ALLAN M. REID

SUCCESSOR TO

REID & CHARLES

CONTRACT IS AWARDED

FOR ERECTION OF FIRST BAPTIST CHURCH.

To J. W. Litton. The figure is \$23,020.—The Building Will be Started as Soon as the Spring Opens.

At a meeting of the building committee of the First Baptist church, held on February 18th, the tenders which had been requested for the erection of a new building, were opened. It was found that J. W. Litton's tender for the construction of the whole building at \$23,020, was very considerably below all the others. The award would have been made then, but even this tender was so much higher than was expected, that it was thought wise to postpone the awarding of the contract until such time as the amount of the subscriptions from the congregation was more definitely known. At last evening's meeting the report from the solicitors of subscriptions was such that the committee felt warranted in going forward and the contract was awarded to J. W. Litton.

The building will be erected on the corner of Johnson and Sydenham streets. It is to be built of stone with steel frame-work, and slate roof. The work will be begun as soon as the weather permits.

HAD A LIVELY EPISODE.

Claimed Batterymen Threatened to Shoot Another.

The particulars of a lively episode, in which two batterymen took part, were made known to-day, as the result of which one of them was given ten days' confinement and in addition was deprived of three months' good conduct money. According to the story told two batterymen had an altercation in the "canteen" at the barracks on Saturday night, which was followed by a lively fight. One of them carried the affair still further, so it is alleged, and made an attempt to use a rifle while in a temper. He was taken in charge, however, before he had a chance to carry out his plan. He was turned over to a guard and later came before the officer in command, when the penalty already referred to was meted out.

KNOCKED DOWN BY HORSES.

Accident to a Little Girl on Princess Street.

Grove Curtis, a little girl who lives on Princess street, near Alfred, was knocked down at 5.30 o'clock on Tuesday afternoon, by three horses, attached to a sleigh. The girl was carried into the Kingston mattress factory, opposite where the accident occurred. Though her head was somewhat cut, no serious injuries resulted. The man who drove the horses which knocked her down is said to have passed on without paying any heed.

The Canadian Club.

Rev. Dr. Gordon, Winnipeg, (Ralph Connor), will address the members of the Canadian Club in Kingston on March 3rd, at 12.30 o'clock, in the Frontenac Hotel.

Dr. Gordon is a very distinguished Canadian author, whose books have been read by many persons, and the opportunity of hearing him will no doubt be taken advantage of.

Read Paper at Ottawa.

Dr. Daniel Phelan of Kingston, before the association of the Canadian Army Medical Corps at its annual meeting in the Chateau Laurier, Ottawa, on Tuesday, afternoon, read a very learned paper giving an exhaustive treatise on the legal and medical aspect of criminal responsibility.

Repairs About Finished.

The repairs on the intake pipe are practically finished and the old tube is doing duty as usual. Chlorine is still being added, however, and the manager of the civic utilities says that he would advise the people to continue to boil the water for a few days longer.

Colds Cause Headache and Grip.

Laxative-Bromo Quinine removes the cause. There is only one "Bromo Quinine." Look for signature of E. W. Grove, 25a.

Weather Notes.

The cold wave which was in Alberta yesterday, has spread over the western provinces and the south-western disturbance is now moving toward the middle states. The temperature has risen very considerably in Ontario, but continues low in Quebec and the maritime provinces.

On Tuesday afternoon a girl took ill on Princess street, at the corner of University avenue, and was taken home on a sleigh.

Builds New Blood Cells

It is estimated that there are over 75,000,000,000 red blood cells in the human body. These red blood cells move in the blood currents, carrying through the arteries each its little load of oxygen, which it transports to the distant tissues, that they may be invigorated and vitalized anew.

When the red blood cells shrivel and waste weakness and disease result, and it is by forming new blood cells that Dr. Chase's Nerve Food restores strength to the weakened and worn-out body.

