CADET CAMP CLOSED CITY COUNCIL GRANTS

THE LADS REGRETTED HAVING TO RETURN HOME.

A Bonfire Lighted On Monday Night — Prizes Won Were Presented — Change Made in the Ponton Challenge Cup Rules.

The cadet corps camp was brought to a close on Tuesday morning and it was one of the most successful events which has been held. The boys were all satisfied and many regretted having to go home so soon, just as the affair was in good working order. No complaints were to be heard from any source and the boys went home in the best of spirits, hoping that another year would pass around quickly so they would be marching into camp again. The last night at camp on Monday was a very enjoyable one and a huge bonfire was lighted around which the majority of the boys of the camp gathered. A programme was arranged and the various prizes won by the successful competitors were presented in the glow of the flames.

The Y.M.C.A. meeting was held after this and was largely attended, the boys chatted among themselves and between one thing and another a real lively time was spent. Earlier in the evening a baseball match was played by Peterboro and Renfrew. The former came out victorious by the score of 12-0. The game however was not finished as the darkness came on and it was hard to see the ball. Peterboro had a good organization and in the afternoon defeated Morrisburg 25 to 6. Another very amusing game was held at the camp ground on Monday evening. A spike was driven into the ground and a couple of ropes attached; two boys were blindfolded and each tried to pull the ropes and kept the ropes tight. One of the boys was provided with a rattle to attract the other's attention by shaking it. Sometimes the other boy, who is furnished with a pillow would think he was near and would begin to pull the pillow about to hit him, and some amusing actions were to be seen.

A change has been made for the future camps regarding the rules set forth for the Ponton challenge cup for proficiency in musketry practice. The aggregate score made at gallery practice and at 100 yards on the service range to be taken in place of the aggregate scores at 100 and 200 yards.

The camp broke up about ten o'clock and in the morning the boys were kept busy in taking down their tents and packing away the blankets and other articles. Before leaving the grounds each unit had to see that everything was in a sanitary condition and in the best of shape. The camp has been considerably handicapped for water owing to the unnecessary waste which has gone on and the plunge and shower baths had to be abandoned as the result. The boys had to stay in camp Monday evening and Tuesday morning as no passes were issued.

Smith's Falls corps won the cup for general proficiency. It was presented to them on Monday evening, during the proceedings which took place around the camp fire.

The Ottawa Collegiate Institute won the Ponton cup for musketry. Out of a possible 550 points, it made 478. The next closest competitor was Port Hope, 440, and Belleville collegiate, 415.

STREET RAILWAY PRESIDENT Criticizes Slow Progress On Power Plant Building.

The City Council, on Monday evening, received the following letter from H. W. Richardson, president of the Street Railway Company, under date of the 27th of June, and which was referred to the Utilities Committee: "We have the honor to call your attention to the very unsatisfactory progress which is being made on the city's new power plant, the work today is far from being complete in spite of the fact that the contract calls for its completion by December 30th 1912. The result of the way in which the plant is being handled is, that the Street Railway's electric plant is in danger of a serious damage from exposure to the weather. Yesterday morning it was necessary to cover all our machinery with canvas, and this does not give adequate protection against moisture, nor can the machinery then be operated. "It may be that other reasons than the above are responsible for the recent troubles, but it is also true that our whole plant may be again thrown out of commission at any time, probably for several weeks, causing serious loss to us as well as great inconvenience to the citizens in general. We cannot understand why the roof is not put on this plant, and the glass put in the windows. In the meantime, the city's property is suffering as well as the Street Railways."

Two in company, but three is a multitude when father butts in.

To Look and Feel Bright in Hot Weather

(From the Woman Beautiful.)
This is the season when she who would have a rose-leaf complexion, lily-white neck and hands, should turn her thoughts to mercolized wax, the firm friend of the summer girl. Nothing so effectually overcomes the soiling effects of sun, wind, dust, and dirt. The wax literally absorbs the scorched, discolored, withered or coarsened cuticle, bringing forth a brand new skin, clear, soft and girlishly beautiful. It also unclogs the pores, removing blackheads and increasing the skin's breathing capacity. An ounce of mercolized wax, obtainable at any drug store, applied nightly like cold cream, and washed off mornings, will gradually improve the worst complexion.

When depressed by the heat and you want to freshen up for the evening, bathe the face in a lotion made by dissolving an ounce of powdered, saxolite in a half pint witch hazel. You'll find this more refreshing than an hour's rest. It is fine for smoothing out wrinkles, even the deeper ones.

A VACATION TO ITSELF UNTIL 29TH SEPTEMBER.

Offers \$57,000 To Board of Education For Victoria School Addition — Discusses Rebuilding of Upper Princess Street.

The City Council has entered upon its vacation, which will extend until the evening of the 29th day of September. When Ald. Couper moved, at the conclusion of its meeting on Monday evening, that the council adjourn until the 6th day of October, Ald. Kent raised objection. He favored no summer adjournment at all. A compromise was effected, by which the council will meet a week earlier than at first proposed, viz., on the 29th of September.

In attendance were Mayor Rigney, and Aids. Bennett, Bews, Couper, Clugston, Elliott, Fair, Graham, Hoag, Kent, Litton, O'Connor, Peters, Shaw, Stroud, Sutherland and White.

These communications were read: City solicitor, re deed of land for factory site to Frontenac Floor and Wall Tile Co.

