AMERICANS IN MEXICO TOLD TO LEAVE AT ONCE

The Crisis It Would Seem Has Been Reached.

MEXICO MUST ANSWER

FOR HARM TO CITIZENS OF THE UNITED STATES

All Officials of War-ridden Republic Notified They Will Be Held Strictly Responsible For Injury To Americans or Their Property.

Washington, Aug. 28.—The United States government last night advised all Americans, 15,000 in number, to leave Mexico at once, and at the same time warned Mexican officials that they will be held responsible for the safety of Americans in that country.

This action was taken by Secretary of State Bryan, acting by direction of President Wilson and in accordance with the message which the president delivered to congress.

The advice and warning are contained in a circular of instructions sent to Nelson O'Shaughnessy, American charge d'affaires at Mexico City, and all United States consular officers in the southern republic. These officers were directed to inform all American citizens that they are advised to leave Mexican soil, and that they will be furnished transportation to Mexican points where ships will be provided to take them home.

All civil and military authorities in Mexico are warned in this note of the president that they will be held "strictly" accountable for the molestation of American citizens and for damage to their property.

Extracts from the president's message were included with the circular of instructions.

At about nine o'clock last night Secretary Bryan went to the White House and communicated to the president each part of the latest note of General Huerta to Envoy Lind as had come in up to that time. At ten o'clock Mr. Bryan left the White House and went to the state department. Before leaving the White House he said: "A part of the message to Mr. Lind has come in, and it has been shown to the president. The only comment now to be made on it is that it is 'encouraging,' and that is the only word that ought to be used as comment."

There was a distinct air of satisfaction on the faces of the officials at the White House on the receipt of this message and the view taken of it by the president and Mr. Bryan. It seemed that the officials were pleased that the matter was still in the diplomatic stage, with the promise of continuing so indefinitely.

An administration official, referring to Huerta's note, stated that while Mr. Bryan had not received the full text of the note to Mr. Lind, he had received a "good summary" and in this summary Mr. Lind said that "the situation was very encouraging; in fact, more encouraging than it had been for several days."

Clearing sale washing skirts, \$1; some thirty-inch waists. Dutton's.

DAILY MEMORANDA.
Vaughanville, Lake Ontario Park, 3 p.m.
Board of Education, 8 p.m.
Opening Kingston Croquet, 3-6 p.m. Friday.
R.C.H.A. band concert, Macdonald park, 8 p.m.

Limestone Lodge No. 91, A.O.U.W. meets to-night, 8 o'clock.
M. and E. Jackson's retiring sale will continue. Every article to be sold at once, regardless of cost. 243 Bagot street.

What is

Paris Showing?

The first persons to tell you the latest fashion news are the merchants who advertise the newest styles.

Not content to wait for the mails, enterprising merchants these days keep themselves posted by cable.

They are not more than a week or so behind Paris in showing the new shapes and shades and colors.

Advertising in daily newspapers like the Whig has become the liveliest sort of live news.

The well informed man or woman must keep posted on what is being exploited in the advertising.

The friendly rivalry of business men keeps the advertising keen, well written and right up to the instant.

GOVERNOR GENESIANO CARRAZZA. This picture shows the head of the state of Coahuila whose insurrection has been successful over half of Mexico. If he is not shot, this constitutionalist leader may be a candidate for the presidency at the next election.

GOOD BOYS WELL REWARDED.

Get Farms For Not Drinking and Smoking.

Sioux City, Ia., Aug. 28.—Ten years ago Ray and Jay Garnett, brothers, of Sioux City, pledged their word to their uncle, William E. Garnett, that they would not smoke, chew, or drink intoxicating liquors until they reached their majority. The uncle promised a gift of importance in case they fulfilled their contract.

The period named in their promise has ended, and to hold up his share of the bargain, William E. Garnett decided to the brothers a half section of land in Cass county, Minn., share and share alike.

NOT FOR PRINCE ARTHUR

London, Aug. 28.—In reply to an inquiry regarding the report that H. R. H. Prince Arthur of Connaught, would succeed his father, the Duke, in the governor-generalship of Canada, Captain T. Rivers, of Bulkeley, the duke's equerry, telegraphs from Bagshot Park: "Not a word of truth in the statement."

