

## ALD FAIR AND ENGINEER NEARLY CAME TO BLOWS

### At Tuesday's Meeting Of Board Of Works

## ROW OVER DOCUMENT

### WHICH ALD. FAIR HAD PUT IN HIS POCKET.

### And Refused to Give Back—Upon Its Contents Depended Engineer's Vindication on Charge of Ald. Fair—Paper Finally Handed to City Clerk.

City Engineer R. J. McClelland and Ald. W. J. Fair met at a meeting of the Board of Works on Tuesday afternoon, in one of the liveliest rows which has ever occurred in civic circles in Kingston.

The row was over the possession of a document Engineer McClelland read from a newspaper report of the meeting of the committee. After the document was read Ald. Fair secured possession of it and refused to give it back to the engineer. Then the trouble commenced. The other members of the board present stood by the engineer, calling for "fair play," and appealing to Ald. Fair to give back the document, but he refused until driven into a corner and then he produced the document, which was afterwards handed to the city clerk for safe keeping.

The row started near the close of the meeting when the city engineer arose and asked a question of privilege.

It was granted by Chairman Linton, and thereupon the engineer read from a newspaper report of the meeting of the Board of Works held on January 15th. The question of paving Princess street was being discussed and the engineer read the following from the report:

"The chairman referred Ald. Fair to the minutes of council of March 17th where a recommendation of the Board of Works was passed appointing T. H. Mather, of Syracuse, N. Y., as assistant to the city engineer in the matter of Princess street paving."

"Ald. Fair: 'That word assistant was never put in by me. It was inserted by the engineer for a purpose.'"

## ENGINEER'S DENIAL

The engineer stated that what Ald. Fair had said was not true. He declared that he had never put the word "assistant" in the report of the board and followed up this statement by stating that he was not present at the meeting. The board heard this matter was discussed but that he had been handed a copy of the minutes by Ald. Fair and that he had copied these minutes. He was not saying that Ald. Fair wrote the minutes but Ald. Fair had handed him the minutes and he had entered them in his book. "I never made a minute," declared Ald. Fair. "I never took the minutes of a meeting as long as I have been on any of the committees."

The city engineer produced a slip of paper and read from it the minute as he claimed it was given to him.

The reading of it caused a big sensation among the members and several at once looked over the document.

Ald. Fair asked to see the document, and on looking it over denied having written the report as produced.

The matter was discussed further, and when the engineer asked Ald. Fair to return the document to him he refused, putting it in his pocket. The affair took a serious stage. The engineer said it was his property, and demanded that Ald. Fair give the document back to him. Still Ald. Fair refused, and in less time than it takes to tell it, the two were in a clinch, and it looked as though they would have come to blows had not the chairman, Ald. Linton, Ald. Peters (Continued on page 6)

### DAILY MEMORANDA

K.C.I. vs. Trenton, covered rink to-night.

See top of page 3, right hand corner, for probabilities.

At the Music Comedy, Grand Opera house, 8.15 p.m.

## Selling More "Hellos"

Have you followed the interesting advertising campaigns the telephone companies have been carrying on?

It is to many a novel idea to use newspaper space to sell "Hellos"—but it has been a big success in the cities where it has been tried.

The telephone has become a necessity—another case of a worthy article being sold by advertising.

If newspaper advertising will sell such an intangible thing as a "Hello" (in this case another name for service) what will it not do?

Given a worthy cause to preach, advertising will move mountains.

The "winged word" sent flying by the great whizzing newspaper presses is going to be a mighty factor in the world's work in this great year 1914.

## BODY INCASED IN ICE

### Boy Skating Discovered Corpse of Mrs. Baker, Detroit.

Windsor, Jan. 28.—Her limbs protruding perhaps a foot above the freezing surface, the rest of the body encased in solid ice which completely hid it from view, the corpse of Mrs. Eleanor Baker, aged forty-five, wife of Charles H. Baker, of Detroit, was discovered in the lower Detroit river, a short distance out from the shore of Fighting Island.

A boy skating in the vicinity tripped over what he at first believed was an old stump, which had floated down with the ice. As the skater picked himself up he was horrified to discover that it was a woman's leg against which he had fallen. Further examination showed the body hanging head downward. Coroner Labelle had the remains removed to the Janisse Morgue, and to-day the woman's husband identified the body.

Mrs. Baker disappeared from her home in Detroit January 10. Baker stated that for some time she had showed signs of mental aberration, due to a proposed surgical operation, and he believes that she jumped into the river while in this condition.

## LARGE HERDS NOW KEPT IN EASTERN ONTARIO

### A Significant Change Is Seen In The Agricultural Conditions Of Late

Morrisburg, Jan. 28.—A circumstance significant of the change which has occurred in recent years in agricultural conditions in eastern Ontario, and of the large herds now kept, is the announcement just made by the secretary of the Williamsburg Farmers' club, that during the past year his club paid out the sum of \$31,000 on feed and seeds, mainly the former.

