TO KILL THE ROOTS OF SUPERFLUOUS HAIR

Judging from the number of remedies advertised to banish superfluous hair from the face, neck, arms, and hands, there are thousands of ladies who feel the dejection of this terrible blemish. Those women who have a repulsive, masculine growth of hair on any part of the body will appreciate the amazing effect of the following formula which is being used by the ladies of France to permanently destroy the hair roots. It has the great advantage of being simple and very inexpensive. Furthermore, it will not burn or injure the skin in any way. A single application will not always permanently kill the root, but it has been proven by several tests conducted by the noted French chemist, Muller, that one application completely removes every vestige of hair growth, and its regular use, one or two days apart, so weakens the roots that the hair cannot grow again. If you have hair you wish permanently removed, ask your druggist to prepare for you the following formula, which has been translated into English, so that American women may know exactly what they are using: Mix 4-12 drama pulverized Sulfuric Concentrate with 1 dram of common Zinc Oxide and 3 dram powdered Jervis Root. To use, mix a little of this compound into a paste with a few drops of water. Apply as thick as a five-cent piece, and remove with a dull knife blade at the end of two minutes, when the dissolved hair will come out. Repeat at intervals of two days. Each time the growth will be less, until it disappears entirely. This formula is not to be used as a substitute for shaving, as its repeated use has a tendency to destroy the roots of even a man's beard.

NEW MEAT MARKET

AT 28 BARRI STREET,
