OPPOSES APARTMENTS

REV. J. D. BOYD DOES NOT FAVOR THEM.

He Thinks That Substantial Houses, No Matter How Small, Should Be Erected in Preference. Kingston, Feb. 25.—(To the Editor)—You have in the past through your columns suggested many useful reforms in our city, and I am, therefore, the more unwilling, in this brief note, to differ from you as to your estimate and need of apartment houses in Kingston. Our city is evidently at "the parting of the ways," and I think we may feel assured now that the rapid development that has begun, shall continue for many years to come. Then, would it not be well for us at this juncture, to have substantial houses, that would be real homes to the incoming people.

SORE DISASTERS.

Lure of Gold Cause of Great Hardships. Prince Rupert, B.C., Feb. 26.—Of three prospectors who started a month ago from Atlin, a place camp on a Yukon line in search of gold, one nearly starved to death, one lost both feet and one became insane from cold and died, it is reported in advices received today. The men headed for Silver Creek. They had to break their own trail and travel light, expecting to replenish their stores at a trading post near Joslin Lake.

GRAPEFRUIT IS IN GREAT DEMAND.

The layman has little knowledge of the amount of grapefruit a wholesaler in this country handles in a season. In conversation with a fruit dealer the other day the Canadian Grocer came in touch with some interesting figures. One wholesale fruit dealer, he was told, handles regularly a carload of grapefruit about every ten days. He began to sell it last November when he purchased a car. This information forms the basis of a multiplication problem. There is an average of 330 cases to a car, and since November 19th some nine cars have been sold, making a total of 2,970 cases. Cases contain from 46 to 50 grapefruit—say an average of 60 to the case—so that up to the present some 178,200 grapefruit have been turned over by this one firm. The season will probably last six weeks longer, which means an additional four cars for this firm. At 330 cases to a car and 60 to a case, this would be 79,200 more or a grand total for the season of 257,400 grapefruit.

FUN IN INDIANAPOLIS.

"I've been laughing about it nearly all night." Capt. Crane waited for an instant. The woman hung up the receiver.

DANGER OF PNEUMONIA

Lessened by Healthy Conditions. At this season pneumonia is prevalent in many localities. Every year during the cold, damp weather this dread disease claims its victims by the hundreds. The best possible preventive of pneumonia is to keep the system in a strong healthy condition and not allow one's vital resistance to become lowered and, perchance, the system should become run-down or a chronic cough or cold develop which is hard to cure, take Vinol, our delicious cod liver and iron tonic without oil. Mrs. Ellen Lytle, of Lima, Ohio, says:—"I was weak, nervous and run-down, and pronounced by doctors to have a serious lung trouble. I was despaired of by all, but I read in the newspapers what Vinol had done for others and decided to try it. I took six bottles of Vinol and am now in perfect health and never felt better in my life. I weighed 108 pounds when I began taking Vinol. I weighed last week 140 pounds." The Vinol on our guarantee.
