## What Happened to St. Jacob's Oil

The other day I went into a drug store and asked for a bottle of St. Jacob's Oil. (As you read this does not the name impress you as some-

bing connected in some indefinite way with your childhood I asked the druggist if he sold much of the remedy now. He

told me I was the first one who had asked for it in months. And yet, twenty-five years ago it had an enormous sale, as every adult reader of this Talk will recall. St. Jacob's Oil is just as good to-day as it ever was. Why, then, has its sale dropped of?

The reason is that it has ceased to be advertised. And here's the story: When the man who first put the Oil on the market died, he left an immence business, which had been built up by advertising. An attorney who was conducting the affairs of the estate, for the widow of the old doctor, noticed, in going through the books, what he thought extravagant sams paid out for advertising.

He thought that the remedy had now become so well known that it was no longer necessary to spend money in advertising, and he so advised.

The advertising was stopped, and it was not long before the sales are reported to have dropped off. To-day, as any druggist will tell you, it is seldom asked for.

Other preparations that took its place were introduced-AND ADVERTISED. There's a lesson in this story for every merchant. Fallure to keep your store and the merits of your goods persistently before

the people will result in your being classed among those when
