HOCKEY AND CURLING COMMITTEE ON RULES

CATARAQUI PLAYERS QUIT IN HOCKEY GAME

Against Wolfe Island, Owing to Referee Allowing Rough Work. Napanee and Brockville Curlers to Play Tankard Final Here.

The hockey game between Wolfe Island and Cataraqui seniors for the Edward's challenge trophy, which was slated to be played at Wolfe Island, on Saturday afternoon was not finished on account of Cataraqui players quitting. The latter stated that the referee was allowing the Wolfe Islanders to rough up things too much.

Napanee vs Brockville
Napanee and Brockville curlers will meet in the finals of the tankard series at the local curling rink on Tuesday night.

Glenburnie Defeated Cataraqui
The Glenburnie junior hockey team defeated Cataraqui seniors in a practice game at the Palace rink last week.

Played at Sydenham
On Thursday last Glenburnie senior and junior hockey teams played exhibition games at Sydenham. The seniors lost while the juniors pulled out victorious.

McGill Won Assault-at-Arms
McGill university, of Montreal, won the intercollegiate assault-at-arms in Montreal on Friday and Saturday. The winners carried off seven events while Varsity and Queen's broke even with three each. J. Carmichael won the fencing. In the preliminaries he won from Campbell of Varsity. His brother, A. D. Carmichael, won from Anderson, of Varsity. The two brothers were matched in the finals so A. D. Carmichael defaulted to his brother. Cole won from Robinson, of Varsity, in the 135 lbs. boxing, and Matheson won from McDonald, of McGill, in the 145 lbs. wrestling.

"THE PRAYETH BEST Who Loveth Best"—Hint to a Kingston Church

Brockville Times.
According to the Kingston Whig some of the members and officers of a Methodist church there are much exercised over the fact that an actor (Laurence Irving) recently gave an address to a Woman's club in the basement of the building. If the church never has a more serious than that committed within its doors it will do well. The good Kingstons are probably not aware of the existence of a strong and vigorous organization known as the Actors' Church union which includes in its ranks many leading actors and actresses of Britain and the United States and many eminent clergymen. It is quite likely that Mr. Irving himself, belongs to it, but in any case, as Mr. Irving told his Kingston church audience, the church and the stage have for ages been closely linked together and should always work together. There is no more effective way of teaching a great religious truth than by means of the drama. The greatest preachers have always been more or less dramatic in their methods and if the clergy always put as much life and meaning into their words as do the actors on the stage there would be less nodding of heads and inattention in our churches. Denunciations of the stage as an unclean thing are out of date. The stage is certainly no worse than the people who support it and who but the church is responsible for the spiritual state of the people? The Kingston people should take to heart Mr. Irving's quotation from "The Ancient Mariner":
"He prayeth best who loveth best. All things, both great and small."

Cost of Living
London Advertiser.
The rich man seems likely to have a great advantage over his ordinary fellow-citizens in the matter of life preservation. We are told that British physicians are ready to inoculate people against a number of diseases at the rate of \$1,500 a year. Radium seems to be the one sure cure for some kinds of cancer, and its price is simply prohibitive. The cost of living reaches high water mark when the case is cancer.

OF INTERCOLLEGIATE RUGBY TO MEET HERE

On Saturday Next. This Committee Will be a permanent One.—Some Amendments to be Considered.

Announcement has been made of the appointment of a permanent intercollegiate rules committee, composed of two men each from the members of the intercollegiate rugby union, to draw up, annually, rules for the following season. The committee it has been decided shall be composed of neither undergraduates nor paid coaches.

The first meeting of this body was to have been held on Saturday, but was postponed for one week. The members will discuss several important changes in the rules, and it is said that whatever they decide will be adopted by the executive of the interprovincial union.

The McGill "Daily" says that as it has been outlined previously the changes of primary importance are relative to the "fair catch" and penalty rules. There is a proposal that the place kick-off after the drop kick be from the forty-yard line, instead of from centre field, as at present.

A reduction of the players of each side to twelve is suggested with the doing away with the two side scrimmagers, thus reducing the number to twelve. The "fair catch" rule is likely to be adopted instead of the ruling as it stands at present.

Whether it would be wise to appoint a head linesman with the same standing as the umpire and the referee, will also be considered. The penalty rule will be another for consideration. The McGill representatives will suggest that instead of losing the ball for interference, as at present, that the offending team be fined ten yards. A set of rules would apply to the penalties when the ball was within ten yards of the line. In this case no penalty would bring the ball more than half the distance to the touch line. The down would be continued.

Making the Yankees Sit Up Collier's Weekly

The whole free-rolls proposition is as impolitic as it is scaly. We have more to ask of Great Britain in the way of unrestricted navigation of our intercommunicating waterways than she has to ask of us at Panama. Canada is about to build the Georgian Bay Ship Canal from the French river to the Ottawa, twenty-five feet deep and capacious enough to carry the greatest lake freighters or standard ocean-going tramps. This system will flank our whole lake and interior basin commerce. The Erie barge canal is a tadpole ditch compared with it. Ships sailing from Chicago, Milwaukee, Duluth, or West Superior will be able to reach the ocean via Montreal by this route, and that too without breaking bulk on the mileage it would take to reach Erie, Pa., by the present route. Canada will then command a commerce far more important to us than the Panama canal. She will have the whip hand of us to an extent quite as great as that which we can get on Great Britain by wrenching a treaty from its plain meaning. And she will be able to say: "You made a treaty agreeing to let the ships of all nations through the Panama Canal on equal terms. You broke that treaty by letting your own coastwise ships through free and refusing the same treatment to our coastwise ships. Now we'll use our advantage in the Great Lakes outlet!" Our treaty as to the Great Lakes passages is that they shall be open to the shipping of both nations on equal terms. But what will that mean once we begin plowing fast and loose with the words "on equal terms"?

Barrie-Field Briefs.

Barrie-Field, Feb. 27.—St. Mark's choir had a driving party last week to the home of Mrs. Sibbit and all spent a pleasant time. Mr. and Mrs. A. Rickoy entertained a number of friends and all had a jolly evening. Mrs. Milton, who has been ill, is much better. St. Mark's church has services during Lent twice a week. Mrs. C. McCormick and Mrs. Babon, city, visited at Mrs. H. Dowler's. J. Dunlop, B. Rothwell, Miss MacArthur and Miss F. Douglas, city, spent Sunday at Mrs. Staddon's. Mrs. D. Milton, city, visited her sister and Mrs. Hutcheon. Mrs. Bowman who met with an accident and had to be removed to the Hotel Diez, is improving nicely.

Gifts of Jewelry

Betty Vincent.
No girl should accept gifts of jewelry from a man unless she is engaged to be married to him. Such gifts may be offered in perfect innocence by an unsophisticated admirer, and even if the girl has more worldly knowledge than he, she may be afraid of hurting his feelings by returning his presents, nevertheless, she owes it to herself to do this. For the world passes censorious judgment upon the young woman who defies the very strict convention about not accepting valuable presents from any man except a fiancé.
If a girl makes it clear to the man bringing such offerings that jewelry is her rule with every one, he will not be angry or offended.

Still In the Ice Age

Toronto Telegram.
Canada is as W. S. Rainsford says, over twenty years behind the United States in the virtue of fighting corruption and exposing corruption.
Canada is still in the ice age in her country's dealings with charters in the railway committee at Ottawa.
Members and guests could not depend on waiters at a country club to move as promptly as sundry so-called representatives of the people move at the behest of railway lawyers and railway lobbyists at Ottawa.
Public health moving pictures exhibit, Ontario hall, Monday, 3 p.m. and 8 p.m. Admission free.
