HOW A BROOKLYN GIRL

Got Strong and Well Again

Grace D. Lamb, of Brooklyn, N.Y., says, "I was all run-down and on the verge of nervous prostration. I could not learn to learn in my back. In all I was a wreck. A friend told me what Vinol had done for her little girl so I tried it. I noticed an improvement after the first bottle. I could sleep well, my appetite improved, and after taking three bottles I am strong and well again."

Vinol is the most efficient strength-giver for men and women. It is the medicinal elements of the cod livers contained in Vinol aided by the blood-making and strengthening properties of tonic iron which makes it so far superior to all other tonics to build up health and strength for weak, tired, ailing women. It contains no oil and has a delicious taste.

We give back your money if Vinol does not do all we claim.

GIVE VETERANS MORE TIME

48 Have Not Yet Applied For Nation's Bounty.

Ottawa, March 9.—There are still 48 South African volunteers who have not yet taken up the land grant or the \$500 cash equivalent offered in 1908 by a grateful country. The minister of the interior presented another resolution that the time for receiving the dues of patriotism be extended until December 31, 1914.

Mr. Carvell thought there should not be all these extensions. Not four of the warrants, he claimed, were now in the hands of those who earned them. The rest are held by speculators.

The time for taking the land option expired last October. The veteran or his representative must this year take the \$500 or nothing.

The Restraining Order of Justice Middleton

Ottawa, March 9.—At a meeting Saturday afternoon the city council decided to obey the ruling of Justice Middleton, who granted a restraining order this morning ordering the council not to take a vote of the ratepayers on Monday on a five question and negative plebiscite for a water supply for the city.

It was decided to make application to the legislature next week, however, for enabling legislation legalising the form of the present ballot, and asking permission to take the vote on Monday, March 16. THE RULES COMMITTEE

OF INTERCOLLEGIATE RUGBY FOOTBALL UNION

Met in Kingston on Saturday Evening—McGill Representatives Not Present—Meeting Adjourned Till April 11th

McGill University was not represented here Saturday night, at the first meeting called of the recently formed rules committee of the Intercollegiate Rugby Football Union, and as a result, the committee did not take up the question of rules, the meeting being purely one for organization purposes.

Varsity, Royal Military College and Queen's University were represented at the meeting, and it was a mystery to the delegates present regarding McGill not being represented, as due notices were sent out, and in addition to the regular notices, several items appeared in the Montreal newspapers regarding the date of the meeting and matters which would be taken up and discussed.

However, through some hitch McGill representatives did not put in an appearance. While the meeting was in progress, one of the representatives of that college called up by telephone and stated that there had been a misunderstanding. The delegates did not care to go into the question of rules with one college not represented, so after organization, which included the adoption of a constitution and rules of order, an adjournment was made until April 11th, and at this meeting the rules will be under discussion.

The representatives present were as follows: Dr. Hendry and H. C. Griffith, for Varsity; Cadet Macaulay

Jury Trial

Overwhelming Verdict

A few months ago, a man in no way connected with the making of Postum or the marketing of tea and coffee, wrote to quite a number of physicians asking their unbiased testimony in the case of Postum vs. Tea and Coffee.

The following excerpts from their letters constitute an overwhelming verdict

In Favor of Postum

"I have discarded coffee altogether in my family, and instead use Postum, which we find makes a rich, delicious drink, without any of the deleterious effects attendant on the continuous use of coffee."

"Our family have been users of Postum for a long time. We were very liberal coffee drinkers, but were conscious that coffee was harming us—our nervous system, digestion and heart action—so we quit the coffee and began using Postum. No more relish it far more than we did coffee, and are all relieved of the old coffee troubles. As a physician I have induced several families to quit coffee and use Postum."

"Postum—when it is desirable to leave off coffee on account of over-stimulation of gastric disturbances."

"Postum has been used in my family nearly every since it was placed on the market, and I recommend it to my patients. It is a nourishing drink. A great many families are giving their children Postum in place of coffee with best results."

"I have used Postum in my family for years with the most satisfactory result—so much so that we have practically abolished coffee, and with it the coffee headaches, nervousness, and lying awake the best part of the night."

"I drink Postum every morning, and recommend it to my friends who have nerves and indigestion."

"No more coffee for me. I am using Instant Postum and advise my patients to do likewise. I prefer it to the best coffee, and have no more sour stomach attacks as I used to."

"For years I have been using Postum in the family and advocating it for my patients. I consider it to be exactly what its manufacturers claim for it. Postum is excellent in place of coffee where the latter is contraindicated. The food value of Postum plays an important part when compared with coffee."

"Have had many cases that could not drink coffee on account of its reflex action on the heart. Postum always supplies the place of coffee without the bad effects."

According to a recent article—"The Chemistry of a Cup of Coffee" in the London (Eng. Lancet, Tea and Coffee from a dietetic standpoint, are much alike, and are similarly injurious, because both contain the alkaloid caffeine.

In the light of such testimony it would seem the part of wisdom to stop tea and coffee and use Postum.

Postum is a genuine food-drink, made of whole wheat and a small percent of molasses. Contains the nutritious values of the grain, but is pure and absolutely free from the drug, caffeine, or any other harmful substance.

Postum comes in two forms: Regular Postum—must be well boiled to bring out its fine flavor. 15c and 25c packages. Instant Postum—soluble form. A teaspoonful stirred in a cup of hot water—with sugar and cream added—makes a delightful beverage instantly. 30c and 50c tins. The cost per cup of both kinds is about the same.
