

EASTER GIFTS

The giving of gifts at the Easter season does not involve expensive gifts. Easter brings an abundance of novelties and souvenirs, especially in books, booklets, dainty Easter cards—all with appropriate mottoes and designs and special Easter greetings.

Our Easter Cards

are this year specially attractive, all finished in white, gold, purple and mother of pearl effects, and in hand painted designs.

New stock of BIBLES, PRAYER BOOKS and HYMN BOOKS, in new bindings and good type.

Henry Van Dyke's "MANSION" in fine binding, makes an appropriate Easter gift.

THE ASSAULT-AT-ARMS TO PREPARE PLANS

OF THE ROYAL MILITARY COLLEGE ON WEDNESDAY.

The Boxing Events Were Keenly Contested in the Afternoon—The Other Events Took Place in the Evening.

On Wednesday evening the friends of the Royal Military College were guests of the cadets during a very entertaining exhibition of gymnasium work which, following in the wake of the afternoon tournament, gave some clue to the sort of training which produces such splendidly developed men as took part in the afternoon entertainment. The spectators, though not large in number, were very much pleased with the work of the cadets, and justly so, for it is hard to conceive a body of young men better developed physically than those who took part in the display on Wednesday night. The uniformity of excellence was also quite noticeable and although many of the drills and tableaux demanded training and skill in each man far above the average, no cadet in the whole evening came short of his work.

The club swinging, which opened the evening's exhibition, was dazzling, and while for all but a small number of skill would have been required to perform the whole series, the sight of a class carrying the thing through without an error stroke was magnificent. One of the features was the swinging of fire clubs. The clubs had wick ends, which were soaked in alcohol and lighted. The lights of the gymnasium were then turned out and the class swung torches in the dark. The effect produced by this was splendid.

The free gymnastics, which included a number of graceful drills, were very interesting, and must have been a great test on the lads.

The only contest of the evening was a bayonet fight between Cadets Green and Storms. This was a contest which went by points. The bout was won by Cadet Storms, the score being 5 to 4.

Wonderful displays on the parallel bars, horses and horizontal bar were given, as well as only the Royal cadet can give. A few gymnastic exercises were done also with chairs. Some of the tableaux which the cadets introduced were very remarkable and skillfully done.

The Afternoon Events. The finals in the boxing competition were held in the afternoon, occupying about an hour. A goodly number of out-of-town parents and friends of the cadets were present. The commandant, Col. J. J. Y. Crowe, and staff, cadets, gentlemen, and a few ladies, were also present.

The novices (145 pounds and under) took the ring first. For three rounds the former, showing his superiority, and getting the decision. The commandant, Col. J. J. Y. Crowe, and staff, cadets, gentlemen, and a few ladies, were also present.

The exhibition between Cadets Lawson and Wilkins for honors in the welterweight (115 pounds) was, perhaps, the best bout of the afternoon. Lawson won, having the best of the argument, especially in the first round. Wilkins came back aggressive and worked up, until at the beginning of the last round, the winner got pretty groggy. However, Lawson retrieved himself in the finish.

Cadet Stratford declared himself the better in the middleweight (135 pounds) bout. Cadet Green put up a good scrap, though. The last event, the heavyweight, was interesting. Cadet Godwin, a senior, won out in a close fight with Cadet McKean, a recruit. McKean was the more aggressive in the first two rounds, but shorter than his opponent, his jabs fell low. Godwin punished him hard in the third, and another round was ordered, in which the senior repeated the medicine. McKean was cheered for his gameness.

The officials were: Judges, Major Sedgwick, Prof. I. Martin; referee, Major J. P. Shine; timer, Capt. Plummer; announcer, Sergt.-Major Cuthbert.

Mrs. Elizabeth Jane Shepard, Cape Vincent, N.Y., died, Saturday, at the age of eighty-one years. She is survived by two daughters, Mrs. George VanSchaick and Miss Ada Shepard, both of the village.

