ALLAN DAVIDSON TO PLAY ON TORONTO DEFENCE

The Toronto Mail and Empire Says There is a Movement to Form a New Senior Series Outside of the O.H.A.

"Paddy" Sullivan, the Brockville player, is now claimed by the Grand Mere and Russell hockey clubs.

Moog, who played in goal for the Parkdale Canoe Club O.H.A. senior team last winter, will tend goal for the Smith's Falls Interprovincial team this season.

Cobourg and Belleville were expected to play their first O.H.A. intermediate game at Belleville Monday night, but lack of proper ice accommodation caused a postponement.

South Bay has organized a hockey club, which has joined the Prince Edward county league. The officers are: President, Gerald Ackerman; Vice-president, Richard Jenkins; Secretary, Harvey F. Grimmon.

Harvey Richardson, the Sydney player who jumped to Quebec, had been suspended by President Emmet Quinn, of the N.H.A. He failed to report to Sydney.

Toronto News: Varsity had their entire intercollegiate line-up at Boston on Saturday, but were easy for the American team. Looks as if the blue and white do not possess the class they did last year.

Arthur Peakey has been made favorite in the betting on his fight against Gunboat Smith, on New Year's day. The Canadian is said to have improved at a great clip.

The Chicago Cubs and White Sox have arranged to play a series of six games in the spring.

Allan Davidson will likely replace Cameron on the Toronto defence, though Manager Marshall would like to get Ritchie, the Grand Mere defence man, for whom he has been angling all season.

Toronto Mail and Empire: There is a movement on foot to form a new senior amateur series, apart from the O.H.A., and a meeting to talk over the matter will be held Saturday.

It is learned that M. and T. E. and A. A., Toronto Rowing Club, Eaton St., Michael's and Hamilton were mentioned in connection with the new league, the teams to play a double schedule.

Angus Campbell, the ex-Varsity player, and O.H.A. referee, who is now playing with the O'Brien minor team in the Cobalt Mines' league, says that someone has given old Ontario a wrong idea of the hockey up in the New Ontario mines.

"These mines' teams are not pro. nor semi-pro," declares Campbell. "The O'Brien, Cobalt Lake, and Nipissing mines all have teams and they are not importing players or paying them money. We have a Dec. 15th residence rule and want to keep the teams clean so that we can come down and play O. H. A. teams later on. We only have four or five new players up there and all are working on the mines and not getting money for hockey that I know of. Millan of Kingston—some one made a fuss about him. He wrote the Nipissing mine people for a job and got it independent of his hockey ability."

SCOTS BREAK THE LAWS Increase in Property Crimes and Drunkenness.