RURAL MAIL DELIVERY GREATLY INCREASED

At the Present Time There are 1,800 Routes in Operation in Canada.

Ottawa, Aug. 28.—The rural mail delivery system has undergone an immense increase within the past year. At the present time eighteen hundred routes are in operation. This is an increase of about a thousand since the present government assumed office. While a number of routes are being established in the west, the service is much more largely centred in the east, especially in Ontario, which has displayed a much greater tendency to utilize it. The result has been the closing of a large number of country post-offices.

MITIGATED SENTENCE.
Youth Convicted of Indecent Assault Fined, Not Imprisoned.
Sarnia, Aug. 28.—A mother's life stood between Arthur Macbermid and the prison bars. Convicted of an indecent assault last Friday night on a seventeen-year-old girl, formerly employed as a telephone operator in Port Huron, the magistrate heeded the impassioned appeal of the attorney for the defence, who pleaded that if the boy were sent to prison it would kill the mother, already seriously ill over her son's arrest, and allowed the young man to go on payment of a \$50 fine and costs. Macbermid attempted to assault the woman while the two were taking a short walk after a dance Friday night. Her screams for help brought residents to her rescue.

20 BUSHELS TO ACRE
Crop More Valuable To Farmers Than Last Year's.
Winnipeg, Aug. 28.—"In my judgment the wheat crops of the three prairie provinces will average twenty bushels to the acre. Some crops will save would easily go twenty-six or twenty-eight and even higher," was the statement of Nicholas Bawlf, dean of the grain trade, yesterday.

"A point I wish particularly to make clear is that the crop will bring more money to the producers than did last year's. There has been no damage, the quality will be excellent and the weather is ideal. I look for our wheat to grade high this year, and I am not alone in this opinion."
Mr. Bawlf was one of the founders of the Winnipeg Grain Exchange and has been for thirty years in the grain business in this city.

RETURNS TO ALE.

London Notes a Revival of Popularity of Malt Liquors.

London, Aug. 28.—What is the cause of the revival in popularity of ale and beer as table beverages? asks the Mill Mail Gazette. That there is a return of their ancient vogue in the restaurants of London is noted by Charles Pond, the well-known restaurant-owner.

"Beer has been coming into fashion again for some time," he says, "and the tendency is steadily becoming more marked. I was dining in a West End restaurant last night, and was surprised to notice how many men were drinking beer. A few years ago most of them would have chosen whiskey and a bottle of table water as a matter of course. There are changing fashions in beverages, in everything else, and beer after being quite demode as far as London is concerned, is coming into fashion again. People have found out, I fancy, that it is easier to take more alcohol than they need in the form of spirit than in the form of beer."
Mr. Pond's observation is plentifully corroborated, says the Daily Mail, which quotes the opinion of the proprietor of "one of the few remaining examples of the old London taverns much frequented by the London Bohemians" in support of the statement.

FIVE ARE DEAD

As Result of Collapse of Peterboro Store.

BURNED IN THE RUINS

WHEN CORNER OF STRUCTURE FELL IN

Had Been Weakened By Removal of Partition Wall—The Catastrophe Occurred in Turnbull Millinery and Drygoods Store.

Peterboro, Aug. 28.—The Turnbull millinery and dry-goods store, at the corner of George and Simcoe streets collapsed this morning carrying down into the basement a human cargo of clerks, morning shoppers, and also a gang of workmen who were reconstructing the north-west wall. It is practically assured that the list of dead will number five.

Misses Dorothy Sisson and Boddison were buried in the ruins and are believed killed. Mrs. Finlay, a customer, had her back broken, and Harry Manley a carpet layer his leg broken. Mrs. Sidney Middleton, customer, and Miss Tucker, employee were slightly injured. All are in the hospital.

Owing to repairs on the adjoining building, a partition wall had been removed and the three-story departmental structure and the outside wall on the north-west corner suddenly fell away. Fifty employees and customers rushed into the street in a panic-stricken state. Hundreds of clerks, morning shoppers, and workmen fled in all directions. An ambulance and nursing facilities were soon on hand.

The bodies of three unidentified women and one man were taken from the ruins this afternoon which brings the death list now to five. Eight other injured persons have been sent to their homes or to the hospital. One man killed is named Cuffe, employed in the construction gang.

