THE SPORT REVIEW

FRONTENACS MEET OSGOODS HALL THIS EVENING

And Expect to Win—Queen's Chances Against McGill in Montreal are Considered Very Uncertain.

The line-up for the senior Frontenacs which meet Osgoode hall, at the covered rink this evening, in the second game of the senior O. H. A. series, will be the same as met Varsity in Toronto on Saturday last, viz., Goal, Cook; defence, Ferguson and Stanton; rover, Brouse; centre, Crawford; wings, Boyce and Reid.

Since the last game the outfit has had a good practice, at the covered rink.

The result of this evening's game is looked forward to with great interest. A win for Frontenacs will make things more interesting for the local enthusiasts. The local team expects to bring Varsity and Osgoode Hall, in the home games. The result of the battle with St. Michael's is considered very doubtful.

After the game this evening one may be able to figure upon the chances the Frontenacs have against the former champions of the O.H.A. It will be remembered that St. Michael's trimmed Osgoode Hall by a score of 15 to 2 in the opening game of the O. H. A. last week in Toronto.

Queen's Chances are Uncertain

To say what chance Queen's senior hockey squad will have against McGill in the opening game of the Intercollegiate hockey union in Montreal is almost an impossibility. The team has been holding some practices at the covered rink since its return from the trip to the American side during the Christmas vacation. It is altogether likely that the following will be the line-up: Goal, Ray; Smith; defence, Wallis Smith and McKinnon; rover, Leo Smith; centre, Box; wings, Dobson and Kappel. Byron may be tried out on the defence.

K. C. I. and Belleville

The Kingston Collegiate Institute hockey squad will leave on Friday morning for Belleville to play the return game. The Belleville bunch are looked upon as winners of the group, providing that K.C.I. do not hand them out a trimming on their own ice.

K. C. I. vs. Picton

The Kingston Collegiate hockey team will clash with Picton at the covered rink on Wednesday evening good game. He is a big, husky chap and when he gets the puck goes right down the centre.

Sporting Notes

Toronto News: Stanton, who played left defence for the Kingston Frontenacs, on Saturday played a rattling good game. He is a big, husky chap and when he gets the puck goes right down the centre.

Narsly, always manages to dig up the goal-keepers. Last year they had Parker and Laird, two of the best men in the game, while Saturday they unloaded another good one in Armstrong, who practically saved the game.

Ottawa Free Press: McGillin, the Toronto hockey player, will not be destitute if fired out of the N.H.A. The Chicago Butchers' association would issue a union card to him every day in the week.

Knottly Lee, manager of the Hamilton baseball club, has practically decided to retain his interest in the club for another year and take one more crack at the job of producing a winning team. Lee claims that any arrangement with "Eddie" Holtz, the Toronto player who is desirous of securing the club.

Roy McGillin, of the Toronto hockey team, is suspended for a week and fined \$50 for his continued rough play in the Ottawa-Toronto game on Saturday, and a threat to strike referee Johnny Brennan. It is believed that the stiff penalty handed out to the Toronto player will have a salutary effect on other N.H.A. players inclined to rough-house.

FED COWS TO FLAVOR MILK.

Branch and Corn Produced That of Preferred Taste.

The department of agriculture has just concluded a series of experiments to determine the effect on the flavor of milk of feeding different kinds of ration to the cows.

The department has decided in favor of bran and corn as producing the finest flavored milk.

Some dairymen have a theory that feeding crushed oats to cows will improve the flavor of the milk. Six cows were used in the experiments, and the various kinds of rations were fed to them. Fifty samples were passed on to the samples of milk. Sixteen preferred milk from cows fed on crushed oats, twenty-five preferred that from the bran and corn rations, while nine expressed no choice. The department decided that the ration containing bran and corn was preferable in producing a fine flavored milk.

HAD ARM AMPUTATED

After Severe Mangling in Woodsawing Machine.

