

THE REASON FEWER PEOPLE TAKE "SALTS"

We find the use of salts and other harsh physics is becoming less every year because more and more people are using laxall Orderlies, which we find they firmly believe to be the best bowel remedy ever made.

You needn't take our word for it. If laxall Orderlies don't help you—if they don't entirely relieve all your bowel troubles—come back and tell us and we'll give back your money.

INDUSTRIAL CLASSES

OPENED IN KINGSTON HAVE BEEN GREAT SUCCESS

Another Teacher and More Accommodations Needed—City Dentists to Treat Children's Teeth—Poor Heating in Some Schools.

Trustee H. Meek should be congratulated for having advocated the opening of night classes in Kingston was the statement of Trustee W. J. Renton.

Trustee Renton stated that when the matter was first brought up by Trustee Meek some of the members were inclined to believe that they would not be a success.

The chairman, W. H. Macnease, presided at the meeting, and the other members present were J. H. Birkett, Dr. W. Hall, P. B. Chown, W. J. Chapman, James Craig, J. M. Farrell, Prof. Alex. Laird, Robert Meek, T. W. Mills, A. W. McLean, W. J. Renton, W. A. Sawyer.

Communications Received The following communications were received and referred to committees:

From Josephine Macnease, secretary of the Day Nursery Society, stating that the creche had been opened for some months, and asking for the co-operation of the board, in seeing that old or children are not kept home from school.

From Dr. Winnett, secretary of the Dental Association, containing a resolution passed by that association regarding the treatment of the children of poor parents.

From the city clerk, stating that the council passed a resolution requesting the board to have prepared for use, as it sees fit, in the city schools, a short interesting pamphlet dealing with facts and data of the city.

From T. F. Harrison, asking the board to favorably consider the request contained in city clerk's letter.

From James L. Hughes, of Toronto, asking what the board is doing with regard to the penny bank system. It was stated that Godrich and Lindsay adopted it in January.

From Major George Gillespie, stating that the annual course to qualify for the physical training of cadets will begin at Ottawa March 3rd.

The board has a right to recommend teachers on course. Travelling expenses and \$3 per day will be allowed.

From G. A. Palmer, asking the board to give him the \$100 which it receives from the faculty of education for physical culture purposes.

From James Summerby, applying for a position as caretaker. From the provincial treasurer, containing cheques for the following amounts: Model school, \$1,000; manual training, \$415.43; domestic science, \$189.

From the city auditor, pointing out that the board's by-laws do not give him the proper authority for auditing the public school section of the board's accounts.

Industrial Classes The report of the Industrial Advisory committee, which was adopted, was as follows:

In accordance with authority received from the board, your committee opened industrial night classes—two for men in shop arithmetic and mechanical drawing, and two for women in dress-making and millinery.

Mr. Hatch is teacher of the men's classes; Mrs. Miller, dress-making, and Miss M. Jackson, millinery. Mr. Sliter is supervising principal.

It was decided to have one class for each subject per week, but on opening night, February 2nd, the applications were so numerous that a change had to be made in order to meet the demand.

There were 94 enrolled for dress-making. These were divided into three classes, two of which were well attended. If the third is not a success so far as numbers are concerned, it will be absorbed by the other two, and this method of distributing the pupils will be continued until the enrollment becomes substantial and reliable.

It was found necessary to open two classes for millinery also, as some 55 made application on the opening night. These will be continued until the enrollment warrants a change.

The men's class is a great success also, the first night there being 51 in attendance. The number has increased to over 60, hence it will be necessary to double up as in the other departments, due attention to be paid, of course, to decreased enrollment should it occur.

At this time it is impossible to give definite information concerning attendance. As indicated above, it will take time before the classes get settled and a reliable return of the attendance can be ascertained.

The women's classes are held in the board rooms and the men's in the gymnasium basement, which had to be lighted at a cost of between \$40 and \$50.

The equipment secured for the dress-making class so far is a cutting board on trestles, two flat irons, two pairs of scissors, some tailors' chalk, and a roll of pattern paper. The pupils provide their own material for work. No equipment has thus far been procured for the millinery class.