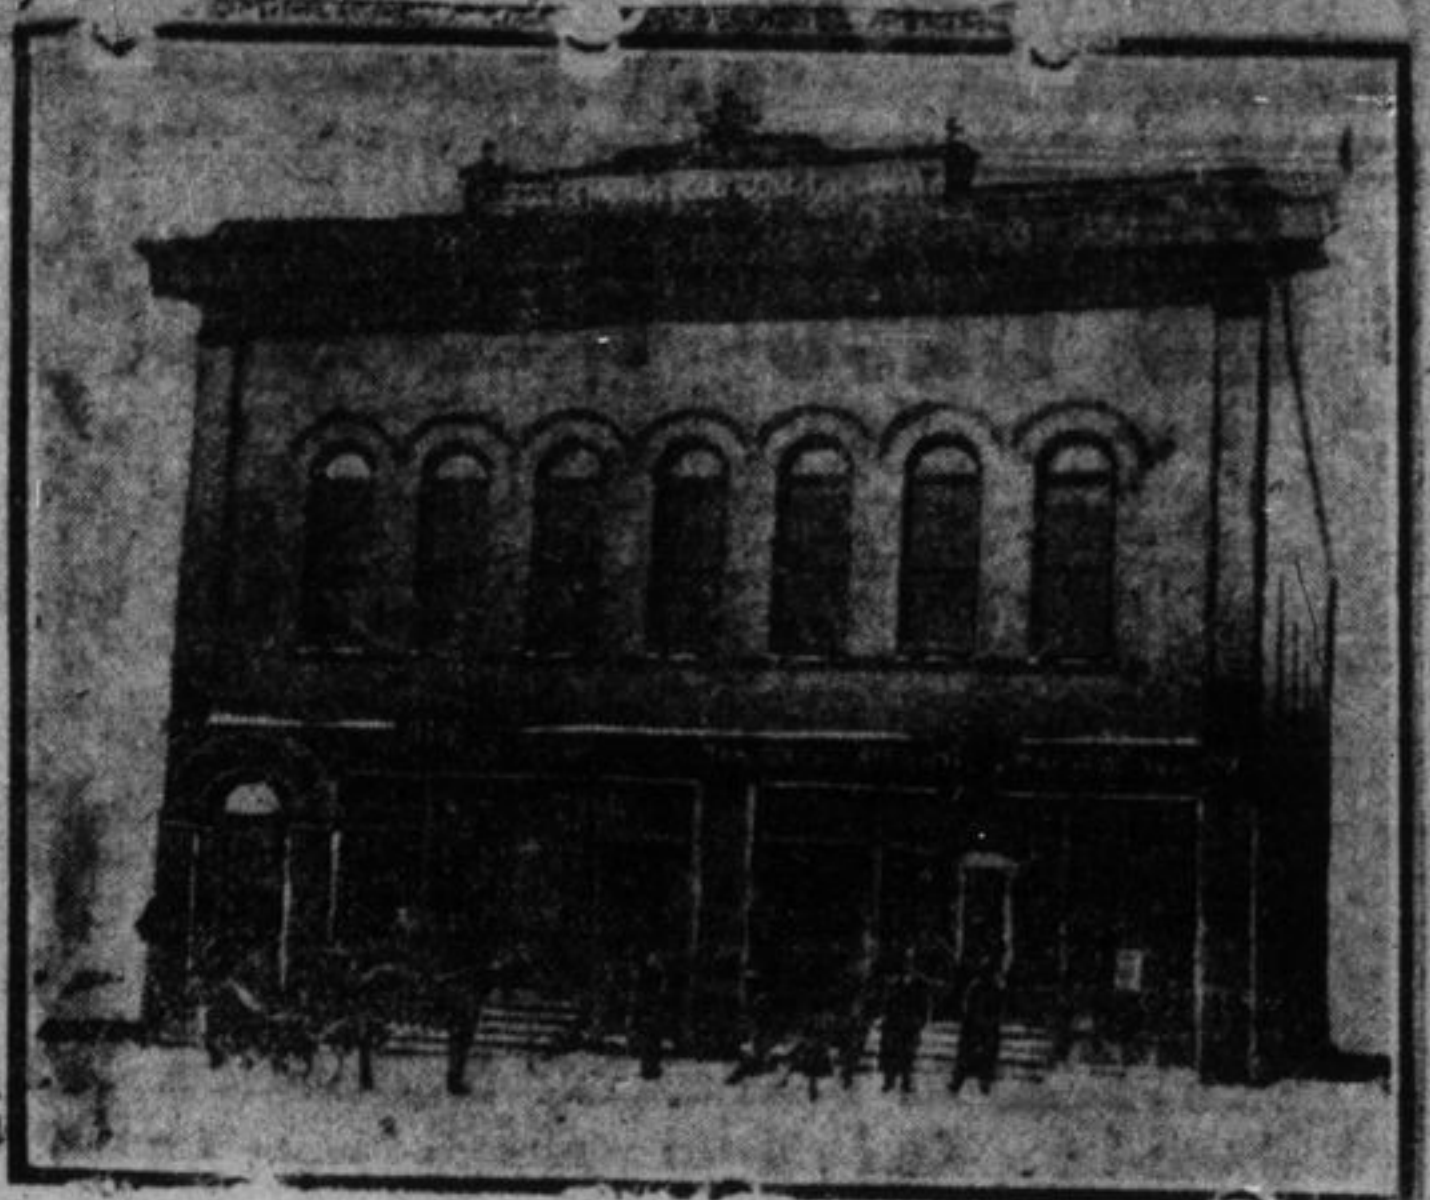

London, Dec. 31.—Law-breaking in Scotland is shown to be on the increase in prison judicial statistics, just published, though the increase is noticeable chiefly in crimes against property, without violence. The number of prosecutions for drunkenness and disorder was 92,443 for the year, as against 87,937 cases during the previous period. An analysis shows that the percentage of cases of drunkenness is much higher in the smaller towns.

WILL MAKE GRAIN TESTS.

Seek Fixed Moisture To Ensure More Profitable Grades.

Ottawa, Dec. 31.—A well equipped chemical research laboratory is to be established in Winnipeg by Dr. Martin Barrell, minister of agriculture for the purpose of testing grain as regards moisture contents, milling and baking value, and conditions developed in storage and transportation.

The laboratory will be in charge of Dr. F. J. Birchard, a Canadian, who for some years has been engaged in similar work in the laboratory of the United States department of agriculture, at Washington.

In western Canada, especially during recent years, there has been a heavy loss because of the large percentage of moisture in the grain. Grain which in other respects would grade No. 1 or No. 2 straight, if it contains more than a nominal percentage of moisture, has to be graded by the inspectors as tough, damp or wet, with a consequent lowering of the price below what it would have commanded if it had been graded straight.

It is possible to fix a percentage of moisture that may be allowed in straight graded grain, and to ensure that grain should be graded tough, damp or wet only if exceeds that, an immense grain would accrue to the producers and no ill effects result to the subsequent buyer or user.

BISHOP OFF FOR HOME Will Personally Protest Against Federated Work.

London, Dec. 31.—The Bishop of Zanzibar is returning home to protest personally his protests to the Archbishop of Canterbury concerning the action of the Bishops of Uganda and Mombasa in entering into federated missionary work. He sailed yesterday, and is expected to arrive on January 13th.

