WILSON'S INVALIDS' PORT A BIG BRACING TONIC

"The services that wine renders to health are more important than those of any medicine with which I am acquainted." —Francis E. Austin, M.D., F.R.C.P.

AFTER

a successful battle with fever, operation or accident, vitality is at a low ebb—strength is exhausted and a condition of extreme languor and apathy is prone to set in that is regarded with gravity and alarm by the physician.

Wilson's Invalids' Port Wine has been proved again and again by the profession to be wonderfully efficient in restoring convalescence to robust, abounding health and happiness. It spreads an immediate, vitalizing force throughout the body, producing a feeling of buoyancy and relieving depression and melancholy. It re-builds and increases the red life-blood cells and tissues—stimulates and restores the nerves—supports the heart and checks the decline of mental and bodily vigour. Doctors know!

\$42,000,000 IN BONDS RAISED BY ST. PAUL RAILWAY.

Two Billions of Common Cans Were Manufactured by the American Can Company—Late Commercial News.

New York, April 17.—St. Paul has raised upwards of \$42,000,000 by bond sales since the first of the year. The sale of \$20,000,000 4 1/2 per cent general mortgage bonds was preceded in January by the offer to stockholders to subscribe at par for \$14,000,000 4 1/2 per cent convertible bonds.

This financing will add \$1,980,000 annually to charges, the full effect of which will not be felt until next fiscal year. At present rate of earnings the added charge will not be a heavy burden. Added interest will be over 1 per cent on St. Paul's outstanding common.

Two Billions of Common Cans.

New York, April 17.—Last year the American Can company produced two billion of common cans, used in putting in fish, vegetables, soup, fruit, etc. The words "two billion" sound large, but are much more impressive when it is figured that the average tin can of the kind mentioned is about five inches in height, and, using the above figures would, if laid end to end, reach around the world six times. At an average cost of ten cents per can, "loaded," these tins would sell for \$20,000,000.

Called Speaker a Shrimp.

A Lively Scene in Illinois Lower House.

Springfield, Ill., April 17.—Proceedings in the Illinois lower house were enlivened yesterday by a personal attack upon Speaker William McKinley by Representative Lee O'Neil Browne, of Ottawa, during a debate.

Speaker McKinley unavailingly called upon Sergeant-at-Arms Gus Keim, of Ottawa, a Browne adherent, to force Browne to take his seat.

"You want? You dirty little shrimp, you've insulted every member of this house," shouted Browne as he ran down the aisle toward the speaker.

After several moments of confusion, during which every member of the house was on his feet, Browne was prevailed upon to return to his seat.

For Making Man "Move On" In Smith's Falls.

Smith's Falls, April 17.—Chief of Police Philips has had difficulty of late in keeping men from congregating on the street corner and in front of certain places of business, to the annoyance of passers by, especially ladies.

On Monday he over-reached his authority and got himself into considerable trouble.

R. P. Green was sitting on the railing in front of Robinson's tobacco store, on Beekwith street, when the chief reached for him, jerked him to the sidewalk, and then told him to keep off the railing.

In police court, yesterday, the magistrate found that the chief had exceeded his rights and imposed a fine of \$1 and costs.

Reinforced to stand rubbing and tubbing

RUB-rub, rub-rub, rub-rub, up and down, down and up—against the heel of your shoe or the sharp ribs of a washboard. A stocking has to have stamina to stand treatment like that. Radium Hosiery has reinforced soles and is 4-times reinforced at heel and toe to resist just that kind of usage. Naturally, this adds weeks of wear, and means also that "hosiery" will not appear on your shopping list so often. Despite the unusual strength and serviceability of this hosiery, the thread-like texture is so fine and sheer and soft as to look smart and dresy on the feet and feel cool and comfortable to the skin.
