AN ARSENAL CANARD

MONTREAL STORY ABOUT OFFICERS MAY NOT BE TRUE

Col. Gaudet and Major Lafferty Are Not Drawing Pay For Performance of Duty At Quebec.

Ottawa, Nov. 14.—That a story to the effect that two men were drawing pay for one man's work at the Quebec arsenal, published in Montreal, has no basis of fact was learned in an investigation into the circumstances of the affair.

The story stated that both Col. Gaudet and Major Lafferty were on full pay for the one position of superintendent of the arsenal, though Col. Gaudet had been released from his duties some time ago and Major Lafferty appointed. The real fact, it was learned at the militia department is that while Col. Gaudet is drawing full pay, Major Lafferty is being paid only his ordinary remuneration as an officer of the Royal Canadian Artillery, and has not yet commenced to draw his pay and allowances as superintendent of the arsenal.

When Col. Gaudet was succeeded he was given leave of absence until October 15th and Major Lafferty took over his duties for the reason that it was desired that the ammunition—which had been defective under Col. Gaudet's administration of his duties

SIXTY-FOURTH ANNIVERSARY

Special Services Are To Mark the Occasion.

On Sunday and Monday the First Congregational church of the city will celebrate its sixty-fourth anniversary. The church was organized in the year 1847 under the leadership of Rev. Kenneth Fenwick. Amongst other names of the charter membership are to be found those of Massie, Hendry and Fenwick. The main part of the present building was dedicated in 1865. In 1884 the Sunday school hall was added. A few years later both church and hall were practically destroyed by fire, but were immediately repaired and additions made at a cost of about \$16,000.

Dr. Fenwick served the church from the time of its organization until 1876, when he was succeeded by Rev. Dr. Jackson. It was at this time that a call was extended to Rev. Hugh Pedley. Mr. Pedley, however, declined. Dr. Jackson took up the work in 1877 and continued to serve the church for the next seventeen years. Since Dr. Jackson's resignation in 1894 the church has had as pastors Rev. Alex. Richardson, Rev. D. M. Solandt, Rev. J. Charles Villiers, and the present pastor, Rev. E. Leroy Rice, called to this church in May, 1910. During the past twenty years the church has gained steadily in numbers and in financial strength.

FIRST CONGREGATIONAL CHURCH

—should be brought to a high standard again as soon as possible. This was done pending action by the minister of militia, who was expected back from his European trip on October 15th. The minister was delayed and consequently Col. Gaudet's leave of absence expired before his return. It was extended for another month and meanwhile only one officer is drawing full pay as superintendent and that is Col. Gaudet.

As regards the statement in the newspaper story in question that Col. Gaudet was being held as a hostage, the view was expressed in militia circles here that in being allowed to draw full pay pending the minister's final decision he is being treated with great consideration.

The sixty-fourth anniversary will be celebrated by special services on Sunday. Rev. Hugh Pedley, Montreal, will preach on Sunday evening. The church choir will appear vested for the first time on Sunday.

Low Spirits From Weak Nerves

Low spirits, depression, discouragement are a form of nervous disease. You worry over little things, and at the slightest ailment apprehend the gravest dangers and diseases. You form the habit of looking at the dark side of things.

Indigestion is a frequent accompaniment, and you probably do not sleep or rest well. The cause of the trouble is to be found in the exhausted condition of the nerves. To get well you must build up the feeble, wasted nerve cells by use of such treatment as Dr. Chase's Nerve Food.

This great food cure forms new, rich blood, and thereby nourishes the nervous system back to health and vigor. There is nothing like new nerve force to bring back hope and confidence to the weak and discouraged. This treatment works in natural ways to restore health, and, therefore, cannot fail to prove of benefit to you. Put it to the test and you will be surprised with the building-up influence that will result.

THE FISH INDUSTRY

OF CANADA IN 1913 AMOUNTED TO \$34,000,000

Slightly Less Than in 1912—The Catch in the Maritime Provinces Was Above the Average.

Ottawa, Nov. 14.—A decrease in the value of fish caught in Canada in the last fiscal year as compared with the previous season is noted in a statement prepared by W. A. Found, superintendent of fisheries. The total value of the catch was \$34,000,000. This is slightly less than the preceding twelve months, but reports for the fishing season which is now drawing to an end, however, indicate that this decrease will likely be made up in the catch for 1913, which will probably total \$35,000,000. These reports show that in Quebec the season has been a very fair one. In the maritime provinces the catch was above the average, the total takings of codfish being very large, and this fish constituting the bulk of the catch.

The British Columbia catch was featured by the fact that this is the "big" year in the salmon industry there, the catch, in spite of recent alarmist reports about the Fraser River sockeyes, being quite up to the mark, though in more northern streams it was a little less satisfactory. In Manitoba, Alberta and Saskatchewan, the fish harvest was about the usual one and this was also true of Ontario, though that province, controlling its own fisheries, does not send in reports to the dominion.

FIREMEN WERE CALLED

To Blaze in Archbishop's Palace Thursday Night.

A small fire in the archbishop's palace on Johnson street required the attention of the men from the Brock street station about 10.20 o'clock, on Tuesday night. The blaze started from some unknown cause in a cupboard in the pantry, off the kitchen but was easily extinguished with chemicals. The damage will amount to about \$25. The call to the firemen was given by Father Hanley over the telephone.