Miss Marie Voigt, Midway, Ont., writes: "Dr. Chase's Nerve Food has proven worth its weight in gold to me. I was pale and thin and nervous, and my system was run down in every way. The skin became a yellow color, and I suffered great misery from piles. By the use of Dr. Chase's Nerve Food my health has been fully restored. I have a good appetite and now feel strong and happy." Working hard in hand with Nature, Dr. Chase's Nerve Food is the best means of building up a

SLUMP IN BUSINESS.

Has Been Reported By Many of the Merchants.

"Though some merchants expect January and February to be quiet months in business, some of us do not," said a citizen to the Whig on Wednesday morning. "But never in my experience has there been such a slump, and the cause may be attributed, undoubtedly, to the unseasonable weather during the two months."

For those who have to pay the family coal bills, he said, perhaps the milder weather was welcome. But the sales of the coal merchants show a big difference from former years. And the fur dealers, he ventured to say, were affected to a very considerable extent. "How many cutters and sleighs have been sold this winter?" he asked. "The local agencies will tell you all right."

The doctors, he felt, certainly benefited by the product of the weather man this winter.

FEEBLE-MINDED CHILDREN.

Provincial Government Asked to Make Provision For Them.

Dr. A. E. Ross, M.P.P., was asked to represent Kingston, on the deputations of representatives of the different charities organizations and City Council of the province, which waited upon the provincial government, Wednesday morning, to urge upon it the necessity of making provision for the care of feeble-minded children.

It is claimed that there are thousands of children throughout Canada, and the agitation for an institution where they would be properly cared for has been going on for some time. Last fall, a convention was held at Toronto, at which the feasibility of such an institution was discussed, and the majority of the delegates were in perfect accord on desiring to ask the government to do something to relieve the situation.

KINGSTON PARTIES

Had Exciting Time Crossing on the Ice.

A despatch from Watertown, N.Y., says: In their hurry to reach Syracuse Mr. and Mrs. E. D. Lawless and child, of Kingston, Ont., had a most thrilling experience in crossing Lake Ontario to-day.

Near Wolfe Island the ice broke, plunging in one of the horses resulting into the water. Mrs. Lawless received a blow across the face from the pole that broke as the horse went down.

The horse was pulled out, the harness patched and the rest of the journey to Cape Vincent was made in time to catch an early morning train.

None of the occupants of the rig were thrown into the water. Upon reaching here Mrs. Lawless had her eye bandaged and the Club train was caught for Syracuse.

GOOD SPELL BROKEN.

One Drunk Appeared in Police Court on Wednesday.

The lid is off. The good spell has been broken. One drunk appeared lined up before Magistrate Farrell, Wednesday morning, and was fined \$1 and costs. The session lasted one minute.

It was, indeed, rather a pity, to spoil the good record, but then it could not be helped at least so far as the police were concerned, as the accused was so drunk he had to be taken in charge.

DIED, AGED NINETY-FIVE.

The Late Patrick Christley, of Inverary.

The county of Frontenac lost one of its oldest residents on Tuesday afternoon when Patrick Christley, of Inverary, passed to rest after an extended illness. The deceased was ninety-five years of age and came to this country when only a young man. He was born in Ireland. On coming to Canada he took up residence at Inverary, where he resided ever since. He is survived by four sons and three daughters.

Papa's Sunday at Home.

Last Sunday a Toronto man snoozed in bed until eleven a.m. Then he arose, dressed leisurely, had a nice breakfast, read the papers, smoked, loafed, ate a nice dinner, read some more papers, smoked, loafed, took a nap and in the evening ate a lunch, read a little, smoked, loafed and was as agreeable as any thoroughly worthless man knows how to be.

His wife arose early, scrubbed the children and got them off to Sunday school, cooked breakfast, cleaned up things after her husband and children did some darning, got a Sunday night lunch, washed up the dishes, sorted out the clothes, put on the boiler ready for the washing the next day, darned some more stockings in the evening and that night, when the children went to bed, one of them said to another, "Isn't it nice to have papa home all day? He is so much pleasanter than mamma." Isn't that the way? Worthless people always get the bouquets.

