### TOWN OF GANANOQUE

#### ANSON RICHARDSON RECEIVED ANOTHER BAD INJURY.

Rev. Henry Gracey Represented St. Andrew's Congregation at the Funeral of the Late George Gillies, in Toronto.

Gananoque, Aug. 8.—Raymond G. George, infant son of Mr. and Mrs. Charles George, passed away at the family residence in Leeds township, a short distance north of the town, on Wednesday evening, after a short illness. Service was held at the home on Thursday afternoon, and interment made at Cataract cemetery on Friday.

Rev. Henry Gracey, pastor of St. Andrew's church, attended the funeral of the late George Gillies, in Toronto, on Wednesday, as representative of the congregation of St. Andrew's, of which the late Mr. Gillies was an elder for many years.

Anson Richardson, Arthur street, who received severe injury at the barn at Maple Croft Stock farm, owned and operated by W. S. Macdonald, a few weeks ago, resumed his duties there this week. And to complete a chapter of misfortune he fell just outside the barn, striking the back of his head on a rock, opening up the old wound received recently from the hay fork.

Frederick McCalpin, and W. J. Thompson, Leeds township, who have been in charge of the L.O.L. organization of this district at the grand lodge sessions of that order in St. John's, Nfld., returned home on Wednesday.

The Citizens' band rendered another of its series of open-air concerts, last evening, at the river front, and attracted a very large gathering.

William Ferguson, who has for some time past been in charge of the poultry and egg department of Glenholme farm, owned and operated by Mrs. W. C. Bulloch, has resigned his position and will leave at the end of the month for his home in Brantford.

F. X. Benois returned, on Wednesday, from a three weeks' trip, having taken in Winnipeg and Brandon, St. Paul, Chicago, Buffalo, and other places. Archibald McKellar, of Montreal, has arrived in town, to open a few weeks' holidays with his parents, Mr. and Mrs. James McKellar, Brock street. Miss Laura Tinney, Toronto, is spending a short holiday season in town, guest of her grandparents, Mr. and Mrs. Charles R. Cotton, Hickory street. Mrs. Robert Thompson, River street, is spending a short time with friends at Chaffey's Locks.

W. J. Wilson, injured in an automobile mishap near Lansdowne wharf, on Wednesday evening, returned home on the steamer Missisquoi, on Thursday morning. He was badly bruised and shaken up, but fortunately no bones were broken, and he will be around again in a short time.

Mrs. J. B. Goulette and family, of Syracuse, N.Y., have arrived here for a visit with the former's brother and sister, Robert and Miss Ann Tulloch, Princess street. Miss Laura Green is visiting friends at Chaffey's Locks for a short time. Miss Winnifred A. Bryce, of the Royal Victoria Hospital, Montreal, is visiting her parents, Mr. and Mrs. William Bryce, for a few weeks.

#### EARLY MOTOR BOATS

At the Thousand Islands Twenty Years Ago. Alexandria Bay, Aug. 8.—It is interesting in these days when the St. Lawrence is crowded with motor boats and when at the recent auto speed nearly fifty miles an hour was displayed, to note the time when a motor boat was a curiosity at the river. As a monument to the early days of the gasoline boat stands the Edgewood ferry, said to be the oldest motor boat on the St. Lawrence.

The Edgewood ferry was called in those days the "Tackhammer." It was built at the works of Captain Duclon and was equipped with an evaporation engine. It was a wheezy thing that with difficulty made six miles an hour, but it was a great curiosity and people would throng the docks to see her run, back twenty years ago when she was built even as the crowds stop and stare at an aeroplane to-day. The boat did faithful service for some time and then a newer, more modern engine was installed. The Edgewood ferry still runs although it has been remodeled since the beginning and has now an up to date motor.

Another pioneer motor boat on the St. Lawrence was one belonging to W. H. Thomson. Indeed, Mr. Thomson claims that his craft made its appearance before the Tackhammer. The boat was a natty one and made the phenomenal speed of seven miles an hour.

#### MADE WIFE DRINK CARBOLIC.

And Then Husband Took Poison and Died. Binghamton, N.Y., Aug. 8.—As the result of an attempted murder and suicide, Herbert T. Layton is dead and Mrs. Layton is dying in the city hospital. The Laytons quarreled and Mrs. Layton left her husband. She went to the house for her personal belongings and informed her husband she was leaving him for good. He asked her to have a cup of tea and she consented. Barely tasting the stuff, the woman ran screaming for water, but Layton grabbed her and forced the liquid—carbolic acid—into her mouth, terribly burning her mouth, face and arms.