Child Almost Strangled

You never know what minute a child will develop a bad cold or be seized by croup. For this reason it takes a great burden off every mother's mind to have at hand Dr. Chase's Syrup of Linnseed and Turpentine.

Mrs. E. W. Silver, South Milford, Annapolis county, N.S., writes: "I have used Dr. Chase's Syrup of Linnseed and Turpentine for my little boy, with most satisfactory results. His throat would fill up with phlegm so bad that he could scarcely make a sound, and I thought he would surely strangle. He grew worse and had frequent bad attacks, so I began using Dr. Chase's Syrup of Linnseed and Turpentine. Scarcely half a bottle was used when the strangling ceased. This medicine had a wonderfully soothing effect, and when he had taken two bottles I could not tell that he had any throat trouble. We have also used Dr. Chase's Ointment, with equally good results. It is a grand medicine for salt rheum.

There are imitations but the genuine Dr. Chase's Syrup of Linnseed and Turpentine bears the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

FOR THE HEATING OF THE CITY BUILDINGS.

Property Committee Moved to Have Joseph Power Take Up Work—Estimate of Cost of Improvements to Building, Also Desired.

The heating of the city buildings was under discussion at a meeting of the Property committee held Wednesday afternoon, and it was decided to have Joseph Powers, architect, prepare plans and specifications for the steam heating of the city buildings, and an estimate of the cost of improvements to the buildings.

The chairman, Ald. Elliott, presided at the meeting, and the other members present were Alds. Bennett, Couper, Litton and Hanley.

The chairman went over all the communications with the Tyler Underground Heating System, of Pittsburgh, for the information of the committee, and also looked up extracts from the report given by local experts. The committee agreed that an architect should be appointed, and on motion of Ald. Bennett the matter was decided in this way.

Ald. Litton brought up the matter of some needed repairs to the north end of the buildings, stating that this work should be undertaken when the heating system was installed.

No action was taken on a communication from the Dominion District Heating company, asking that the city enter into negotiations for the heating of the buildings.

Ald. Elliott and his colleagues are giving the question of the heating of the buildings their serious consideration, and their desire is that the best plan of work be adopted. As soon as the plans of Mr. Power are ready the committee will get busy, as they want the work carried out this summer. The celebrated box stoves must go at last.

HAVE COLLECTED \$2,400.

For Y.M.C.A. Work, But \$3,000 More Is Needed.

After two days' work on the Y. M. C. A. financial campaign, the members interested in the work gathered at the building on Wednesday evening when the count was taken. The \$2,400 as submitted showed that leaves \$3,000 to be secured on Thursday. The members realize that it is big undertaking to call on the citizens, and for that reason are working with all their might. The young men's teams are growing up well. The team captained by E. E. Leach now heads the list. The second team is under A. Fretzger, and campaign is supposed to close at 8.30 o'clock on Thursday, but if for any reason the required sum is not collected, then the work will be continued for another day.

It is a significant fact that fifty or more business and professional men interested in the welfare of the Y. M. C. A. are setting aside a large amount of time this week in the endeavor to secure the funds needed for carrying on the work of the association. This action is all the more significant in view of the fact that these same men are personally making generous contributions of money as well as time, that the effort may meet with the desired success. If those doing the difficult work of raising this institution enter thus enthusiastically upon this work, it is only fair and reasonable to expect others to encourage them by ready response to their calls for assistance.

FIRE ON ONTARIO STREET.

Firemen Were Given a Run on Wednesday Afternoon.

Wednesday afternoon, a few minutes after four o'clock, the firemen were called to a two-story and attic dwelling at 80 Ontario street, occupied by Robert Kemp, and company of the Canadian Locomotive company. Fire started in the attic, and it is supposed that a spark from a window blind, which had been open some time before, lodged in the ceiling, and worked itself through to the attic floor. When the blind was discovered to be on fire, it was pulled down, and shortly afterwards the fire broke out. Some rags on the floor caught fire, and the fire made its way to the roof. The slanting on the entire roof had to be pulled off by the firemen before the blaze was extinguished. Smoke poured out of the attic windows of No. 82 Ontario street and No. 84, and for a time it looked as if there would be a far more serious blaze.

