TENDERS LAID OVER CHEMICAL EXPLODED

FOR THE PAVING OF SIX BLOCKS IN THE CITY.

Only Two Tenders Received by the Board of Works, and They Were Left Over for Further Consideration—Suggestion Made to Extend Area.

The Board of Works held a special meeting on Monday afternoon, to open tenders for six blocks of pavement, on motion of Ald. Bennett, the tenders were laid over for further consideration, the prices offered not being given out for publication.

The fact that there were only two tenders in for the work, naturally caused some discussion, and the only reason the committee was that perhaps for such few tenders was that amounts to some 6,630 square yards, was not a sufficient inducement to the different companies to take on a contract here.

The fact that the town of Lindsay was securing a pavement at a cheaper price than Kingston, as mentioned in the Whig, on Monday, also came up for discussion. The board felt that Kingston should be able to have a pavement laid here just as cheap as any other place.

There was quite a discussion on pavements in general, but the members felt that it would be wise to hold the tenders over for further consideration. The blocks to be paved under this contract are Johnson street, from Ontario to Wellington street; King street, from Clarence to William street; Wellington street, from Clarence to William street.

Ald. Bennett and Ald. O'Connor expressed themselves as being very strongly in favor of extending the area to be paved, and at the same time, to include Princess street. They felt that the small area set out at the present time, was probably no inducement for companies to take a contract for work here.

Another proposition taken into consideration was extending the pavement on Wellington street, from William to West street. This, of course, would not be undertaken unless the sanction of the ratepayers in these blocks are willing. If they are willing, the committee is of the opinion that it all might just as well be done at the one time. If these extra blocks were taken into consideration it is estimated that there would be an additional paving area of 10,000 square yards.

The members also realized the fact that it was up to them to secure the pavement at as reasonable a price as could be secured. This, of course, could not be done unless a certain price, there was no reason why Kingston should not secure it also.

The chairman, Ald. Fair, presided at the meeting, and the other members present were Alds. Couper, Peters, White, Bennett and O'Connor.

COMING TO THE GRAND.

"Little Boy Blue" and "The Rose Maid."

It may be mentioned that the story of "Little Boy Blue" has no connection with the rhymer of the days. While the production is enormous, it is in no wise of the extravagance order. It is comic opera pure and simple—comic opera at its best and its biggest. Scenically, the production is superb, and it is doubtful if anything in recent years can be compared with this offering in the matter of costumes. A long list of principals have been engaged from all parts of the world. In addition to the greatest singing and dancing ensemble of beauties ever known in comic opera. Then, too, there is a special "Savage" augmented orchestra of grand opera proportions.

"Little Boy Blue" will make his Kingston debut at the Grand on Thursday, May 8th, one night only.

Alice Lloyd in "The Rose Maid."

A very decided change in the character of the musical entertainments that are presented for the special detection of jaded appetites as one may judge from the reports of its long metropolitan engagement, is "The Rose Maid," which is to come to the Grand on Saturday next, matinee and night.

This new piece headed by the famous English comedienne, Alice Lloyd, and a company of 100 people, including a special orchestra, is defined as being set forth like an English Christmas pantomime of spectacular beauty with scenes of extravagant size and color, and in addition to the charm of its haunting Viennese waltzes and waltz marches, to having the fascination of the unexpected in all its presents. Unlike the conventional comic opera, "The Rose Maid" dispenses with the formal opening chorus and the curtain rises upon the scene of a rollicking dance, and the second act up on a great hotel thronged with brilliantly costumed guests.

Given a Call.
The congregation of St. Paul's church, Winchester, has extended a call to Duncan Foster, B.A., a recent graduate from Queen's.

James and Michael McGarvey, Mount Chesney, spent Sunday evening with friends at Rockwood hospital.

This Hair Remover Works Like Magic

(Toilet Talks.)
A paste made with water and powdered delatone and applied to the skin will banish hair or fuzz. The paste should be left on two or three minutes, then removed and the surface washed. This leaves the skin hairless, firm and white. If the growth is thick or stubborn it may require a second application. You can get a small, original package of delatone from your druggist, and to those afflicted with superfluous growth this will prove a boon.

This eyebrows can be made to grow thick and lustrous by rubbing pyroxin on with finger-end, and short, straight eyelashes will come in long and curly if pyroxin be applied at lash-roots with thumb and forefinger. Be careful and don't get any pyroxin where no hair is wanted.

AND CAUSED DAMAGE TO YOUNG LADY'S EYE.

She Was Smelling the Compound When It Suddenly Flared Up and the Flame Created Touched the Eye.

Miss Almon Doolan, daughter of Mr. and Mrs. J. Doolan, 244 Sydenham street, is undergoing treatment with Dr. J. C. Connell for an injury to her eye, received as a result of an explosion at Notre Dame convent on Monday afternoon.

It appears that Miss Doolan, in company with a number of her sisters, were attending the chemistry class when the accident occurred. A mixture had been prepared in a glass when, without warning, it exploded. The glass had been passed around to all members of the class for the purpose of examining the mixture. It was the custom to smell of it, and while doing so the flames flew in Miss Doolan's left eye.

The occurrence was purely accidental. Dr. Connell hopes to save the sight of the eye.

TO DEFEND TITLE.

"P.D.Q." Equipped With 180 Horse-power Engines.