#### Carnival Week at Victoria.

Victoria, B.C., Aug. 8.—The feature of the carnival proceedings yesterday was a grand naval regatta held on the George waters by members of the visiting warships. The water carnival was the original idea of those who planned the festivities at the time the flying legion from San Francisco fair was in Victoria. motor boat races at Cadboro Bay, the continuation of the polo tournament, hydroplane fights and the musical festival at the Arena were among the events provided to-day.

"Thousand Islander" Saturday. SS. Thousand Islander leaves at 2.30 p.m. for ramble among the Thousand Islands, calling at all river points. Fare 50c.

### SAYS CHURCH PAPER LABELS

Montreal Enters Suit Against L'Action Sociale. Montreal, Aug. 8.—L'Action Sociale, the official organ of the Catholics of Quebec, is made defendant in a \$25,000 libel action, entered by Gonzalve Desaulniers, K.C., local advocate, to whose reciting before the St. Jean Baptiste society, Archbishop Bruchesi recently objected, though the objection was afterwards withdrawn.

The alleged basis of suit is the publication of a certain article, reproducing another article written by M. Georges Gautherot, a French author. Gautherot figured as a lecturer in a course delivered at Laval university some two years ago. After his return to France he wrote of his impressions of Canada, these being published in a French paper. The author in passing made particular reference to Le Pays and Godfroi Langlois, director of that paper.

Then followed this comment, to which Mr. Desaulniers takes particular objection: "His (Mr. Langlois) has for collaborators politicians like Gonzalve Desaulniers, K.C., who never let pass an opportunity to unveil alleged clerical scandals."

Mr. Desaulniers repudiates this aspersions and adds: "In my lengthy career as a journalist, lawyer and politician I have never unveiled or unearthed any clerical scandal; on the contrary, I have smothered many a clerical scandal, and certain ecclesiastical personages of this province will bear witness when the matter finally comes before the courts."

Mr. Desaulniers adds that the libel is all the more serious and aggravated because the defendant journal is the official organ of the Archbishop of Quebec.

HARRIS & EWING, WASH. RICHARD L. METCALF, New governor of the canal zone, succeeding Maurice H. Thatcher. HUSBAND FOUND WIFE.

Scantly Clad, With Church Founder, In Hotel Room. Pittsburgh, Pa., Aug. 8.—James Parham, of Clairton, Pa., one of the founders of the Episcopal church there and proprietor of the town's principal hotel, and Mrs. Estella Sekar, active church worker and wife of John W. Sekar, a wealthy merchant, of Homewood, were arrested yesterday in a Pittsburgh hotel.

When the husband and a constable broke into the room they found Parham and Mrs. Sekar in attire admirably suited to the torrid atmosphere. "You are no gentlemen if you do not leave this room at once," Mrs. Sekar told her husband and the constable indignantly, meanwhile appearing for all the world like the original of "September Morn."

#### SOCIETY WOMEN AS DRINKERS.

Priest Says They Are Responsible for Increased Consumption. Philadelphia, Pa., Aug. 8.—The Rev. Peter J. O'Callaghan, president of the Catholic Total Abstinence union of the United States of America, arrived here from Chicago to attend the forty-third convention of the union. In discussing the question of increased drinking he said: "Society women and those who imitate them are responsible for the great increase of the consumption of alcoholic beverages. The foolish creatures go on joy parties and imagine they are having a good time."

#### CONTROL OF CABLE RATES.

Act Likely to Be Passed During Present Year. London, Aug. 6.—Postmaster-General Samuels, writing to the British Empire League, congratulating it on the formation of a committee for the promotion of improvement in postal telegraphic communication throughout the Empire, says that arrangements are now being made which he had hoped would be passed into law during the year to secure government control over the rates charged by cable companies.

#### MAY SEGREGATE RACES.

Maryland Court of Appeals Says Ordinance Would be Valid. Baltimore, Md., Aug. 8.—The Maryland court of appeals in a preliminary opinion handed down shortly before midnight last night, held that the mayor and the city council of Baltimore may, in the exercise of its police powers, validly pass an ordinance for the segregation of the white and colored races without conflicting with the constitution of the United States or of the state of Maryland.