The salaries recommended are: Male teachers, \$3 per night, female \$2, and caretakers \$1.

Management Committee The report of the management committee was adopted as follows:

In nearly every report submitted by the school nurse to the board are statistics which show that a large percentage of school children have defective teeth and require dental treatment. Your committee had a conference with the Dental Association to ascertain if any arrangements could be made whereby the children of those parents who were unable to pay fees would receive attention, the board to participate in the matter of expense.

The following resolution, a copy of which was sent to the board:

"That the city dentists offer to make two thorough dental inspections of the children of the public schools, one as soon as convenient for the board, and the second immediately after the mid-summer holidays, the Board of Education to provide proper cards for duplicate records; and that the dentists offer to treat at reduced rates such cases as the board recommends for free treatment, these fees to be paid by the board."

In some cities Boards of Education have free clinics of their own to which dentists go in turns and treat certain children free. In order to introduce a similar system in Kingston, it would be necessary to rent a central room and purchase an equipment at considerable expense. All circumstances considered, your committee recommends:

That the offer of the Dental Association as indicated in the above resolution be accepted, and that \$200 be placed in the estimates for 1914 to pay for treatment of the cost of which is to be borne by the board.

That your committee be authorized to make all necessary arrangements in connection with the matter, with a view to safeguarding the board regarding expense and the selection of pupils who are to receive the treatment in question.

A list of the fees which the dentists have agreed to charge are on file in the secretary's office.

That no action be taken on the request of R. M. Chase, of the collegiate staff, that his maximum salary be increased and that he be ranked as principal's assistant.

Heating of the Schools Trustee Meek referred to the recent report given on the schools by Inspector Stuart, in which the latter reported that the bulk of the caretakers were not doing their work satisfactorily. Complaint was made that the schools were not properly cleaned.

There were two schools, on which thousands of dollars had been expended for heating, and yet the heating was reported to be unsatisfactory. They were not as warm as when they were heated by stoves.

The matter needed consideration and Trustee Meek suggested that the property committee look into the question.

The chairman remarked that he was glad that Trustee Meek had brought up the matter. He, too, had read the report of the inspector and was somewhat surprised, as he understood that the schools were properly heated.

In reply to a question of the chairman the secretary stated that during the recent cold spell several classes had to be dismissed owing to the fact that the rooms were cold.

Inspector Stuart, in regard to the matter, stated that he could not say whether the fault was in the system or with the caretakers, but could say that the rooms were so badly heated that ventilation was impossible.

Trustee Meek said that if the fault was with the caretakers a competent man should be hired and go around to the schools and see that the furnaces were properly managed. This should be done rather than have the children turned out of the schools.

Trustee Chown gave his opinion that the fault was all in the system and not with the caretakers. The matter will be thoroughly investigated by the board.

Principal Sliter reported to the board on the large attendance at the industrial classes, stating that there was great need of another room for the holding of the classes, and there was also need of an assistant for Mr. Hatch.

Trustee Renton moved, seconded by Trustee Meek, that the industrial committee be empowered to engage an assistant to Mr. Hatch, and also additional room for the classes.

Trustee Meek announced that he would submit a by-law providing for the accounts of the board to be audited by City Auditor A. H. Muir.

On motion of Trustee Chown and Bell, it was decided to have all communications forwarded direct to the proper committees and not held for the board and then referred to committees.

On motion of Trustee Renton it was decided to purchase three Meger Sewing machines for the dressmaking department, at \$20.04 each.

School Attendance J. Russell Stuart, school inspector, submitted a report for the month of January, showing total number of pupils enrolled 2,436, an increase of 77 over January, 1913, and 261 more than in January 1912. The total average daily attendance was 2,070, or 19 less than last year. Contagious disease, though a lessening influence, still affects the attendance. The kindergarten enrollment was 168.

In his report the inspector stated that general complaint had been made of the dirty condition of Victoria school, where the sweeping is not properly done. Several of the other schools, viz.: Sydenham, Catawqui and Bidou, are not satisfactory.

Central school were dismissed on account of the cold. In other cases, though the class remained, the rooms were too cold.

Principal E. O. Sliter, of the Col.

