MONEY OR MUTINY

WARNING TO LEADER OF HUNGRY FEDERALISTS.

General Mercado, His War Chest Empty, Sends Urgent Demands to Mexico City—Huerta's Troops Threaten to Rush into American Territory.
Presidio, Tex., Dec. 11.—With General Salvador Mercado's northern division of the federal army in bankruptcy and with the army threatening mutiny unless they are paid, every restraint was enforced to-day to prevent a general rush of the Federals across the river from Ojinaga into the United States territory.
Driven from Chihuahua city, where they were besieged by rebels, to a point where communication could be opened, the army, representing the strength of the Huerta government in the north, reached the border with an empty treasury. The future of the army was said to depend upon the nature of responses to urgent demands for money sent to Mexico City.
General Mercado himself, before evacuating Chihuahua and thus turning it over to the rebels, gave as one reason for his act the lack of money with which to pay his troops. The appearance of his financial agents on the American side, soon after the arrival of the troops at Ojinaga, and the fact that General Ynez Salazar and other officers at once communicated with Mexico City, was no surprise to the American army officials who were apprised of conditions.
The United States troops reinforced by other troops along the border were prepared for an emergency, having been informed that the Mexican troops purposed pushing across the border. Rebel agents who went into Ojinaga also reported that prompt payment of soldiers would appease them.

Reports brought by the refugees were that the rear of the refugee column, in its slow progress on foot, was continually harassed by the rebels. The rebels, however, were in such a small number they could do no more than hasten the pace of the retreating Federals.
General Francisco Villa's detachment, sent out in an effort to overtake the Federals and confiscate the property of some of the rich civilian refugees, included that of Louis Terrazas, was unable to accomplish its purpose. However, a few rebels in the mountain passes overlooking the plateau were able to keep the marchers in constant fear.
Another factor which tended to increase the predicament of the Federal troops was a fear that the rebel forces, which now hold away over a great section of the north, would not long allow Ojinaga to stand unmolested.
The necessity of provisioning the army was apparent and unless this could be done at once the troops would be insufficiently provided against a possible rebel attack. It was thought

Just One Application And the Hairs Vanish

(Helps to Beauty.)
Here is a very simple and effective way to banish objectionable hairs or fuzz: Mix into a stiff paste enough powdered delatone and water to cover the undesirable hairs, apply and after about two or three minutes remove the paste, wash the skin and every trace of hair will have vanished. This method is quite harmless and leaves the skin soft and spotless. Be sure, however, to get the delatone in an original package otherwise it may not be of the desired strength and purity.

THE SPORT REVIEW

COBourg HOCKEY CLUB'S DISPUTE WITH RINK OWNERS.

Hunt to be Forced to the Front by the Toronto Ontarios—Hamilton Not Likely to Have Professional Hockey This Winter.
Brockville expects to have its new rink ready by Christmas.
Two new players have joined the Toronto Rowing Club squad. Gowdy of Regina; a centre ice player, and McGee, of Montreal, are the newcomers.
Cambridge University won its annual rugby football match against Oxford University by 13 points to 3.
It is announced that arrangements have been made to bring champion Frank Gotch to Montreal in the near future.
Hamby Shore came to terms with Manager Lesueur of Ottawa yesterday, and now the only hold-outs in the senator camp are Darragh and Ronan.
There will be no smoking in the arenas at New Westminster, Vancouver or Victoria this season. It would be a good thing if the management of the local arena would adopt the same method.
Plans are now on foot to have Ottawa represented in the National Lacrosse union next summer with a new section of the old N.L.U., consisting of Carleton Place, Almonte the Ottawas and Shamrock.
Greg. George is expected to be with the Ottawas the latter part of the week. There is a difference in the amount requested and offered, but it will be adjusted.
Cobourg Hockey club is having a dispute with the rink management in regard to a division of the gate receipts, and there may be no hockey in the town.
While there is little possibility of Hamilton having professional hockey this winter, there are strong hopes that a T.H.A. will have a place in the N.H.A. next season.
Now that the O.H.A. has over \$6,000 in the bank, they might provide good prizes for the winning players. It seems a shame to keep all the money in the bank, says the Toronto News.
At Pittsfield, Mass., John J. Grun, aged seventy-six, a member of the Eckford baseball team of Brooklyn N.Y., which won the championship of the country in 1862 and 1863, died Tuesday after a short illness.
Harry Westwick has been appointed by President Emmett Quinn as Ottawa's representative on the permanent board of N.H.A. officials.
Toronto Star: Bert Hunt, of Kingston, was sold by the Hamilton Alerts to last year's Tecumsehs. He never got a chance with the Indians. Three years ago he was a junior player of fame with Jim Sutherland's Kingston Frontenacs. If there is any real hockey left in him, Murphy will bring it out like small-pox.