How To Make It.

A pretty hanging plant may be made from a carrot. Select a large one and scoop out the centre, string a cord through each end and hang it to the curtain pole or in the kitchen window. Put a little water every day in the scooped-out centre, and soon pretty green shoots will begin spreading around the carrot, making the carrot invisible.

"Fresh marshmallows." Gibson's. A horse belonging to the Dominion Construction company was badly cut while in the stable, near Tichborne, on Monday night. On Tuesday morning Dr. Summersville went from Dr. Bell's veterinary establishment to attend the animal.

"A \$5 truss" for \$2.50. Gibson's. A constable from North Bay arrived in the city, on Wednesday morning, with Percy Jacobi and Edward Grennon, each sentenced to three years in the penitentiary for theft. "Fresh marshmallows." Gibson's. Rev. Elias Mullin died at Pomona, Cal., on February 15th, of a paralytic stroke. He spent his years of ministry in Canada.

SPECIAL SALE THURSDAY, FRIDAY and SATURDAY

THE LEADING UNDERTAKER.

SHOCKED AT IRREVERENCY.

Of Young Men and Women During Prayer Time.

A Whig reporter was accosted by a churchgoer, who spoke of a thing that surprised him while in a city church last Sunday evening. He said that while sitting in the gallery of a place of worship, he witnessed an exhibition of a type of irreverence which struck him forcibly.

"While the preacher was praying very fervently," he said, "I raised my head and casually glanced across the galleries. Among upwards of 200 present (the majority of whom were young people), not many more than half had their heads bowed, or were in postures of reverence, during the prayer."

He said that many sat upright in their seats, gazing around at the congregation and choir, as boldly as if they were witnessing motion pictures. One young man on the right side of the gallery sat with his legs crossed and his arms folded; another opposite him, on the left side, at the front, surveyed his young friend for some time. And many of the young ladies and girls, from whom better was expected, sat there as if no prayer was being offered. One man, in the centre, followed the old Methodist custom of kneeling.

Technical Society Address.

Major G. V. Hordern, staff officer of the third division, completed a series of lectures of the Shenandoah Valley campaign, in the Armouries, on Tuesday evening. These lectures were given before the Kingston Tactical Society. The staff officers gave a review of the movements and disposition of the opposing forces, explained the nature of the country, and the calibre of the commanding officers of the federal and confederate armies. On Tuesday evening, Lieut.-Col. A. B. Cunningham, who was also over the ground last year, gave an explanation.

Gossips repeat everything they hear and a lot they don't.

CERTAINLY ENDS STOMACH MISERY

"Pape's Diapiesin" Relieves Your Indigestion in Five Minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia, when the food you eat ferments into gases, and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapiesin. It makes such misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Diapiesin. It's so needless to have a bad stomach—make your next meal a favorite Diapiesin. It makes a little Diapiesin. There will not be any distress—eat without fear. It's because Pape's Diapiesin "really does" regulate weak, out-of-order stomachs, that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapiesin from any drug store. It is the quickest, sweetest stomach relief and cure known. It acts about like magic—it is a scientific, harmless and pleasant preparation which truly be-

WORK OF THE Y.W.C.A.

AN ADDRESS WAS GIVEN IN CONVOCATION HALL.

By Miss Una Saunders, General Secretary—An Appeal Made For Workers And Financial Aid.

The Y.W.C.A. was addressed, in Convocation Hall, Queen's University, by Miss Una Saunders, general secretary, formerly of the world's committee, on the general growth of the young women's work both in Canada and abroad. Among other places, she mentioned the interesting work among the young women in Japan. She traced the work from its small beginning among the students to its present holding among the large class of working girls in Tokio. Wherever there is an economic problem there is room for this work. The work has spread in Japan as an aid to the churches there.