"FAGGED-OUT" WOMEN Will Find Help in This Letter

Overworked, run down, "fagged out" women who feel as though they could hardly drag about, should profit by Mrs. Brill's experience.

She says: "I was in a very weak, run-down condition. Life was not worth living. I could not sleep, was very nervous, stomach bad, and was not able to work."

"I consulted with one or two physicians without benefit. I read of Vinol helping some one in a similar condition so I began to take it, and it simply did wonders for me. I gained in weight and I am now in better health and stronger than ever. I can not find words enough to praise Vinol."

Mrs. W. H. Brill, Racine, Wis. Thousands of women and men who were formerly weak and sickly owe their present rugged health to the wonderful strength-creating effects of Vinol.

We guarantee Vinol to build you up and make you strong. If it does not we give your money back.

Geo. W. Mahood, druggist, Kingston, Ont.

CREST (A.) FALLEN The Lady: "I don't know what you are doing, John, but you are not helping a bit."

legiate Institute, submitted a report on the attendance for December, 1913, and January, 1914. During December there was on the roll 427, which is twenty more than the previous year; average daily attendance, 391, or eight more than in December, 1913.

In January the attendance, both aggregate and average, reached the highest point in the school's history. There was enrolled 433, as against 417 in January, 1913; average attendance, 401, which is twenty-one more than last year.

Miss Jean McCallum, the school nurse, submitted a report for January, which showed pupils inspected, 653; number of instructions given, 49; consultation with parents, 27; home visits made, 23.

Miss McCallum, in her report, stated that during January the health of the school children was good. A few cases of measles were reported and two of chickenpox, but these were the only contagious diseases reported.

Sand Bay Happenings Sand Bay, Feb. 11.—Sleighting is fine in this section and very much appreciated by the lumbermen, as is evident by the numerous loads of logs on the move.

Mr. Harris, general agent for the Metal Sling and Sliding company, made a business trip here recently, accompanied by the local agent, F. B. McNamee.

Ice harvesting is general. Messrs. Thomas and Simon Marshall, Taylor were the guests of their brother and sister, William and Aggie Marshall, recently. Mr. and Mrs. Robert Heaslip, Woodside, visited at Sidney Griffin's on Sunday last, and her sister, Miss Nettie, returned home with her. Mr. and Mrs. B. Gavin spent Sunday at J. McDonald's.

Mrs. Benjamin Gavin and Miss Maggie Gavin visited at Benjamin Gavin's recently. Visitors: John V. Lappan, Melcombe, Wesley Ferguson, Dulcaine, Harry Bevers, Long Point, Miss Maggie and Gordon MacPherson, and Miss Prichard, Berryton. J. Griffin recently purchased four valuable cows from Thomas Webster, Lansdowne.

Miss Marcella McDonald is visiting at P. M. Lappan's, Melcombe. Miss Aggie Marshall left Sunday to spend two weeks with her parents at Taylor.

Many from this section attended the obsequies of the late Miss Elva Warren, the daughter of Mr. and Mrs. W. Warren, Long Point.

Face to Face Anon. If my face could only promise That its glances would remain, If my heart were only certain It could hide the moment's pain, It would meet you and would greet you, In the old familiar tone, And naught would ever show you The wrong that you have done.

If the melody of springtime Awoke no wild refrain; If the autumn's golden burden Awoke no living pain, I would meet thee and would greet thee, At the old sweet resting place, And, perchance, you'd deem me happy, If you saw me face to face.

If my woman's soul were stronger, If my heart were not so true; I should long have ceased remembering The love I had for you; But I dare not meet or greet thee, In the old familiar way Until we meet in heaven When tears have passed away.

News From Tamworth. Tamworth, Feb. 12.—F. W. Duggan, Gold secretary for the Dominion Alliance, will speak in the interests of temperance in Reidville church next Sabbath morning, in St. Andrew's church, Tamworth, in the afternoon, and in the Methodist church in the evening.

Mr. Marshall Wheeler, after an absence of about thirty-five years, is renewing acquaintances here. The box social held in the village hall on Tuesday night last was a grand success. Reuben Woodcock fell from a hay load and cut a large gash in his head. He is doing nicely. Dr. Robinson dressed the wound with put in several stitches. There is a good ice harvest. The ice is about twenty inches thick. The snow shoe club was out on a tramp on Tuesday evening, and had a very enjoyable trip across the country.

