

BUILDERS' SUPPLIES

We Handle Everything

In the way of the best and most modern materials used in house building, including:

Brick, lumber, sash and doors, metal lath, metal stingles and siding, and all the little specialties that you read about, hear about, but very seldom see in Kingston. If it's new, and a money saver, you'll find that we handle it. We can show you a hundred and one ways of saving a few dollars on your new home.

AND REMEMBER

Our architect will prepare your plans, or will take your plans and work out the quantities for you free of charge, and we will supply everything used in the construction of your house, and at a figure that you cannot obtain elsewhere.

AND WE GUARANTEE PERFECT SATISFACTION.

In fact, if you deal through us we can make it possible for you to have something entirely new in the style of architecture, and we can supply you with all the most up-to-date materials—and will give you a price that will fit your bank account.

NO ORDER TOO SMALL AND NO ORDER TOO BIG FOR US.

Don't fail to let us give you quotations for the materials for your new home. It will be good business for us, but it will mean money in your pocket also.

REFUSED TO PERMIT GANANOQUE SANCTIONS

ANOTHER RAILWAY TRACK ON ONTARIO STREET.

Not One Vote of the City Council Was Cast in Favor of the Proposal—Even the Board of Works Members Opposed Their Recommendation.

The mayor and aldermen fairly slaughtered the recommendation of the Board of Works, that a railroad track be built along Ontario street, from Queen street south to the properties of three industries. Even the Board of Works members, who brought in the recommendation, took a kick at it and left it lifeless. Not one member of the council, out of seven, supported the proposal. Even Ald. Fisher, who adhered to it and spoke in favor of it, put in a "black ball" when the yeas and nays were called. The whole council yielded to the popular feeling against adding another track to Ontario street and making a triple set of rails along this lower town thoroughfare. The recommendation was as follows:

"That the petition of the Canadian Locomotive company and others, asking permission to build a railroad track along Ontario street, from Queen street south to their several industries, be granted."

Ald. Fair said there was no use talking about aiding in establishing new industries here when the council did not know how to take care of the industries it had. He held that the only solution of the difficulty was to bid the proposed line. If left in abeyance, greater difficulties would arise later on.

Ald. Bennett opposed the proposal. He claimed that the locomotive company was already provided for by the Grand Trunk line. The Forwarders Limited, he said, was insolvent, and he could not see how it could suffer. The Kingston Shipbuilding company was the only one that had any claim, and it could be served by having the G.T.R. track continued from the locomotive works yards across Gore street to the Shipbuilding company's yards.

Another solution of Ald. Bennett was for the Grand Trunk to raise its yards to the level of Ontario street, at the foot of William street, and run the line from there to Gore street. Ald. Bennett claimed the people had rights as well as corporations, and merchants and wholesalers must be protected. They were paying high cartage fees. The corporations should not be served at the expense of the merchants.

Ald. Graham said it was impossible to build another track along Ontario street where it already existed. If the G.T.R. would not supply the need, he would expropriate the G.T.R. property and build a wharf along the harbor front that would serve the purpose.

Ald. Couper would not support the proposal. He held that the railway commissioners could very easily solve the question and give the companies interested the service they needed.

Then the vote was taken, and the clerk declared that the "nays" had it.

AKRON WON BALLOON RACE
Travelled 647 1/2 Miles From Kansas City, Mo.

Kansas City, Mo., July 8.—Unofficial figures on the landing places of the four balloons in the national elimination race made by Aero Club officials give first place to the Goddard bag, of Akron, Ohio, which landed at West Branch, N.Y., an estimated distance of 647 1/2 miles from Kansas City.

Second place is accorded to Capt. Honeywell in the Kansas City Post balloon, which landed at Rockwood, Mich., an estimated distance of 642 miles.

John Watts, pilot of the Kansas City II, descended at Goodrich, Mich., which Aero Club officials estimate at 638 miles, thus giving him third place. The Million Population Club of St. Louis balloon came down at Manchester, Mich., 590 miles away, getting last place.

All the balloons encountered storms in the vicinity of the great lakes, and their trips were curtailed because of the elements.

Which Carried By Large Majorities—Meeting of the St. Lawrence Press Association On Monday Afternoon and Evening.

Gananoque, July 8.—A largely attended meeting of the St. Lawrence Press association was held here on Monday afternoon and evening, representatives being present from all along the line. Through the kindness of the Gananoque Canoe and Motor Boat association the fine, airy assembly hall of the club house was placed at the disposal of the press and much enjoyed. During the early evening an excellent banquet was tendered by the town to the well-known visitors. J. G. Elliott, the veteran editor of the Kingston Whig, was present, and ably discussed some of the difficult problems of journalistic life. Later in the evening the visiting pressmen "did" the town generally, and left about midnight well pleased with Gananoque hospitality.

Interest in the by-laws that came before the ratemakers of the town on Monday was quite keen all through the day. By 6 p.m. the result, which up to that time had been only conjectural, was made an assured fact. Both by-laws were carried. The one known as the electric light by-law, which required only a majority vote, resulted 392 for and 49 against. The by-law to subsidize the Gananoque and Armprior railway to the extent of \$20,000, requiring a two-thirds vote of the property-owners, also made an excellent win, with 382 for and 68 against.

The handsome pleasure yacht Aurora II, of Kingston, was in port on Sunday evening, and was much admired by a goodly number.

Frank H. Hurd, of Kingston, who has been spending a few days with his family, at their home on Garden street, returned to his duties in the city on Monday.

Dr. J. P. Sinclair left on Monday, in company with Mrs. Sinclair, for a month's vacation trip through the far western provinces, making a visit with his daughter, Mrs. Arthur Lloyd, in British Columbia.

