The Kingston fans have need to proud of the stand which Rupert Milquestions by the members of the O.H. A. sub-committee. The claim of the Oshawa manager was that Millan the month of December for about ten days, which would disqualify him der the resident rule. When examined on Monday morning Rupert admitted that he had worked for ten days for his uncle, who is an assayer at the Nipissing mines, and then returned to continue his course in a Kingston college. The committee decided that he had broken the residence rule and cancelled his certificate.

C. H. Good, sporting writer for the Toronto News savs: "Kingston's plaint that the Oshawa

club are sore losers seems to be well substantiated. It is ridiculous that the O.H.A. should be called upon to consider a protest every time a team is beaten. Mr. Sutherland, of Kingston, points out that his team has beaten Oshawa three times in the last two years, and on each occasion protest has followed.

The claim of the Frontenac manage ment is that Millan is qualified to play for Kingston even if he did go to Cobalt. He is a student, and comes under the student rule.

Frontenacs Official Statement

The following statement is made by James T. Sutherland, manager of the Frontenacs, on behalf of the club ex-

"The junior Frontenac hockey club is this year composed of one boy from Ottawa attending Queen's University and six Kingston boys, who were born, bred and raised in this city. Five of the seven are school boys. We have played the game for the game's sake, clear, fair and honest. R. Millan, after a few days' absence from Kingston, came back from the north with the express purpose of qualifying himself in order to secure a position. He took up the science course and attended college. Under O.H.A. rules he qualifies as a student. We don't wish to state that the O.H.A. sub-committee was actuated by any unfair purposes, but we do think it did not quite appreciate the fact that this boy was going to college in order to qualify himself for a position, which it must be admitted is quite fair and above board. Every student attending any college is in exactly the same position as he-

studying to advance himself in life. "We believe there is more in sport than simply winning championships Our executive has decided that in view of Oshawa's continuous stream of protests in the past few years it would To Hear Prof. J.