The quality of White Rose flour never varies.

H. V. FRALICK DEAD

He Passed Away Suddenly in Toronto on Thursday

Napanee, Feb. 12.—Our citizens were shocked yesterday afternoon, when it was learned that H. V. Fralick, one of our most respected citizens had dropped dead in Toronto.

Deceased had not been in the very best of health for some time, and only about a month ago he took a week turn while in Kingston, and just as he was boarding the train for Napanee. For about a week after he was not able to follow his occupation as a traveller, but the early part of this week felt so much better that he left for Napanee. For about a week after he was not able to follow his occupation as a traveller, but the early part of this week felt so much better that he left for Toronto.

Deceased leaves a widow and one son, Herbert, of Peterboro. The sympathy of the whole town goes out to the bereaved wife and son. Mr. Fralick was a member of Grace Methodist church. The remains will arrive in Napanee today and the funeral notice will be announced later.

Mrs. Harry Peters and little son came on Saturday for Brandon, Manitoba, to join her husband. Miss Eleanor Deroche left on Monday for Regina, Sask., where she will accept a position in the civil service in that city.

The following ladies entertained this week: Misses Light on Tuesday afternoon; Mrs. Ruffenstein on Wednesday afternoon; Mrs. James Fitzpatrick on Thursday afternoon.

The matrons and maids of Napanee will give an At Home in the own hall on Friday evening, February 20th. Over 200 invitations have been issued and on enjoyable time is assured.

D. H. Preston arrived from Kerrobert, Sask., where he has been since last spring. E. F. Foley, Marquis, Sask., is spending two weeks with his father-in-law, P. Chinnick. Mrs. Foley and baby have been here since Christmas. Miss Edna French has resigned her position with the Robinson company and will go west in the spring.

Insist on White Rose flour. A social survey made by the Men's Federation, of London, Ont., says that debauchery in a certain liquor licensed district of that city equals that of New York's Bowery.

HOOD'S PILLS

Cure Constipation 25c. Purely Vegetable. Best Family Cathartic. OUR FRESH GROUND COFFEE AT 40c. CAN'T BE BEAT. Try a sample order and be convinced. NOLAN'S GROCERY, Princess St. Phone 720. Prompt Delivery.

THIS STOMACH REMEDY

REMARKABLY SUCCESSFUL

You know us—your home druggist. You know we wouldn't guarantee any remedy to relieve indigestion or dyspepsia, or money back, unless we felt the utmost confidence in that remedy.

Therefore, when we offer you Rexall Dyspepsia Tablets with this proof of our faith in them it leaves you no room for hesitation or doubt.

The remarkable success of Rexall Dyspepsia Tablets is due to the fact that they contain, among other things Bismuth and Pepsin, two ingredients endorsed by the medical profession as invaluable in the treatment of stomach ills. They soothe the inflamed stomach, check heartburn and distress, stimulate the secretion of gastric juice, aid in rapid and comfortable digestion of food and help to quickly convert it into rich, red blood. In a short time they tend to restore the stomach to a naturally comfortable, easy-acting, healthy state. They also benefit the bowels.

Rexall Dyspepsia Tablets are sold only at the more than 7,000 Rexall Stores, and in this town only by us. Three sizes, 25c, 50c and \$1. Mahood's Drug Store, Kingston, Ont.

PROBS. Fine and very cold to-day. Saturday, strong north-east winds, moderating with a snow storm.

TOMORROW

We Will Offer 25 Dozen Lace and Embroidered Trimmed Nightgowns Well worth \$1.25, for a quick turn-over, Tomorrow 75c.

We Have Been Told

By several ladies substantially the same thing:—"I bought my daughter one of your sale suits this time last year; she finished out the season with it, and, do you know, it looks well this year," which means it should be to your interest to visit our Annual Suit Sale Now On, where suits priced from \$9.50 to \$22.50 are being offered for \$2.95.

New Prints

Our first shipment has just arrived, comprising about 150 pieces of many new patterns.
