to support the dinner and avail himself of this opportunity of spending a most profitable and enjoyable evening. The Alma Mater candidates addressed a joint meeting of the years arts '13 and arts '15 in the large English room of the new arts building yesterday at 5 p.m. Among the different occupations of the student during the vacation, that of agent-canvassing work has always been one of a pre-eminent source of employment and remuneration. Since the days of the stereoscope views and books nothing of any importance has been invented or manufactured that could be used for this purpose until last year when a company manufacturing cooking utensils of aluminum, introduced their goods to Queen's students. Several students had been interested in the project before and with their help a number of recruits were found and sent out to different territories in Ontario. Except for one or two cases these men met with unlimited success, one of them selling over five thousand dollars worth of the ware, thus clearing over a thousand dollars, others with very near the same success. The result is that this year the student agents are raising for a larger campaign next summer and are busy now enrolling new men for the work and talking the matter up.

The Aesculapian Society held a special meeting on Thursday to give the Alma Mater candidates of other faculties an opportunity to address the medical students in a body. Medicine '15 were allowed to decide by Dr. Knight whether they would have their examination in physiology before or after Christmas. It decided that the opportunity to study during the holidays would be too great a chance to miss and so will ask for the exam. after Christmas. It also voted \$10 towards the election expenses. Stanley McCuaig is doing as well as can be expected in the hospital. Holidays at the college commence Friday December 20th and will continue until January 6th. The Engineering Society will hold its regular meeting on Friday at which Alma Mater candidates will speak and Mr. Rigg will deliver an address on the "Mineral Conditions in South Africa." The sixth annual directory of Science students and graduates has been prepared and is ready for distribution amongst the Science students. The Engineering Society has gone a step further than the other faculties in the 'cab' question, and besides discouraging the use of cabs at college functions unless the weather is unsuitable they have drawn up a tariff for the students' reference in which the regular rates charged by cabs are set forth.

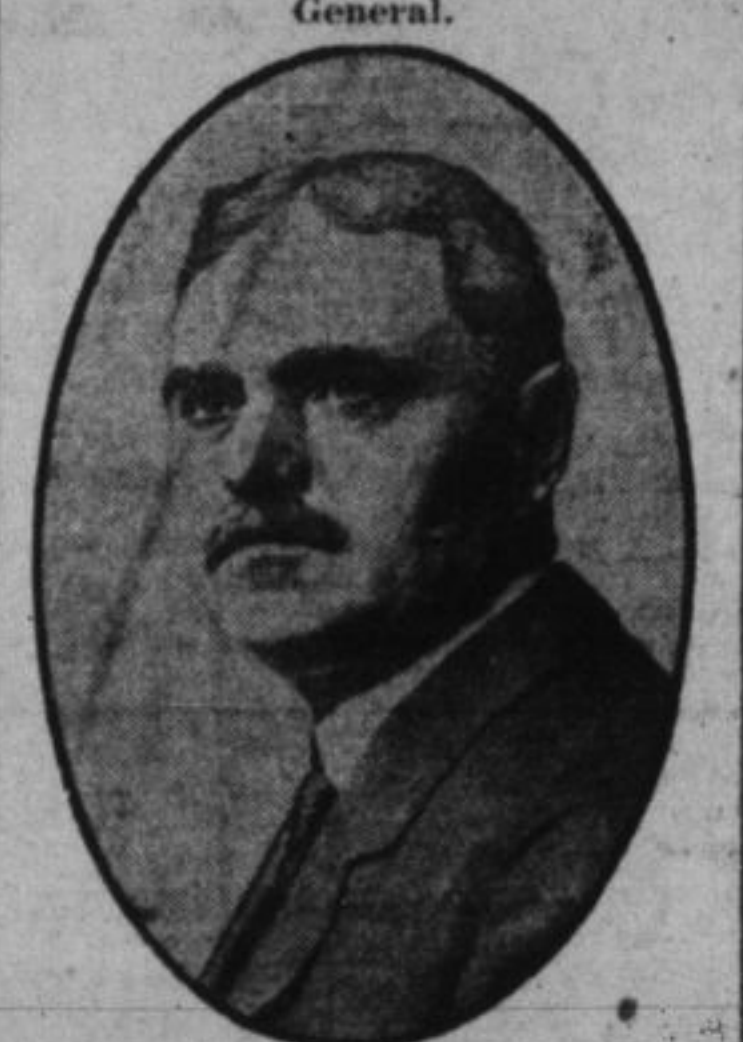

The senior students will make a test of the Dominion Textile company's power plant, starting at 6.40 a.m. on Friday morning and to continue until six p.m. The test is under the direction of Messrs. Benger and Harkness. Only One "Bromo Quinine." This is Laxative Bromo Quinine. Look for the signature of E. W. Grove. Cures a cold in one day. Cures grip in two days. 25c. It is thought at Constantinople the peace agreement will be reached easily in London.

ANXIOUS FOR ACTION. Declares Democrats Should "Hew to the Line."

Washington, Dec. 6.—"I believe that the democrats in the senate and in the house should hew to the line on the tariff question and prove that they have been sincere in all the accusations of wrong doing which they have made against the republicans," declared Senator Tillman, of South Carolina today. "I do not intend to make any speeches on the tariff; my views are well known. I have not been mealy-mouthed in my expressions on that subject. "Tariff action by the majority must convince the country that the democrats stand by its declared attitude. Otherwise we will be thrown out as we shall deserve."

CAN GIVE ALL HIS TIME TO THE DUTIES CONNECTED WITH THE Mayor's Chair.

In stating his qualifications for the mayor's chair, Ald. S. R. Bailey, who is offering himself as citizens' candidate, states, in the first place, that he has the time to devote to the duties of the office. Recently he retired from business, after acquiring competence in this old city, and hence his whole time is at the disposal of the citizens, if they see fit to elect him as chief magistrate. Ald. Bailey remarks that he has devoted a great deal of time to the city's affairs in the past five years, first as a member and later as chairman of the Board of Health, and intimates that he is, therefore, in a good position to aid the council in dealing with the water question next year, for this question is now one of Kingston's biggest problems. He points out that he has served on the important committees of the council, notably on the Utilities committee, now the most important of all, dealing as it does with the people's electricity, gas and water supply.

Ald. Bailey says he is in favor of everything that will tend towards the improvement of the city and the welfare of the people. In his canvass, he will be pleased to discuss any civic questions with the ratepayers and give them all information they may wish.