Fredericton, N.B., Jan. 14.—Ex-Warden William McMullin, at Blaney Ridge, Saturday afternoon, was assisting his nephew, John McMullin, to operate a gasoline engine and wood-sawing machine when Young McMullin was caught by the belt and his arm was broken in two places. His uncle rushed to his assistance but lost his footing and was thrown against the saw. His right arm was mangled just below the elbow. He was brought here and taken to Victoria hospital, where his arm was amputated.

Lone Widow Found Dead

Trenton, Ont., Jan. 14.—Mrs. C. O. Simpson, a widow, was found dead in her home in East Trenton to-day. She was about 75 years old and lived alone.

It is supposed that she died on Saturday evening. As she was not seen by any of the neighbors between that date and this morning they effected an entrance and found her body on the kitchen floor.

TO VITALIZE POLITICS

Liberal Club Federation's Bold Project to Widen Interest

Caledonia, Ont., Jan. 14.—"A Study and Information Bureau" is a new activity of the Liberal Club Federation of Ontario, decided upon by its executive and announced by one of its representatives, Main Johnson, of Toronto, in a speech before the Caledonia Liberal Club. Lists of books and pamphlets on various political topics are being compiled, and within a short time will be at the disposal of the fifty clubs in the federation and their members. Individuals or clubs desiring information on topics for debate and discussion will be able to secure them from the new bureau.

"There seems to be a widespread feeling," said Mr. Johnson, "especially among young men, that politics in Canada could be much more vigorous and vital than they are. The Liberal Club Federation of Ontario is using its influence in an effort to increase the vitality of politics and political issues, and to fill up the rut of traditional narrow partyism and the tendency to support a party simply because it happens to be the conservative or liberal party and not because of live issues and progressive principles."

"The groundwork for vigorous politics is a keen interest and wide knowledge among the electors. The federation in establishing its bureaus is seeking to spread political information and to make it more available. Attention will be given not only to questions of current politics in the federal and provincial fields, but also to general political problems such as the new political experiments being carried on in the United States and the profound changes being made in the legislation and constitution of Great Britain."

FORFEIT FRANCHISES

Scores of Unused Franchise to Be Lost.

Albany, Jan. 14.—Scores of unused street railway franchises, held by the New York Railway company, in New York city, will be forfeited by supreme court action, Attorney General Cady announced yesterday. He said that he had entered judgments in all the cases, which he instituted more than two years ago in an effort to obtain the forfeiture of the franchises and to require the company to remove the unused rails from the streets.

The law requires that in order to hold a franchise the holder must run at least one car a day over the lines. For years horse cars were driven over many of the lines now to be abolished, but of late years the running of even a single car a day has been abandoned.

Rations For Soldiers

A recent blue book report on British army dietetics deals with experimental marches in 1909 and 1910 and reports unfavorably on the field service ration for 1909, when the officers and men lost weight. In the last five days of the march the average daily loss of weight among the men was just even half a pound and among the officers about three-quarters of a pound.

The report notes that the ration was deficient in energy value. It consisted of corned beef, biscuit, jam and a grocery ration of potatoes or cauliflower.

The committee found it impossible to increase the energy supply inside the limit of a ration weighing only three pounds without overconcentration. It cut out the potatoes, reducing the ration to two and a half pounds, and substituted bacon, cheese, oatmeal, additional jam and sugar.

The result was that the march of 1910 showed excellent results, owing to fat supplied by bacon and cheese and bulk furnished by the porridge.

Government Axe Falls

Appin, Ont., Jan. 14.—Mr. Skates, a liberal, the efficient postmaster here for the past eleven years, has been deprived of his office.

Mr. Skates recently received a letter from the department to the effect that his term of service would end shortly.

The axe fell a couple of days ago, and now Mr. McCraut, a conservative, holds the position.

Death of Nova Scotia Legislator

Halifax, N. S., Jan. 14.—Premier Murray received word announcing the death of his colleague, A. A. Buchanan, representative of Victoria county, Cape Breton, Island, in the Nova Scotia Legislature, who died at his home at Neils Harbor, C. B., following an attack of heart trouble. He leaves a widow and nine children.