GRAHAM MADE APPEAL

AT CRYSLER'S FARM BATTLE-FIELD CENTENARY

He Urged Young Men To Do Their Duty To Their Country, Holding That They Are Not Doing This To-day

Morrisburg, Aug. 28.—From north and south, east and west, by motor, buggy, train, steamboat and on foot, thousands of loyal Canadians assembled yesterday to celebrate the centenary of the battle of Crrysler's Farm. No more attractive sight could be imagined than that of a thousand boys and girls sprung from the loins of the heroes who had brought victory to the British forces in 1813, waving their flags and showing their thorough appreciation, young as they were, of the sentiments of the various speakers.

Crysler's Farm is situated four and a half miles lower down on the St. Lawrence than Morrisburg, and the trip by boat is one of the most delightful imaginable. All along the road from Morrisburg to the monument advantage has been taken of telegraph poles, trees and fences to decorate them with the national colors, while every house was artistically invested. On the historic battleground a big pavilion had been erected, while all around lay refreshment booths. The base of the monument had been wrapped in red, white and blue, while the approach from the road led through an arch decorated in the same colors.

Hon. G. P. Graham, M.P., gave a stirring patriotic address, breathing loyalty and devotion. "It is a proud day for the people of Dundas," said the speaker, "when we celebrate an event like this in the history of the county." He asked the young people to be kind and tolerant of French-Canadians and Indians, and paid them a great tribute, the former because they stood firm and refused overtures that were made to them in 1763 by the United States and in a sense saved Canada, the latter inasmuch as they were a part of the British empire. "This battle of Crrysler's Farm," said Mr. Graham, "was fought in 1813, and was the deciding battle which aid to the United States and to all the world, Canada shall remain a part of the empire. There were other battles in 1813, but they were not of the kind we now celebrate." The way Mr. Graham told of brave Col. Morrison's harassing the enemy and forcing them to fight held even the children quiet.

The speaker further stated that the battle was not one to be celebrated because blood had been shed or because they had sprung from the victors, but because of the fact that there were men in days gone by who stood so strong for principles. The British constitution, upon which the Canadian was modelled, was the best ever designed. He appealed to the young men of the county to do their duty, a duty they were not at present performing; there was too much scrambling for dollars and cents, and too little attention given to municipal and other public matters.

Andrew Broder, M.P., spoke very briefly. The great danger of Canada to-day, said he, is that people are leaving the land. Within the past ten years sixteen million people had entered the United States, of which twelve million went into the cities. Four million to feed twelve million! He paid a great tribute to the dignity of farming and the scope for wide intelligence in the profession.

Fire Station No. 2 on Brock street, in gala attire. The men at this station are "some decorators" when they get on the job. Fire fighting is not their only line of business.

Canadian and Indians, and paid them a great tribute, the former because they stood firm and refused overtures that were made to them in 1763 by the United States and in a sense saved Canada, the latter inasmuch as they were a part of the British empire. "This battle of Crrysler's Farm," said Mr. Graham, "was fought in 1813, and was the deciding battle which aid to the United States and to all the world, Canada shall remain a part of the empire. There were other battles in 1813, but they were not of the kind we now celebrate." The way Mr. Graham told of brave Col. Morrison's harassing the enemy and forcing them to fight held even the children quiet.

The speaker further stated that the battle was not one to be celebrated because blood had been shed or because they had sprung from the victors, but because of the fact that there were men in days gone by who stood so strong for principles. The British constitution, upon which the Canadian was modelled, was the best ever designed. He appealed to the young men of the county to do their duty, a duty they were not at present performing; there was too much scrambling for dollars and cents, and too little attention given to municipal and other public matters.

HUERTA RECONSIDERS WILSON'S PROPOSALS

He Requests That Things Remain in Abeyance Till After Mexican Election.

Mexico City, Aug. 28.—The Mexican government is silent on the issues raised by President Wilson's speech yesterday. Federico Cambon, minister of foreign affairs, presented the facts to the Mexican congress, last night, without comment.

President Huerta, to-day, made concessions in his stand against the American mediation plan. He has withdrawn his request, rejecting Wilson's proposals of exchange of ambassadors and has requested that the entire situation remain status quo until after the presidential election in October.

JUMPED INTO THE SEA

And Saved a Woman Bather From Drowning.

