This Invention for Rupture Sent On 60 Days Trial

WON'T COST YOU A CENT IF THE TWO MONTHS TEST DOESN'T PROVE CLAIMS.

You can make a thorough proof of it by test of this guaranteed rupture holder without having to risk a single cent. We'll send it to you for sixty days' trial—practically lend it to you that long—just to let you see for yourself how it takes all the misery out of being ruptured.

If the 60 days' trial we allow doesn't prove that it will keep your rupture from coming out or bothering you in any way—in spite of any work you do or any other strains—then it won't cost you a penny.

The Only Thing Good Enough to Stand Such a Test. You know as well as we that a mere truss—like a drug store—can't possibly prove whether a truss or anything else for rupture is going to do any good.

Neither is just a few days' trial a safe test. A truss or so-called "appliance" may seem alright the first week or so, and then turn out to be no good whatever.

But you can't possibly make a mistake in which to make a test. And there is only one thing of any kind for rupture that you can get on such a long trial—good enough to stand such a long and thorough test.

That is our guaranteed rupture holder—the famous Cluette Automatic Massaging Truss.

Made on New Principle. The Cluette truss is so radically different from everything else for rupture that it has received eighteen separate patents. Made on an absolutely new principle—far more than just a truss.

It has so thoroughly proved its merits in nearly 300,000 cases that surgeons in the U.S. army and navy and physicians in all parts of the world now recommend it instead of advising operation.

Will Save You From Operation. A rupture can't possibly be relieved—

can't even be kept from growing worse—unless protected against all strains and constantly kept from coming out. Just as a broken bone can't "knit" unless constantly held together.

And that is the curse of wearing elastic or spring trusses—not one in twenty ever holds successfully—they sooner or later make operation absolutely necessary instead of preventing it.

But remember that the Cluette Truss is guaranteed to hold—and that it won't cost you a cent if it doesn't!—And in addition to constant holding, it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

It does that entirely automatically—without any attention whatever from you. And it has thus brought complete recovery in thousands of cases that seemed almost hopeless, and has saved thousands of men from having to risk their lives under the surgeon's knife.

No Belt, No Leg-Straps, No Springs. The Cluette Truss does away entirely with the curse of wearing belts, leg straps and springs. People who have tried it say it is as comfortable as their clothing. And it is waterproof—will hold in the bath. Also perspiration proof. Easily kept clean.

Get World's Greatest Rupture Book. Don't send any money—don't take any risk. Just write for our free book and find out all about it. This sensational book—skin bound, 96 pages, 20 separate articles, and 23 photographic illustrations—is full of facts for the ruptured man before he prints.

It shows why elastic and spring trusses are a crime—how they are the ruptured man's worst enemy—why the law should stop their sale.

It exposes the humbug "appliances" which are sold everywhere. It shows why operation for rupture leads to permanent weakness or death oftener than in complete recovery.

And it tells all about the famous Cluette Automatic Massaging Truss—gives names and addresses of over 5,000 people in all parts of the country, who have tested it and have voluntarily endorsed it—and tells how you can get it on sixty days' trial, and how little it costs if you keep it.

Simply use the coupon or say in a letter or postal "Send me your book" and we will take only a minute, but may be the means of freeing you from all rupture troubles for the rest of your life.

WON BY ST. GEORGE'S

SYDENHAM DEFEATED IN S.S. GAME BY 6 TO 5.

These Teams Have Met Three Times To Decide the Winner—St. George's To Meet Cooke's For the Championship.

St. George's junior baseball team won one of the hardest fought baseball games of the season, when it defeated Sydenham juniors at the cricket field on Saturday afternoon by a score of 6 to 5. This is the third time these teams have had to meet to decide which is the superior outfit. The first time the score reached in a tie, with the score 6-6. Next time Sydenham won out by 7 to 6. St. George's then entered a protest and the game was ordered to be replayed on Saturday afternoon.

In the first innings, Sydenham pitcher struck out the first three St. George's men who came up to bat. The Methodists were more favored in this inning when they succeeded in getting two men across the plate, Germain and Gibson doing the trick.

The second inning proved bad for the Anglians, only four men going to bat. The Sydenham boys added another run in this inning, making the score 3 to 0. H. Rae was the first man to cross the plate for the Anglians, and this was done in the third innings. A Abernethy added another for Sydenham in this inning.

St. George's came back strong in the fourth and scored two. The boys of Sydenham school were only able to get one run in this innings. St. George's won in the last innings.

H. Rae, Saunders and Hall scoring, Sydenham tried to overcome the lead, but Abernethy was the only player who was able to score and he came home on a three-base hit by Greenless.

The teams were: St. George's—Hall, Saunders, Rae, Elmer, McCall, Stinson, Thompson, Butlin, H. Rae. Sydenham—Germain, Gibson, Stewart, Day, Abernethy, Greenless, A. Abernethy, Reynolds, Fritzell, Umpire—Grant Smith.

The winners will now meet Cooke's on Saturday next.

DISCOVERED COAL

This Rich Find of Benefit To British Columbia.