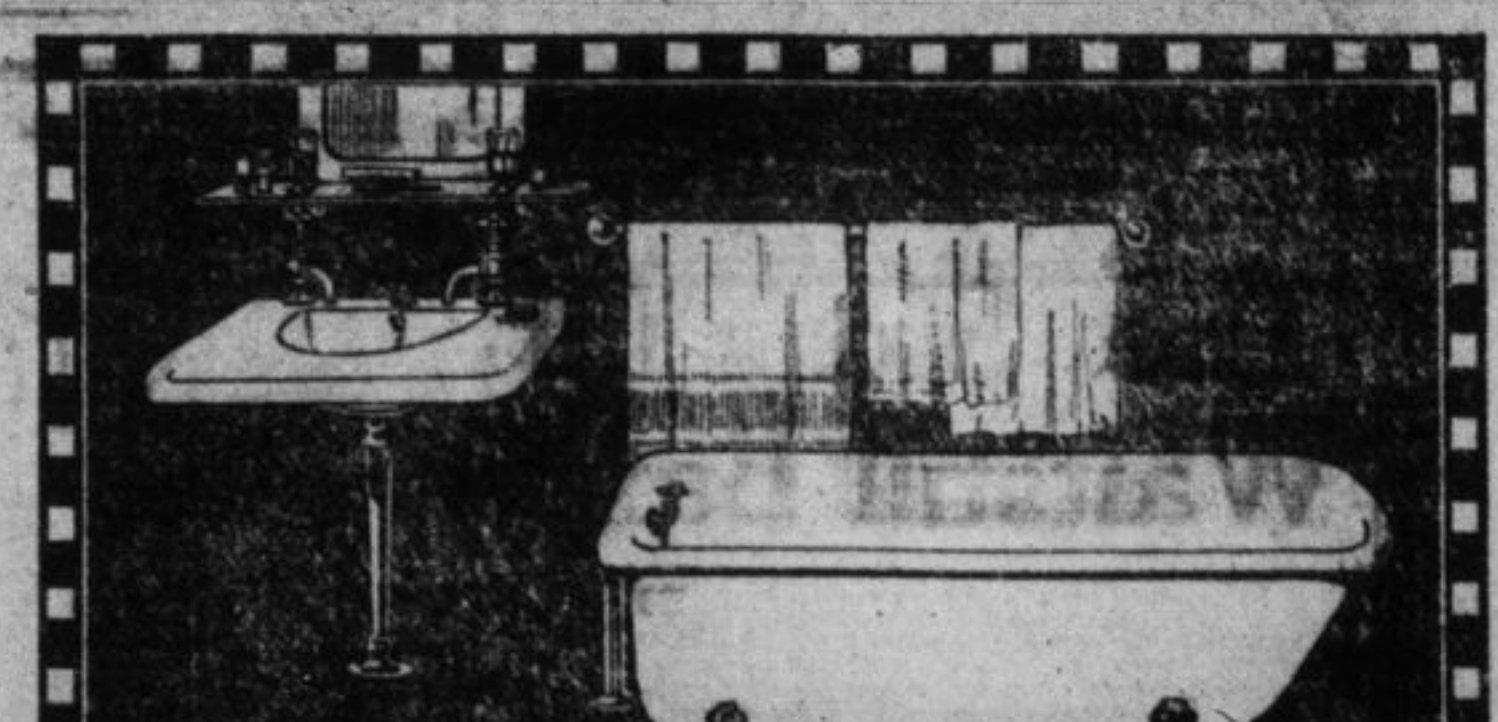

An Apology.

We wish to apologize to Mrs. Orlando Overlook. In our paper last week we had as a heading, "Mrs. Overlook's Big Feet." The word we had ought to have used is a French word pronounced the same way, but spelled *lété*. It means a celebration and is considered a very tony word.—North Dakota Paper.

CHAMBERLAIN'S WIFE MAY BE GIVEN TITLE

The British Nation Would Like to See Her Made a Viscountess.

London, Nov. 14.—In connection with the silver wedding of the Rt. Hon. and Mrs. Joseph Chamberlain on Saturday, which is to be kept quietly at Birmingham, the suggestion has been made in ministerial quarters that, although it is known that Mr. Chamberlain himself would never accept a titular honor, the nation would be gratified if Mrs. Chamberlain became a viscountess, as a mark of the esteem and gratitude to the whole people, regardless of party differences, entertained towards her. During her husband's later career, in brilliant sunshine and in shadow, at the height of his popularity and the depth of dislike she has been his devoted, graceful, self-forgetting companion and supporter.

Mr. Chamberlain's first wife died half a century ago, after two years' married life. He married his second in 1868 and lost her in 1875. His third marriage has given him happiness throughout almost his whole career, since he ceased to be long to the liberal party.

Some men who learned to crawl when they were babies never seem to have gotten over it.

LESS MEAT IF BACK AND KIDNEYS HURT

TAKE A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish, clog up and cause all sorts of misery, particularly backache and indigestion, the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urina, so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease. Agent, Geo. W. Mahood.