#### MAY DYNAMITE RICHARDSON.

Removal by Explosives to Be Used As Last Resort. Buffalo, N.Y., Aug. 8.—Bids for the removal of the wreck of the Richardson are advertised by the United States engineer's office. Those received will be opened on August 26th. Hinekey & Sampson, of Oswego, the last firm to attempt to raise the boat, threw up the job about July 10th, and at that time there was talk of blowing the ship up with dynamite. It is a real menace to navigation, at least two serious collisions with it having occurred, and the government is anxious to get the hull out as soon as possible.

### CHILD WAS EXHIBITED

IN A POT OF SNAKES AT AYLMER, ONT.

Father and Uncle Who Exploited Her Will Go to Prison—Girl Aged Eight is Cared For by Authorities.

St. Thomas, Aug. 7.—A pretty fair-haired girl, eight years of age was taken in charge by the Elgin county authorities at Aylmer, where the child had been on exhibition at the "Mamie Haha Show" which has been in that town all week during the old boys reunion, and the spectators were shocked when they paid their fee to see a frightened looking child, sitting in a cage surrounded with big snakes, including rattlers and copper heads.

The usual position of the child was a crouching one, as she had been told to keep her gaze on the reptiles. The two men in charge of the show were William Ford, father of the child, of Ealing, near London, and Charles Cox, her uncle, of London. Both were arrested on the charge of exposing a child under circumstances detrimental to her health. They appeared before Magistrate Hunt, and were found guilty.

Both men claimed they did not think they were committing an unlawful act, and took this means of making money. They will be sentenced on Saturday. The child has been travelling on the road for six weeks, and was compelled to sit in a canvas pit about five feet deep and five feet square for eleven hours a day with the reptiles. The little girl was brought to St. Thomas and placed in the children's shelter. J. J. Kelso, the provincial inspector, is expected in the city on Thursday to consult with Magistrate Hunt regarding the matter.

#### NEW ZEALAND NAVAL SCHEME.

Now the Subject of Correspondence With Admiralty. London, Aug. 8.—In submitting the annual financial statement to parliament, says the Wellington, N.Z., mentioned that the details of the respondent of the Times, Col. Allen scheme for naval organization are now the subject of correspondence with the admiralty. When these have been adjusted the government will submit to parliament a policy which will recognize the principle of one control for imperial purposes and give New Zealand a more direct responsibility for and more definite interest in naval defence, and also a better opportunity for the service. It is proposed to provide the staff, arms and equipment necessary for an expeditionary force, but this force will not be called into being until an emergency arises.

His annual financial statement showed a return for the past year of £11,734,002, leaving a balance of £709,508, after transferring £750,000 to public works. The revenue for the current year he estimated at £11,789,602. The railway earned 4 per cent., their best record so far. Further facilities for crown tenants to acquire their land as freehold are promised, also a tariff bill; but the reciprocity treaty with Australia has been postponed pending the disclosure of the policy of the new Commonwealth government.

#### NO PAROLE FOR HAWTHORNE

He and Morton Must Serve Out Their Sentences. Washington, Aug. 8.—The federal parole board has refused to parole Julian Hawthorne and William J. Morton, convicted in New York on March 14, of using the mails to defraud in connection with a mining scheme and sentenced to imprisonment for a year and a day in the United States penitentiary at Atlanta the sentence to run from Nov. 25, 1912, the day their trial was begun. There is no appeal from the board's action. Hawthorne and Morton were eligible for parole on July 15, when two-thirds of the sentences imposed had elapsed. They had been actually served only four months in the penitentiary, which the board believed to be hardly enough punishment. In view of the fact that the entire prison sentence could be only about seven months, after deducting the four months period for the trial lasted and the month that will be allowed them for good behavior, the board reached the conclusion that a parole should not be granted.

#### SLASHED BY CONGRESSMAN.

Thomas of Kentucky Uses Knife on House Doorkeeper in Fight. Washington, Aug. 8.—Representative Robert Y. Thomas of Kentucky and H. C. Goodlett, a house doorkeeper, met in the New Varnum hotel, a gathering place for southern members of congress and became involved in a fist fight. Senator Ollie M. James of Kentucky, a brother-in-law of Thomas, and Representative Thomas A. Heflin of Alabama separated them. Then Thomas, it is alleged, drew a clasp knife and lunged at Goodlett, slashing his breast slightly. James and Heflin grabbed Thomas again. No arrests were made. Thomas, more than a year ago, figured in a somewhat similar affair in the new House office building, attacking a newspaper man.
