

R. M. C. CADETS WON

FIRST GAME IN THE ROUND WITH VARSITY II.

By 6 Goals to 2—Play Was Listless Except for a Short Time in the Second Half

Royal Military College cadet team met Varsity II in the first of the intercollegiate intermediate hockey finals at the Toronto arena on Saturday afternoon and won by 6 goals to 2, giving them a lead of four goals. Varsity used practically its senior O.H.A. team. Barwis and Matthews played the best hockey for R.M.C., while Wilson and McDowell were the pick of Varsity.

Play started in a very listless manner. The hockey was very ragged and both teams lost several chances to score by poor shooting. Twice Varsity forwards missed the open net, but finally, after eight minutes' play, Cotton and Wilson combined for the first score. Wilson doing the shooting. Varsity, 1; R.M.C., 0.

One minute later R.M.C. evened the score when Barwis broke up a determined Varsity rush and carrying the puck up the ice drove one past Armstrong. Varsity, 1; R.M.C., 1.

R.M.C. rammed three shots at Armstrong from a scrimmage, but all failed to find the net. Gouinlock and Stewart had a merry battle on the wing, which was featured by considerable slashing. Whenever Varsity did happen to start a promising rush Barwis always loomed up in the way.

R.M.C. took the lead when Cochrane broke away from the bunch around his own goal, and carrying well in on the defence, beat Armstrong with a long shot. Time, 15 minutes. R.M.C., 2; Varsity, 1.

Cotton came back on the ice in place of Harvey.

Half time ended without any further scoring, although both teams had many chances. Half time score: R.M.C., 2; Varsity, 1.

The Second Half

The play at the start of the second half was just as ragged as in the first session, and there was considerable scrimmaging around centre ice with a couple of fair individual rushes thrown in. At five minutes after the play started McDowell and Wilson combined for a goal. R.M.C., 3; Varsity, 2.

After much end to end play, during which both teams did considerable slashing, R.M.C. scored from a scrimmage after Cochrane and Matthews had rushed well. Time, 8 minutes. R.M.C., 3; Varsity, 2.

R.M.C. made their score read four after three minutes of play, on a rush by Barwis, Stewart batting in a rebound from the former's shot. R.M.C., 4; Varsity, 2.

Play livened up like a real hockey match, and both teams showed nice two-man combination. Varsity tried hard to score, but while they had just as much of the play, their shooting was very poor and many opportunities were lost on this account.

Towards the last of the game

R.M.C. had the better of the play, and forced Varsity occasionally to finally with four minutes to play, Macaulay scored on an individual rush. Time, 10 minutes. R.M.C., 5; Varsity, 2.

Stewart came right back in thirty seconds and scored again for the cadets on a rush with Cochrane. R.M.C., 6; Varsity, 2.

COUNT DE LESSEPS IN HIS MOTOR-SLEIGH

Lieutenant Shackleton is to test the practical possibilities of motor traction in his forthcoming expedition to the Antarctic. Above is a view of an aero-propelled motor sleigh, which shows what can be done on snow by existing machines. This form of aero-skiing has already reached a remarkable degree of perfection, and has several devotees notably Count Bertrand de Lesseps, son of the famous Frenchman of Suez Canal fame and brother of Count de Lesseps. Count de Lesseps has constructed an air-propelled machine which is capable of attaining a speed of from fifteen to sixty miles an hour over the snow, according to the condition of the frozen roads.

PENITENTIARY REFORMS

INSPECTORS ADVOCATE GREATER USE OF LABOR

Prisoners Can Make Many Things—Penal Institutions Should be Administered Through Officers

Ottawa, March 2.—Reforms for the betterment of conditions in the Canadian penitentiaries are embodied in the annual report of inspectors Douglas Stewart and W. S. Hughes, tabled by Hon. C. J. Doherty. There are two which the inspectors say "seem to us to be vital, and which involve a reversal of the policies by which the penitentiaries have been governed during the past decade." They are, in brief:

1. That the penitentiaries shall be administered by the minister through his responsible officers and free from local or other external interference.

2. That the government shall utilize the obligatory labor of its wards in supplying so far as possible its own needs and requirements.

The report points out that most of the convicts are practically without work that is either instructive or remunerative. The penitentiaries could make brooms, brushes and door-mats for public buildings, letter carriers' uniforms, rural mail boxes, uniforms for government employees, and overcoats for the militia, and, with a little extra cost for plant, could include desks, filing plants, etc., for government offices, and all militia uniforms.

An increase of 56 per cent. in the population of Canadian penitentiaries in the last ten years is noted. The number of convicts in custody at the end of the fiscal year was 1,970, of whom 984 were Canadians. The principal creeds were: Roman Catholics, 947; Anglicans, 345; Methodists, 215; Presbyterians, 213; Baptists, 88; Jews, 44.

"Wet" Majority in Welland

Welland, Ont., March 2.—Judge Livingston Saturday sustained the first count of Deputy Returning Officer Coulthurst at Bridgeburg poll, No. 2. It will be remembered that Coulthurst was arrested for making a false return of the votes. By this decision the wet majority is reduced 17 votes in this poll, but still leaves a majority of 14 votes against the act in the county.