London, Aug. 28.—A party of Canadians sunbathing at Bexhill-on-the-Sea, have become heroes, owing to the rescue made by Richard Fudger, and William Blackstock, of Toronto, who jumped into the sea and rescued a woman bather caught in an ebb tide while their wives looked on. Fudger is a son of the manager of Simpson's store.

CANADA LEADS WORLD.

London, Aug. 28.—Figures made public to-day from the home government offices, show that Canada leads the world in the high cost of living. Since 1906, the cost of living has jumped fifty-one per cent. in Canada, and only sixteen per cent. in Australia.

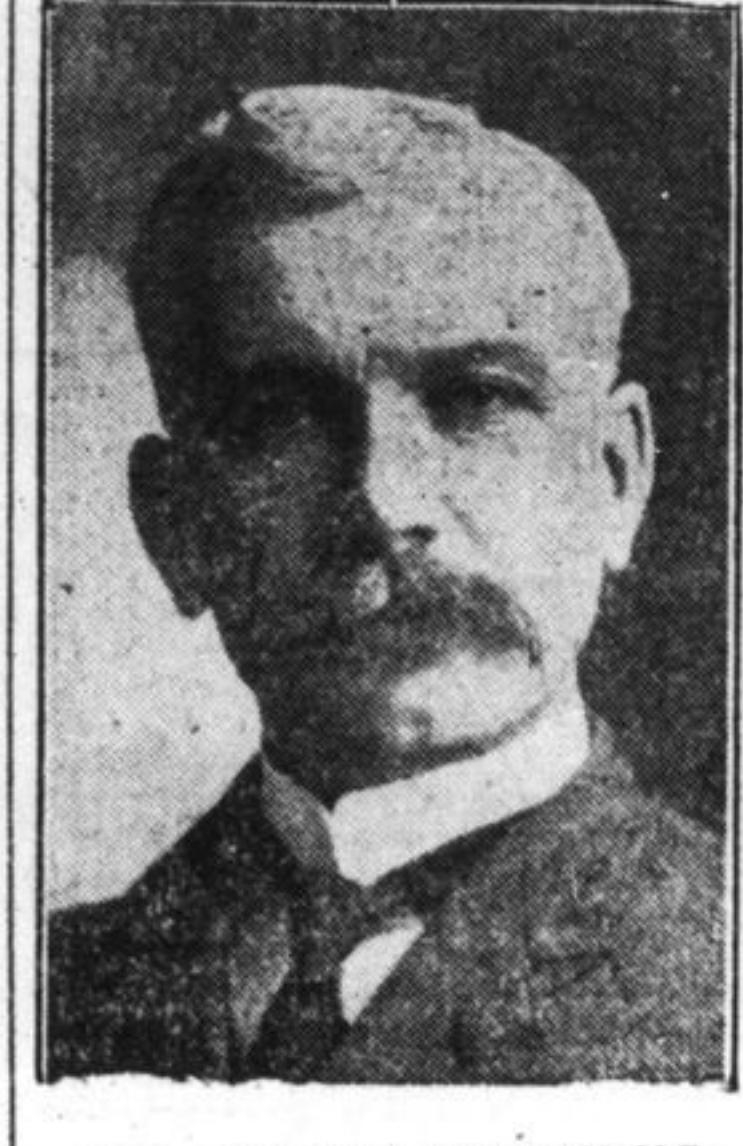

GARDENER TO APPEAR.

A woman has complained to the police that a farmer failed to deliver to her home a bag of potatoes which she purchased and paid him for. He will likely explain the affair to the magistrate.

Mike, Tereske, deKhand, and Jack Nolan, drill runner, were killed in an explosion of dynamite at the Hollinger Reserve mine.

Mrs. Walter Johnson, 330 Brock street, returned home yesterday, after visiting friends in Constantine, N.Y.

WORLD'S GREATEST SHIP WAS SWEEPED BY FIRE

HON. GEORGE P. GRAHAM, M.P. Who spoke at the centenary anniversary event at Crrysler's Farm battlefield on Wednesday.

SAVED CHILDREN FROM FIRE.

EX-M.P.P. Shows Himself a Hero at Blaze.