Judging from the controversy now taking place in the press, this affair threatens to compel the church of England to take some definite stand regarding its relations with nonconformists.

Papers such as the Pall Mall and Westminster Gazette regard the Kikuyu conference as a laudable attempt in the direction of Christian union, and tending to solve the difficulties of the mission field, but distinguished prelates, such as Rev. H. R. Gore, of Oxford, support the objections urged by the Bishop of Zanzibar in a recent letter, entitled, "The Ecclesia Anglicana," which insists upon an unbroken episcopacy.

"The Kikuyu conference," says the Westminster Gazette, "seems likely to play a notable part in church history as the Jerusalem Bishops did in the days of the tractarians, when Newman, Faber and others succeeded owing to Archbishop Howley's sanction of a joint Bishops of Anglicans and Lutherans in Jerusalem."

Former Watertown Man Dead. Watertown, N.Y., Dec. 31.—A telegram was received here announcing the death in Rochester of Winfield S. Dewey, a resident of this city until about twenty-five years ago. Mr. Dewey was born in Watertown and during his active business career here was associated with the Agricultural Insurance company. He was sixty-four years of age.

The Redfern Children's Aid Society and the Victoria Hospital of the same place each received \$25 from Hon. George P. Graham recently.

WALSH TO DUBUIN HOME Submarine Cable 74 Miles Long Just Laid.

London, Dec. 31.—The longest submarine cable extant has just been completed, linking England with Ireland, from Nevin, Carnarvonshire, Wales, to Howth near Dublin. Hitherto technical difficulties have prevented the laying of telephone cables except in narrow channels, such as the Straits of Dover, but the design of submarine cables has been lately improved. The new cable which is 74 miles in length, was manufactured by Siemens Brothers Co.
