

**THROAT Troubles ARE Dangerous**

because the swollen glands and inflamed membranes often affect other tissues and impair their healthy action.

Scott's Emulsion stands alone as nature's corrector of throat troubles. It penetrates its food liver oil is speedily converted into germ-killing tissue—the glycerine is curative and healing, while the combined emulsion up-buils the forces to avert the weakening influences which always follow throat troubles.

SCOTT'S EMULSION is best for three important reasons—it relieves the trouble, it prevents a relapse, it is not changed with alcohol or other drugs.

**Want Pink Cheeks—Red Lips?**

Some unfortunate men and women are prone to wonder why some of their friends are blessed with an abundance of color—pink cheeks and red lips—while theirs are always colorless. The reason for this last named condition is—there is not enough red blood corpuscles in the blood—under the microscope the blood is thin and watery. The flesh is flabby, too. Well known physicians advise that the regular administration for several months of three-grain hypo-nucleate tablets will greatly improve the color, add to the weight, make the cheeks pink and the lips red and in general be very beneficial. For self-administration, obtain from any of the best apothecary shops.

**CONDITIONS UNCHANGED**

**IN GANANOQUE HARNESS MAKERS LOCKOUT**

Rev. Alfred Brown, of Kingston, to Preach Anniversary Sermons in Grace Church on the 15th.

Gananoque, March 4.—Conditions are practically unchanged in connection with the local harness makers lockout. Several years ago the harness makers established a branch of the Brotherhood of Leather Workers on horse goods. Quite a large number after the settlement of the strike at that time, allowed their membership to lapse. But recently they re-organized and made request to the head of the concern for a return of their charter which had been surrendered. This coming to the firm's knowledge presumably gave the impression that trouble was brewing and their lockout was evidently an effort to take the bull by the horns.

Rev. Alfred Brown, pastor of Spynham Street church, Kingston, has been secured by the official board of Grace church to conduct anniversary services on Sunday, March 15th.

Gordon White, Wellington street who some time ago was operated on for appendicitis, has had to have the wound re-opened.

Alfred Green had been laid up for some time from the effects of a kick from a horse which seriously injured his arm. He is able to be about but can not use his injured arm.

The heavy storm of snow followed by a thaw compelled the calling off of the hockey game arranged for last evening between the Ramblers of Lansdowne and the No. 8s., winners of the Church Hockey league.

**ORDER TO HONOR WOMEN**

**English Feminists Urge Its Establishment for Fair Sex.**

London, March 4.—The House of Lords is debating the question as to whether titles should be awarded in return for contributions to party funds or for merit alone. Simultaneously, a feminist sympathizer suggests in the press that an honor list be created for women and that an "Order of Queen Mary," to which only members of the fair sex would be eligible, would be a fitting complement to the various orders and decorations bestowed on men.

The Marchioness Townsend, who, by the way, is a postess, thinks that an "Order of Queen Mary" would be deeply appreciated by every woman who has added by her genius, energy and self-sacrifice to the sum total of the nation's happiness.

The Marchioness agrees with John Galsworthy, who is running till against the sterile labors of parliament, that "women render every year services to the state before which the labors of the commons pale into insignificance."

Vicountess Haverden objects to the proposal, on the ground that "titles would be conferred by man and would invariably be given only to young and pretty women."

Lady Gainsborough thinks that "so long as law and customs oblige a woman to take the name of the man she marries, any previously conferred title might cause complications, and the man could not be expected to look with favor on a title conferred after marriage, independently of him."

**RUPTURE EXPERT HERE**

This instrument received the only award in England and in Spain, producing results without surgery, harmful injections, medical treatments or prescriptions. Mr. Secley has documents from the United States government, Washington, D.C., for inspection. All charity cases without charge, or if any interested call he will be glad to show the same without charge or fit them if desired. Any one ruptured should remember the date and take advantage of this opportunity."

**KING CAUSE OF STRIKE**

**Farm Laborers on Sandringham Estate up in Arms**

Norfolk, Eng., March 4.—The recent act of King George in raising the wages of the laborers on the royal farms in Norfolk and granting them a Saturday half-holiday, has caused a strike of farm laborers on the royal estate at Sandringham because the tenant farmers declined to follow his example, although they had been advised to do so by the royal landlord. The laborers on the king's own farms are greatly in sympathy with the strikers.

**WORK OF THE Y.W.C.A.**

**What is Being Done for the Girls of Kingston**

The monthly meeting of the board of directors of the Young Women's Christian Association was held Monday afternoon at four o'clock, with the president, Mrs. John Wright, in the chair. The reports from the clubs and classes showed good work, although the gymnasium has proved a lesser attraction because of the good skating. New classes for afternoon and evening in First Aid have been formed and classes in basketry and making of summer dresses will be formed as soon as the teachers are secured. Millinery class is doing good work under direction of Mrs. Adams, some members are making their second hat in the sixth or seventh lesson. The girl guides, under the able leadership of Misses May Macdonnell and May Chown, have completed a course of six lectures in First Aid, under Dr. Kennedy, secretary of St. John's Ambulance association, six or eight are prepared to try the examination. The Girl Guides enjoyed a sleighride and spread at the association building on Saturday evening. A short course in basketry will follow the First Aid classes.