A new "P. D. Q." to serve as the representative of the Thousand Island Yacht Club in defending its title to the trophy in the Gold Challenge cup races at the Thousand Islands this year, is now at George C. Geary's yacht house opposite Alexandria Bay. Forty-five miles an hour is expected in the tryouts of the craft. The racer will be equipped with 180 horse power engines. Last year the P. D. Q. II, winner of the event, carried only eighty horse power engines.

The new boat is about six feet longer than the old one and eight inches wider. The steering apparatus is in the rear. The craft is of the hydroplane type with a five inch step. The engine will be placed in the boat some time this month.

The P. D. Q. that won last year's event because of its consistent action, had developed a speed of 40 miles an hour in July and the first two in August. Every effort is to be made to retain the gold cup to the islands for another year. It is said that England will be represented this year.

Delivery Horse Ran Away.
An exciting runaway occurred Monday evening, about 7.30 o'clock. A horse attached to the wagon of Bradie's wife delivery became frightened while the driver was putting some parcels in a house on Montreal street. Although the driver had taken the precaution to attach the animal's front leg to the shaft by means of a strap, this seemed to have no effect, as the animal made a wild rush of three legs along Montreal street. As it was making the turn around the corner of Princess street, some people were passing, and if they had been three feet nearer a collision might have occurred. Continuing in its run the animal was finally brought to a stop in front of Jackie's store.

Aged Man Had Bicycle Ride.
Cycling seems to have become popular not only with the young but the old as well. Mr. Brown, a local motor cycle enthusiast, on Monday, took his father, a man eighty-two years of age, along with him on the bracket, placed behind the seat for carrying valises and baggage. The old gentleman seemed to enjoy the ride very much, and wondered how a little machine like this could carry such a load up hill. The machine was a twin cylinder Indian motor cycle.

Ragot Street Pavement Delayed.
The work on the new roadway on Ragot street, between Brook and Princess streets, is being delayed on account of the underground work not being completed. The merchants on the Ragot street are very much put about by the delay. They state that the work was planned for last season and for that reason all underground work should have been completed last fall, instead of being left by property owners until the spring.

Lineman Received Shock.
Edward Porter, employed as a lineman for the city light plant, received an electric shock at the corner of Division and Johnson streets, on Tuesday morning. In company with a number of other men he was engaged in making some changes to the wires when his hand came in contact with a live wire. There was only 110 volts passing through and he was not seriously hurt.

Memory of May 7th, 1910.
Wednesday will be the third anniversary of the death of the late lamented E. B. Pease, proprietor of the British Whig. Although time slips rapidly by, his memory still remains green in the hearts of his fellow-citizens, who remember the brilliant and successful journalist, for his great energy and perseverance on behalf of his native Kingston.

A Tactical Exercise.
On Monday afternoon twelve officers of the 14th regiment took part in a tactical exercise conducted by Major G. V. Hordern, G.S.O., third division. The party left Kingston Junction at four o'clock and proceeded about three miles northerly. The idea outlined was battalion and company in attack.

Queen's Idea of Beauty!
A citizen writes: "The residents of Queen's Crescent, better known as Lower Alfred street, were disturbed early Monday morning by strange of noise trying to find on looking out, the horse cans and other rubbish continually deposited on the campus."

Any music played or sung in the theatre can be obtained at Dutton's Music Store.

At Hillsgoland seven persons were drowned when a salvage pontoon capsized during a gale.

A DECKHAND INJURED.

On Steamer Wolfe Islander—Two Fingers Mutilated.

"Jack" Crawford, a deckhand on the steamer Wolfe Islander, had the misfortune to meet with an accident while unloading hay from the boat. He got his fingers caught between the spokes and bolster of the wagon, and two fingers were pretty badly mutilated. Mr. Rattray gave first aid to the injured man, who was later taken to the doctor, where he had his fingers dressed. One finger may have to be amputated, but the hope still remains that it might be saved.

AN EARTHQUAKE IN 1861.

Philipville, May 5.—(To the Editor): In the summer of 1861, this section was visited by an earthquake that shook the houses and earthware was thrown from the shelves and broken. Many thought the last days had come. We do not remember the quake in 1860, but we know that this last shock was not half so heavy as the one in 1861.—W. B. PHELPS.

Vandals At Work.

Citizens who own summer cottages around Dead Man's Bay are up in arms after the parties who have been doing damage to their summer cottages. Just recently a number of the places were broken into and considerable damage was done. Dr. Cartwright, of Napanee, who owns one of these summer homes, reports that damage has been done to his residence. On Saturday some person cut down some of the uprights on the bridge which had been constructed across the Rudd granite quarry.

Rain is needed just now.

Health Necessary for Good Work

Whether working for oneself or for others, no man or woman can do efficient work unless the health is in good condition.

Competition is keen these days, and success goes to those who are strong, energetic and ambitious.

From a purely financial standpoint you cannot afford to neglect the warnings given by headache, nervousness, sleeplessness, indigestion, loss of energy, mental vigor and physical strength.

Most workers, whether their work is manual or mental, find themselves handicapped at times by a run-down condition of the system.

For all such we have a message that will bring joy and gladness into their lives. We want you to know about Dr. Chase's Nerve Food, the great restorative, which forms new blood and restores feeble, wasted nerve cells.

By using this food cure you can instil new energy and strength into every organ of the human body. Pains, aches and physical weakness soon disappear, and health is brought up to high-water mark by

Dr. Chase's Nerve Food

50 cents a box, 6 for \$2.50, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.