St. Thomas, Ont., Aug. 28.—Two little girls, aged respectively four and six years, were rescued from being burned to death in a fire which did \$150 damage to their home at Port Stanley, when William Jackson, customs officer and ex-member of parliament for West Elgin, rushed into the burning bedroom and carried the little ones out.

THAW IN GOULIN'S HANDS.

Ottawa, Aug. 28.—The situation in the Thaw case to-day was that he would remain in jail till his trial in October, or that New York state would get him back to Mattawan by legal procedure, which, however, is not in sight yet. It is learned that there that the minister of justice would not interfere.

WILL RAISE KEYSTORM BY COMPRESSED AIR

Repairs to Be Made on the Inside—First Time on a Lake Boat.

Cleveland, Ohio, Aug. 28.—It was announced here yesterday that the work of raising the steamer Keystorm, which lies in deep water below Alexander Bay, N. Y., to a rescue river, will be started at once, with an equipment closely resembling in principle the compressed air systems used in constructing tunnels under water.

The Keystorm lies on her starboard side on a sloping bottom, with a pocket ten feet deep beneath the centre of the ship. At her bow the stern is seventy feet deep, and at her stern one hundred and twenty-two feet. About one hundred feet of the middle of the vessel has ten feet of water under her. She has a hole thirty feet long and four feet wide on her starboard side.

The Keystorm has only two water-tight bulkheads, one between the forepeak and No. 1 hold, and one between the engine-room and No. 3 hold. Although not a new plan of operation, the compressed air system is probably to have been used on a lake boat. It has been used successfully on the coast, where deep water prevented ordinary methods of wrecking being employed.

PREPARED FOR ATTEMPT TO LIBERATE THAW

Six Dominion Police Sent From Ottawa to Sherbrooke to Guard Prisoner.

Ottawa, Aug. 28.—There will be no slips of justice, rescue or escapes, in the case of Harry Thaw while he is in Canada.

No fewer than six members of the dominion police force are now in Sherbrooke, Que., in connection with the proceedings of the deportation of Harry K. Thaw. Inspector Parkinson has been there for several days, and he was joined by Sergt. Geroux.

Then the immigration inspectors sent a request for four more men and Constables Quinn, Butcher, Maskell and Charon were despatched to the scene. The immigration inspectors stated simply that they desired the dominion policemen to assist them in the deportation work. Probably they will be used to keep back the crowds in case Thaw is taken across the line, as the people of Sherbrooke and vicinity have shown an inclination to sympathize with the prisoner, and some of the rougher element might attempt a rescue.

The customs show Canadians are consuming much more canned goods than heretofore.

The Hoodoo Ship Had a Very Narrow Escape.

DAMAGES ARE \$50,000

TWO PERSONS LOST LIVES IN THE FIRE

Second Officer Tried Hard To Get Into the Provision Room Where the Blaze Started—The Great Ship Listed From the Water Poured Into Her—Passengers On Pier.

New York, Aug. 28.—The world's greatest ship, Inhaboken, as she lay in the dock at Hoboken, was swept by fire early to-day and two perished in the flames. Over one thousand steerage passengers aboard rushed, panic-stricken, for the pier, but returned for their clothes when reassured by the officers and spent the rest of the night huddled on the wharf.

Second Officer Gobracht lost his life in an attempt to press through the smoke to the provision room in the stern where the blaze started. Soon great clouds of smoke rolled from every porthole and the giant liner listed fifty degrees.

The fire was thought to be under control at 9 a.m. She had 3,100 passengers when she docked, late yesterday, but all the steerage passengers had left. The entire fire department of Hoboken fought the blaze and the listing was caused by the tremendous weight of water poured into the great vessel.

So many accidents have happened to the Imperator that she has been called a hoodoo ship. The damages are estimated at \$50,000.

Shot Girl and Self.

Portland, Maine, Aug. 28.—Apparently dead as the result of a suicide pact, though the cause of their action is an absolute mystery, the dead bodies of Carl W. Perry, aged twenty, and Miss Angie Spear, aged nineteen, were found floating in a motor boat on the bay. Perry had apparently shot the girl and then himself.

Man Electrocuted.

Berlin, Ont., Aug. 28.—William Becker, aged fifty, was instantly killed by a hydro-electric wire while working at the Kuntz brewery. While some steel frames were being hauled up by cable at a new building, it in some way came in contact with the electric wire.
