Engineers Are Busy.

The Ottawa Journal says that although the line of the Ottawa, Rideau Lakes and Kingston railway is completely surveyed, including the branch to Perth and Lanark, yet the engineers are busy improving the location of the first few miles out of this city. It is ascertained that the alterations although slight will vastly improve the entrance into the city and be an additional convenience for those who are living out of town along the line of route.

A PAVING DEBATE.

H. C. Nickle and J. F. Reid Have An Argument.

A lively debate as to what is the best pavement for the streets of Kingston, took place in front of the window of A. E. Treadgold, Princess street, on Thursday afternoon. Hugh C. Nickle, and J. F. Reid, general manager of the Windsor company, which received the contract to lay the asphalt blocks, were the two who contested in argument. Mr. Nickle is in favor of the wood block pavement, such as the Crossett company lays. In Mr. Treadgold's window is on exhibition, in the interests of the Crossett company, a number of blocks laid by the Windsor company in Toronto two years ago, showing their bad state. To wood block pavement, chairman of the Board of Works has secured pictures of bad pavement put down by the Crossett company in Sarina. And there you are.