Mrs. Ethel Lloyd, formerly of the staff of the local public schools, who has been located for the practice of her profession in the far western provinces for some time past, has arrived here to spend her vacation with her parents, Mr. and Mrs. D. J. Lloyd, King street.

The St. Lawrence company of Canada purposes enlarging its forging department this season by extending the building out to the canal, has also asked for 75 h. p. of the 1,000 to be brought from Kingston Mills.

Mr. and Mrs. Henry Allen and little son, of Toronto, are holidaying here with the former's parents, Mr. and Mrs. Andrew Allen, of Arden street. Mrs. Haigh and son, Dr. J. E. Haigh, of Rochester, N.Y., have arrived here and opened up their cottage on Tremont for the season.

Mr. and Mrs. J. B. Taylor, of Watertown, N.Y., entertained a party of about thirty-five of his old employees on a fine trip to Gananoque on the steam pleasure yacht "Livia" and while here entertained them in handsome style at Gananoque Inn on Sunday.

George A. Robinson has purchased Dr. J. P. Sinclair's automobile and will take it with him when he leaves to enter on his new duties in Calgary, Alta.

Gananoque's new post office is nearing completion, and gives a decidedly good appearance, as an ornament for the principal business street of the town.

Miss Margaret Mead who has been undergoing treatment in the Kingston general hospital for the past two weeks for appendicitis, returned home on Saturday to recuperate. Frank Grundy, of Vancouver B. C., a former resident of the town, is making acquaintances about town during the past week. Mr. and Mrs. Thos. Kelly, Buffalo, N. Y., are spending a week in town guests of Mr. and Mrs. E. X. Beldois, King street.

Word was received here by relatives on Sunday that Harold Berry had been drowned at his home near Seely's Bay. Deceased was a brother of Miss Gertrude Berry, of the office staff of the Ontario Wheel Company.

Work has been started on the tearing down of part of the residence purchased some time ago from the Gorman estate by W. T. Sampson. The specifications call for a building of colonial style, and will be hastened along to completion.

JUSTICE T. H. M'GUIRE

PAYS ANOTHER VISIT TO HIS NATIVE KINGSTON

Retired From Bench Ten Years Ago—He and His Son Are Now Interested in a Brick Manufacturing Plant.

A thorough westerner is Justice Thomas H. McGuire, of Prince Albert, Sask., who, with his family, is spending a few days in his native city. They are visiting with Mrs. McGuire's mother, Mrs. J. Cunningham, Princess street. The judge seldom passes Kingston over when frequently travelling in Eastern Canada, on this occasion coming up from Montreal. He practiced his profession here years ago, and was finally elevated to the bench, and the chief justiceship of the territories of the West. He has resided over twenty years in Prince Albert, and it is safe to say Canada's great western provinces will never lose their fascination for the former chief justice.

Last winter, as is his custom, the judge and Mrs. McGuire, spent the cold months at Long Beach, California. Here they met Prof. N. F. Dupuis, of Queen's, and Mrs. Dupuis. The judge has been retired for ten years.

The former chief justice, who is exhibiting evidence of the best of health, chatted with a Whig man on matters and conditions in general. He spoke of the advancement of Prince Albert, by the introduction of new industries, etc. He and his son are financially interested in a brick manufacturing plant, the capacity of which is unable to cope with the demand for this brick for building purposes. The crops of the west, he says, will be at least, of good average yield this harvest.

IN SPORTING CIRCLES
Notes About Baseball, Bowling and Other Sports.

The Orangeville Lawn Bowling Club, which has twelve good greens, is holding its annual tourney starting July 29th.

Wild Bob Burman lowered the world's record for a mile on a road racecourse, when in practice he did the mile in 32.25 seconds at Tacoma, Wash.

This must be the season for young catchers to show their fancy wares. Schalk, of the White Sox; Schang, of the Athletics; Agnew, of the Browns; and Chapman, of the Pirates, are all doing great work.

"Chief" Meyers, of the Giants, says he has always regretted that he did not finish his college course.

Kommers, the new Pirates' outfielder, appears to be as handy in the glove as he is with the bludgeon.

"Joe" Fisher's Red Birds are hammering at the cellar door, and hope to break the lock before all the fun is over.

The acquisition of Hal Chase must have put the White Sox in right. The Sox have been going like a house afire of late.

"Hub" Northern, the old Brooklyn outfielder now with Toronto, is leading the list of batters in the International League.

It looks as if the St. Louis Browns have landed a regular pitcher in Leverage. The youngster has a great assortment of benders.

"Bert" Daniels, of the Yankees, is as quick as "that" on the bases. The only trouble with "Bert" is that he is not able to hit often enough to get on.

PROBS.

Westerly winds, fine. Wednesday, fine until night, then showers and thunder storm.

We are Special Agents for the Celebrated

Dr. Jaeger Wearables for Women

See our display of

- Coats,
- Sweaters,
- Sporting Caps,
- Hats, Sleeping Vests,
- Shirt Waists, Rugs, Etc,

And if wanting any special size or pattern, we can order same and have delivered in 3 days.

Jaeger Wearables

Come in every weight, and are 100 per cent. pure and unshrinkable.

BARCALO Security CRIBS

When bedtime comes Baby is more than willing to be tucked away in his comfortable Barcalo Security Crib. He's just as safe as though right in front of Mother's watchful eyes.

These cribs have sliding sides. With the sides at full height, baby can't possibly fall out, nor crawl out. The rods are close enough together that he can't wedge between them, or hurt himself in any way.

These cribs are unbreakable—made of enameled malleable iron. In various styles. The style shown above is called the "Baby Stair." Come in and see how they work.