AT THE GRAND.

"Fanny's First Play" Will Be Seen Tonight.
"Fanny's First Play," which, excepting "Within the Law," enjoyed the longest run of any dramatic show in New York this season, will be the attraction at the Grand on Thursday, Dec. 11th, with the original cast. The company was organized by Granville Barker, of England, and Messrs. Shubert are the producers. George Bernard Shaw, author and critic, the famous writer, is the author.
The play is given in three acts. They are preceded by an induction, and are followed by an epilogue. The induction serves to introduce the scenes of dramatic critics who are brought to the scene of action to witness the production of "Fanny's First Play." Fanny being the daughter of Count O'Dowda. Her father, to whom she appeals, promises her that he will engage real actors to play the parts and, further, will have real metropolitan critics review the work.
The play, proper, is perhaps the slickest bit of satire ever penned by the fanciful Mr. Shaw. It bristles with fun, snappy lines and amusing incidents. Fanny, it develops in the play, has been arrested for striking a policeman, and serves a term in prison. Her fiance likewise has been on a lark and gets "pinched." The two families are righteously indignant but everything turns out as it should.

Sheehan Opera Company.

With a company of seventy, including an augmented orchestra, Massenet's beautiful "Salome" will be heard in this city at the Grand on Wednesday, Dec. 17th, and it is safe to say that greater novelty or more elaborate production has ever been witnessed in this city. In presenting to the public this mammoth production of "Salome," expense seems to have been thrown to the wind. The company embraces such famous stars as Joseph P. Sheehan, Madame Antoinette, Le Brun, Mlle. Lydia Sturtevant, Miss Connie Glynn Cooklin, Miss Grace Dosses, Charles H. Swickard, Harold J. Geis, Nelson Shanley, William Young, Lawrence Wallace and others. The choruses of singers and dancers is supplemented by an orchestra under the baton of Chevalier Theodore Stearns, and thrown in for good measure is the most famous of all interpreters of the great "Salome" dance, Mlle. Sophia Penucci. This is Mlle. Penucci's first appearance in America and her work is without doubt the most artistic thing which has ever been attempted on an American stage.

SELLING LANDS.

Finds Newspaper With George Washington's "Ad."
Johnetta, Pa., Dec. 11.—In searching among old books and newspapers which had come into his possession, L. E. Allen of this place, yesterday, found a copy of the first edition of the Maryland Journal and Baltimore Advertiser, dated August 26, 1773. The paper, yellow with age, contains an advertisement inserted by George Washington. The advertisement states that George Washington has obtained patents to 20,000 acres of land along the Ohio and Kanawha rivers and he offers to lease the land at "reasonable rates."

Failed to Appear.

There was a brief session of police court on Thursday morning. Of three cases on the docket, but two were disposed of. One Henry Leslie, disregarding a summons served on him to appear and answer a charge of non-support. Henry Smith, a vagrant, was sent to jail for one month by the magistrate, while J. Davidson, who had been drunk, was dismissed.

Died at North Gore.

The death occurred at North Gore on Wednesday morning of Alfred Craig, after a lingering illness of many months. Mr. Craig married Miss Annie O'Loughlin, eldest daughter of the late Rev. A. J. O'Loughlin of Kingston. Mrs. Craig will be remembered by many Kingston people.

Twenty Degrees Above Zero.

During Wednesday night the weather was the coldest so far this season. On Thursday morning the thermometer at the observatory of Dr. A. P. Knight registered twelve degrees of frost. The highest temperature, on Wednesday was two degrees above freezing.

The Double Work of the Blood

The circulation of the blood is one of the most perfect pieces of mechanism in the universe. Besides carrying nourishment to every part of the body, the blood collects the waste products and passes through the kidneys in order that these poisons may be eliminated.
Hence you see the tremendous importance of keeping the kidneys in healthful working order so that they free the blood of these impurities before they find lodgment in some weak spot and set up serious disease.
Aching back and aching head—troubles with the digestion, deposits in the urine constipation and biliousness—such are the symptoms which indicate the need of Dr. Chase's Kidney-Liver Pills. The liver is awakened to action, the bowels regulated, and the kidneys made vigorous in their work of purifying the blood.
In the great majority of homes Dr. Chase's Kidney-Liver Pills are kept at hand to use in just such cases. They save many doctor bills, and by keeping the digestive and excretive systems in health do much to prolong life and bring comfort in old age.

EXPECTS TROUBLE IN IRELAND.

