LETTERS TO THE EDITOR Plumbers Union Points Out Some

Civic Needs. Kingston, Ont. July 16 .-(To the Editor)—The members of Local Union No. 221, Plumbers and Steamfitters of this city consider the existing conditions of the working men on our roads, is a by-word. As our city council does not meet for a few months, would the benevolent citizens, who have sent our fire chief to New York, dip in and provide a portable toilet for these men's use? and also require the builders to erect a fit place for these men's accommo-dation. Instead of curing disease, we believe in trying to prevent it. An ounce of prevention is worth a pound of cure. We would like to but ourselves on record regarding this reform. Yours truly.
