## MUST PROVIDE BONDS TO GUARANTEE IMPURE ICE WILL NOT BE USED

Kingston Ice Company Charged to Police Court With Violation—Decision of Court Met With Approval of Medical Health Officer.

For having violated the rules of the Kingston Board of Health, in cutting ice in the prohibited area, the Kingston Ice Company was called upon, in the police court on Friday morning, to give bonds in the sum of \$10,000 as a guarantee that the impure ice cut, consisting of two tiers, will not be used for any purpose or removed from the ice house, but allowed to remain there and melt.

The company was charged with a violation of the rules of the Board of Health, and this was the decision arrived at by Magistrate Farrell, after the evidence had been taken. William McCammon, harbor-master, Dr. A. E. B. Williamson, medical health officer, gave evidence in the case. Mr. McCammon told about mapping out the area for ice cutting, with W. S. Gordon, and Dr. Williamson, in his evidence stated that he had been told by one of the ice company's men, that ice had been cut in the prohibited area. A given name appeared on behalf of the prosecution and Francis King acted as counsel for the company. Neither Dr. Williamson nor Mr. McCammon could swear of their own knowledge that ice had been cut in the prohibited area, and Mr. King asked that the case be dismissed, but the magistrate would not consent to this.

R. E. Burns, secretary of the company, was then put in the box, and admitted that ice had been cut in the prohibited area, but stated that at the time the ice was cut, he was not aware of the fact that he was violating the rules. He explained that it was cut on February 4th, just at the time the ice was in a very dangerous condition, and it was impossible to cut further out in the specified area.

Witness explained that the removal of this ice, as ordered by the Board of Health, was a physical impossibility. The company desired to leave it there, at least until it was in a position to gather in as much good ice as possible. Magistrate Farrell said that no doubt the company was in error in storing the ice before having the result of the test. However, Mr. Burns had stated that he did not know that he was violating the rules. He felt that the company would be penalized sufficiently, if an order was given that they must not use this ice either for domestic or cooling purposes, and further, that it not be removed from the ice house, but left to melt. He felt that in this way, the city would be safeguarded.

The company would be bound over in the sum of \$10,000. The magistrate then asked if this arrangement met with the approval of the medical health officer, and Dr. Williamson stated that such an arrangement as this would meet with his approval.

The magistrate then enlarged the case until Wednesday, for the purpose of having the bonds of the company arranged.

"And I will ask for the dismissal of the case then," said Mr. King. In connection with Kingston's ice supply, Mr. Burns made the statement that with a summer as warm as last summer, it would require 7,000 tons of ice to meet the needs of the citizens.

Dr. Maloney, district medical health officer, who is in the city on other business, was present for the hearing of the case, and after it was over, stated to the Whig that he approved of the way in which the case had been disposed of. So long as the company would give bonds as a guarantee that the impure ice would not be used this would be sufficient to safeguard the people.

THE Y.M.C.A. BANQUET  
Held Its February Meeting on Thursday Evening.

The Y.M.C.A. young men's cabinet is, with a revision of its constitution, to have rules of order and debate fashioned, as far as practicable, after those governing the "deliberations" of the City Council, and all well ordered bodies. At the February meeting of the cabinet, held at the Y.M.C.A. building on Thursday evening, the special order, which compiled a set of rules reported, but was further empowered to revise the constitution which has been in existence since the inception of the organization a few years ago. Alfred Kinch is chairman of that committee which will report again at the March meeting of the cabinet.