Damage to the extent of about \$60 was done to Mr. Kemp's house, the contents being damaged by water. Both houses are to be removed shortly, in order to make room for the new buildings at the locomotive works. The firemen used a line of hose from the corner of Ontario and Gore streets, while a reserve line was laid from Union and Ontario. This, however, was not needed.

RUSHING HAY TO CITY.

Lest the Harbor Ice Should Go Out Early.

The mild weather which has been carrying away the snow and spoiling the sleighing season, to indicate that the weather men will not drag out an unsatisfactory winter any longer than is necessary. The feeling in the air for the past few days has been decidedly springlike, and the ice is beginning to soften up in the harbor, although the crossing between here and the islands is still good. The Wolfe Island farmers seemed to foresee an early breaking up of the ice, and on Thursday were rushing their hay to the city with speed. The ice was dotted with holes and the hay market was busy. The islanders have been plying between there and the city ever since the crossing began.

C. Ferguson, aged sixty-eight, and who lived his whole life in Kitley township, died on Thursday last. Brockville and Pembroke are asking to have medical inspection provided for their schools.

CAMPBELL'S New Spring Hats

We will now be found here every day with the latest hat news. This season we start the spring hat business with the largest and best stock of men's hats ever shown in Kingston. THE HABLS OF QUEEN'S.

Debate Held by the Arts Society on Tuesday Afternoon.

The programme provided by the Arts Society, at its meeting on Tuesday, took the form of a debate on the subject, "Resolved, that student discipline should be subject to the control of the university senate instead of as at present, to the student court of each faculty." The affirmative was upheld by Messrs. J. P. McLeod and Edwards, while Messrs. Melnis and Pringle argued the negative side of the proposition. Strong cases were made out by both teams, and considerable debating skill was manifested, but the audience decided that the negative had the better of the argument.

The committee appointed to report on the advisability of purchasing a piano for the arts club room, recommended that a high grade, slightly used piano be secured. They were given power to carry out their recommendation.

S. Fleming gave notice that, at the next meeting of the society he would move that certain steps be taken to put the reading room upon a more satisfactory and better financial basis. This will involve a new method of securing the periodicals and a closer supervision of the reading room by the manager.

Ladies' Auxiliary society are invited to assist at mass, 7.15 Friday a.m., in Hotel Dieu chapel, for Mrs. D. O'Leary.

This Will Stop Your Cough in a Hurry

Save \$2 by Making This Cough Syrup at Home.

This recipe makes 16 ounces of better cough syrup than you could buy ready made for \$2.00. A few doses usually conquer the most obstinate cough—stone even whooping cough quickly. Simple as it is, no better remedy can be had at any price.

Two cups of granulated sugar with one cup of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a 16-ounce bottle; then add the Sugar Syrup. It has a pleasant taste and lasts a family a long time. Takes a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for bronchitis, croup, bronchitis, asthma and all throat and lung troubles.

The effect of pine on the membranes is well known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in galsanoic acid and the natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully. A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. Not, send to the Pinex Co., Toronto, Ont.

CANDID THINKING. An Association That Men Think Canada Needs.

Professor Adam Shortt is president and Professor O. D. Skelton is secretary-treasurer of the Canadian Political Science association, which is planned to promote clear and informed thinking on current national problems. The endeavor will be to have Canadians realize the difficulties of our growing problems, and the need for thorough non-partisan discussion, so that good results may flow to the country through the proper presentation of the issues.

Hood's Sarsaparilla

Is the most effective medicine for the complete purification of the blood and the complete renovation of the system.