ISAAC N. CAMPSALL

Isaac N. Campsall, Penticon, B.C., late of Cobalt and formerly of this city, has discovered and staked out six hundred and forty acres of coal lands near Penticon. This rich find means much to British Columbia, where coal is a scarce article at \$10 a ton.

The discovery was quite accidental. Mr. Campsall, with two Indian guides, had been prospecting in the mountains having found some promising prospects, on returning home he walked thirty miles to the recording office of mines at Fairview, returning he became tired and lay down under a tree to sleep. When he awoke he found himself on a bed of coal. This set him investigating, with these most satisfactory results.

Mr. Campsall is well known as a prospector and mining broker in New Ontario, having conducted an office in Cobalt and later in Porcupine. For several years his life was a series of prospecting trips in the wilds. Few men have covered as much ground of had a more varied experience, as most of his exploring trips were taken alone.

It will be remembered Mr. Campsall was selected to go to the king's coronation on Saturday, but at that time was too busy to leave. That summer he was nearly drowned in the lake at Gowanda. His boat having upset his two companions could not swim and pulled him under several times, but his powerful physique and determination kept the party up till a passing boat took them in.

One of Mr. Campsall's richest finds—a mine for which he received \$75,000—was accidentally discovered. He was carefully passing over some land that had been prospected many times and pronounced "no good," when he caught his foot in some brush, and, stumbling, made his discovery.

Tiring of the cold north country, Mr. Campsall has been fruit farming in British Columbia two seasons. Speaking of his find, he says, "Coal was certainly a good find, when he caught his foot in some brush, and, stumbling, made his discovery."

In his late trip in the Rockies, Mr. Campsall reports having sighted only one rattler and one grizzly bear, both of which escaped.

Mr. Campsall is a Kingston old boy and his many friends will be delighted to hear of his late good fortune.

Gets Verdict of \$65. Henry Arnold, the Thousand Island Park oarsman, was awarded a verdict of \$65 against Jay I. Gardner, of the Park. Arnold asked \$225 from Gardner, whom he claimed needlessly tore down his boat house, at the time of the 1910 fire on the East coast.

The church of the Annunciation, Chippawa, was the scene of a quiet wedding on Sept. 3rd, when Miss Katharine Celena, second youngest daughter of Mr. and Mrs. A. C. Finn, Enterprise, became the bride of Timothy John Hunt, Roblin.

A GROOM IN TROUBLE

FOR NEGLECTING TO PAY HIS BOARD BILL.

New Legislation Says People Who Jump Board Bills Can Be Arrested—First Arrest in Kingston Under the New Law.

Recent legislation has made it so that a person who refuses to pay for his board, can be arrested on a warrant. Formerly all such cases of this kind had to go to the division court, to be threshed out.

The new legislation will, no doubt, mean much to hotel and boarding house keepers, as it will, in the majority of cases, bring about a quicker settlement, and the parties charged will be brought to task much quicker.

The arrest, on Saturday, of John Horning, a stranger in the city, by Constable James Craig, marked the first arrest in Kingston in a case of this kind. The charge against Horning was that of fraud. The warrant for his arrest was sworn to by William J. Stinson, proprietor of a restaurant at the corner of Princess and King streets, his claim being for \$6 for meals.

It is stated that Horning came to Kingston about a week ago, with his bride of a few days, and a sister of the bride. They secured lodging at a house on William street, and secured their meals at Mr. Stinson's restaurant. Horning claimed Detroit as his home. The party made the trip here from Toronto via boat to Charlotte.

After spending a short time in the police cells, the accused raised sufficient money to make a deposit with the court, and was given his liberty.

BACKACHE IS A DANGER SIGNAL. Kidney Troubles, Bladder Disorders, Rheumatism and Serious Diseases Follow.

There are other symptoms, such as pains in the region of the kidneys, nervousness, dizziness, tired and worn-out feeling, weak bladder, or urinary troubles, which are just as dangerous for the slightest kidney derangement. If neglected, may develop into the deadly Bright's Disease, Dropsy or Diabetes.

It is not only dangerous, but needless, for you to suffer, and endure the tortures of these troubles for Croxone promptly ends all such misery.

There is no more effective remedy for kidney, bladder trouble and rheumatism, than Croxone, because it reaches the cause. It soaks right into the kidneys through the walls and linings, cleans out the blood, purifies, neutralizes and dissolves the poisonous uric acid and waste matter, that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter the poison from the blood and drives it out of the system.

Three doses of Croxone a day, for a few days is often all that is ever needed to relieve the worst backache or overcome disagreeable urinary disorders.

You will find Croxone different from other remedies. It is so prepared that it is practically impossible to take it without results. An original package costs but a trifle and all druggists are authorized to return the purchase price if it should fail in a single case.

A pretty wedding took place on Monday, 8th inst., at the home of Bone Hawley, Ron Esho, when the eldest son, Francis, and Miss Catherine Reid, England, were united in matrimony. The bride looked charming in a dress of allover embroidery, bridal veil and orange blossoms. The bridesmaid was Miss Eva Snyder, and the best man, Mr. Esho. Arch Hawley, brother of the groom, acted as best man.

On August 22nd, William P. Miller, McIntyre Corners, entertained at dinner his children, grandchildren, brothers and sisters, it being the anniversary of his eightieth birthday.