## A FIRE DRILL TEST MADE IN KINGSTON SCHOOLS ON FRIDAY MORNING

Chief Armstrong Reports That It Was Very Satisfactory—The Tests Were Made Without Any Notice Being Given

On Friday morning the staffs and pupils of nearly all of the city schools were given test fire drills by Chief Armstrong, with most satisfactory results. In the afternoon the test was given at Frontenac and the depot public schools by Assistant Chief John Elmer. The number of pupils and the time in which each school was emptied are:

- Louise school—230 scholars, emptied in 1 minute.
- Macdonald school—336 scholars, emptied in 1 minute 16 seconds.
- Williamsville school—72 scholars, emptied in 2 minutes.
- Victoria school—400 scholars, emptied in 1 minute 15 seconds.
- Collegiate Institute—408 scholars, emptied in 1 minute 30 seconds.
- Sydenham school—150 scholars, emptied in 1 minute 45 seconds.
- Central school—400 scholars, emptied in 1 minute 19 seconds.
- Catarqui school—150 scholars, emptied in 55 seconds.
- St. John's school—50 scholars, emptied in 55 seconds.
- St. Mary's school—210 scholars, emptied in 56 seconds.
- Wellington street school was visited just at recess time, and a slight misunderstanding resulted in the signal. This school can be cleared in less than a minute in case of fire.

At Williamsville school the fire escape was used by the upper class room scholars, and, under the circumstances the time was very good. No school had any warning, Chief Armstrong simply asking for the principal in each case, and requesting that the fire signal be given at once. All readily complied, so that the above figures can be taken as the longest time needed to empty the schools, as it was about the first time the drill had been given this year, owing to the cold weather.

The chief desires to express his entire satisfaction with the results of the tests, although he will have some recommendations to make in his report to the Fire committee.

"Hadam's Taleum," Gibson's. Mrs. Edward Brues, ar., has received the sad news of the death of her eldest daughter, Maria, wife of Thomas Hughes, who died at the general hospital, Toronto, on Monday, Feb. 23rd. She leaves, besides her husband, nine children, a mother, six brothers and four sisters to mourn their loss.

Few pairs high top boots \$2.00. Dutton's removal sale. A sad death occurred on Feb. 3rd, in Cleveland, Ohio, when H. F. F. Croft, nee Evelyn Deveny, formerly of Read, passed away. She was in her thirtieth year.

Macaulay and Holdcroft Wrote From Omaha, Nebraska. Word has been received from G. M. Macaulay and C. R. Holdcroft, the two Queen's students who mysteriously disappeared from the university, on Wednesday, February 18th. When the card was written to one of their friends, who is a student at Queen's the young men were at Omaha, Nebraska.

A MUSAICAL GIVEN In Aid of the Mowat Memorial Hospital. The musicale given by the Women's Association of Sydenham street Methodist church, at the home of Mrs. A. F. Chown, University avenue, on Thursday evening, was a grand success. The proceeds, which amounted to about forty dollars, will be given to the board of the Sir Oliver Mowat Memorial hospital. The following contributed to the programme:

## STUDENTS HEARD FROM

Macauley and Holdcroft Wrote From Omaha, Nebraska.

Word has been received from G. M. Macaulay and C. R. Holdcroft, the two Queen's students who mysteriously disappeared from the university, on Wednesday, February 18th. When the card was written to one of their friends, who is a student at Queen's the young men were at Omaha, Nebraska.

There appears to be no reason for their hasty departure unless they feared they would not be successful in their examinations.

Macauley, who comes from Carry Place, Ont., was a student at Varsity, but came to Queen's last fall for the purpose of taking a science course. Since entering the university Macauley developed to be an excellent boxer and would have likely represented Queen's at the intercollegiate assault at arms which takes place at McGill, on Friday and Saturday.

Holdcroft was a second year medical student, having come from Havelock where his father is a prominent doctor.

When the two young men left the city it was thought that they had started for South America.

WHAT THE LAW SAYS  
Penalty Provided For Certain Offences is 14 Years. The discussion of the Evanturel letter amongst the government supporters resulted in a search of the criminal code and the finding of the following section, No. 156:

"Every person is guilty of an indictable offence and liable to fourteen years imprisonment, who, holding any judicial office or being a member of parliament or of a legislature corruptly accepts or obtains, or agrees to accept or attempts to obtain, for himself or any other person any money or valuable consideration, office, place, or employment on account of anything already done or omitted or to be afterwards done or omitted by him in his judicial capacity or in his capacity as such member."