The Williamsburg club, which was lately incorporated, is but one of several such organizations in the small county of Dundas, all organized in the district representative of the Ontario department of agriculture, and all of them have been making similar purchases. The produce bought comes in by rail from western points.

## SURVIVORS OF WRECKS

### Twelve Off Palmer and Two Off Ladysmith Rescued.

New York, Jan. 28.—(Captain) George A. Carlisle, and eleven of the crew of the American five-masted schooner Prescott Palmer, recently abandoned at sea, were aboard the steamer Bermuda, which reached this port yesterday. The Prescott Palmer was on her way from Norfolk, Va., to Portsmouth, N.H., with a cargo of coal, when the heavy weather which set in on January 17th did so much damage along the Atlantic seaboard, overtook her and compelled her abandonment. Second Mate Hans Hansen was swept overboard and drowned.

Aboard the Bermuda also were two sailors of the British schooner Ladysmith, abandoned on January 17th, in latitude 40.30, longitude 63.45. The survivors of the Ladysmith were picked up by the British steamer Chignecto, from Halifax to Bermuda, while the American crew was rescued on January 22nd by the British steamer Camoens, New York for Pernambuco. Both steamers landed the shipwrecked men at Bermuda, whence they were brought here by the Bermuda.

## "WILLIAM NO DIPLOMAT"

Says Kaiser, But Sees in Him Germany's Moltke.

Berlin, Jan. 27.—According to the Montags Zeitung, the Kaiser, when he decided to recall the crown prince from Danzig, observed to his entourage: "Well, William is no diplomat, I admit, but I believe the fellow has got marrow in his bones. He will turn out Moltke yet." The paper says the remark is vouched for by good authority.

## CONSCRIPTION FOR WEALTHY CLASSES

### Lord Willoughby de Broke Proposes Drastic Law in England

London, Jan. 28.—Lord Willoughby de Broke, speaking at Cambridge, referred to Britain's need for increased home defence and the lack of voluntary recruits for the army. He announced that he would introduce a bill into parliament to compel the wealthy and comfortable classes to serve in the army between the ages of 16 and 45, to invite the workers to serve voluntarily and to compel aliens, rich and poor alike, to serve in the army in order to qualify for British citizenship.

In a supplementary bill he proposed to provide that the training of the franchise shall be confined to those who have done, or art doing, military service.

### To Continue the Work.

Boston, Jan. 28.—The continuance of the work of the World Peace Foundation, established by Edwin Gian in 1910, is assured by a provision of his will, made public yesterday. Mr. Gian, who has contributed \$50,000 annually for the support of the foundation, bequeathed one million dollars for the same purpose to the trustees. The abolition of war through education is the advantage of peace is the object of the foundation.

## TO SEEK RECALL

### Of Lord Gladstone From South African Government

## BITTERLY CONDEMNED

### AS DR. NEELY HAS A REMEDY TO PROPOSE

### Sir Wilfrid Laurier Could Not Tell Hon. G. E. Foster How Long The Debate May Be Prolonged.

Glasgow, Scotland, Jan. 28.—On motion of Ramsay MacDonald, M.P., the fourteen annual conference of the British labor party, here, to-day, demanded the recall of Lord Gladstone, governor-general of South Africa, and bitterly condemned the action of the South African government as being contrary to British freedom and justice. Mr. MacDonald will present the resolution to parliament next month.

## Lacked in Zeal

London, Jan. 28.—Stormy scenes at the opening gathering of the labor party conference at Glasgow, yesterday, are significant of the disappointment permeating the working classes as the result of the labor parliamentary activity. Ramsay MacDonald, parliamentary labor leader, in his opening speech vainly attempted to placate the critics by emphasizing the political independence of the party. The delegates charged their parliamentary representatives with lack of zeal, subservience to government and lack of initiative. "They have left the orange boxes on the street," they said, "and the American House of Commons has been too much garden party, lardy-dardy, doing the grand about them. They neglect their work in order to ape dukes."

A resolution calling on the parliamentary representatives to adopt a more militant and independent attitude and to preserve a stricter discipline was adopted. The extremists, working in co-operation with syndicalists, are working hard to make trouble over the bye-elections. MacDonald has, however, the leading trades unions behind him.

## FINE WINTER SHOW

### Is Being Held at Present in Gananoque.

Gananoque, Jan. 28.—The sixth annual winter show of the Gananoque Poultry Association opened yesterday in the new annex building, under extra favorable auspices as regards numbers, but with the weather conditions rather unsettled on account of the recently arrived January thaw. The entry list is almost up to the thousand mark, over 300 in excess of last year's showing. On account of the dangerous state of the crossing, Clayton, Hickory Island, Grindstone Island, and Leek Island are practically unrepresented. There is an excellent display of turkeys, geese and ducks. Among the largest lots, in the new annex building, under extra favorable auspices as regards numbers, but with the weather conditions rather unsettled on account of the recently arrived January thaw. The entry list is almost up to the thousand mark, over 300 in excess of last year's showing.