Howard S. Folger re insurance. W. J. Driscoll, corresponding secretary Trades and Labor council, submitting resolution protesting against men working on corporation test hours a day.

Board of Health, regarding the construction of a sewer on Patrick street to drain twelve houses adjoining Russell street, also a sewer on Mack street, 125 feet from Nelson street.

Edward W. Mullin, re sale of property, 291 Brock street.

Thomas A. Storey, secretary-general Fourth International Congress on School Hygiene, asking that delegates be sent to the meeting of the congress in Buffalo.

Finance Recommendations.

These recommendations of the civic Finance committee were adopted: That this committee be authorized to make all arrangements in connection with, and pay the expenses of, entertaining the old boys at the time of their reunion here.

On the communication from the Board of Education asking that the council raise by debentures the sum of \$50,000 for an addition to Victoria school, \$8,000 for heating and improving the present building, and \$1,500 for concrete walks around the Collegiate Institute, this committee recommends that a by-law be passed authorizing the sale of debentures for the sum of \$57,000, for the purpose of paying the cost of an addition to, heating and improving Victoria school.

It will be noticed that whereas the Board of Education asked for \$50,000, the council offers \$57,000. This latter amount will have to be accepted by the board before a by-law is prepared.

This clause in the Board of Works' report is of interest:

On the communication of James Stewart, postmaster, that the following streets be surveyed and plan made for the proper house numbering, viz., Alice, Bagot, Charles, Clergy, Concession, Frontenac, Nelson, Queen, Rideau, Victoria, William, Stephen, Main, Stuart.

By-Laws and Motions.

By-law No. 34 was amended by adding the following: "The city treasurer is hereby appointed and authorized to receive applications for, and to rent city and Ontario halls, and that the city solicitor be instructed to prepare a by-law in accordance with the above."

On motion of Aids. Fair and Bennett, that the city engineer be empowered to construct concrete walkways to be passed by the Board of Works during the summer.

Aids. Couper and Bews moved that the communication of Dr. D. E. Mundell, coroner, respecting life saving appliances on wharves, be referred to the city solicitor, with power to act. Adopted.

Upper Princess Street Road.

It was moved by Aids. Fair and Couper that a water-bound macadam roadway be constructed on Princess street, from Alfred street westerly to the city limits, under the local improvement plan, and that the city engineer be empowered to proceed with the work at once.

Ald. Elliott said it would be unfair to the people along that thoroughfare to charge them under the local improvement plan. The road was ruined by the taking up of the street railway ties, and it should have been properly repaired at the time. He objected to the motion.

Ald. Couper said that although he had seconded the motion for discussion, he was opposed to it. He suggested temporary repairs, and later the construction of a more permanent pavement.

Ald. Fair remarked that it was not a temporary but a good permanent job that was necessary. The local improvement plan was the proper method. If the aldermen wanted a proper roadway, they would vote for the resolution.

Ald. Couper then suggested that the road be paved with something more durable than limestone macadam.

Ald. Litton thought that the road could be patched just as well as King street had recently been. The latter had been crowned and rolled at a comparatively small cost.

Ald. Hoag was for getting a proper report on the roadway and having the Board of Works discuss it. Ald. Kent also favored the matter being dealt with by the Board of Works.

Ald. Fair withdrew his motion, being given to understand that the Board of Works should consider the matter, and whatever action it decided upon would be backed up by the council.

"Kodaks and supplies." Gibson's. Reports tell of a shooting affray at a summer camp near Westport. The story goes that an occupant of a tent awoke to find a man in the act of stealing, and he forthwith drew a revolver and shot the intruder through the arm.

"Face creams." Gibson's.

COOL OXFORDS

The coolest summer shoe is the Oxford. We are showing the largest range of up-to-date Oxfords ever shown in Kingston.

For men we offer tans, patent, gun-metal, vic kid; for women we have patent, tan, gun-metal, vic kid and white nubuck.

Also many styles of pumps.

One Application and The Hairs Are Gone

(Aids to Beauty.)
Women troubled with fuzzy growths will be delighted to learn that a single application of a paste made with powdered delatone and water will remove every trace of hair or fuzz without pain or injury. If the growth is very thick or stubborn a second application may be required. The delatone paste is spread thickly on the hairy surface, and after two or three minutes rubbed off, then the skin washed and dried. This is a reliable and quick way by which to permanently rid the skin of objectionable hair.

A little pyroxin rubbed on eyebrows causes them to come in thick and lustrous, and thin, stubby eyelashes will grow long and curly by applying pyroxin at lash-roots with thumb and forefinger. Be careful and don't get any pyroxin where no hair is wanted.

AT LAKE ONTARIO PARK

A Large Crowd Witnessed the Vaudeville Performance

There was a very large crowd present at Lake Ontario Park last evening. A new and varied programme was presented which was thoroughly enjoyed. Aldine and Bannister, grotesque comedians were very amusing in their different stunts. Ostrado, acrobatic gymnast was one of the best in his line that has ever been seen in the park. His daring and startling work in the air kept the nerves of those who witnessed his feats up to the utmost tension. He seems to be a human being without any bones. The moving pictures were very fine, the principal ones being "The Dividing Wall," "The Little Tease," in two parts, and several other pretty scenes. The same will be presented to-night. Wednesday will be children's one cent day, with matinee at 3.30 p.m.

THE STANDARD BANK OF CANADA