The junior club of little girls has made comfort packages and distributed these with a large scrap-book to the sick in the hospitals and the children in the day nursery. L.U.B.A. club is busy making infant garments for the Victorian Order of Nurses. Members entertained the Millionaires club of the Y.M.C.A. at a sleighride and social very early in the month. The Girls' Fellowship club have spent several evenings in reading plays, one of which is to be chosen and presented early in April under the direction of Miss Henstridge and Miss Hattie Chown. This club has also enjoyed a sleighride, and under its auspices Miss Boskill, superintendent of nurses of the general hospital, gave a practical and helpful talk on personal hygiene to club members and their friends. Mrs. J. W. McIntosh will give the next lecture next Tuesday at 8 p.m. on "The Ideal Woman of the 20th Century."

Thanks are due to Dr. Kennedy, of Queen's, Miss Bailey and Miss Milton of the nurses alumnae, who have so lavishly given of their services in the clubs and at the noon meetings at the mills, where demonstration lessons have been given in First Aid, including the making of plasters, bandages, etc. Mrs. E. C. D. McCallum, who also gave the first talk in domestic science at the textile mill; Mrs. Mabey, who has given the first lessons in basketry. Through the courtesy of the W. J. Crothers' biscuit factory, a room has been secured and set apart for rest room, noon programmes will be started immediately. The mothers' club included an afternoon of music, Bible lesson by Mrs. Gardiner and a talk by Mrs. Dr. Scott on Ceylon.

The social committee reported the success of gentlemen's night when the members entertained the young men of Bethel Congregational church. Two delightful talks were given at vespers services by Mrs. Hackett, of Ottawa, and Mrs. Scott. New blackboards have been added to the equipment of both mills. The board received gifts of school books from J. G. Ettinger, text calendars from Mrs. E. J. MacLennan, and bibles from Mrs. Muirhead. The association enjoyed a visit from Miss Kate E. Lane, national secretary for Dominion Council, this month, who visited every department of work, and reported it in good condition.

Both Wounded When Embraced

**ANAEMIC SINCE CHILDHOOD**

How Miss Holmes Regained Her Health.

If you are anemic, you need more iron in your blood, and the tell-tale symptoms are a pale face—colorless lips, ashen finger nails, poor circulation, and short breath, and more serious diseases are easily contracted when in this condition.

What Vinol did for Miss Yvonne Holmes, of Fall River, Mass., it will do for every anemic run-down person. She says: "I have been weak and anemic since childhood, always had 'that tired feeling.' Tonic after tonic was tried with little or no result until Vinol was recommended, and after taking three bottles, my appetite and digestion have been improved. I do not suffer any more from insomnia, nor do I have distressing headaches as formerly, and I am stronger than I have been for years."

We ask every anemic or run-down, weak person in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim.

**RAPS SIR MAX AIKEN**

**Manchester Guardian Discusses Canadian in English Politics.**

London, March 4.—The Manchester Guardian prints a story of Unionist dissensions, alleged to be due largely to Sir Max Aiken's efforts on behalf of Canadian friends. The Guardian says:

"The dissensions seem to turn largely on personal matters, but broader considerations give them a political interest. Incidentally, the affair seems to illustrate a change in the English taste of Trans-Atlantic millionaires. Once upon a time they were satisfied with their London houses and shooting lodges in Scotland; now it appears to be the fashion to demand a seat in the house of commons also, and candidates who denounce Welsh disestablishment, with a cute Canadian accent, and who translate the inequities of the chancellor into dollars and cents instead of pounds sterling, seem to supply little inspiration to modern English Toryism."

The Guardian, recalling Sir Max Aiken's appearance in English politics, says:

"He is only thirty-four, but a strenuous business career gave him ample means to enter English public life at an earlier age than most. The British tariff reform leaders smoothed his path with the result that his strangeness to Ashton and his ignorance of English domestic politics did not prevent him from winning a shaky seat in 1910. Since then he has done all that a warm-hearted member with means to gratify his desires could be expected to do, and his contributions to local charities perhaps enhanced his popularity."

"Sir Max has unquestioned influence at party headquarters. After only a few months of English public life he received a quick return for his services in the shape of a knighthood."

The Guardian then tells the story of Sir Max Aiken's efforts to have his Canadian friends adopted as Unionist candidates in adjacent constituencies.

In regard to Colne Valley, "here possessed the much-prized qualification of being a friend of Sir Max Aiken, together with the comfortable reputation of being a millionaire."

According to the guardian the introduction of Canadian millionaires has resulted, inter alia, in largely increasing the monetary demands made upon Unionist candidates in Lancashire. The revelations are arousing general interest and amusement.

**BONAR LAW BARRED**

**Dublin Will Name a Street After Sir Edward Carson, However**

Dublin, March 4.—The corporation of the city of Dublin sanctioned the naming of streets, "Carson," "O'Brien," and "Redmond," after the Ulster unionist leader and two Irish nationalist leaders respectively, but refused to allow a street to be called "Bonar Law," because he is a Scotch-Canadian. The name of "Carson" is allowed because Sir Edward is an Irishman.