Editor of Dublin Review Believes Orangemen Will Fight.
Ithaca, N.Y., Dec. 11.—That there will be serious disturbances in Ireland in the near future is the opinion of Dr. William Ward, editor of the Dublin Review, who has been delivering a series of lectures on Cardinal Newman to the students at Cornell University. He said:
"My opinion is that the true solution of the home rule question in Ireland would be a system of federation similar to that in the United States. There should be local parliaments in Ireland, Scotland, and Wales, such as you have in each state. I don't think the present bill satisfies anybody, for I have heard men from both sides tell me that they don't believe it will work."
"The desire for home rule in Ireland is not as keen now as it was before the passage of the land act in 1903. That settled the land question, which had been the greatest difficulty and the greatest grievance."
"The Orangemen talk war. I think they mean business, and what is more I think the government knows that they mean business. I have no doubt there will be serious disturbances in the near future."

GETS PEACE PRIZE.

Senator Praised For Political and International Ideals.
Christiania, Norway, Dec. 11.—The Nobel peace prize for 1912 was conferred on Senator Elihu Root, New York, and that for 1913 on Senator Henri LaFontaine, Brussels, Belgium, formerly president of the Permanent International Peace Bureau of Berne, Switzerland.
As no Nobel peace prize had been awarded last year, there were two for disposal this year, each of them worth \$10,000.
The report of the committee refers to Senator Elihu Root's eminent services in the pacification of the Philippines and Cuba, and in the handling of the American-Japanese disputes. It praises his high political and international ideals, his prominence as a statesman, and his consistent efforts to promote pacific ideals.

Endowment For University.

Pittsburgh, Pa., Dec. 11.—At a meeting of the anniversary fund committee and the trustees of the University of Pittsburgh, it was decided to undertake a \$3,000,000 endowment fund campaign of ten days' duration beginning January 15th, 1915. Charles S. Ward, of the building committee of the international Y.M.C.A., will have charge of the work. Three committees of 100 men each will do the active canvassing. Local men already have promised \$650,000.

Y. M. C. A. on Warships.

New York, Dec. 11.—A Young Men's Christian Association secretary, for every first line battleship in the navy and a large increase in the number of naval chaplains are favored by Secretary of the Navy Josephus Daniels, who, in expressing his views on the subject a few days ago, called attention to the fact that there are no more spiritual advisers for the 67,000 men in the navy of to-day than there were for the 12,000 men of the American navy of forty years ago.

LENDYAY IS PLEASED.

With Its New Magnetite Lights Just Installed.
King street in Lindsay has been illuminated with magnetite lights, such as Kingston is to have on Princess street. The last Saturday evening in November King street, in that place, was transformed into a great white way. The Evening Post of Lindsay says: "The transformation which took place was wonderful. The whole avenue was brilliantly lighted and pedestrians could be easily recognized a block away. The beautiful clear light shot up the side of the buildings, lighting the upper apartments as light as day. Some of the store lights, which are of the most modern design, faded hardly in competition with the magnetites, while the old street lights presented a sorry spectacle in comparison with their successors, resembling the old time 'tallow dips.'"
"Not only was King street brilliantly lighted, but the magnetites seemed in all their brilliancy and power. A drizzling rain was falling but the lights demonstrated their superiority over other lights by an illumination that was perfection in itself.
The councillors and citizens of Lindsay are well satisfied with the new lights. They have been well distributed, and are all that their advocates claimed for them.
There was somewhat of a race between Peterboro and Lindsay in connection with the installation of the street lighting systems and Lindsay won out. Peterboro voted on the Hydro by-law last January and started work on the system some months ago. Lindsay voted on the by-law in September, and on the 14th of October the first ground was broken for the installation. The lights were turned on Saturday, Nov. 29th. Peterboro's system will be completed the middle of December.
The Kingston installation cannot be pushed on too quickly for the citizens. They demand that there should be no delay.

Mme. Cotton has lost her suit

against the French government to recover \$4,000,000 which she alleges belonged to her ancestors, and was seized by Napoleon.
"Every lady in Kingston" knows McConkey's and Huyler's sweets are the best money can buy. Sold in Kingston only at Gibson's Red Cross Drug Store.
A. L. Lima, Ohio, a boom for William Jennings Bryan for president in 1916 was started last night at the meeting of the Ohio State Grange.

Bad Blood

is a poisonous and dangerous thing. It affects every organ and function, and brings about that low condition that predisposes to most diseases and ailments. HOOD'S SASSAPARILLA corrects it, and makes pure blood.

PROBS. Fine and cold to-day and for the first part of Friday; then rising temperature.