Miss Saunders also rehearsed a numerical estimate of the growth of the institution in Canada. Last of all she made a plea for workers of all kinds, and asked for the prayers of the local branch for those engaged in the work, and for the financial aid of those interested.

Miss Saunders during her talk gave a very vivid description of a girls' home in Japan, and laid particular stress on the very little furniture used in Japanese homes and how well they get on without it. She said that it might be well sometimes for the Canadian Y.W.C.A.'s to try the Japanese method. She explained how the spiritual tone of Y.W.C.A. work often fell short of the mark because unqualified people had to be placed in the offices. This was one of the main reasons for the demand for workers.

After Miss Saunders' address, Miss Florence Bissette sang "This Is My Task," in a very impressive manner. At the Y.W.C.A. rooms, on Johnson street, Miss Saunders spoke on the problems of girl life as met with in association work, and gave the workers of the local association some five minutes for thought. She was followed by Miss Esther Burton, of Harbin, who spoke on the industrial and extension work of the Y.W.C.A. in manufacturing places. During the afternoon, Miss Hazel Massie sang, and Rev. S. J. M. Compton spoke.

Good Skaters on Palace Rink.

"Dimples" writes as follows to the Whig:—"In your paper a few days ago we girls read an item referring to the young lady skaters of Kingston. I wish to tell you that there are good skaters in Kingston. If your critic would take a walk to the Palace rink any fine evening, he would find any number of good girl skaters who are too independent to sit on the bank waiting for young men to come and lead them around the rink. They are not afraid to venture out on the big rink alone, and their hearts do not go pit-pat as they glide along, for they are having too good a time to

GRAND OPERA HOUSE.

"Madame Sherry" Was Produced on Tuesday Evening.

"Madame Sherry" is a musical vaudeville of which the theatregoer does not grow tired. It can be seen over and over again, which is something that cannot be said of most of the musical comedy productions that are on the boards. At the Grand last night, a large audience witnessed this pretty and tawdry production. The cast was good as usual, and included the well-known comedian, Hal-ler. Mostyn, who delighted everyone who heard him. Miss Gypsy Dale took the role of the convent girl in a dainty manner, and sang sweetly. Everything about the production was enjoyable.

"McFadden's Kats."

A show that is strict, out of the ordinary is promised at the Grand on Saturday, March 1st, matinee and night. It is "McFadden's Kats," that most perennial and enduring of all musical farces. The play has been thoroughly reconstructed, rearranged and rejuvenated, with entirely new up-to-date material, song hits, features, novelties, surprises and a scenic adornment that is certain to lift the production to a high plane of perfection. A brilliant and prettily costumed chorus of youthful and well formed girls assist in attractively arranged ensembles, while the specialties introduced during the action of the piece are thoroughly enjoyable and original.

To-night "The Bird of Paradise."

Inventor, as well as dramatist and playwright, is Richard Walton Tully, the author of "The Bird of Paradise," and co-author with David Belasco of "The Rose of the Rancho." All the scenes of the play, which variously represent a beach-cave and native house on the wild Puna coast; Waikiki Beach, Honolulu by moonlight; the approach to Kiluaea and the burning crater of Pele have been reproduced with faithful realism from hand-colored photographs taken by the author himself. But more than photos and painted counterfeits were necessary to reproduce life-spouting Pele in all her fiery magnificence and terrible majesty, so Mr. Tully set about finding it.

After several months' labor he had conceived and constructed a model in miniature that reproduces with startling vividness the desired effect of the erupting crater. Moreover, he applied for and was granted patents upon his ingenious volcano effect—a really wonderful achievement in stage mechanics. "The Bird of Paradise" will be seen at the Grand to-night.

The McKinley farm, Cape Vincent, N.Y., sold under mortgage foreclosure, was bid in by John K. Kilborn for \$16,275.

Hood's Pills

Best family physic. Do not gripe or cause pain. Purely vegetable. No sugar or tar.
